This is a catalog reprint. Prices may have changed. Please check our website to verify current pricing.
Corvette Central has been a leading manufacturer and distributor of Corvette parts and accessories since 1975. In 2001, we moved into our current facility which included the implementation of an automated order picking system. This allows us to better control inventory and to pull orders efficiently. In 2004, we added on a new manufacturing facility where we produce 4,000 of the over 60,000 parts we sell.

Corvette Central is proud to offer the most comprehensive and detailed parts catalogs on the market today and produces a different catalog for each Corvette generation. All catalogs are also online with full search and order features. From the first V8 to C8, only Corvette Central has it all.

Who we are...

Family owned and operated for over 45 years

Our primary product is your satisfaction

Customer satisfaction has always been one of our main objectives. We aren't talking about a no hassle return policy here – everyone offers that. We are talking about remedies for products that don't seem to fit or work right.

At our end, we have over 45 years experience in the manufacturing and sales of Corvette parts. This unparalleled background assures Corvette Central customers that the products they purchase are the best available, and if a problem should arise, we know how to help.

Product assistance hours: Monday thru Friday, 9:00 to 5:00.

When looking for product assistance, there are a couple of things to keep in mind. First of all, it is very difficult to help customers with in-depth technical problems if they aren't well informed. Please review your service and assembly manuals before you call — this will make solving the problem much easier.

Last but not least, whether you are doing the work or having it done . . . be sure to call us at the first sign of trouble. It's very hard to resolve a problem after the part in question has been damaged, no matter who's at fault. Let's be fair, everyone makes mistakes. The important thing is working together to resolve them.

Owning your Corvette can be a very rewarding experience. We also understand how frustrating it can be when things aren't going smoothly and there's no one to assist you. We are here to help.

Limited Warranty

This company will not be responsible for any damage or loss caused by delays, failure, or any consequential damage arising from any cause whatsoever, nor for labor, transportation, or any other charges incurred in the replacement or repair of a defective item. This warranty to replace is the only warranty expressed, implied or statutory on which the buyer purchases the company's products.

There are no expressed warranties or implied warranties including, but not limited to merchantability and fitness for a particular purpose. Warranty will not be in force for any merchandise that has not been paid for in full or that has been altered in any manner.

All manufacturer’s names, symbols and descriptions used in this catalog are used for the purposes of identification only. It is neither inferred nor implied that any item offered by CC Industries L.L.C. is a product of, authorized by, or in any way connected with the vehicle manufacturer. The trademarks Corvette, Stingray, Chevrolet, GM, Heartbeat, ZR-1, Z06, AC Delco, and the Corvette Emblems are trademarks of General Motors Corporation. Order seven days a week, 24 hours a day.

We accept all major credit cards and Paypal.

Corvette Central meets the thresholds for many states that have passed sales tax laws/regulations and is now required by state law to collect and remit sales tax on purchases made by individuals in those states.

Dealer Wholesale Program
Corvette Central offers a wholesale discount program that is based on the amount your company purchases annually.
To Qualify:
• You must be an auto related business
• Your business needs to have a current sales tax license from the state in which you do business.
Please go to our website for more information and the application forms.

Start To Finish Discount Program
Private individuals planning a complete restoration project should go to our website for information on this program designed with them in mind.

We are the Caretakers of the Legend, and the Legend is Quality.
We know that your Corvette is important to you and you will only put parts on it that look good and work right. That is why our quality standards are so high. If we wouldn’t put it on our Corvette, we won’t list it. Some of our vendors are just a guy in his garage that figured out how to make a particular part that you need. Sometimes he might have a problem getting it made quickly. We do our best to keep in contact with our suppliers every day to keep the parts coming and keep good communication with you, our Valued Customer. We’ve been doing it for over 40 years and we will keep doing it to keep the Legend going strong.

CARETAKERS OF THE LEGEND
EST. 1975
NOTE ON SHIPPING CHARGES

Changes recently made by UPS have impacted shipping costs. UPS no longer uses ACTUAL WEIGHT of packages to calculate shipping. They now use “DIMENSIONAL WEIGHT” of packages. We measured every product we sell and entered that information into our system. This enables our system to calculate the size box/boxes your order will ship in and calculate the shipping costs when the order is placed.

Retail customers pay shipping for entire order when the order is placed. We automatically ship back orders or, if you wish to cancel your back order, please call or email for a cancellation number.

The shipping costs will be calculated after each order is complete. If we have overcharged you, the calculated shipping charges after each order is complete. If we have overcharged you, we will automatically send you a Merchandise Credit for that amount you overpaid. Currently this is the best way to be fair to our customers.

BACK ORDERS

Due to the wide variety of specialty products we distribute, back orders are unavoidable in some cases. Normally back orders are shipped in 7 to 10 business days. We automatically ship back orders or, if you wish to cancel your back order, please call or email for a cancellation number.

RUSH SERVICE

If you need your order processed and shipped the same day, we offer “RUSH” service. For an additional $5.95, any order received before 1:00 PM ET will be processed and shipped that same day. Orders received after 1:00 will ship the following business day using the “RUSH” service.

INSPECT ALL PACKAGES IMMEDIATELY!!!

All damages, shortages, or errors must be reported within 7 days of receipt of package. Please have invoice ready when you call.

DAMAGED ITEM — SHIPPING RELATED

• If there appears to be any external damage, i.e. crushed or dented side or corner, any tears or holes in package, immediately inspect contents of package for parts damage. If damage is found, DO NOT CONTACT THE CARRIER. IMMEDIATELY CALL CORVETTE CENTRAL AT (800) 345-4122 to report any damages.
• Do not destroy the package or box that the item shipped in. Please save it for inspection by the carrier.
• Have the package and invoice with you when you call.
• If a claim is filed, arrangements will be made for pickup of package with entire contents.

DAMAGED ITEM — NON-SHIPPING RELATED

• Call us at 800-345-4122 immediately with description of damage and we will process a replacement and make arrangements for pickup of damaged item.

SHORTAGES AND MISTAKES

• Call us at 800-345-4122 immediately and we will process an exchange or replacement as required.

RETIRES

• There is no need to call for authorization. Fill out the return slip enclosed with your shipment, and send the package back to us. It is recommended that you insure the package and retain your receipt of shipment. Items must be returned in the original packaging for credit.
• All returns must be made within 60 days of invoice date. After 61 days a restock fee will be charged.
• No returns on electrical products or tools.
• Items that have been installed, altered, damaged or are otherwise not in a condition to be resold will be returned to the customer at their expense.

REFUSED SHIPMENTS

• Shipping and handling charges on refused shipments are the responsibility of the customer.

CURRENT PRICES

• See our WEBSITE for Current Prices.

OVERSIZED SHIPPING CHARGES

• Some products have additional shipping charges due to heavy weight or oversize dimensions.

See our WEBSITE for a full list of Policies.
Pertaining to orders shipped within the continental USA: Ground service freight charges for your entire order will be charged at the time of the first shipment. Any backorders shipped after the initial shipment will not incur any additional shipping charges. For phone, ONLINE and FAX orders, the shipping fee is based on the calculated weight of the parts ordered and the destination zip code according to current UPS and USPS shipping rates.

We welcome you to Southwest Michigan’s Harbor Country

Sawyer is located in Michigan’s Harbor Country, a very popular summer resort area. The dunes, beaches, vineyards and the harbor attract thousands of visitors each year.

STOP IN AND SEE US! Exit number 12 off I-94 Then west .4 miles on Sawyer Road to Three Oaks Road. Turn left and continue south on Three Oaks Road .8 miles to 13550.

100000.................................(Specify dollar amount)
If you're having your car judged, this is the most helpful reference book available. Each manual is the result of hundreds of hours of research by the most knowledgeable hobbyists in the country. This is a collection of everything currently known about each model. Details part-by-part how Corvettes appeared at major mechanical and electrical component part numbers, casting numbers, engine transmission and axle identification codes, original prices, options and production quantities, power terms, color combinations, body codes, and much more! “Pocket size” softbound with 168 pages.

**53-67 Corvette Pocket Spec Guide**

- **101378  53-67** .................................................. 19.95

**Chassis Service Operations**

A reprint of an original GM service manual that covers chassis service procedures for 56-60 Corvette with high performance options. Detailed coverage includes engine tune-up, carburetor, heavy duty brakes and suspension, 4-speed-transmission, postraction axle and fuel injection. 106 pages with illustrations and photos on almost every page. A great book to compliment the factory shop manual.

- **111055** .................................................. 13.95

**Assembly Instruction Manuals**

Designed for conscientious owners and restorers, these manuals enable you to know what is stock, what is original, what is right! Reprinted through the courtesy of Chevrolet Motor Division, manuals are accurate reprints of the manuals used on the Corvette assembly lines! Actual “on-line” notations remain so that the information is factory original and correct. All parts, part numbers, and available options are included with original diagrams. Page numbers and indexes have been added to provide quick reference. All manuals are original size and loose-leaf, three-ring binder style — actually better than the originals.

- **111090  53-55** Manual & Binder .................. 59.95
- **111050  56-57** Manual & Binder .................. 59.95
- **111051  58** Manual & Binder .................. 59.95
- **111052  59** Manual & Binder .................. 59.95
- **111053  60** Manual & Binder .................. 59.95
- **111054  61** Manual & Binder .................. 59.95
- **111055  62** Manual & Binder .................. 59.95

**Shop Service Manual**

This is the book referred to as the ST-12. Covers routine maintenance, minor mechanical repairs and adjustments. Also includes electrical information.

- **111030  53-62 Book** .......................... 24.95
- **111072  53-62 CD** .......................... 29.95

**3 Ring Vinyl Covered Binder**

Durable, vinyl covered. Sold separately.

- **111028** .................. 6.95

**Books & Manuals**

58-60 Restoration Handbook
• All the Things That the Judges Are Looking For

This is a 500 page photographic essay of very detailed, color photos of the “small details that are often overlooked which make for a great restoration as opposed to just a good one.” It’s designed as a companion to other Corvette books—NOT a replacement. This book is written by long-time NCRS members, Bob Baird and Tom Howey who are NCRS Master Level® Judges. 508 pages, over 800 detailed full color photos - many of original parts. Spiral Bound.

111213  Book (ND)…. 79.95
111077  CD (ND)……. 39.95

1953-2021 Corvette Black Book

The gold standard in Corvette reference! New and greatly expanded with even more facts and figures up to 2019. Includes production figures by color, more option figures, expanded engine data, block and head numbers, and month of production. 175 pages with 71 photos.

4-3/8” x 10”. Softbound.

119300…………………………………….. 19.95

53-72 Chassis Restoration Guide
A complete guide to restoration for the rolling chassis

This guide covers frame, stenciling, serial numbers, shims, suspension, springs, drive shaft, rebound straps, and much more. Nearly 150 black and white photos. Even an index of bolt markings. Don’t restore your Corvette without this excellent guide.

Softbound, 95 pages.

111960  (ND) ………. 25.95

Perfect Bound Assembly Instruction Manuals

Designed for conscientious owners and restorers, these manuals enable you to know what is stock, what is original, what is right! Reprinted through the courtesy of Chevrolet Motor Division, manuals are accurate reprints of the manuals used on the Corvette assembly lines! Actual “on-line” notations remain so that the information is factory original and correct. All parts, part numbers, and available options are included with original diagrams. Page numbers and indexes have been added to provide quick reference. All manuals are original size and loose-leaf three-ring binder style.

Specify Year When Ordering
111087  53-62………. 24.95

Assembly Manual CD

We now have our printed assembly manuals on CD. These are the original manuals we already carry—scanned with Optical Character Recognition software and saved in PDF format. That means the PDFs on these discs can be searched by keywords using Acrobat’s built-in search function, making it faster and easier to find exactly what diagram you are looking for. When you’ve found it, print out just the page you need and nothing else.

111071  53-57………. 29.95
111115  58-62………. 29.95
### Sales Brochures
Quality reprints of the original dealer sales brochures. Early Corvettes in period settings. Wow, have styles changed!

- 111016 . . . 53
- 111017 . . . 54
- 111018 . . . 55
- 111019 . . . 56
- 111026 . . . 57
- 111027 . . . 58

### 53-55 Parts And Accessories Catalog
A faithful reproduction of the original 53-55 Parts Catalog. Includes black and white overall photos to help identify parts groups and line illustrations to help identify fiberglass parts. Line listings include parts for both 6 cylinder and V-8 models. Also included is a numerical index which shows part prices effective July 1, 1955 - very interesting! Softbound, 96 pages.

