Be sure you have the catalog that’s right for you…let us know the year of your Corvette.
Our primary product is your satisfaction

Customer satisfaction has always been one of our main objectives. We aren’t talking about a no hassle return policy here – everyone offers that. We are talking about remedies for products that don’t seem to fit or work right.

At our end, we have over 40 years experience in the manufacturing and sales of Corvette parts. This unparalleled background assures Corvette Central customers that the products they purchase are the best available, and if a problem should arise, we know how to help.

Product assistance hours: Monday thru Friday, 8:30 to 5:30.

When looking for product assistance, there are a couple of things to keep in mind.

First of all, it is very difficult to help customers with in-depth technical problems if they aren’t well informed. Please review your service and assembly manuals before you call — this will make solving the problem much easier.

Last but not least, whether you are doing the work or having it done... be sure to call us at the first sign of trouble. It’s very hard to resolve a problem after the part in question has been damaged, no matter who’s at fault.

Let’s be fair, everyone makes mistakes. The important thing is working together to resolve them.

Owning your Corvette can be a very rewarding experience. We also understand how frustrating it can be when things aren’t going smoothly and there’s no one to assist you. We are here to help.

We are the Caretakers of the Legend, and the Legend is Quality.

We know that your Corvette is important to you and you will only put parts on it that look good and work right. That is why our quality standards are so high. If we wouldn’t put it on our Corvette, we won’t list it. Some of our vendors are just a guy in his garage that figured out how to make a particular part that you need. Sometimes he might have a problem getting it made quickly. We do our best to keep in contact with our suppliers every day to keep the parts coming and keep good communication with you, our Valued Customer. We’ve been doing it for over 40 years and we will keep doing it to keep the Legend going strong.

WAYS TO ORDER

Order seven days a week, 24 hours a day.

We accept all major credit cards and PayPal.

Dealer Wholesale Program
Corvette Central offers a wholesale discount program that is based on the amount your company purchases annually.

To Qualify:
• You must be an auto related business
• Your business needs to have a current sales tax license from the state in which you do business.
Please go to our website for more information and the application forms.

Start To Finish Discount Program
Private individuals planning a complete restoration project should go to our website for information on this program designed with them in mind.

Please Check Our WEBSITE for special Holiday hours.
• Corvette Central is closed from December 24 through January 1.
13550 Three Oaks Rd. • Sawyer, MI 49125
NOTE ON SHIPPING CHARGES

Changes recently made by UPS have impacted shipping costs. UPS no longer uses ACTUAL WEIGHT of packages to calculate shipping. They now use "DIMENSIONAL WEIGHT" of packages. We measured every product we sell and entered that information into our system. This enables our system to calculate the size box/boxes your order will ship in and calculate the shipping costs when the order is placed. Retail customers pay shipping for entire order on the 1st shipment. Corvette Central audits the calculated shipping charges after each order is complete. If we have overcharged you, we will automatically send you a Merchandise Credit for that amount you overpaid. Currently this is the best way to be fair to our customers.

BACK ORDERS

Due to the wide variety of specialty products we distribute, back orders are unavoidable in some cases. Normally back orders are shipped in 7 to 10 business days. We automatically ship back orders or, if you wish to cancel your back order, please call or email for a cancellation number.

RUSH SERVICE

If you need your order processed and shipped the same day, we offer ‘RUSH’ service. For an additional $3.95, any order received before 3:00 PM ET will be processed and shipped that same day. Orders received after 3:00 will ship the following business day using the “RUSH” service.

See the back of your invoice for a complete list of Return Policies and Procedures.

IMPORTANT

INSPECT ALL PACKAGES IMMEDIATELY!!!

All damages, shortages, or errors must be reported within 7 days of receipt of package. Please have invoice ready when you call.

DAMAGED ITEM — SHIPPING RELATED

• If there appears to be any external damage, i.e. crushed or dented side or corner, any tears or holes in package, immediately inspect contents of package for parts damage. If damage is found, DO NOT CONTACT THE CARRIER. IMMEDIATELY CALL CORVETTE CENTRAL AT (800) 345-4122 to report any damages.
• Do not destroy the package or box that the item shipped in. Please save it for inspection by the carrier.
• Have the package and invoice with you when you call.
• If a claim is filed, arrangements will be made for pickup of package with entire contents.

DAMAGED ITEM — NON-SHIPPING RELATED

• Call us at 800-345-4122 immediately with description of damage and we will process a replacement and make arrangements for pickup of damaged item.

SHORTAGES AND MISTAKES

• Call us at 800-345-4122 immediately and we will process an exchange or replacement as required.

RETURNS

• There is no need to call for authorization. Fill out the return slip enclosed with your shipment, and send the package back to us. It is recommended that you insure the package and retain your receipt of shipment. Items must be returned in the original packaging for credit.
• All returns must be made within 60 days of invoice date. After 61 days a restock fee will be charged.
• No returns on electrical products or tools.
• Items that have been installed, altered, damaged or are otherwise not in a condition to be resold will be returned to the customer at their expense.

REFUSED SHIPMENTS

• Shipping and handling charges on refused shipments are the responsibility of the customer.

CURRENT PRICES

• See our WEBSITE for Current Prices.

OVERSIZED SHIPPING CHARGES

• Some products have additional shipping charges due to heavy weight or oversize dimensions.
Pertaining to orders shipped within the continental USA:
Ground service freight charges for your entire order will be charged at the time of the first shipment. Any backorders shipped after the initial shipment will not incur any additional shipping charges. The shipping fees are based on the calculated weight of the parts ordered and the destination zip code according to current UPS and USPS shipping rates.

Sawyer is located in Michigan’s Harbor Country, a very popular summer resort area. The dunes, beaches, vineyards and the harbor attract thousands of visitors each year.