### 56-62 Flag Caddie
- Mounts in Hardtop
- Nuts in Decklid

- 101632 56-62 Flag Caddie, pr. ........................................ 39.95

### Corvette by the Numbers
This essential Corvette parts reference tells you how to identify all Corvette drivetrain parts for 55-82. Author Alan Colvin identifies and verifies by casting number, the correct engine and drivetrain components for your exact model of Corvette. GM materials consist of engineering blue prints, technical service bulletins and build sheets. Included is information such as Delco starters, radios, LOF glass codes and year-by-year model changes. Whether you are new to the Corvette hobby or a seasoned Corvette judge, this book is a valuable reference. Softbound, B&W 570 pages.

**Mosom Plus**

Mosom Plus™ is a four layer material. The outer two layers are Spunbond Polypropylene, the middle layer is a special micro-porous film and the inside layer is super-soft fabric. The middle layer is an excellent rain barrier, while allowing for vapors to pass through. The special cotton flocked inner layer pampers the most delicate paint finish. It is a great choice for all-around car cover use, suggested for most conditions except extreme sun, snow or ice. Mosom Plus™ is a non-woven material, so in the unlikely event a rip occurs in the material, it will not run.

111509  53-62

**Best for Indoor Use**

**Gray Flannel Lined**

- Softest Indoor Protection
- Brushed Lining Guards Your Corvette’s Precious Paint
- Treated to Resist Rot and Mildew Damage
- Custom Fit with Front and Rear Elastic Hems

Traditional Flannel Car Covers are a top choice for Corvette owners who store their car indoors. Heavy Gray Flannel keeps finish clean and protects from minor bumps and scrapes. Features no-scratch tie down grommets.

101118  53-62

**Triguard**

Coverking has comprised Triguard out of three layers and each layer is treated with UV retardant to ensure your Corvette is protected against the sun’s rays. The middle layer of polypropylene goes through a melt-blown procedure, which means that it is heated and rolled so that it is water-resistant. The middle layer is then inserted between two layers of Spunbound fabric, which means it is compressed in a way to allow breathability in return preventing mildew and rot build up. Triguard’s material is easy to clean, store, and even though it is light weight, it will not make your wallet light.

111536  53-62

**Stretch Satin™ Custom Car Cover**

Coverking’s Stretch Custom Car Covers are made for vehicles parked indoors (it will fade if exposed to extended sun, and is not water resistant), and for owners who want nothing but the best for their vehicle. Satin Stretch is the SOFTEST fabric available. The material has Lycra fibers for stretch in both directions, mirroring every perfect contour of your vehicle. And the inner liner is the softest fleece you will find—specially designed not to rub off on convertible tops. It is available in solid color designs, including Black, Steel Gray, Dark Blue, Yellow and Red. Blind stitching results in invisible seams—this is a SEXY car cover.

Specify color: –01 Black, –02 Gray, –03 Red, –04 Dark Blue, –05 Yellow

101981  53-62

All covers have a scratch-proof grommet built-in for the optional safety lock.

Priority Start

- Works with Both Top and Side Post Batteries
- Prevents a Dead Battery
- Monitors Voltage
- Senses Drain
- Automatically Disconnects
- Automatically Reconnects

Priority Start is a computerized electro-mechanical switch that consistently monitors the vehicle’s battery power voltage. If an accidental drain occurs such as lights left on, door ajar, radio or any other electrical accessories (even power draining shorts), it only allows the battery voltage to drain to a predetermined level (11.7 volts). Then it automatically disconnects the load, leaving starting power. It automatically reconnects when the ignition key is turned to the “on” position. No buttons or switches to operate. This kit works with both top and side post batteries. The kit includes a post adaptor that screws into a side post battery. Instructions are included.

"A battery tender is a battery charger that is designed to maintain the charge in your battery when the car is stored for an extended period of time. However, it will charge a “dead”, but still usable battery if it is used for an extended period of time (12-36 hours)."
The Glosser is the easy waterless way to give your Corvette a last minute quick detail. It contains cleaners and waxes in each 18” x 25” wipe, giving you a clean high gloss finish. Each re-sealable package contains 5 wipes. Keep a pack in your car for anytime, anywhere detailing.

101713.......................... 11.95

The Absorber® will dry your Corvette faster and easier than chamois or towels. Gentle on all automotive finishes, the Absorber absorbs 3 times faster and holds 50% more water by surface area than a hide chamois. Unharmed by grease or oil it can be machine washed and it resists tearing or shredding. Comes in a plastic storage tube for damp storage. Generous 27” x 17” size.

101664.......................................................... 12.95

Genuine Leather Chamois

• Dries streak free and spotless
• Clear coat safe
• 100% cod oil tanned

Wheel and Tire Cleaners – See Page 147

hours: 8:00-8:00 mon-thur / 8:00-5:30 fri / sat 10:00-2:00 • 13550 three oaks rd., sawyer, mi 49125
Adam's Brilliant Glaze takes personal reflection to a new level. This liquid glaze adds depth and clarity to chrome, glass, and paintwork. Brilliant Glaze is a top seller for its extreme ease of use and for its ultra-high gloss results. Product separates by design. Not for use on oxidized finishes.

Adam's Strip Wash

Adam's Strip Wash is a concentrated soap blend that removes any wax and sealant protection as you clean your ride, preparing it for paint correction session with a machine polisher or hand polish, or to start clean with a fresh layer of sealant or wax.

V.R.T. (Vinyl, Rubber, Tire)

Enhance and protect the appearance of plastic, rubber, tires, moldings, dashboards, and door panels. Adam’s V.R.T. contains no harmful silicone or alcohol. The thick moisturizing cream applies easily with a sponge and will not leave a greasy film, attract dirt, or harm paint and glass. Added U.V. protection keeps vehicle interiors and exteriors looking and feeling like new.

Invisible Under Carriage Spray

Adam's developed this special product to make your wheel wells and under carriage completely invisible. Spray after a wash and before detailing for best results. You’ll love the low-gloss, dark finish that this Invisible Under Carriage Spray leaves behind. Guaranteed to please.

Buttery Wax

Adam's Butter Wax is formulated with a special blend of polymers, resins, and natural Carnauba. Butter Wax contains no cleaners or abrasives, and will not stain plastic or rubber. Always treat an imperfect finish with Clay Bar and Polish before applying Butter Wax.

Detail Spray

This "Best of Show" winner is a favorite at car shows. Use as a waterless wash, a clay bar lubricant, or to enhance the depth and clarity of paint, chrome, plastic, aluminum, and glass. Specially formulated lubricants gently remove dirt, smudges, and grime, leaving surfaces with a smooth, ultra-high gloss finish. Use in the sun or shade, and in hot or cool temperatures.

Car Wash

A degreaser that's guaranteed to be one of your favorite products! Safe, easy and effective for a number of jobs.

In & Out Spray

Watch your faded and dull trim go from boring to brilliant with a single treatment of one of our all time best products. An aerosol spray dry to the touch within moments and still capable of restoring your faded and dull plastic, rubber, and vinyl trim to like new condition with just a single spray. Use this amazing product on all the hardest to reach areas, like air conditioning vents, wiper cowls, grilles, and even under the hood to dress your engine compartment.

In & Out Spray wipes easily and cleanly away from surfaces like glass and paint so there’s no need to stress about overspray getting into areas you don’t want. One swipe of a plush microfiber towel and the overspray residue is gone!! There's never been an easier way to dress your trim than In & Out Spray guaranteed to impress you every time you use it.

113512 Large 7” ........................................... 37.95
The Right Stuff!

Corvette Central has tested and used a variety of detailing and restoration paints. As a result, we have chosen paints that we believe work the best and produce the most accurate finish.

All paints are 12 oz. aerosol. Hazardous and aerosol materials such as paint cannot be shipped by air or overseas.

Cast Blast Paint
An ideal choice if you want to restore that cast iron gray appearance. Protects cast iron parts and maintains their sandblast factory appearance. Use on drive train yokes, spindles, pitman arm, tie rods, idler arm, brakes, etc. Cast Blast (not for exhaust) is fast drying and provides excellent adhesion and protection. 101020

Cast Blast Hi-Temp Paint
A 1200˚ heat resistant SS coating ideal for exhaust manifolds. This spray will not burn off or discolor. 101021

Alumi-Blast Paint
Restores a new aluminum look to alternators, intake manifolds, transmission housings, etc. Non-smudge formula protects and will not rub off. 101019

Engine Paints
Fast dries to an extremely rugged, high-heat-resistant finish. Repeated exposure to engine heat up to 500˚ F. will fuse the enamel to the surface. Resistant to oil and gasoline, will not crack, lift or peel and it can be recoated at any time. Colors are exact matches to original engine manufacturer standards.

- 101210 53-55 6 Cyl. Blue Engine Paint - 7.5 oz. Aerosol 49.95
- 111631 53-55 6 Cyl. Blue Engine Paint - Pint 69.95
- 111534 55-56 Red Engine Paint - POR-15 - Pint 26.95
- 111644 Chevrolet Orange Engine Paint - POR-15 - Pint 26.95
- 101024 Chevrolet Engine Hi-Temp Orange Paint - 12 oz. (Used from 57-82) 14.95

Synthetic Zinc Chromate Primer
This paint duplicates the olive green zinc chromate primer that the factory used, but performs much better. Prevents rust and provides a smooth tough surface for top coatings. Use on body “birdcage” metal components and more. 101139 14.95

Stainless Steel Paint
Works great for the look of raw steel, especially on drive shafts and 1/2 shafts. 100% 316L stainless steel pigment. Rust proof. 13 oz. aerosol. 101795 12.95

Bonding Adhesive & Filler — See Page 92

Exhaust Paints and Coatings — See Page 82

Low Gloss Black Paint
For the factory look on various underhood and chassis components. Uses include:
- Wheel Wells
- Under Car Blackout
- Contrasting Glosses
103536 12 oz. ................................................................. 10.95

Medium Gloss Black Paint
For the factory look on various underhood and chassis components. Uses include:
- Engine Pulleys
- Radiator Support
- Bumper, Engine and Frame Brackets
- Clutch and Brake Pedals
- Power Steering Pump and Pulley
- Oil Filter Canister
102012 12 oz. ................................................................. 10.95

Hot Spot Hi-Heat Resistant Spray Paint
A special formulation designed to withstand temperatures up to 1200°F (648°C) on a continuous basis. Must be heat cured at a minimum temperature of 400°F for two hours. More than one coat may be required for full hide. DO NOT use a primer.
301187 Black Hi-Temp Paint -12 oz. Aerosol 14.95

Engine Gloss Black Paint
Works great for repainting your air cleaner or any other gloss black items on engine or exhaust where a hi-temp paint is required. 300˚ heat resistant. Gas and oil resistant.
102053 ................................................................. 11.95

Diamond Clear Gloss Paint
This paint can be applied directly to a cured Automotive basecoat, Standard solid color paints, and Single Part or Two Part paints. It can also be applied to Non Ferrous metals including Aluminum, Alloys, Brass, Chrome, and Copper. This special self-leveling formulation when properly applied will not chip, crack, fade, or yellow. Resistant to fuels and temperatures up to 300°F; this product is ideal for underhood applications (except exhaust manifolds). Great for polished mag wheels, aluminum valve covers.
102019 15 oz. ................................................................. 19.95

Rust Prevention Magic
Keeps Metal Parts Looking Brand New!
- Dry to the touch
- No Oily Residue Left Behind

All types of metallic surfaces prone to oxidation can benefit from RPM protection. Cast iron, stamped and cast metals, as well as aluminum are some of the common automotive applications.

RPM works great to preserve natural metal drivetrain, suspension, and bare metal components to a like new condition.
111512 8 oz. Container (ND) 34.95
Metal Rescue

Metal Rescue is an acid-free, non-hazardous and safe rust-removing liquid. It is water-based, biodegradable, non-toxic and environmentally friendly. No messy acids or creams needed, with Metal Rescue simply soak, check and rinse/dry. Metal Rescue is a clean, safe and easy option for any home improvement enthusiast looking to remove rust from metals.

102894 Gallon ................................................................. 24.95

Rust Preventative Paint

POR-15® is a high-tech, high performance rust-preventive coating designed for application directly on rust or seasoned metal surfaces. It dries to an incredible rock-hard, non-porous finish that won’t chip, crack, or peel, and it prevents rust from recurring by protecting metal from further exposure to moisture. Use it to coat rusty frames, floor pans, farm equipment, or even a heavily corroded battery tray. POR-15® is sensitive to UV light (sun) and must be topcoated for prolonged exposure to sunlight. Topcoating is not required for areas not exposed to sunlight.