STOP IN AND SEE US! Exit number 12 off I-94. Then west .4 miles on Sawyer Road to Three Oaks Road. Turn left and continue south on Three Oaks Road .8 miles to 13550.

Fast, accurately packed orders, combined with our central location, will get your order to you promptly.

CUSTOMER INFORMATION IS CONFIDENTIAL

Please be assured that we do not sell our customer list or provide access to our customer information.

**53-67 NCRS Pocket Spec Guide**

It is a convenient 4” x 6” size that fits right into your pocket. Perfect to carry along at swap meets, junkyard searches, and judging events. Quick reference technical encyclopedia of basic Corvette information including major mechanical and electrical component part numbers, casting numbers, engine, transmission and axle identification codes, original prices, options and production quantities, power teams, color combinations, body codes, and much more! Softbound with approximately 168 pages.

- 101378  53-67 ...................................................... 19.95

**Perfect Bound Assembly Instruction Manuals**

Designed for conscientious owners and restorers, these manuals enable you to know what is stock, what is original, what is right! Reprinted through the courtesy of Chevrolet Motor Division, manuals are accurate reprints of the manuals used on the Corvette assembly lines! Actual “on-line” notations remain so that the information is factory original and correct. All parts, part numbers, and available options are included with original diagrams. Page numbers and indexes have been added to provide quick reference. All manuals are original size and loose-leaf three-ring binder style.

**Assembly Manual CD**

We now have our printed assembly manuals on CD. These are the original manuals we already carry – scanned with Optical Character Recognition software and saved in PDF format. That means the PDFs on these discs can be searched by keywords using Acrobat’s built-in search function, making it faster and easier to find exactly what diagram you are looking for. When you’ve found it, print out just the page you need and nothing else.

**Shop Service Manual**

Each book details complete service, maintenance, mechanical repairs, electrical information and the Corvette body for a particular year model. These manuals were used by dealers to service your Corvette. Excellent photos and explanations help you tackle a multitude of repair and maintenance jobs.

**66-82 Shop Manual**

Over 300 pages of solid repair, troubleshooting, and tune-up information are combined from 17 years of GM service manuals. Covers small block, big block, tune-up, troubleshooting, fuel systems, ignition, cooling, driveline, chassis, electrical, and specifications. One great book for the Corvette owner who works on his car at home or the owner who needs reference to understand the mechanics of his or her Corvette.

**How To Restore Your 1963-1967 Corvette Book**

By Chris Petris

This book offers exceptional step-by-step information in color and focuses on real-world restoration techniques. In addition, it contains essential authenticity information and key considerations involved in the restoration process. This guide covers all aspects of the restoration process, including engines and drivelines, bodywork, paint, interior and trim, suspension, brakes, chassis, and steering. Softbound, 192 pages, 140 color photos.

**1953-2019 Corvette Black Book**

The gold standard in Corvette reference! New and greatly expanded with even more facts and figures up to 2019. Includes production figures by color, more option figures, expanded engine data, block and head numbers, and month of production. 160 pages with 71 photos. 4-3/8" x 10". Softbound.

**Corvette by the Numbers**

This essential Corvette parts reference tells you how to identify all Corvette drivetrain parts for 55-82. Author Alan Colvin identifies and verifies by casting number, the correct engine and drivetrain components for your exact model of Corvette. GM materials consist of engineering blue prints, technical service bulletins and build sheets. Included is information such as Delco starters, radios, LOF glass codes and year-by-year model changes. Whether you are new to the Corvette hobby or a seasoned Corvette judge, this book is a valuable reference. 570 pages. Softbound, black & white.

53-72 Chassis Restoration Guide
A complete guide to restoration for the rolling chassis

You’ll find bumper to bumper coverage of all components and systems including wiring and vacuum diagrams plus diagnostic and troubleshooting charts. Detailed explanations of the simplest repairs to the most complex operations are supported by hundreds of photos, drawings, and diagrams. This manual makes any repair easier for the do-it-yourself Corvette enthusiast. Softbound, 482 pages.
111960 (ND) ..................... 25.95

63-67 Body Repair Guide CD’s
If you or your body shop are going to make fiberglass repairs to a 63-67 Corvette, then these two books are required reading. Both books are written to guide the reader in techniques used for fiberglass repairs and panel replacement specifically for 63-67 Corvettes.

Written in a step by step format for both the do-it-yourselfer and the professional, the books include detailed photos and illustrations to clarify every step. Front end repairs are covered in Volume 1 - 112 pages with more than 175 black and white photos. Repairs to the rear of the car are covered in Volume 2 - 128 pages and over 20 photos and illustrations.

Jerry
These lightweight cotton twill jackets are designed for comfort, function, and protection from the elements in spring, summer and fall or year round in the southern climates. The jackets are satin lined with double inside pockets. The right inside pocket has a zipper closure for added security for your wallet, keys or cell phone. Black with red or blue side inserts, double welt pockets in front, double snap cuffs and elastic waist band, zipper front with standard collar. Emblem on left chest and full back. Specify size: M, L, XL, XXL, XXXL.

Devon and Jones Player Jacket, 85% polyester, 15% nylon; pull snap pockets; split sleeves for a better fit; inside zip pocket; storm flap; wind, water and wrinkle resistant.

Specify size: S, M, L, XL, XXL.

Specify Jacket Color: -01 Black -02 Stone -03 Navy

ONLY $159.00 EACH

Only $89.95 EACH

Nothing says “you’ve arrived” better than our buttery-soft lambskin bomber. Among the softest of leathers, lambskin is soft and lightweight yet supple and durable. Attention to detail makes this jacket a must have: generous bomber cut flatters any body shape, antique silver zippers and snaps, adjustable lambskin cuffs, double welt front pockets for extra strength and a comfy-fit covered elastic waistband. A full color emblem is brought to life through smooth embroidery on left chest and back. Fully lined in satin. Black. Imported.

Specify size: S (38-40), M (42-44), L (46-48), XL (50-52), XXL (54-56), XXXL.

ONLY $289.00 EACH

Black Center Console Creation Cushion
• Dual Cup Holders
• Ruggedized Storage
• Replaces Stock Center Cushion
• OEM Appearance
All consoles are designed with dual retractable cup holders, padded leather armrest, and storage space for the items that tend to clutter your car during road trips. Design has been proven to withstand the test of time, as well as the rigors of everyday use (and they look great doing it.)

102879  63-66 Black Center Console Creation Cushion (ND)  .  329.95

63-67 Black Travel Buddy
• Installs in 2 seconds
• No messy tape or screws
• Can be used by driver or passenger
• Looks like OEM option
Finally a drink holder for the passenger side that looks good...and it works!

102251 ........................................ 39.95

Console Cup/Coin Holder
Molded clear plastic cover is designed to provide a handy place to secure 2 cups and keep change while protecting console from dust and scratches. Snug fitting cover can be easily removed and reinstalled.

102778  with P/W .................................................. 54.95

Bullet Console
The “C-2 Bullet” Console was specifically designed to fit the 1963 through 1966 Corvette.
These hand crafted armrest consoles come complete with a king size drink holder and a much needed storage compartment. These consoles are upholstered using high quality automotive grade vinyl to match the original upholstery.
The combination upholstered armrest/drink holder opens to reveal a 3” deep x 4 1/2” wide x 14” long storage compartment—all under a comfortable armrest.
Installation is fast and simple! Just remove your stock armrest and place the new Bullet Console between the seats and you’re ready to cruise! NO permanent change is needed to your interior.
NOTE: For a shorter console that will clear the seat belt mount on your console use P#102828.

**Cleartastic Paint Protectors**
- Protects paint from stone chips.
- Adheres by static electricity.
- Reusable.

Cleartastic is a great way to protect your paint. To apply pre-cut flexible film, simply press it on. To remove, just peel it off. The clear, thin film lets the body color show through so that the product is almost invisible.

102142 63-67 Behind Rear Wheel, pr. .......................... 39.95

**Paint Protectors**
The Protectors keep stones and road debris from damaging your rocker panels and fenders. Clear invisible material maintains the clean lines of your Corvette while offering lasting protection. Clips included. Set of 4.

**Door Handle Scratch Guards**
Prevents or covers scratches on the area below the door handles. Static cling film in black or clear stays in place without adhesive. Can be removed and re-installed.

The Glosser® is the easy waterless way to give your Corvette a last minute quick detail. It contains cleaners and waxes in each 18 x 25" wipe, giving you a clean high gloss finish. Each re-sealable package contains 5 wipes. Keep a pack in your car for anytime, anywhere detailing.

101713.................... 11.95

The Absorber® will dry your Corvette faster and easier than chamois or towels. Gentle on all automotive finishes, the Absorber absorbs 3 times faster and holds 50% more water by surface area than a hide chamois. Unharmed by grease or oil it can be machine washed and it resists tearing or shredding. Comes in a plastic storage tube for damp storage. Generous 27" x 17" size.

101664................ 12.95

Genuine Leather Chamois
- Dries streak free and spotless

Cham Easy “The World’s Fastest Chamois”, is a revolutionary product to dry your car after rain, dew, or washing that leaves NO SPOTS and NO STREAKS. For people who swear by their chamois cloths, terry towels, or water blades, this amazing flexible squeegee could replace every one of these devices and do the job better.

Cham Easy can conform to any contour. Get in the grooves, hug the curves, and bend over rises. Soft all over there are no sharp or hard parts to scratch or dent your vehicle. Wonderful for even the most delicate paint jobs.

Wheel and Tire Cleaners – See Page 183
Invisible Under Carriage Spray
Adam's developed this special product to make your wheel wells and under carriage completely invisible. Spray after a wash and before detailing for best results. You’ll love the low-gloss, dark finish that this Invisible Under Carriage Spray leaves behind. Guaranteed to please.

Brilliant Glaze
Adam’s Brilliant Glaze takes personal reflection to a new level. This liquid glaze adds depth and clarity to chrome, glass, and paintwork. Brilliant Glaze is a top seller for its extreme ease of use and for its ultra-high gloss results. Product can be used in direct sun and has no dust. Shake well before and during use. Product separates by design. Not for use on oxidized finishes.

Adam’s Strip Wash
Adam’s Strip Wash is a concentrated soap blend that removes any wax and sealant protection as you clean your ride, preparing it for paint correction session with a machine polisher or hand polish, or to start clean with a fresh layer of sealant or wax.

V.R.T. (Vinyl, Rubber, Tire)
Enhance and protect the appearance of plastic, rubber, tires, moldings, dashboards, and door panels. Adam’s V.R.T. contains no harmful silicone or alcohol. The thick moisturizing cream applies easily with a sponge and will not leave a greasy film, attract dirt, or harm paint and glass. Added U.V. protection keeps vehicle interiors and exteriors looking and feeling like new.

In & Out Spray
Watch your faded and dull trim go from boring to brilliant with a single treatment of one of our all time best products.
An aerosol spray dry to the touch within moments and still capable of restoring your faded and dull plastic, rubber, and vinyl trim to like new condition with just a single spray. Use this amazing product on all the hardest to reach areas, like air conditioning vents, wiper cowls, grilles, and even under the hood to dress your engine compartment.

Detail Spray
This “Best of Show” winner is a favorite at car shows. Use as a waterless wash, a clay bar lubricant, or to enhance the depth and clarity of paint, chrome, plastic, aluminum, and glass. Specially formulated lubricants gently remove dirt, smudges, and grime, leaving surfaces with a smooth, ultra-high gloss finish. Use in the sun or shade, and in hot or cool temperatures.