101537 POR-15® Quart (Gloss Black) ................................ 50.95

POR-15® Starter Kit

Includes POR-15®, Metal Ready™, Marine Clean™ Paint Brushes, Latex Gloves. Enough to cover 12 square feet.

101566 ................................................................. 22.00

POR-15® Tie Coat Primer

A special interlocking primer for painting over the top of POR-15® with any type or color of paint you choose.

101574 Quart ................................................................. 31.00

Marine Clean

MARINE-CLEAN™ cleans and degreases in one application without leaving residues, noxious fumes or flammable solvents. No other cleaner works as fast or as well. It makes petroleum-based cleaners almost obsolete. MARINE-CLEAN™ removes grease, oil, mildew, algae, musty odors, soap films, wax. Use it to clean canvas, vinyl, nylon, holding tanks, grease traps, auto parts and more.

101849 Marine Clean-Gallon, ea. ..................................... 23.95

POR-15® Metal Ready-Neutralizer

Provides the best adhesion on any surface, including aluminum and shiny polished metal surfaces. The simple one-step process gently etches metal, creating an ideal anchor pattern for coating such as POR-15, while simultaneously leaving a zinc phosphate film to promote chemical bonding of paint and steel. Metal-Ready is not caustic, corrosive, toxic or flammable.

101842 Por-15 Metal Ready-Neutralizer - Quart, ea. .......... 17.95

Rust Encapsulator Black Paint

• Epoxy-fortified for better adhesion and topcoat compatibility.
• Penetrates deeper to prevent rust from spreading or forming, even in hard-to-reach areas.

102866 15 oz. Aerosol ................................................... 12.95

POR-15® Gloss Black Top Coat Paint

• Direct to Metal Rust Preventative Paint
• No Need for Primer or Undercoat

Blackcote is non-porous and will not crack, chip, or peel when properly applied according to directions. It has amazing scratch and abrasion resistance and is similar in strength to regular POR-15 Rust Preventive Coatings. Blackcote is not sensitive to ultra-violet light and may be exposed to sunlight without damaging consequences. Blackcote has excellent adhesion characteristics and may be applied over POR-15 Rust Preventive Paint months or years later with proper preparation.

102712 14 Ounce Aerosol, ea. ......................................... 23.95

Exterior Touch Up Paint

Heal the nicks and seal the scratches. Our Exterior Touch Up Paint original colors. Includes a brush for precise application. 1 oz. bottle.

102973 For Use with Electric Drill-1/4” Shaft ................. 44.95

Plastex Plastic Repair Kit

Plastex has created a plastic-repair kit that not only allows you to fix cracked and damaged parts, but also re-create parts with missing pieces. The Plastex kit is available in three different colors of plastic powder material (white, black, and clear), the trigger material, applicators, quick release pads, and even fiberglass fabric for repairs requiring structural support. For cracked areas, repairs can be made in a matter of minutes, with plastic hardening taking two to three minutes. Best of all, the new Plastex material is tougher than the surrounding plastic.

102713 Black (High strength and heat resistant) .............. 29.95
103654 White (Best adhesion for general repair) ............ 39.95

**Race Ramps**

These race ramps are unique in their design. They are made for low ground clearance performance vehicles with a gross weight handling of 1200 pounds per ramp or 2400 pounds per set. They are specially designed for the Corvette enthusiast, allowing you to get under your car quickly, safely and without any frustrating hassles. Constructed in one solid piece. Race Ramps will not slide across your garage floor, dig into your asphalt driveway, or scratch or otherwise damage your cement or painted floors. They can be used to raise your car up eight inches. You get all of this in an unbelievable lightweight of 20 pounds a pair. Most ramps can only accommodate a tire width of six to eight inches. Race Ramps are not hollow in the center or made with questionable reinforcements. They are 100% solid on all sides and constructed in one solid piece - giving you the non-skid support that you need. The ramps come complete with straps for easy carrying, and you can also use them to hang the ramps on the wall when you’re done.

Antenna

Correct Push-Down Antennas

56-62 antenna cable with correct die cast serrated nut.

Now Available!

Corvette Central is pleased to introduce correct push-down antennas for C1 Corvettes, available in three versions: 56-58 Early (No rings on mast), 58 Late-60 (Features rings on mast) and 61-62. Our new assemblies not only reflect the attention to detail that judges are looking for during shows, but our dedication to producing the highest quality parts possible. As an example, the antenna tips on three versions of our C1 antennas are identical to factory specifications.

56-60 Fully extended, the mast is 45 inches. Normal height, not extended, is 11.5 inches. The mast pushes down into the antenna approximately 2 inches. 61-62 Fully extended the mast is 26.5 inches. Normal height, not extended is 15 inches. The mast pushes down into the antenna approximately 5.5 inches as they did from the factory.

Hide-Away Antenna

For the best AM/FM reception, nothing works better than a 31” vertically mounted antenna mast. Recognizing that application is impossible on some vehicles, this amplified antenna is the next best thing. Note radio signals cannot penetrate metal. Do not attempt to hide under the dash. Requires 12 volts.

Antenna Cables

Antenna cables contain a series capacitor, which reduces the antenna system’s capacitance. This causes the antenna system capacity to fall within a range acceptable to the Delco radio receiver.

Caution: Do not pass any current through the antenna cable, as you may short out the capacitor, leaving the cable inoperable! (Continuity must be checked with an instrument that measures capacity, not an Ohmmeter.) Once the cable is installed, removal may cause the female contact to become disengaged from the cable. If this occurs, carefully tuck the conductor wire and contact back in place. Do not be alarmed by extra conductor wire, some slack is normally provided to allow for cables that are stretched during installation.

Customer Service 877-264-2728 corvettecentral.com
The Battery Mat is a patented absorption and acid-neutralizing material designed for use under any lead acid battery. It helps protect the battery box and the surrounding areas. Battery mat is black, shown in yellow for photographic purposes.

Battery Mat

Battery Disconnect Switch

Installs in minutes and prevents battery drain. Give the knob a twist and you cut off current at the battery. Remove knob and discourage theft. Switch can be easily removed to return car to its original configuration.

Battery Tenders — See Page 15

53-55 Restoration Battery

56-62 Sealed, Maintenance Free Battery

Value Regulated Non Spillable Design!

No more smudged, dirty battery tops! Now available is Poly-Tar™, a new shiny black compound that has a hard surface that will not soften under summer driving conditions. If dust and dirt settle on the battery, it can be easily cleaned to a like-new appearance.

• Value Regulated, Sealed Maintenance Free Design
• 1 Year Full Warranty, 4 Years Prorated
• Genuine Hard Rubber Case, Exact Detailing
• 720 Cranking Amps
• 120 Minutes of Reserve Capacity
• GM Restoration Parts Approved

Maintenance free means “no fluid” is needed. It does not mean that it can sit and not be charged. These are an active unit when the batteries are received. Even though they do not need charged every 30 days, such as a lead acid, they now need to be checked with a volt meter and kept in the top 50%. If monitored properly they should last 7-10 years.

Front Disc Brake Conversion Kit

• Does Both Sides • Corvette Central Improved Design
• Works with Stock 15” Rims

If you’re building an early Corvette to drive, and not for points, then you really need better brakes. This is an easy, bolt-on kit that works with your stock spindles. Includes 11” rotors, single piston rebuilt calipers, hoses and bearings.

191113 ........................................................... 629.00

Better Value

Front Disc Brake Conversion w/Dual Master Cylinder and Brake Line Kit.

191132 Chrome .......................................................699.95

Dual Master Cylinder w/Brake Line Kit

• Will not fit 58-61 cars with fuel injection. Master cylinder will hit Fi air cleaner
• Stainless Steel Brake Lines

NOTE: Not for 4-wheel drum use. Used for front disk/rear drum set-up.

Corvette Central is now offering a dual master cylinder with brake lines kit. The main feature of this kit is a special adapter that mounts a manual dual master cylinder without modifying the firewall or hood. Also included are custom bent brake lines, a residual valve and a metering block for precise front and rear brake control. This kit is “designed by Corvette people for Corvette people,” not a generic hot rod kit.

Speed Bleeder Brake Bleeder Valves
Simplify brake bleeding with Speed Bleeders®. Brake bleeding becomes a one person task when you permanently replace your original bleeders with Speed Bleeders®. A corrosion resistant stainless steel check ball and a patented thread sealing system prevent air from being pulled back into the system during bleeding. Dust protection caps are included with each bleeder zinc plated steel screw. (3/8 x 24 thread)
191038 Pair .......................................................... 13.95

Wilwood Hi-Temp 570 Racing Brake Fluid
Wilwood’s specially formulated High-Temp® 570 Racing Brake Fluid has a minimum 570° F dry boiling point to withstand the severe heat requirements of automotive racing. Hi-Temp® 570’s low viscosity allows easy bleeding of your brake system, eliminating aeration of the brake fluid caused by foaming due to excessive pumping of the pedal.
191069 12 oz. ........................................................................ 7.95
191064 16 oz. ........................................................................ 9.95

GM/Delco Supreme II Brake Fluid
GM Delco Supreme II Brake Fluid is recommended for all vehicles that require DOT 3 brake fluid. It contains enhanced corrosion inhibitors to prevent premature wear, and retains its boiling point properties longer than conventional DOT 3 brake fluids. It is also compatible with disc and drum brake systems. Cannot be shipped by air or overseas.
191064 16 oz. ........................................................................ 9.95

Silicone Compound
For lubricating metal, rubber, and plastic parts. Keeps parts looking new. Odorless, non-volatile. Resists moisture, air, and alkalines.
101232 3 oz. Tube .............................................................. 13.95

Adjustable Brake Proportioning Valve
Fine tune your braking system with the ultimate front to rear brake pressure control valve. Highest pressure reduction available, 60% reduction over the full pressure range, sure grip knob for fine tuned adjustment, billet aluminum construction.

F DL Pro-Series Kits offer complete disc brake upgrade solutions for OEM drum brake spindle applications. Based on the venerable forged billet 4-piston Dynalite caliper and 11.00” x .81 rotors, these versatile kits are easily optioned to suit the braking requirements and style preferences for a daily driver, serious competition, or the most discriminating show enthusiast. This kit requires no modifications for installation, and provides plenty of clearance inside most popular 15” wheels. This kit will also work with aftermarket 14” disc brake steel wheels available from other vendors. FDL Pro-Series Kits can be used with either manual or power boost master cylinders.

Power Bleeder™
- One Person Can Use
- Will Not Work With Replacement Master Cylinders
- Includes 1 1/4” Cap Adaptor
Now you can bleed hydraulic braking and clutch systems like the pros with a Motive Products POWER BLEEDER™. The POWER BLEEDER™ operates just like the professional mechanics’ tool-at a fraction of the cost. The POWER BLEEDER™ uses pressurized brake fluid to force air and contamination out of your lines and cylinders, so you’ll get all the air out of your system the first time you bleed. No more bleeding and re-bleeding to get an air-free system.
191122 Power Bleeder ..................................................... 72.95
191111 53-62 Brake Power Bleeder 1 5/8” Master Cylinder Cap Adapter .................................................. 37.95
For use with replacement master cylinders that have the larger 1 5/8” cap.

Our correct aluminum 61-62 radiators (241055, 241061, 241062) are manufactured by Dewitts and licensed by GM Restoration Parts. They are a 100% correct reproduction radiator with the GM part number and date. We also offer direct fit replacement radiators (241000, 241003), manufactured by Dewitt Radiator. This radiator will give you original design on the top face and correct necks with 90’s technology in the tank area. You will notice that we don’t list a brass radiator for 61-62 Corvettes. Aluminum radiators work best in the Corvette because you gain almost 50% more heat transfer over inadequate brass replacements. This must be why GM used aluminum radiators in Corvettes!

241001 55-61E Brass Replacement Radiator (3 Core) ............ 421.95
241148 56-60 Radiator Mount J-Nut (set of 6) ................. 4.95

For use with reproduction radiators that do not have the nuts attached as original.

241000 56-61E Direct Fit Aluminum Replacement Radiator w/Internal Automatic Trans Cooler .................. 799.99

These “Direct Fit” aluminum radiators feature two rows of 1” tubes and press formed end tanks. This doubles the cooling capacity of the original single row units. This design eliminates failures due to cracked plastic end tanks and/or gasket leaks.

241021 60-61 Top Tank Aluminum Replacement Radiator, INQUIRE
241003 61-62 Direct Fit Aluminum Replacement Radiator, 639.99

= This must be used with the 60-61 hood. This hood has clearance for the top tank.

Direct Fit Radiators are shipped unpainted aluminum. If you would like the radiator black painted, specify-BLK to part number and add 150.00.

When ordering dated parts, please specify car serial number and horsepower.

* = This must be used with the 60-61 hood. This hood has clearance for the top tank.

Hi-Performance Aluminum Water Pump

241049 55-62 (ND) 259.00

When using on 56-60 cars, you will have to use a 61-62 style engine mount crossbrace, or cut your 56-60 crossbrace for clearance.

Water Wetter

A unique wetting agent which reduces cooling system temperatures up to 30°F. Helps provide rust and corrosion protection and improves heat transfer properties of plain water, ethylene, and propylene glycol cooling systems. Use with aluminum, cast iron, brass, and bronze components. Bottle does up to a 20 quart system.

- **Tower clamps are genuine Wittek GM® Tower Clamps. Clamps were manufactured by Wittek from the original tooling and are correct galvanized material. GM indicates type of Wittek clamp.**

- **The radiator surge tanks produced from 1961 through 1964 used tubes that were pressed in and lightly welded from the inside only. These fittings are very fragile and will break off with only a small amount of side force when installing or removing a hose. To address this problem, GM improved the tanks in 1965 and later by adding a fillet weld around the tube on the outside. Special care must be taken when working with these parts. Any fittings that are broken off during installation or service are not considered a defect or covered under warranty.**

Decals and Labels

Most of the decals are “peel and stick” — peel off backing and stick in place. Valve cover horsepower decals are water soluble — soak lightly in pan of lukewarm water and decal will slide off paper backing.

CAUTION

This vehicle equipped with limited slip differential. Rear wheel may drive if in contact with ground even though opposite wheel is raised. Do not run engine with vehicle on jack unless transmission is in neutral or park. See Owner's Manual.

Positraction caution decal is located on the spare tire board with a sloppy glue pattern.

These metal tags about 1-1/2” in diameter were used on the axle housing stud at the 2 o’clock position. The different shape of the tag identifies the ratio of the rear end.

Positraction

CAUTION

This coolant system protected to -20° Fahrenheit by type antifreeze

### Correct Distributor Cap

- **Correct Reproduction**
- **Says Delco-Remy Patent Pending as Original**
- **1 Dimple in Window**
- **Licensed by GM**

**H.E.I. Tach Drive Distributor**

- Will Not Fit 62 340 HP Intake.
- **Built-in Performance Curve Kit**
- **Fully Adjustable Vacuum Advance**
- **64,000-Volt Coil**
- **High-Performance Ignition Module**

Keep your 62-74 Corvette’s original mechanical tachometer and move up to a high-energy ignition system. This New Mechanical Tach-Drive H.E.I. Distributor has a high-performance module and 64,000-Volt Internal Coil. Direct replacement for the OE unit, however, the stock distributor shielding must be removed. Features built-in performance advance curve. Comes with high-performance cap and rotor with solid terminals for maximum conductivity. Requires 75-81 H.E.I. type spark plug wires.

**272136** ......................................................... 149.95

### Cable Drive Adapter

No more premature failure of tachometer or speedometer cables due to excessively sharp bends. This 90° Transducer offers a sensible solution to problems attaching tach and speedo cables in confined spaces, without affecting the accuracy of your gauges.

**272110** ......................................................... 40.95

<table>
<thead>

Dielectric Grease
Prevents fusing of spark wires to spark plugs, boot tears, corrosion and arcing.
For distributor caps, battery cables, battery posts and terminals, light bulb sockets.
Prevents corrosion and related problems.

The Ignitor solid-state electronic ignition system uses rotating cobalt magnets mounted on the distributor shaft to trigger an electric switching module for higher output up to 35,000 volts. Ignitor eliminates the points and condenser and promotes increased plug life, better fuel economy and stable timing. And, for a stock look, it fits entirely inside your stock distributor. This system eliminates the need for an aftermarket distributor and you can use a stock distributor cap. Ignitor systems are backed by a 30 month warranty.

Ignitor II takes it a step further by adding a powerful new microcontroller, that controls the dwell period, for the best possible spark over the entire RPM range and enhanced performance levels only found in more expensive "box type" ignition systems.

Ignitor III
- 20% more spark energy than Ignitor II...Increased Burn Time
- Multi-spark thru the entire RPM range...Improved Combustion, more HP
- Rev limit set by user...Accurate to +/- 50 RPM

Door Weatherstrips — See Page 141
When installing inner and outer window felts, you may experience a tight fit in the curve of the felt to the window frame. When the felt is curved, it causes the felt to bulge. This can be fixed by "crushing" the felt back down in a vise. This problem has been seen in felts from different vendors.

Save time and eliminate frustration with CC manufactured window felts. Our inner and outer window felts are pre-bent with the correct large bead to fit over our front window runs as original. The front window runs also have the mounting holes pre-punched.

Purchase kit # 281131 and get front window runs, large bead inner and outer felts w/mounting hardware along with rear channel liners.

Better Value

When installing inner and outer window felts, you may experience a tight fit in the curve of the felt to the window frame. When the felt is curved, it causes the felt to bulge. This can be fixed by “crushing” the felt back down in a vise. This problem has been seen in felts from different vendors.

Emblems

Emblems are purchased from Trim Parts or Z-06 Products, authorized General Motors Licensees.

We manufacture the correct 62 steel emblem backplate (painted black).

The original 58-62 Front & Rear Emblems had Gold “V” and letters. Silver is the GM re-issue.

**Steel Valve Covers**
- Used on base motors.
- Aluminum valve covers are used on optional motors.

**Sand-Cast Aluminum Valve Covers**
- Strong sand-cast aluminum construction • .160" thick wall
- Precision-machined gasket flange to provide uniform clamping force on the gasket – much less prone to leak than stock covers which are typically made of .035" stamped steel.
- Available in several finishes: as-cast aluminum, orange powder coated, or high gloss polish. These are sand cast parts and there will be some porosity.

- Aluminum Valve Cover Gasket, pr. (Cork) • 17.95
- Valve Cover Stencil (for painting script on steel valve covers) • 13.50
- 101054 Aluminum Wash-For Non Coated Aluminum (16oz) Works Great on Valve Covers • 269.00

**Sand-Cast Aluminum Valve Covers**
- Strong sand-cast aluminum construction • .160" thick wall
- Precision-machined gasket flange to provide uniform clamping force on the gasket – much less prone to leak than stock covers which are typically made of .035" stamped steel.
- Available in several finishes: as-cast aluminum, orange powder coated, or high gloss polish. These are sand cast parts and there will be some porosity.

301002  58-62 Spark Plug Wire Set (Replacement - Non Dated) 54.95

High Performance Spark Plug Wires
- Low 500 ohm per foot resistance
- Silicone jackets to resist high temperatures, moisture, oil and chemicals

Stock appearing 7.0 mm black wire sets are custom built for a perfect fit - no cutting, crimping or splicing. Each low resistance wire has an outer silicone jacket to resist high temperatures, moisture and oil. EPDM inner insulation provides superior heat resistance and prevents arcing and voltage leaks. fiberglass reinforcing braid adds strength and flexibility. Wire sets carry a lifetime warranty.

- Increased levels of “zinc” (zinc dialkyldithiophosphate) provide outstanding anti-wear protection for engines with either “flat tappet” or roller type cams.
- Penn Grade base oils provide excellent film strength while synthetic stocks enhance performance over a wide range of operation temperatures and conditions.
- Oxidation and foam inhibitors offer protection against thermal degradation and air entrainment.

A truly versatile oil suitable for engines used both on the street and/or the track. The multi-viscosity grade and synthetic components facilitate cold starting and quicker engine warm-up while insuring adequate engine protection during competition.

- Ordering information in front of catalog

- Important

Electrical components such as Starters, Spark Plugs, Wires, Coils and Senders, etc. are

NON-RETURNABLE PARTS
Always refer to a factory service manual when diagnosing engine service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.
Correct Spark Plug Wires

Reproduction Spark Plug Wires: Correct Spark Plug Wires contain the correct factory script and dates as well as the correct spark plug boots. Order by Date. Cars built before January '61 did not use dated wires.

High Energy Coil

- These are slightly larger in diameter than stock (2-3/16" vs. 2-1/8"). Some adjustment of the coil bracket may be necessary.
- Flame Thrower high energy coil delivers an average of 15% more spark energy and voltage. More volts enables larger plug gaps for greater fuel efficiency and more power. Coils fit existing stock brackets.

Exhaust

\[58\] hours: 8:00-8:00 mon-thur / 8:00-5:30 fri / sat 10:00-2:00 • 13550 three oaks rd., sawyer, mi 49125

- You will notice that our exhaust section does not list any stainless steel (SS) pipes. Our previous catalogs listed SS systems, but we have always promoted aluminized systems for the following reasons:
  - SS retains heat which makes the pipes run hotter. This heat is radiated through the floor of the car.
  - Customers that purchase SS for its appearance will be soon disappointed because the SS pipes turn blue near the manifold and yellow back to the mufflers.
  - The heat retained by the SS will cause your exhaust system to grow in length as the car warms up. Customers have measured this growth at as much as 1 1/2”. This change is enough to make even properly fitting pipes rattle.
  - The stiffness of the SS causes inconsistencies in bending and also clamping difficulties.

At half of the cost, we feel that aluminized exhaust systems are the way to go. The aluminized coating on the I.D. and O.D. of the pipe allows for proper cooling. SS has many good applications for restoration parts on your car, but we do not feel quality exhaust systems are one of them.

Aluminized Pipes Sets (Includes Both Sides)

Magnaflow Mufflers by Corvette Central

The answer for Corvette owners looking for more power, smooth deep sound and good looks. The aluminized, all welded straight-through design delivers improved performance, reduced resonance, extended durability and a smooth deep tone. There are no chambers, no baffles and no louvers to restrict exhaust flow. Stainless steel case with aluminized pipes. You get wide open performance from Magnaflow. It doesn’t flow any better then this.

Mufflers came on the car from the factory with welded header extension pipe.

CC’s HP Header Pipes have crossover nipples welded on as original; some suppliers have you weld these on yourself.

*NOTE: The 56-62 exhaust system has an extra clamp near the center hanger on one side. This clamp is included in our sets.

**Exhaust Paints and Helpers**

Calyx Manifold Dressing - Keep your exhaust manifolds concours prepared at all times, without removing them. Produces a natural silver gray, long lasting finish. Apply with cloth. Can be polished to high lustre.

101022 3 oz. Jar .................................................. 17.95

Exhaust Pipe Sealer - Use to seal the front crossover pipe to exhaust pipe (as was done originally at the factory) or at any exhaust pipe connection to assure a leak-free installation.

322123 8 oz. Tube .............................................. 8.40

101795 Stainless Steel Paint, 13 oz. Aerosol ..................... 12.95
101020 Cast Iron Blast Paint, 12 oz. Aerosol ..................... 11.95
101021 Spray Coat Hi-Temp Cast Iron Paint, 12 oz. aerosol . 14.95
301187 Black Hi-Temp Paint 1200° Aerosol-12oz. .......... 14.95
102012 Black Semi-Gloss Paint, 12 oz. Aerosol .............. 10.95
321013 Aluminized Finish Exhaust Paint, 11 oz. (For pipes and mufflers, not headers or convertors) ............ 14.95
101684 High Temp Silver Paint, Quart ......................... 32.95

Factory Manifold Gray is a high temp gray paint capable of withstand­ing extreme temperatures up to 1400 degree F. This high temp paint will maintain a durable iron gray color and won’t burn off.

Customers that have purchased new side chrome moldings for their 1958-1961 Corvettes over the years are probably well aware of their challenging fit issues. Corvette Central has decided to produce our own versions of the side chrome that meet our quality standards, and we think that you will be pleased with the results.

**Speednut Fastening Tool**

Tool tightens or loosens both 1/8" and 3/16" winged style speednuts.

**Moulding Polishing Kit**

This kit is packaged especially for the industrial/commercial and workshop trade that requires a handy ready-to-use buffing wheel and polishing compound kit, for immediate or occasional use. Shelf life storage is indefinite. Each K-402 kit contains three (3) different type buffing wheels and (4) different grades of buffing compound. Each wheel is 6 inch (6") in diameter and approximately one inch (1") thick to provide wide wheel units, and is supplied with it’s own telescoping removable bushing. This permits mounting on spindle shafts of 1", 3/4", 5/8", and 1/2" diameters.

Most of our fiberglass listed for 53-62 is Tan/Ivory as original.

Original Fiberglass Colors

HL = Hand Layup parts are manufactured by hand laminating pattern cut fiberglass mat and fiberglass resin into a precision mold. This method produces high strength panels with uniform thick-ness and a smooth surface only on 1 side.