Buttery Wax
Leading the charge in technological advances, Adam’s Butter Wax is formulated with a special blend of polymers, resins, and natural Carnauba. Butter Wax contains no cleaners or abrasives, and will not stain plastic or rubber. Always treat an imperfect finish with Clay Bar and Polish before applying Butter Wax.

All Purpose Cleaner
Tough On Dirt But Easy On Your Car
• New Concentrated Formula produces more suds
• Gentle on all surfaces and pH neutral
• Slickest formula ever, reduces the changes of swirls
• Safely Cleans Your Foam Buffing & Polishing Pads
• 16 Oz.
A degreaser that’s guaranteed to be one of your favorite products! Safe, easy and effective for a number of jobs.

Metal Rescue Rust Remover

Metal Rescue is an acid-free, non-hazardous and safe rust-removing liquid. It is water-based, biodegradable, non-toxic and environmentally friendly. No messy acids or creams needed, with Metal Rescue simply soak, check and rinse/dry. Metal Rescue is a clean, safe and easy option for any home improvement enthusiast looking to remove rust from metals.

102894 Gallon .................................................. 24.95

Rust Preventative Paint

POR-15® is a high-tech, high performance rust-preventive coating designed for application directly on rust or seasoned metal surfaces. It dries to an incredible rock-hard, non-porous finish that won’t chip, crack, or peel, and it prevents rust from recurring by protecting metal from further exposure to moisture. Use it to coat rusty frames, floor pans, farm equipment, or even a heavily corroded battery tray. POR-15® is sensitive to UV light (sun) and must be topcoated for prolonged exposure to sunlight. Topcoating is not required for areas not exposed to sunlight.

101537 POR-15® Quart (Gloss Black) ........................................... 50.95

POR-15® Starter Kit

Includes POR-15®, Metal Ready™, Marine Clean™ Paint Brushes, Latex Gloves. Enough to cover 12 square feet.

101566................................................................. 22.00

POR-15® Tie Coat Primer

A special interlocking primer for painting over the top of POR-15® with any type or color of paint you choose.

101574 Quart .......................................................... 31.00

Marine Clean

MARINE-CLEAN™ cleans and degreases in one application without leaving residues, noxious fumes or flammable solvents. No other cleaner works as fast or as well. It makes petroleum-based cleaners almost obsolete. MARINE-CLEAN™ removes grease, oil, mildew, algae, musty odors, soaps, films, waxes. Use it to clean canvas, nylon, holding tanks, grease traps, auto parts and more.

101849 Marine Clean-Gallon, ea. 23.95

POR-15® Metal Ready-Neutralizer

Provides the best adhesion on any surface, including aluminum and shiny polished metal surfaces. The simple one-step process gently etches metal, creating an ideal anchor pattern for coating such as POR-15, while simultaneously leaving a zinc phosphate film to promote chemical bonding of paint and steel. Metal-Ready is not caustic, corrosive, toxic or flammable.

101842 Por-15 Metal Ready-Neutralizer - Quart, ea. .............. 17.95

Rust Encapsulator Black Paint

• Epoxy-fortified for better adhesion and topcoat compatibility.
• Penetrates deeper to prevent rust from spreading or forming, even in hard-to-reach areas.

102866 15 oz. Aerosol ............................................. 12.95

POR-15® Gloss Black Top Coat Paint

• Direct to Metal Rust Preventative Paint!
• No Need for Primer or Undercoat

Blackcote is non-porous and will not crack, chip, or peel when properly applied according to directions. It has amazing scratch and abrasion resistance and is similar in strength to regular POR-15 Rust Preventive Coatings. Blackcote is not sensitive to ultra-violet light and may be exposed to sunlight without damaging consequences. Blackcote has excellent adhesion characteristics and may be applied over POR-15 Rust Preventive Paint months or years later with proper preparation.

102712 14 Ounce Aerosol, ea. ........................................... 23.95

Exterior Touch Up Paint

Heal the nicks and seal the scratches. Our Exterior Touch Up Paint matches original colors. Includes a brush for precise application. 1 oz. bottle.

*Specify Color*
331312 ............................................................... 27.95

Paint Chip Repair Kit

Finally! A solution for repairing paint chips and scratches. Just apply your color matching touch up paint. Let dry for 2 hours up to 4 days (or longer), and then remove the Blob in 15-30 seconds with the Blob Eliminator leaving the paint inside the chip or scratch without affecting your original paint.

101857 ........................................................................... 39.95

Metal And Plastic Buffing Kit

Kit Contains:
• Black Emery Cake
• Brown Tripoli
• White Rouge
• Red Rouge

This kit is packaged especially for the industrial/commercial and workshop trade that requires a handy ready-to-use buffing wheel and polishing compound kit, for immediate or occasional use. Shelf life storage is indefinite.

102973 For Use with Electric Drill-1/4” Shaft ...................... 44.95

Plastex Plastic Repair Kit

Plastex has created a plastic-repair kit that not only allows you to fix cracked and damaged parts, but also re-create parts with missing pieces. The Plastex kit is available in three different colors of plastic powder material (white, black, and clear), the trigger material, applicators, quick release pads, and even fiberglass fabric for repairs requiring structural support. For cracked areas, repairs can be made in a matter of minutes, with plastic hardening taking two to three minutes. Best of all, the new Plastex material is tougher than the surrounding plastic.

102713 Black (High strength and heat resistant) .......................... 14.95
103854 White (Best adhesion for general repair) .................... 24.95
104948 Clear (Transparent for general repair) ....................... 17.95

*Specify Color*
100% 316L stainless steel pigment. Rust proof. 13 oz. aerosol. Works great for the look of raw steel, especially on drive shafts and 1/2 shafts. Stainless Steel Paint

Corvette Central has tested and used a variety of detailing and restoration paints. As a result, we have chosen paints that we believe work the best and produce the most accurate finish.

All paints are 12 oz. aerosol. Hazardous and aerosol materials such as paint cannot be shipped by air or overseas.

**Cast Blast Paint**
An ideal choice if you want to restore that cast iron gray appearance. Protects cast iron parts and maintains their sandblast factory appearance. Use on drive train yokes, spindles, pitman arm, tie rods, idler arm, brakes, etc. Cast Blast (not for exhaust) is fast drying and provides excellent adhesion and protection.

**Cast Blast Hi-Temp Paint**
A 1200° heat resistant SS coating ideal for exhaust manifolds. This spray will not burn off or discolor.

**Alumi-Blast Paint**
Restores a new aluminum look to alternators, intake manifolds, transmission housings, etc. Non-smudge formula protects and will not rub off.

**Engine Paints**
Fast dries to an extremely rugged, high heat-resistant finish. Repeated exposure to engine heat up to 500°F will fuse the enamel to the surface. Resistant to oil and gasoline, will not crack, lift or peel and it can be recoated at any time. Colors are exact matches to original engine manufacturer standards.

**Synthetic Zinc Chromate Primer**
This paint duplicates the olive green zinc chromate primer that the factory used, but performs much better. Prevents rust and provides a smooth tough surface for top coatings. Use on body “birdcage” metal components and more.

**Stainless Steel Paint**
Works great for the look of raw steel, especially on drive shafts and 1/2 shafts. 100% 316L stainless steel pigment. Rust proof. 13 oz. aerosol.

**Bonding Adhesive & Filler — See Page 92**

**Exhaust Paints and Coatings — See Page 82**

**Low Gloss Black Paint**
For the factory look on various underhood and chassis components. Uses include:
- Wheel Wells
- Under Car Blackout
- Contrasting Glosses

103536 12 oz. ......................................................... 10.95

**Medium Gloss Black Paint**
For the factory look on various underhood and chassis components. Uses include:
- Engine Pulleys
- Radiator Support
- Bumper, Engine and Frame Brackets
- Clutch and Brake Pedals
- Power Steering Pump and Pulley
- Oil Filter Canister
- Battery Tray

102012 12 oz. ......................................................... 10.95

**Hot Spot Hi-Heat Resistant Spray Paint**
A special formulation designed to withstand temperatures up to 1200°F (648°C) on a continuous basis. Must be heat cured at a minimum temperature of 400°F for two hours. More than one coat may be required for full hide. DO NOT use a primer.

301187 Black Hi-Temp Paint -12 oz. Aerosol .................14.95

**Engine Gloss Black Paint**
Works great for repainting your air cleaner or any other gloss black items on engine or exhaust where a hi-temp paint is required. 300° heat resistant. Gas and oil resistant.

102053 .............................................................. 11.95

**Diamond Clear Gloss Paint**
This paint can be applied directly to a cured Automotive basecoat, Standard solid color paints, and Single Part or Two Part paints. It can also be applied to Non Ferrous metals including Aluminum, Alloys, Brass, Chrome, and Copper. This special self-leveling formulation when properly applied will not chip, crack, fade, or yellow. Resistant to fuels and temperatures up to 300°F, this product is ideal for underhood applications (except exhaust manifolds). Great for polished mag wheels, aluminum valve covers.

102019 15 oz. .......................................................... 19.95

**Rust Prevention Magic**
Keeps Metal Parts Looking Brand New!
- Dry to the touch
- No Oily Residue Left Behind

All types of metallic surfaces prone to oxidation can benefit from RPM protection. Cast iron, stamped and cast metals, as well as aluminum are some of the common automotive applications. RPM works great to preserve natural metal drivetrain, suspension, and bare metal components to a like new condition.

111512 8 oz. Container (ND) ........................................... 34.95

Race Ramps

These race ramps are unique in their design. They are made for low ground clearance performance vehicles with a gross weight handling of 1200 pounds per ramp or 2400 pounds per set. They are specially designed for the Corvette enthusiast, allowing you to get under your car quickly, safely and without any frustrating hassles. Constructed in one solid piece, Race Ramps will not slide across your garage floor, dig into your asphalt driveway, or scratch or otherwise damage your cement or painted floors. They can be used to raise your car up eight inches. You get all of this in an unbelievable lightweight of 20 pounds a pair. Most ramps can only accommodate a tire width of six to eight inches. Race Ramps are not hollow in the center or made with questionable reinforcements. They are 100% solid on all sides and constructed in one solid piece - giving you the non-skid support that you need. The ramps come complete with straps for easy carrying, and you can also use them to hang the ramps on the wall when you’re done.

**Chassis Detailing Kits**
These kits include everything you need to detail the chassis of your 63-67 Corvette, including:
- A custom-made frame stencil.
- White frame stencil fast-drying spray ink.
- Special colored permanent paint crayon for shim marks, option codes, and engine marks.
- Six to eight color-matched inspection paints.
- Original thickness and width shim hold-down tape.
- A set of Technical Bulletins for your specific year car.

These kits make it easy to accurately reproduce your factory frame and chassis marks. They’ve been used by many professional restorers.

63-64 Brake Overhaul Kit

Includes front and rear shoes with hardware kit, 4 wheel cylinders, self adjusters, and 4 rubber hoses.
Finally a brand new casting approved and licensed by GM. Now you can buy a brand new caliper with no core required. Correct for the finest restoration or the everyday driver. Since GM discontinued the calipers you could only buy remanufactured Delco castings or cheap Taiwan replacements that had to be sleeved because of poor quality; those days are over.