PM = Press moulded parts are formed under pressure in matched moulds as original. This assures a high strength part with a smooth surface on both sides.

+ = Truck Ship Items are shipped freight prepaid direct from our supplier, and orders must be prepaid.

* = Dropship only. Order must be prepaid.

NOTE: There may be a crating charge on fiberglass items. Some items require a special box to insure that you receive the items undamaged.

Always specify left or right when ordering (L or R) parts (Left = driver's side, Right = passenger's side).

THE ULTIMATE REPRODUCTION BODY

CC Industries has brought a timeless body style into the new millennium. The Concept 57 body is a faithful reproduction of the original 57 Corvette body with quality, accuracy and durability never before available.

If you are restoring an original ’56 or ’57 Corvette, you can save hundreds of hours and thousands of dollars with this brand new state of the art body. The Concept 57 uses all factory or reproduction parts, enabling you to use all of your original parts or go for new and reproduction parts.

The Concept body maintains a total stock appearance from any vantage point — under hood, interior, exterior and underside and bolts directly to your original frame using stock body mounts. Concept 57 bodies come with an ivory gel-coat and are ready for preparation and finish paint. They are designed to use all original and reproduction parts. This includes engine compartment hardware, interior and exterior trim pieces, trunk and floor pan hardware.

If you like to combine classic design with improved drivability, we also offer a complete high tech rolling chassis. For a detailed description of the chassis, the body, additional options, call or write for a complete information packet.

www.corvettecentral.com For More Information

One Piece Core Support Surround. CC’s design incorporates 4 pieces into an original appearing one piece assembly. 241024 bracket is sold separate.

+141124 62 Pre-Assembled Front End (PM) (ND) ............ 6,489.00

There is an additional $50.00 crating charge on preassembled front ends. Allow 3 week lead time to ship.

Fiberglass Repair Kit

Permanently repairs holes and cracks on fiberglass fixtures, shrouds and housings in minutes. The kit includes clear epoxy, sandpaper, fiberglass reinforcement cloth and application brush.
141169 .................................................. 28.95

Important Note:

All fiberglass replacement parts are considered collision parts and should be fit to the car before final finishing.

It is normal for these parts to have chips, scratches, and even minor cracks when received. This is considered to be normal and is not a reason for parts replacement.

HELP

How to Use Epoxy Repair Kit

A rigid setting epoxy repair compound for the auto body shop which sets in 6-8 minutes. It is extremely strong yet not brittle. It cures rapidly in any thickness, has excellent paintability and is chemical resistant. Repairs fiberglass and bonds metal to fiberglass. Use as filler, sealer, or glue.
141061 Hard Setting Epoxy Repair ......................... 33.95

+ = Truck Ship Items are shipped freight prepaid direct from our supplier, and orders must be prepaid.

Pre-assembled Press Molded Front End

When installing custom fiberglass panels, be aware that all Corvettes do not come from the factory with exact identical body dimensions. Therefore when replacing or adding any custom fiberglass parts to your Corvette, it is recommended that you fit these parts to the body before you begin painting. This will help assure a quality appearance to your restyling job and avoid installation problems after painting.

The same procedure is also recommended when using factory replacement panels such as bumpers, hood etc.
58-62 One Piece Front Ends (HL)

If you desire a factory look underneath your Corvette, bonding strips may be installed with your reproduction front end, although they are not required.

REMINDER

Always specify left or right when ordering (L or R) parts
(Left = driver’s side, Right = passenger’s side).
This asphalt-based paint is from the original supplier and was specified by OEMs for frame painting and blackout operations, particularly prior to the 1970s. Asphalt-based paint was often used by frame manufacturers such as A.O. Smith, Inc. to coat and protect the frames. This product is supplied for restorers who demand authenticity in their restorations and won’t settle for less. Because it is asphalt-based, it is susceptible to gasoline spills.

181011 Quart ...................................................... 24.95

Note: 2 quarts is usually enough to do one frame. Cannot be shipped by air or overseas.

- 351415 58-62 All Engines Flex Gas Line | 7.5” Long | 19.95 |
- 351417 57-62 48” Flex Gas Line Fitting for 351415 (Correct) | 13.95 |

NOS Octane Booster

NOS Street Formula Octane Booster is the product of choice to increase fuel octane ratings. Just pour the contents of one can into one tankful of fuel and it will raise the octave level as much as 3 points. Octane Booster comes packaged in a recyclable 12 oz. can and can be conveniently screw-on type for pour spout. Added benefits include: • Eliminates knocks and pings • Restores lost power due to pre-ignition • Cleans injectors and combustion chambers • Safe for leaded or unleaded fuel engines • Safe for oxygen sensors and catalytic converters • Increases fuel efficiency • EPA registered.

- 351136 12 oz. | 11.95 |

Cannot be shipped by air or overseas.

Red Line Lead Substitute

Prevent valve seat recession in vehicles designed to use leaded fuels. Red Line Lead Substitute prolongs the useful life of these engines and cleans carburetor deposits. 1 oz. treats 10 gallons.

- 351094 12 oz. | 11.95 |

351081 Carb and Choke Cleaner, 16 oz. Aerosol INQUIRE
### 53-62 Steel Gas Tank

One of the most common problems with early model Corvettes is leaking gas tanks or tanks that are full of rust and fuel deposits that are almost impossible to remove. The solution is Corvette Central’s 53-62 reproduction steel gas tanks.

**Note:** You will notice that we list the 57-62 gas tank with a baffle, which was not actually used by GM until May 1960. This is an improvement made by GM that all early car owners should take advantage of.

<td>199.00</td>
</tr>
</tbody>
</table>

Some early 57’s may have used a non vented gas tank. This changed approximately 11/15/56.

### 56-62 Deluxe Gas Tank Kit

- Includes Correct OLA Logo
- Includes everything you need to put a new gas tank in your 56-62; tank, meter, neck, hose, straps, pads and all hardware, even includes a new gas cap, gas neck grommet, and vent hose.

### Gas Tank Helpers

**Gas Tank Repair And Liner Kit**

Fuel Tank Sealer is specifically formulated to stop rust and corrosion by forming a tough, fuel impervious coating, while simultaneously sealing small pinholes and weld seams.

This kit contains KBS Klean (a water-based, heavy duty, cleaner/degreaser) and RustBlast (a powerful rust remover/metal etch) to obtain a permanently sealed, rust-free fuel tank.

*Not recommended for tanks that have been coated on the inside from the factory.*

Early Corvettes are prone to gas fume problems in the cockpit. Double checking your tank vent hose clamps and gas cap can help limit the problem.

We have designed a stainless steel support plate to be used with your pedal. See our WEBSITE for comparisons.

Note: Corvette Gas Pedals did not have the “flap” at the bottom of the pedal. This plate is used as a floor reinforcement on the inside of the floor. It will also help with oversized holes in the floorboard.

Gas Pedal Studs w/Nuts & Washers - Stainless Steel (8 pc. set) ...............................................................

Our 58-62 Gas Pedal has the Correct 2 Ribs. Some repros only have 1 rib. We have designed a stainless steel support plate to be used with your gas pedal studs. This plate is used as a floor reinforcement on the inside of the floor. It will also help with oversized holes in the floorboard.

58-62 Dakota Digital VHX Instruments

The new VHX Systems fit directly into the stock instrument pods of your 58-62 Corvette without modification, adding a wealth of features to this iconic vehicle. Chrome triple-plated machined aluminum gauge bezels round out this package.

Fully lit needles, backlit faces, and highly visible LCD message centers are a few of the things that you can see which sets the VHX Series apart from yesterday’s traditional approach to instrumentation. A few of the features which you don’t normally see are the micro-controlled precision stepper motors, solid state sensors for unparalleled accuracy, and user-customizable display feedback.

Important

Electrical components such as Gauges are NON-RETURNABLE PARTS.

Always refer to a factory service manual when diagnosing engine service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.
Digital Instrument Kit

Experience high tech, high quality instrumentation from Dakota Digital. Kit Includes: • Digital gauge set with bezels • Control box specifically designed for your particular Corvette model • New sending units compatible with digital gauges • All necessary wiring and hardware • Complete installation instructions.

Features: Bright clear read-outs in blue against black background • Adjustable brightness of read-outs from control box • Factory wiring plugs into control box • Speedometer reads to 255 mph and tachometer reads to 9900 rpm • Speedometer and odometer calibrations can be made at dash for infinite to 9900 rpm into control box • Speedometer reads to 255 mph and tachometer reads to 9900 rpm

Service includes disassembly, clean, restore case, replace internal mechanisms and calibrate. Specify if new bezel is desired.

59-62 Tachometer Refacing, ea..............................Call For Price
391240 53-57 Small Gauges -Clean & Calibrate............Approx...........99.00
391260 58-62 Small Gauges -Clean & Calibrate............Approx...........65.00
Service includes clean, restore cases, test, and reassembly. Parts extra. Extra charges may apply to units requiring additional cosmetics.
Odometer is not replaced.

It is common for extra parts to be required to complete a rebuild that are not included in the listed rebuild charges. The prices on these extra parts vary. If it is less than $35.00, you will be billed for the extra parts and the rebuild service will be completed. If the extra cost is more than $35.00, we will contact you for approval before the rebuild service is performed. Note: If you refuse the extra cost, you will still be charged $25.00 for the time spent to disassemble the part and diagnose the problem.

Parts and facing are extra.

Important

Electrical components such as Generators are NON-RETURNABLE PARTS

Always refer to a factory service manual when diagnosing engine service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.

PowerGEN - Alternator/Generator

• Output is 75 amps; with a whopping 60 amps at idle
• Will not accept a tach drive unit
• Works with Corvette Central #401115 Generator Mount Bracket

PowerGEN provides the looks of a generator with the output and reliability of an alternator, and offers one-wire operation. Engineered from the ground up to be completely brand new, and high-tech materials are used throughout.

* = Hardtop rear windows are shipped to you direct from our supplier via UPS Ground Service in Continental US, so item must be prepaid. There is an additional $38.00 crate charge. These are the Glassworks windows that are molded correctly and fit! When ordering dated parts, please specify car serial number and year or the code you require.

### Hardtop Headliners

- **131219** 56-57 Hardtop Headliner Correct - Molded..........................599.00
- **131219** 58 Hardtop Headliner Correct - Molded..........................699.00
- **131219** 59-60 Hardtop Headliner Correct - Molded..........................469.00
- **131240** 56-57 Hardtop Headliner Replacement - Flat..........................289.00
- **131245** 58 Hardtop Headliner Replacement - Flat..........................439.00
- **131250** 59-62 Hardtop Headliner Replacement - Flat..........................289.00

61 & 62 all used white Hardtop Headliners originally.

- **313004** 3M Super Spray Trim Adhesive (18 oz.) - Works when installing your headliner..........................24.95
- **341205** 56-62 Hardtop Headliner Trim Screw Set (8 pcs.)..................4.50
**Electric Hardtop Hoist/Garage Organizer**

A new four-point hoist system is now available that will take all of the physical labor out of lifting those irregular size hardtops. This motorized system works with the touch of a button and mounts into any ceiling with ease. By simply securing the lifting straps into the ceiling first, the system can be turned on and it’ll raise itself in place. Then you can bolt it into position. For extra lifting support, Glassworks has developed retainer cups and a tension strap to hold the object you’re lifting firmly and eliminate unwanted pulling and slipping. It works by wireless remote that looks like a keyless entry to your car. It can be plugged in, but also has a battery; the hoist is equipped with a 1.1 HP motor and is rated at 500 pounds.

**Hardtop Storage Cover**

- Poly Cotton Tan Flannel Fabric

101006 .......................... 129.95

**56-62 2 Piece Deck Lid Protectors**

Before they happen, prevent your softtop or hardtop from leaving scratch-es and unsightly marks on your Corvette’s rear deck. Deck Lid Protectors are static cling film (no adhesives needed!), die-cut for your model year! They cover the area where your top comes in contact with your rear deck — keeping it in like new condition. Available in clear or black.

- 56-62 Softtop (Clear) ............................. 27.95
- 56-62 Softtop (Black) ............................. 27.95
- 56-62 Hardtop (Clear) ............................. 27.95
- 56-62 Hardtop (Black) ............................. 27.95

**Dim Lamps**

Do you have an old T-3 headlight that burns very dim? Well, it’s not getting full voltage, due to a high resistance connection. Most likely the plug on the back of the lamp is the problem. To fix, remove the lamp and clean the contacts with emery cloth, sandpaper, or a small fine file. Anything to clean the brass contacts for a good connection. You might want to use CC #271015 dielectric grease or vaseline jelly on the contacts before reinstallation.

- 55-57 Headlight Bulb 7” Halogen, ea. .......................... 24.95
- 55-57 Headlight Bulb 7”, Set of 2 .......................... 39.95
- 58-62 Headlight Bulb Hi-Beam Halogen, ea. .......................... 13.95
- 58-62 Headlight Bulb Hi-Beam Halogen (Repl.), ea. .......................... 11.95
- 58-62 Headlight Bulb Low-Beam Halogen, ea. .......................... 13.95
- 58-62 Headlight Bulb Low-Beam (Repl.), ea. .......................... 11.95

**Halogen Headlight Bulbs**

- European Lead Crystal Lens
- “E” Mark Certified
- Set Includes: 2 Headlamp Replacements; 2 H4 60/55 Watt Halogen Bulbs; and 2 Protective Rubber Boots

- 56-62 Lo-Beam (Set of 2) .......................... 134.95
- 56-62 High-Beam (Set of 2) .......................... 134.95

When installing Halogen Bulbs you may encounter difficulty with fitting your Delta Headlamp in the old light bucket. This may happen when the bucket is not deep enough to allow free entry of protective rubber boot in the old bucket. You will need to drill a 2 1/2” hole to make room for the rubber boot. Also, note that your Delta High Beam Headlamps are equipped with H4, which have three prongs, while your existing headlamp plugs have only room for two prongs, leaving your middle bulb prong, (low beam), unused. Adapters are included.

56-62 Fresh Air Hoses are manufactured to the original design for an underhood temperature of 250°F.

**56-62 Heater Core**
Replace that old heater core before it leaks and ruins your expensive carpet set! CC suggests you order a heater gasket kit at the same time. 451009 ............... 109.95

**56-62 Outer Heater Cover with Flapper Door**
A must to stop air flow through the heater for summer driving. Easily installed. 451204 56-62 ............... 154.50

**56-62 Improved Outer Heater Cover Replacement Kit**
With Stainless Steel Shaft

*Visit us on the web at: www.corvettecentral.com • Email us at mail@corvettecentral.com*
Gen IV SureFit System

Complete Kit Includes: Evaporator, condenser, drier, compressor, compressor bracket, hose kit and binary safety switch.

• Fully electronic operation - No cables or vacuum controls
• Kit includes individual Rotary Electronic Controls for electronic operation
• Micro-processor controlled coil temperature monitor. No capillary tube to install!
• Separate high capacity heat and cool coils
• Aluminum plate/fan A/C coil (most efficient evaporator design available)
• Copper/brass parallel flow heater coil
• Blend air door for instant temperature adjustment
• Infinite dash/floor air blend (in most applications)
• Blend air door for instant temperature adjustment
• Steel firewall cover plate
• All Gen IV Systems allow for optional smooth firewall configuration (must use modified hose kit)
• Positive shut off solenoid operated heater control valve in max A/C

The Gen IV™ is Vintage Air’s most powerful and intelligent climate control system. Gen IV Systems utilize an exclusive fully electronic microprocessor control servomotor drives to eliminate cables or vacuum connections. Separate high capacity copper parallel-flow heat coil and aluminum plate and fin cooling coils provide outstanding performance and instant temperature adjustments. Additional features include variable blower speed and dash/floor/defrost blend. SureFit Systems are engineered specifically for each vehicle application and require minimal alteration to the vehicle for installation.

---

#471139 R.H. vertical shield has a round lower mounting hole; #471132 has an oval hole.
### Interior Color Codes

Many parts in the Interior Section require a color code specification when ordering. Above is a chart showing code numbers for each year.

#### COLOR CODE CHART
- Go down left hand column to Year
- Go across to center column finding Color
- To the right of the color is the Code

**Example:**
Part number: 1957 Red Vinyl Seat Covers - 131010 - 06

<table>
<thead>
<tr>

* = 53-62 seat foam sets with muslin reinforcements and air space in back sides — just like the original!

Price Match

Corvette Central will match any Corvette competitor's current advertised price on an identical product. Simply send us a copy of the competitor's catalog or ad showing the current advertised price. Product must be from same source or vendor. Note: This does not include sale prices or web specials. Cannot be combined with any other discount or special offer.

Seat Cover Installation

Detailed step-by-step instructions on how to install new seat covers, including tips on springs, frames, and padding. Follow the complete demonstration from start to finish to get your seats standing tall.

See Our WEBSITE

We suggest you use new seat foam to make your finished seat cover installation look like this.

**56-62 Seat Cover Installation Service**

Let us take the hassle out of recovering your worn and dirty seats! Send them to us, and we'll install new seat covers for you. You must purchase new seat covers, seat foam, and installation kit from Corvette Central. The entire process takes about 4 weeks and the workmanship is guaranteed for 1 full year. Price includes labor charge; any parts or repairs are additional. This service must be prepaid or on a credit card, as the finished seats cannot be returned C.O.D.

*131113  56-62 (ND)................................................. 479.00

---

**Seat Cover Installation Kits and Tools**

Seat cover installation kits include the wires, hog rings, and pliers you need for a complete installation of two seat covers.

---

**Attention 56-57 Owners!**

Correct waffle pattern seat covers, door panels, and kick panels now available for 56-57's.

---

**Attention 58 Owners!**

Correct charcoal (not black) color interiors is available for 58's. (Charcoal was the original color, black is replacement).

---

**Carpet Sets**

The 56-59 replacement Daytona weave listed is the correct pattern and color. Not 100% correct for N.C.R.S. type show cars, but very high quality replacement for the cost. The 56-59 original type Daytona weave carpet is NCRS correct. 59 usually uses the low-loop Daytona carpet as in 58. Some random examples of Tuxedo-style carpet have been found in a few 59 models. All 60-62 cars used the Tuxedo-style carpet. Tuxedo carpet is also known as Salt & Pepper.

Hushmat Insulation

• Reduces road noise and dramatically improves thermal insulation to create a super quiet and easy to cool interior compartment
• Easy to install - Just trim, peel and apply
• 100% buty blend, aluminum backed material
• Super thin only 1/18” thick
• No adhesive required
• Easy to cut - Will not dull scissors or knife
• Easy to form shape and apply to inside of floor

Window Felts (Inner & Outer) — See Page 46
Window Cranks — See Page 108

Mount Hole Repair Kit
Works great for kick panel mounting!
Fix oversized holes in fiberglass. Simply spot plate over oversized hole, rivet to fiberglass using included rivets, and then drill your screw holes into metal for a permanent fix.

131125 20 Plates With Rivets .................. 29.95
58-61 door panel sheet metal is available in the 3 correct patterns. All sheet metal sets are pre-punched and pre-formed. Each set includes 2 door panels and 2 kick panels.

Door Panel Trim: Lock Knobs, Window Cranks, Door Open Handles — See Page 108

When you purchase a new 58-62 Dash pad, it will have to be trimmed after fitting to your car. The above photo shows how the dash pad is shipped, and the areas that are to be trimmed out.

**Note:** 58's did not originally have sunvisors. In 59-60, sunvisors were an option, but became standard in 61-62. There were no mounting holes in the windshield frame until 1959.

**Replace your corroded and dull visor hardware with beautiful chrome-plated reproductions.** Set includes 4 pins, 4 screws, 4 nuts, and 8 washers.

Seat Belt Assembly With Mount Brackets

We now offer an affordable replacement 56-62 seat belt for everyday use. These belts are available with correct color belting using a '63 style buckle and are supplied with original hambones and tighteners.

<table>

</tr>
</tbody>
</table>

Note: Seat belts were a dealer installed option in 56-57. If installed, the NCRS does not deduct points, as it is a safety item.

A majority of the 1958 Seat Belts appear to use gray material. Buckles through early 62 are painted interior color.

Correct Remanufactured Seat Belt Assemblies

Now available! 58-62 correct remanufactured seat belt assemblies — includes correct buckle, webbing and labels installed. Hambone and tighteners (481420) must be purchased separately.

**Decklid Latches**

Decklid Latches are designed for easy installation and are available in a variety of styles and colors to match your specific vehicle needs. They provide a secure fit and are made from high-quality materials to ensure durability and long-lasting performance.

**Decklid Rubber Grommets**

Flexible rubber grommets for decklid latches are designed to prevent water entry and ensure a proper seal against the decklid. These grommets are available in a range of sizes and materials to accommodate various decklid latch models.

**Decklid Latch Replacement Kits**

Replacement kits for decklid latches include everything needed for a professional installation, ensuring a seamless replacement process. These kits are compatible with various models and provide essential components for a secure fit.

---

**Decklid Latch Repair Parts**

Repair parts for decklid latches are available to address specific issues or wear and tear. This includes latches, bolts, washers, and other small components that may need replacement during maintenance or repair.

---

**Decklid Latch Adjustment & Maintenance**

Proper adjustment and maintenance of decklid latches are crucial to maintaining the vehicle’s overall performance and aesthetics. Regular inspection and cleaning can help prevent issues and extend the lifespan of your decklid latch system.

---

**Decklid Latch Accessories**

Accessories for decklid latches enhance functionality and style. Options include decorative covers, locking mechanisms, and additional components that can be added to your existing latch system for improved performance and protection.
L.E.D. Tail Lamps

A Bright Idea for Your C1

Tail lights feature L.E.D. bulbs that are much brighter than the factory units and have multiple light sources around the housing as well as in the center of the lens. These tail lights fit C1 models and easily plug into the factory wiring harness and bolt in place. It's an easy way to upgrade your Corvette's appearance while adding a measure of increased safety.

Radio Rebuild Service
If you want to keep your stock radio totally original, and have it perform better than new, this rebuild service is for you.

Complete rebuild includes:
- Replacement of all capacitors
- Replacement of any out of tolerance resistors
- Vibrator replacement with solid state vibrator
- Rectifier replacement with solid state rectifier
- Alignment of RF and IF circuits
- Cleaning, lubrication and alignment of the tuner and pushbuttons
- Repair or replacement of pots, switches, coils and transformers as needed.
- Replacement of all dial bulbs

All replacement components typically have higher ratings than original parts and all radios carry a two year parts and labor guarantee.

Radio Ground Straps – See Page 152
Dual voice coil speakers produce the best quality sound possible from your original speaker location. Speakers have up to 70% more cone area than conventional dual front speakers resulting in improved bass response and 140 watt power handling. Both stereo channels connect directly to this one speaker. 15 oz. magnet.

USA-740 Bluetooth Radio
The USA-740 offers built-in Bluetooth (microphone included), answer calls and get Bluetooth streaming music from your Bluetooth capable phone or Bluetooth compatible device. A solid 300-watt peak power, Hi 4volt, 4channel RCA Pre-outs and a Subwoofer RCA pre-out for additional amplifiers. The USB input allows you to plug in a USB flash drive (thumb drive) for playback of MP3/WMA/FLAC/WAV song files. A front mini jack auxiliary audio input and a rear RCA auxiliary audio input provide versatility for options like satellite radio, I-pod or any portable player you wish to use. Match the dominant color of your instrument cluster with user selectable multiple LCD color choices with LCD dimmer control. The AM/FM RDS tuner shows station, song and artist on the LCD display.

USA-230 Stereo Radio
Custom Autosound's USA-230 is an excellent choice for Corvette enthusiasts looking for a more affordable radio without sacrificing quality electronics and a classic stereo look. Designed to fit in the stock dash without any modifications required. This radio includes an auxiliary input which can connect to iPods, iPhones, satellite radio tuners or any other device with a headphone jack. With 300 watts peak the radio provides plenty of power. It also boasts 4 Channel RCA pre-outs and a digital display with electronic tuner, 16 station pre-sets and a 4-way fader.

Upgrade Speakers
Custom dual 4" speakers, pre-wired and designed to install in original speaker area.

58-67 Dual Voice Coil Speaker
Dual voice coil speakers produce the best quality sound possible from your original speaker location. Speakers have up to 70% more cone area than conventional dual front speakers resulting in improved bass response and 140 watt power handling. Both stereo channels connect directly to this one speaker. 15 oz. magnet.

101301 58-62 ..........................................................$179.95 EACH
**AM/FM Wonderbar Stereo Radio**

- Fits your dash without any modifications
- Uses original antenna
- Chrome plated die cast nose piece; Wonderbar and pushbuttons look original
- Correct knobs; Wonderbar seeks on AM or FM
- Wonderbar duplicates action of original (seeks up, then rapidly returns to bottom of dial and starts over)
- 10 presets (5 AM, 5 FM)
- 4 x 45 watts RMS output allows up to 180 watts of audio power
- AM dial scale in foreground looks original-FM dial scale in background
- Analog controls look and feel like original radio
- All controls easily accessible. Volume, Bass, Treble, Balance, Fader and Tuning from original-looking controls
- CD or XM (satellite) inputs included
- LED dial lights will never need replacing
- Digitally tuned AM/FM/Stereo front end provides stable, high quality reception
- 1/2” shafts on controls for mounting (same size and thread as original shafts)
- Memory retention for pushbuttons.