65-67 O-Ring Stainless Steel Brake Calipers

Why go with O-Rings?
Lip seal design seals are used on 65-82 Corvette calipers. Lip seals have inherent problems. When they sit for a period of time they leak brake fluid. When they are used on a Corvette with out of spec rotors, spindles, loose bearings or a Corvette that is driven hard; they can actually suck air into the caliper fluid area causing a loss of pedal. This problem is called (by GM engineers) reverse air oscillation. Because of these problems, GM quit using lip seals in 1982. O-Ring seals virtually eliminate all of these lip seal problems. If GM doesn’t use lip seals anymore, why are you?

O-Ring Steel Sleeve Brake Calipers

These are completely new 1965-1982 O-Ring Calipers that require No Core Charge and come with a 2-Year Warranty from the date of purchase. They are cast iron calipers with original style steel sleeves. Therefore, they are substantially lower than our new O-Ring Calipers with Stainless Steel sleeves and Delco castings.

In order to maintain a hard brake pedal, it is imperative that wheel bearing and rotor run-out are within factory specifications. Failure to meet these requirements will cause a “spongy” or complete loss of pedal in a short time even with new calipers installed. A wobbly rotor or a rotor that moves in and out due to loose wheel bearings will cause the brake pads and pistons to move in and out (piston knock-back) with the help of the piston return springs, making them air pimps.

Wilwood Hi-Temp 570 Racing Brake Fluid

Wilwood’s specially formulated High-Temp° 570 Racing Brake Fluid has a minimum 570° F dry boiling point to withstand the severe heat requirements of automotive racing. Wilwood Hi-Temp 570 Racing Brake Fluid is recommended for ABS, Hydraulic drum, disc brake systems, and hydraulic clutches requiring DOT 3 Motor Vehicle Brake Fluid.

GM/Delco Brake and Clutch Fluid Dot 3

GM Delco Supreme II Brake Fluid is recommended for all vehicles that require DOT 3 brake fluid. It contains enhanced corrosion inhibitors to prevent premature wear, and retains its boiling point properties longer than conventional DOT 3 brake fluids. It is also compatible with disc and drum brake systems. Cannot be shipped by air or overseas.

Brake and Clutch Fluid - Dot 4

- Lubricates Seals  • Extends Seal Life  • Resists Air Entrapment  • Minimizes Friction
Power Slot Rotors

Premium Replacement Rotors
Power Slot's exclusive Vac-U-Slots are machined into the rotor and help evacuate gasses and dust, shed heat, and keep the brake pad surface clean. And in wet, raining conditions, our Vac-U-Slot helps push water off the braking surface for better stopping power.

A combination of high performance brake pads and Power Slot slotted rotors will deliver superior, reliable braking for virtually all automotive applications, even under hard driving and severe duty conditions.

- 192167 65-62 Power Slot Front Rotor, pr. .............309.95
- 192224 65-62 Power Slot Rear Rotor, pr. .............309.95

Power Slot Rotor & Hawk Brake Pad Kit

Hawk Brake Pads

Hawk Performance HPS material provides advanced braking characteristics to enhance your driving experience. This unique Ferro-Carbon compound combines the safety and quality of aerospace design partnered with the braking technology of motorsports. Performance, safety, and quality are the trademarks of this material.

Features:
- Extremely low dust
- High friction/torque hot or cold
- Gentle on rotors
- Virtually noise-free
- Much improved braking over OE
- Long pad life

- 192243 65-62 HP Street Hawk Brake Pads (Set of 4)....79.95

- Performance Ceramic Compound
- Increased Stopping Power
- Ultra Low Dust
- Extremely Quiet

63-66 Dual Master Cylinder Upgrade

- Direct bolt on
- Looks great
- Safer than the original system
- Stainless Steel Lines
- Includes Clips
- Can be replaced with body on

A no-hassle way to install a dual-reservoir master cylinder on your 63-66 Corvette. Two-piece stainless steel line kit that uses no adapt-ers. Convert your power on non-power brake Corvette to a “safe” dual circuit brake system. When you are finished, your car will look as close to stock as possible without the gaudy look of adapters and rigged brake line.

63-66 Power Brake Conversion Kit

- Convert your standard brake car to power brakes

- 192296 ..................................................................369.00

67 Power Brake Conversion Kit

- Convert your standard brake car to power brakes

- 192296 ..................................................................369.00

Speed Bleeder® Brake Bleeder Valves

Simplify brake bleeding with Speed Bleeders®. Brake bleeding becomes a one person task when you permanently replace your original bleeders with Speed Bleeders®. A corrosion resistant stainless steel check ball and a patented thread sealing system prevent air from being pulled back into the system during bleeding. Dust protection caps are included with each bleeder zinc plated steel screw.

Wilwood Direct Fit Aluminum Brake Caliper

- Fits inside factory 65-82 Steel Wheels. Knock Off Wheels for 63-66 will require a spacer
- Set Includes Pads and Hoses
- All Forged Aluminum Bodies
- Great Increased Rigidity Improves Braking
- Significantly Reduced Weight at only 5.80 pounds
- 56% reduction in Un-Sprung Caliper Weight (Original Caliper 13lbs, these are 5.8 lbs)
- Sealed Stainless Steel Pistons
- Uses any OE Type D8 Brake pads over any Stock Dimension Rotor

192280 Aluminum Brake Caliper Set (ND) .................................................. 999.00
192305 • Aluminum Brake Caliper Set (ND) ............................................ 1,299.00
  • Specify Color -01 Black, -02 Red

O-Ring Caliper Conversion Kits

Standard

- Kit Does 1 Brake Caliper
- Heat Range 347°
192318 Front O-Ring Seal Conversion ........................................ 54.95
192391 Rear O-Ring Seal Conversion ........................................... 55.95

This kit is for calipers that are already stainless steel sleeved. See our WEBSITE for instructions.

High Heat Silicone

- Kit Does 1 Brake Caliper
- Heat Range 550°
192343 Front O-Ring Seal Conversion ........................................ 54.95
192390 Rear O-Ring Seal Conversion ........................................... 55.95

Why Go With O-Rings?

Lip seal design seals are used on 65-82 Corvette calipers. Lip seals have inherent problems. When they sit for a period of time they leak brake fluid. When they are used on a Corvette with out of spec rotors, spindles, loose bearings or a Corvette that is driven hard; they can actually suck air into the caliper fluid area causing a loss of brake pedal. This problem is called (by GM engineers) reverse air oscillation. Because of these problems, GM quit using lip seals in 1982. O-Ring seals virtually eliminate all of these lip seal problems. If GM doesn't use lip seals anymore, why are you?

Disc Brake Installation Service Manual

This manual is written specifically for '65-82 Corvette brake systems. It will enable the average mechanic or do-it-yourselfer to properly complete a Corvette brake job and troubleshoot typical brake problems.

112021 "Copy" ................................................. 4.00

Adjustable Brake Proportioning Valve

Fine tune your braking system with the ultimate front to rear brake pressure control valve. Features:

- Competition proven
- Billet aluminum construction
- Anti-corrosive brass internals
- Highest pressure reduction available
- 60% reduction over the full pressure range
- Sure grip knob for fine tuned adjustment
- 3/16" tube adapters included

191039 ................................................................. 53.95
Brake Lines
All brake lines are Tinned Bundy Weld (TBW) steel or stainless tubing (unless otherwise listed) with double inverted flares, prebent to original shape. Spiral armor is included where applicable. Stainless steel is best in appearance, but may not seat as well to brass blocks as the original TBW.

Parking Brake Tool

Don’t struggle with parking brake installations . . . our Parking Brake Tool makes the job fast and easy! This tool is specially designed for 65-82 disc brake equipped cars. Allows installation of brake shoes and rebuilding kit without extensive disassembly.

193138............................................................................ 7.95
### Parking Brake Rebuild Kit

Our new park brake rebuild package includes all the major components necessary for rebuilding your system. Included are new front and rear park brake cables, equalizer, pulley, pulley bearing and bolt kit, return spring, new stainless shoes, stainless shoe hardware package, and spring tool.

67 Correct Parking Brake Handle

Replace your deteriorated, worn out parking brake handle with our new reproduction, available in two styles. Includes assembly tools with easy to follow instructions, which can also be viewed on our website.

192223 67E ............................................ 119.50
192341 67L ............................................. 112.50

67 Parking Brake Handle Assembly

Corvette Central now offers complete parking brake handle assemblies or the handles can also be purchased separately. Completely assembled and ready for use. Available in both 67E and 67L handle designs.

NOTE: In early production, through approximately VIN #6000, the parking brake handle is sold black. A production change from the solid black handle to one with a chrome cap and chrome side bands begins to appear later in production.

Correct Reproduction Aluminum Radiators

- Correct
- Dated, Painted and Detailed
- Specify Date When Ordering
- 5 Year Manufacturers Warranty

Protect Your Original Engine — Don’t Risk Overheating

Our correct aluminum radiators are manufactured by Dewitts and licensed by GM Restoration Parts. They are a 100% correct reproduction radiator with the GM part number and are available with the date. You will notice that we don’t list a brass radiator for 63-67 small block Corvettes. Aluminum radiators work best in the Corvette because you gain almost 25% more heat transfer over inadequate brass replacements! This must be why GM used aluminum radiators in Corvettes!

You will notice that we don’t list a brass radiator for 63-67 small block Corvettes. Our correct aluminum radiators are manufactured by Dewitts and licensed by GM Restoration Parts. They are a 100% correct reproduction radiator with the GM part number and are available with the date. You will notice that we don’t list a brass radiator for 63-67 small block Corvettes. Aluminum radiators work best in the Corvette because you gain almost 25% more heat transfer over inadequate brass replacements! This must be why GM used aluminum radiators in Corvettes!

When ordering dated parts please specify car serial number or the code you require.

Direct Fit Replacement Aluminum Radiators

- Cools Better Than Stock
- Copper/Brass Radiator Shown
- Direct Fit/No Modifications Required to Install

These “Direct Fit” aluminum radiators feature two rows of 1” tubes and press formed end tanks. This doubles the cooling capacity of the original single row units.

Fan Clutch Eliminator
For those who want more cooling than even a new fan clutch can offer, we have available a spacer that positions the fan properly and eliminates the fan clutch. Be aware that because fan blades will be turning faster, you will experience more fan noise.

241141 ............. 68.95

Correct Fan Blades
Correct fan blades are the correct diameter and pitch. They are also stamped “H”, “W” and “Front” as original. 63-64E have round head rivets, 64L-67 have flat head rivets. See our website for photos and details.

64-65 AC is the only 63-67 car that used a 7 blade fan (The others use a 5 blade.) This fan blade can be used on any 327 for more cooling.

242149 63-64E Fan Blade Exc Air Conditioning (5 Blade 17 1/8”) 259.00
24160 63-64E Fan Blade w/Air Conditioning (5 Blade 18”) 255.00

242061 66-67 427 All Lower Radiator Hose - Correct w/GM #3882826 ...................................................... 34.00

Hi-Performance Aluminum Water Pump

High performance pumps produce maximum flow and equal distribution to both sides of the block. Features include heavy duty 3/4" integral ball/roller bearings, billet steel nuts and a unique O-ring that provides a superior seal over a conventional gasket. Large cast iron impeller is CNC machined for accuracy and durability that far exceeds stamped steel impellers.