**Solid State FM Stereo Conversions**

- Send in your original Wonderbar radio for an upgrade

**Features:**
- The AM/FM can be configured for 1, 2, 3 or 4 speakers with a maximum output of 180 watts RMS (45 watts x 4 channels, 4 ohm speaker impedance, 14.4 volts input). There are several unique options for balance and fader controls including one that does not require additional controls! When practical, the original factory front/rear fader controls can be assigned to either the balance or fader function. Where the original radio did not provide for balance or fader controls, they can be programmed using the tone control.

**How does that work?**

Tune in an FM station and listen to it for a few seconds until you’re familiar with how it sounds. Now quickly tune the extreme bottom of the dial. The station you were just listening to will begin playing again! At this point, the tone control becomes the balance control. Tune the radio to the top of the dial. The last station you listened to will again start playing here. Now the tone control is the front/rear fader! When you tune away from the top of the dial normal tone operation will resume, and your fader and balance settings will be permanently stored!

**“Secretaudio” Radio Hideaway Solution**

With Hand Held Remote!

- Hideaway 200 Watt AM/FM CD controller w/USB MP3/WMA Flash Drive, iPod interface and more. Featuring “RF” (radio frequency) remote control. Leave original radio intact! LCD display unit can be mounted almost anywhere and be controlled by wireless remote from up to 40 feet away. The tuner/amplifier unit (black box) can be hidden out of site (under seat, dash or trunk). Comes w/10’ cable from LCD panel to tuner/amp. Two mounting options included for the LCD control panel! (Flush mount bezel, or a swivel mount bracket!) We have even included the iPod docking cable (iPod not included).

**Features:**
- AM/FM Stereo
- 200 Watts (4x50)
- RF Remote Control
- USB MP3/WMA Flash Drive Player
- iPod Direct Control Interface (built into tuner/amp unit)
- iPod Docking Cable Included
- Alpha Numeric LCD Display Shows Artist / Song title for USB, iPod and Satellite Radio
- Satellite Radio Input (for optional Sirius satellite radio tuner)
- Direct CD Changer Control (cd changer optional)
- Auxiliary Audio Input
- 4 Channel 3 Volt RCA Pre-Outs (for optional Subwoofer Amplifier)
- Electronic Volume, Bass, Treble, Balance, Fader
- 24 Station pre-sets (18FM / 6AM)
- Power Antenna 12V Trigger Lead
- Blue LED Illumination on Buttons and LCD Display w/Contrast Control

Transmission Slip Yoke

Exact reproduction of the original long slip yoke. Fits all 56-62 Corvettes. No need to hunt for marginal used parts — order a brand new high quality part from Corvette Central.

- 581055 16 Spline (7” OL, 5” Splined End)............109.95
- 581063 26 Spline (7” OL, 4 1/2” Splined End)........99.95

How Do You Tell A T-10 From A Muncie?

One way is to look at the side cover shape.

All 56-62 4-speed cars originally had BW transmissions. If you have a 63-82 Muncie, there are two styles: 63-68 uses a stud with a nut, 69-82 uses a bolt to attach the shifter levers to the transmission.

Transmission Mounting Kit

Transmission mount plate doubles as the plate you need to install a Muncie transmission in your early car.

- 531001 56-62 Driveshaft Underbody Metal U-Joint Shield........42.00

- 531056 57-58 T-10 4 Speed Transmission Side Cover - Correct..........................599.00

Moroso High Performance Gear Lube

A multi-purpose, extreme high pressure lubricant recommended for manual transmission, conventional and postraction differentials. Lubricant features a chemical formulation that provides improved adhesion to moving parts to give you more complete lubrication to gears, bearings and bushings.

- 531011 Quart Bottle ...............22.95

Start to Finish Plan

Special Discount Program for complete restoration projects. See Page 5 for more information

Suction Gun Tool ..............16.95

Use for Removal of Transmission or Rear End Lubricants.

Complete Transmission Rebuild Kits

If your transmission is making noise or shifts hard, now is the time to rebuild it before serious damage occurs. These kits are assembled by one of the country’s top transmission rebuilders and contain the following: front and rear main bearings, synchro rings, gaskets, seals, springs, needle bearings, snap rings, thrust washers, main drive nut, and a new countershaft. Many of these parts are hard to find, especially when you need them! Order a kit today and get your transmission back into top condition.

Speedometer Cable Drive Adapter

No more premature failure of tachometer or speedometer cables due to excessively sharp bends. This 90° Adapter offers a sensible solution to problems attaching tach and speedo cables in confined spaces, without affecting the accuracy of your gauges.

532120 R7004 Speedo Gear Sleeve without Speed Sensor ea.85.95

Used when installing a R7004 Transmission in older Corvettes.

Help us so we can help you

When looking for technical help, there are several things to keep in mind. First of all, it is very difficult to help customers with in-depth technical problems if they aren’t well informed. Please review your service or assembly manuals before you call — this will make solving the problem much easier.

HELPER Powerglide Transmission Rebuild DVD

Does your transmission leak oil or does it slip when making a right hand turn? Does it shift and respond as smoothly as it should?

If you have ever wanted to understand the inner working of the Powerglide transmission, you will want to add this valuable 2 hour video to your library. It will take you through a step-by-step explanation of each working part and explain what to look for, what to replace, and how to get your car back on the road.

531035 .................................................... INQUIRE
GM Syncromesh Transmission Fluid
- Excellent as a lubricant
- Withstands high temperature
- Specifically for use in GM manual transmissions
- Excellent as a lubricant

Dextron III is being phased out as a product name. It is being renamed Manual Transmission Fluid. DO NOT use Dexron VI in place of manual transmission fluid in any manual transmissions or transfer cases that specify Dexron III, as a failure may result.
Note: This is a hazardous item and cannot be shipped by air or outside the Continental U.S.A.

5 SPEED TRANSMISSION KITS

Please specify the following when ordering:
- Year of Car
- Engine Size and Horsepower
- Tire Size

Specifications:
- Torque Capacity - 600 lb-ft
- Shift Capacity - 7,500 rpms
- Input Splines - 26
- Output Splines - 31
- Shifter Positions - 3 (Over 25 with STX Shifter Upgrade)
- Speedometer Output - Mechanical and Electronic

12 month product warranty - includes 24 month activation delay so you can finish your project.

53-62 Original Type Convertible Top

53-62 original equipment tops match the original factory convertible tops in every detail, and they are a must for the Corvette owner wanting exacting quality and originality right down to the washing instructions tag. All of our tops are crafted from the finest quality 40 oz. heavyweight vinyl material (where applicable) with black mildew-resistant fabric backing. The crystal clear, heavy-gauge rear window is sewn in for 56-59, and heat sealed in 60-62 as original.

Kit includes top, pads, straps, cord, finish strip with tags, warning tag, and instructions.

**HELPERS**

**Soft Top Latching**

- Eliminates friction scratches and pinch folds to the vinyl (glass) on the convertible rear window when the top is retractable and folded into the top storage compartment.
- The window pillow casing is made of durable but soft (no scratch) poly cotton twill, and filled with treated Dacron 808 to retain pillow shape and contour.
- One size fits all retractable tops with permanent rear vinyl windows.

Deck Lid Hinge Springs — See Page 139
Steering Column Overhaul Kit

It's common knowledge that when you are working with worn gears, you replace them as a matched set. Using our new gears makes it unnecessary to send your column out for rebuild. Simply install these new parts using a 53-62 Shop Manual found on page 6 for reference.

Steering Column Overhaul Kit  Includes steering column shaft with worm gear, sector roller with roller shaft bolt, upper bearing, small bearing and seal kit.

Our specially designed fastener gives the appearance of a rivet and the advantages of a screw for drawing the unit tight.

15” Steering Wheels

- Available in Leather Wrapped or Painted
- Steering with style and comfort.

The ultimate steering wheel for 56-62 Corvette owners. This new wheel allows much easier entry and exit from the driver’s seat and provides a more comfortable grip as well.

No more trying to squeeze past a cumbersome 17” diameter factory wheel and then trying to grip an uncomfortable hard surface. This wheel’s overall diameter is reduced by 2”. Design and appearance of the spokes and center hub is exactly as the factory wheel and it uses a stock hub and horn button. Wheels are available in all factory colors and a selection of custom colors.

Turn into real cruising comfort with Corvette Central’s custom steering wheel!

www.corvettecentral.com
**Shocks**

**KYB Gas Shock Absorber**

KYB high pressure gas charged shocks are an excellent choice for solid axle Corvettes. KYB’s provide high performance at a reasonable cost. Even under the most demanding driving conditions, KYB’s mono-tube design eliminates cavitation and decreases heat build-up. They are backed by a limited lifetime warranty. **Cannot be shipped by air or overseas.**

- 581071 Rear, ea. .................................................. 53.95
- 571107 Set of 4 (ND) ........................................... 189.95

**Delco Gas Shock Absorber**

A premium quality shock that provides excellent ride control. Gas cushioned shocks have an encapsulated gas cell which helps prevent the mixing of oil and air (shock lag). Performer shocks will deliver optimum ride comfort with a wider range of control than standard non-gas shock absorbers. Limited lifetime performance warranty. **Cannot be shipped by air or overseas.**

53-62 C1 Corvette Steeroids™
Power Rack and Pinion Steering Conversion Kit

Speed Direct is announcing the NEW Steeroids™ Rack and Pinion steering conversion kit for 53-62 Corvettes which will update the 1940’s steering design on these classics to 21st century standards. This is a true bolt-on kit that can be power assisted, something never offered on C1’s from the factory! Steeroids™ do not require any drilling, cutting or welding on the vehicle. Tighter, more responsive steering feel and lighter weight are all advantages to this system. Steeroids™ rack and pinion kits include an exciting quick ratio rack yielding approximately 2.5 turns lock-to-lock at the wheel. Steeroids™ kits also include adjustable tie rod ends to effectively eliminate bump steer so that your car not only steers better, it actually handles better! Both power and manual kits are available. Power kits include new steering column and power steering pump. Steeroids™ kits are completely bolt-on so an owner can return to the stock steering at any time, but why would you?

561127  Power Steering with Column ................................................ 3149.00
561084  Manual Steering with Column .............................................. 2,899.00

If your car has Headers you will also need our Mount Kit. When ordering add HDR to the Part Number and add $250. to the price of the Steeroid Kit. For cars with V8 engine.

Get State-Of-The-Art Handling For Your 53-62 Corvette!

BARE CHASSIS: Includes welded bumper-to-bumper profile 2’ x 4’ frame, body mounts, bumper mounts, center frame, exhaust holes, core support, engine mount towers, and trans x-member brackets.
+181021   (ND) .............................................................................. 8,039.00

CHASSIS WITH SUSPENSION: Includes bare chassis, upper and lower control arms and spindles, power rack & pinion, front and rear sway bars, 9” housing triangulated 4-bar links, and Strange adjustable front and rear shocks with springs.
+181057   C6 A-Arms (ND) ................................................................. 16,665.00

COMPLETE CHASSIS: Includes chassis with suspension, 13” front disc brake kit, SVO rear disc brake kit, Strange 31-spine axles, center section mounting kit, Strange nodular-iron center section with posi-traction and trans crossmember. Everything you need for a rolling chassis, less tires and wheels.
+181034   C6 A-Arms (ND) ................................................................. 20,590.00
+ Sheds Truck Freight. Call for price quote.

Computer Designed Chassis
It’s important to note that the suspension of the Morrison GT Sport chassis has been engineered using special software and the frame is designed using contemporary CAD/CAM technology. Accordingly, the vehicle performance and manufacturing accuracy are far superior to what was available over 50 years ago, when the original “C1” Corvette was built.

C6 A-Arm Requires a 17” or 18” wheel.

Tubular A-Arms (Optional)
**Rear Springs**

*If your Corvette’s spring shows no arch — you need a new spring for safety & handling!*

- Springs are shipped with band clamps which will need to be removed prior to installation
- Our steel springs are manufactured to exceed OEM specifications. Rubber lines are installed for no-squeak travel. Replace those worn out, dangerous springs today.

**581064 53-62 Rear Leaf Springs with Mount Hardware. 355.00**

**Important**

Electrical components such as Switches, Regulators, Relays and Horns are NON-RETURNABLE PARTS.

Always refer to a factory service manual when diagnosing engine service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.
### Trunk

**56-60 Gas Shock Trunk/Deck Lid Conversion Kit**

- Converts your springs to gas shocks. Use your original deck and trunk lid arms.

We've Got The Right Stuff!

For years, the 56-62 Door Auxiliary Weatherstrip was made of conventional rubber. The part looked nice but was too hard. We now have the same part molded in soft foam like the original. This will eliminate some very frustrating problems for solid axle owners.

  • = Weatherstrip clip sets include clips, wire retainers, and screws. Our clips were designed to add the correct look to the reproduction door weatherstrips. Yes, the original clips did have a “Fish Hook” barb, but that was to hook the clip to the reinforcement wire which was molded into the original door weatherstrips. The reproduction door weatherstrips do not have this wire.

**Jack, Handle, and Lugwrench**

- 611010 61-62 Jack Handle Pad Set (3 pcs.) ................. 6.75

**Note:** This is a reproduction of the 53-62 Corvette jack. We do not recommend it to be used to lift the car as the design is over 50 years old. We recommend buying a heavier duty jack to use to lift the car. Never work on a car or get under a car while being lifted or supported by any jack! Use jack stands!

We carry only OEM or American Made Reproduction Weatherstrip — No Foreign!

Beware!

Correct

59-62 Trunk and Deck Lid Weatherstrip with 3 longitudinal ribs as original

Corvette Central now offers the correct trunk and decklid weatherstrips for ’59-62. It has the 3 longitudinal ribs as described in the NCRS Judging Manual.

We now have the correct weatherstripping as specified in the NCRS Judging Manual. The new ’61-62 deck lid weatherstrip has molded ends and three ribs identical to factory original weatherstripping. If you want to be correct, this is the right stuff.

Correct Trunk and Deck Lid Weatherstrip

- 631602 53-58 Trunk Lid Weatherstrip
- 631605 59-62 Trunk Lid Weatherstrip - Tubular
- 631202 53-58 Deck Lid Weatherstrip
- 631210 59-60 Deck Lid Weatherstrip - Tubular
- 631215 61-62 Deck Lid Weatherstrip w/Molded Ends

#631210 Weatherstrip is 59-60 type with no molded ends. Can be used as a replacement for 61-62 without molded ends.

Hood

- 631401 53-57 Hood Ledge Weatherstrip
- 631405 58-62 Hood Ledge Weatherstrip
- 631410 59-60 Hood Front Rubber Seal (Air Dam)

Windshield

- 631703 53-55 Windshield Channel Weatherstrip
- 631705 56-62 Windshield Channel Weatherstrip
- 631706 56-62 Upper Windshield to Frame Filler Strip
- 631702 53-55 Windshield Frame to Body Weatherstrip
- 631701 56-62 Windshield Frame to Body Weatherstrip
- 371004 53-55 Windshield End Frame Seals, pr.
- 371208 56-62 Windshield End Frame Shim Seals (6 pcs.)

Cowl Vent

- 631501 53-62 Cowl Vent Weatherstrip

Always specify left or right when ordering (L or R) parts (Left = driver’s side, Right = passenger’s side).

HUBCAPS - THE CHOICE IS YOURS

Our policy has always been to sell American whenever possible. In this case we feel our customers should make their own choice. Both hubcaps we offer vary slightly from an original. We feel that the overall quality of the U.S. made hubcap is better. Please consider this: In the course of restoring your car you may have already purchased some imported parts without even knowing it. Some of those parts are inferior and most are not a good value. We consider the imported hubcap to be a good value, and feel you should be the judge.

</tr>
</tbody>
</table>

These new rims have the nuts to hold on your wheel covers. They are also manufactured so they can be used with tubeless tires and have extra back clearance for use with single piston disc brakes.

These wheels are 5" and use the full hubcap. The 5 1/2" wheel was designed for use with the RPO “Dog Dish” hubcaps. Welded rims were originally used on Corvettes.

Note:

Warning: Due to the manufacturing process of the reproduction tires, they may not fit the spare tire storage well. They may also cause the spare tire board to not sit flush. This problem can often be resolved by under inflating your spare tire. Owners of Corvettes have long asked for a tire with a classic wide-white-wall in radial construction. Classic radials are for you! These are not retreads or the ground-in painted-on gimmicks. These are the real thing! “State of the art” polyester and steel belts are used in the construction of Classic radials offering excellent mileage, radial handling and superb performance. An aggressive all-season tread design offers performance in any weather condition.

From the factory, the following tire brands were installed on the Corvettes:

**Flat Stoppers**

Parking your car for long periods of time on any flat surface can produce flat spots on most any tire. It is very common when a car is parked for winter storage. Most car enthusiasts know about the “thumping, whap, whap” that flat spotting causes when you first drive the car again. However, few know what other problems can occur. Flat spotting can decrease tire life and generate dry cracks in the sidewall of the tire. Steel belted radials which are left cooling and warming on concrete on a daily basis can also cause a decreased tire life, and this is even more likely when the tire is under-inflated.

Whitewall Cleaner
• Quick One Step Cleaning
• Bleach Free! Safe on the Whitewall Tires
• No Brush, Bucket or Gloves Needed
• Works Great on Raised White Letter Tires Too!
102694 7” x 8” Wipes ........................................ INQUIRE
111550 23 oz. Spray .......................................... INQUIRE

Adam’s Green Wheel Cleaner
• Eco-Friendly Wheel Cleaner
• Tough on Dirt, Gentle on Wheels
• Safely Cleans Wheels and Tires Too
• No Harmful Acids Butyl, Butyl Ethers or Petroleum Distillates
You can safely use it on most types of wheels including clear coated, painted, coated and anodized aluminum. This is not a spray-on, hose-off cleaner. Adam's Green Wheel Cleaner requires agitation with a brush, sponge, or wash mitt to break the initial bond between the dirt and the wheel. Spray-on, hose-off type cleaners are harsh, acid based cleaners that damage wheels over time.
111598 16 oz. .............................................. 12.99

Forever Black™ Tire Gel
• Black pigmented color
• Does not attract dust
• Water based
• Fast drying
• Silicone & oil free
• Does not sling off tires
• Environmentally safe
• Protects against UV damage
Unlike all other tire dressings on the market, Forever Black is a black pigmented polymer. This environmentally friendly product will restore the faded bronze look of your tires to their original appearance. The hand held applicator eliminates the mess of oversprays. One easy application will protect and restore your tires.
101816 8 oz. .................................................. 13.95

Meguiar’s® Hot Shine Tire Foam
New foam technology breaks clear on the tire (with no milky mess) leaving a deep black, rich shine. In one easy step, the thick, luxurious foam coats the tire, quickly penetrates, lifts and releases dirt and road grime leaving behind an even, rich shine.
102556 19 oz. .................................................. INQUIRE

California Micro Fiber Wheel Duster
Micro Fibers effectively trap dust and dirt
• The “fork” easily spreads when pushed on an object for true one-handed convenience
• It “clamps” around the object to clean both sides at the same time
• Can also be used as a conventional duster on any surface
• Easily cleaned to allow repeated use time after time
Use to remove annoying brake dust and much more! Also great for roof racks and automotive grilles and can be washed and re-used hundreds of times.
101948.................................................. 11.95

Meguiar’s® Hot Shine Tire Foam
• Quick One Step Cleaning
• Bleach Free! Safe on the Whitewall Tires
• No Brush, Bucket or Gloves Needed
• Works Great on Raised White Letter Tires Too!

Adam’s Deep Wheel Cleaner
• Changes Colors As It Works!
• pH Neutral and Safe for All Wheel Finishes
• Dissolves Stubborn Metallic Contamination
• Great for Cleaning Brake Dust from Modern Sport Brakes
Deep Wheel Cleaner is safe for all wheel finishes. So whether you have factory clear coated wheels, aluminum, powder coat, or paint the highly effective cleaning solution will remove the stubborn brake dust, but will never harm your wheels.
111628 16 oz. Bottle ........................................ 14.95

Wheel Detail Brush
Conforms to any wheel including wire wheels. Gets dirt out of tight spaces.
101228 .................................................. 5.95

Mothers® Chrome Polish
Designed to provide extra sparkle and protection to wheels, bumpers, and all chrome accessories. Both mild and effective, it cleans, polishes, and protects in one easy application – It’s great on mirrors and glass too!
101568 12 oz. .................................................. INQUIRE

Turbo Stick Wheel Cleaning Tool
The Adam’s Turbo Stick Wheel Cleaning Tool is the most innovative wheel cleaning tool ever invented. Plus, it’s every guys dream...it works with one of your power tools! Connect the Adam’s Turbo Stick Wheel Cleaning Tool to your cordless drill and let it do all the hard work. It does an amazing job, and it can’t harm your wheels!
102798 (ND)..............34.95

56-62 Wiper Motor Rebuild Service

Rebuild and restoration services are available for your 56-62 wiper motor. Additional parts or repairs are extra on all motors.

Our Show Car Specialty! Complete rebuild including cadmium plating on originally plated parts. Detailed like you wouldn’t imagine - a must for that correct car!

Includes complete disassembly, cleaning, testing, service switch, armature, pump assembly, etc. Reassemble with new hardware. Aluminum surfaces restored to original appearance. New foam firewall seat installed. Allow 4 weeks for service.

651160 Average Cost 220.00

Rebuild Prices are figured when the work is completed, so prices will vary. Prices are plus parts or repair labor beyond normal services.

Grommet Sets Includes 301156 and 301159.

The Corvette restorer’s ‘ULTIMATE’ bulb kit. It replaces all interior and exterior light bulbs in a Corvette (except headlights) and includes instructions on the location of each bulb. No more hunting for information on hard-to-find bulbs.

These kits are a must for anyone installing a new dash harness in their car or those who might run into trouble on the road.

Important
Electrical components such as wire harness, bulbs and fuses are NON-RETURNABLE PARTS
Always refer to a factory service manual when diagnosing engine service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.

Quickly dissolves and removes grease, oil, dirt and other contaminants. Leaves no residue. Eliminates need to dismantle most electrical equipment. Non-flammable.

101230 Electrical Parts Cleaner-16 oz. Aerosol ….. Inquire
What is Our Custom Updated Series Wiring System?

In basic terms, it’s the simplest way to update your classic vehicle’s wiring with the customized upgrade you want installed. (Upgrades may include: newer steering column, H.E.I., alternator, aftermarket heater & A/C system, reproduction tail light assembly, upgraded gauges, etc.).

Tailored to the needs of the resto-rod builder, and designed with the foresight, engineering, and flexibility to bring your 1953-62 Corvette’s electrical system up to date. This is not a generic wiring kit that fits everything from street rods to dune buggys. This headlight-to-tail light system was designed specifically for C1 Corvettes! You choose the routing of the wiring to fit your needs and to accommodate all of the most popular custom/aftermarket and reproduction/original accessories available! This 12 volt system also includes many of the Corvette’s basic electrical devices, and detailed installation instructions.

- 571220 (ND) .......................................................... 739.95

New Products

CHECK OUR WEBSITE
Corvette Central has been a leading manufacturer and distributor of Corvette parts and accessories since 1975. In 2001, we moved into our current facility which included the implementation of an automated order picking system. This allows us to better control inventory and to pull orders efficiently. In 2004, we added on a new manufacturing facility where we produce 4,000 of the over 60,000 parts we sell.

Corvette Central is proud to offer the most comprehensive and detailed parts catalogs on the market today and produces a different catalog for each Corvette generation. All catalogs are also online with full search and order features. From the first V8 to C8, only Corvette Central has it all.

Who we are...

Family owned and operated for over 45 years

Our primary product is your satisfaction

Customer satisfaction has always been one of our main objectives. We aren’t talking about a no hassle return policy here—everyone offers that. We are talking about remedies for products that don’t seem to fit or work right.

At our end, we have over 45 years experience in the manufacturing and sales of Corvette parts. This unparalleled background assures Corvette Central customers that the products they purchase are the best available, and if a problem should arise, we know how to help.

Product assistance hours: Monday thru Friday, 9:00 to 5:00.

When looking for product assistance, there are a couple of things to keep in mind. First of all, it is very difficult to help customers with in-depth technical problems if they aren’t well informed. Please review your service and assembly manuals before you call—if this will make solving the problem much easier.

Last but not least, whether you are doing the work or having it done... be sure to call us at the first sign of trouble. It’s very hard to resolve a problem after the part in question has been damaged, no matter who’s at fault.

Let’s be fair, everyone makes mistakes. The important thing is working together to resolve them.

Owning your Corvette can be a very rewarding experience. We also understand how frustrating it can be when things aren’t going smoothly and there’s no one to assist you. We are here to help.