241049 63-67 327 (ND) (With Bypass) ...................... 289.95
242109 65-67 396/427 (ND) ............................................. 329.95

Tower clamps are genuine Wittek GM* Tower Clamps. Clamps were manufactured by Wittek from the original tooling and are correct galvanized material. Clamps are non-dated but can be dated on request at additional cost. * GM indicates type of Wittek clamp.

Radiator & Heater Hose Clamp Sets

Hose clamp sets include applicable clamps for radiator, heater & bypass hoses.

Expansion Tanks

Expansion Tanks Were Used On All 63-67 Small Blocks.

Expansion Tanks

242105 63-67 Expansion Tank (No Date-Repl., Welded Tubes)
242103 63-64E Expansion Tank (Pressed-in Tubes)
242104 64L-67 Expansion Tank (Welded Tubes)

When ordering dated parts please specify car S/N or the code you require. Original expansion tanks with 63 dates have pressed-in tubes. Tanks with 64 or later dates have welded tubes.

The radiator surge tanks produced from 1963 through 1964 used tubes that were pressed in and lightly welded from the inside only. These fittings are very fragile and will break off with only a small amount of side force when installing or removing a hose. To address this problem, GM improved the tanks in 1965 and later by adding a fillet weld around the tube on the outside. Special care must be taken when working with these parts. Any fittings that are broken off during installation or service are not considered a defect or covered under warranty.

“Flint” Valve Cover Decal mounts on front end of RH valve cover on all 327’s.

Decal Sets

Valve Cover Horsepower Decals are water soluble—use cool (not too warm) water to apply.

Valve Cover Engine Code Decals are mounted on rear vertical surface of RH valve cover.

**Distributor Drive Adapter**

No more premature failure of tachometer or speedometer cables due to excessively sharp bends. This 90° Transducer offers a sensible solution to problems attaching tach and speedo cables in confined spaces, without affecting the accuracy of your gauges.

Keep your 62-74 Corvette's original factory mechanical tachometer and move up to a high-energy ignition system. This New Mechanical Tach-Drive H.E.I. Distributor has a high-performance module and 64,000-Volt Internal Coil. Direct replacement for the OE unit, however the stock distributor shielding must be removed. Features built-in performance advance curve. Comes with high-performance cap and rotor with solid terminals for maximum conductivity. Requires 75-81 H.E.I. type spark plug wires CC# 333107 or 303352.

**Pertronix H.E.I. Distributor**

• Will not work with stock intake manifolds or ignition shielding

Produces 67% more energy in the coil with a 45% faster spark time. Flame-Thrower Distributors have a hi-performance coil and module that work together to operate without misfires up to 7500 RPM, while delivering twice the spark energy of a stock H.E.I. "No tach cable hookup" - H.E.I. with Tach Cable Hookup use Part #272136.

**Pro Series HEI Tach Drive Distributor With Power Coil**

**High Energy Coil**

These are slightly larger in diameter than stock (2-3/16" vs 2-1/8"). Some adjustment of the coil bracket may be necessary. Flame Thrower high energy coil delivers an average of 15% more spark energy and voltage. More volts enables larger plug gaps for greater fuel efficiency and more power. Coils fit existing stock brackets.

**High Tech Cross Gear Assembly**

These needle bearing cross gears will eliminate all the problems associated with the cross gear design. The problem is metal to metal contact between the cross gear and brass coupling. Cross gears have no undercuts and run through bronze and needle bearings. This eliminates coupling wear and provides a cross gear which will virtually last forever.

- 302120 has the correct S & SM logos, 302212 does not have the logos

### Sand-Cast Aluminum Valve Covers

- Strong sand-cast aluminum construction • .160” thick wall
- Precision-machined gasket flange to provide uniform clamping force on the gasket – much less prone to leak than stock covers which are typically made of .035” stamped steel
- Available in several finishes: as-cast aluminum, orange powder coated, or high gloss polish. These are sand cast parts and there will be some porosity.

| 301144 63-67 | Cast Ribbed Valve Cover, pr........................................ 269.00 |
| 301119 63-67 | Cast Ribbed Valve Cover w/PCV and Breather Holes, pr.......................... 389.00 |
| 301239 63-67 | Polished Ribbed Valve Cover, pr.................................... 489.00 |
| 301228 63-67 | Polished Ribbed Valve Cover w/PCV and Breather Holes, pr.................. 589.00 |

Ignition Coils — See Page 60

Temperature Sender Adjustable Variable Resistor

This is a resistor that can be installed in line in your temp wire. It can be set to your engine temperature for gauge accuracy. This is designed for the temperature gauges that read high.

301083 63-67 Temp Sender Correct "AC Delco-Made in USA" Markings...........23.95
302313 63-67 327 Temp Wire Insulation w/Brackets - Aluminum Valve Covers..........................13.95

### OEM Style New 63 Amp Alternator

- Includes Pulley w/Fan

**396/427 Alternator Exc. Power Steering**
- 302049: 63-67 Alternator Pulley Nut w/Washer ..................3.95
- 302054: 65-67 Alternator Fan (Used/Reconditioned) ..............32.00
- 302009: 65-67 390-435 HP no AC, no PS Alternator Pulley ......39.95
- 302014: 66-67 390-400 HP w/AC, no PS Alternator Pulley ......41.00
- 302300: 65-67 Top Alternator Adjust Bolt w/Washer *WB* ......2.95
- 302036: 65 396 Alternator Mount Bracket .........................111.95
- 302036: 63-67 Alternator Bracket Sleeve .........................2.95
- 302031: 65-67 Alternator Mount Bracket 427 Exc. P/S .........59.00
- 302035: 65-67 427 Alternator Long Bolt w/Nut & Washer (3 pcs.) .5.50
- 302036: 65-67 427 Alternator Bracket Sleeve ......................2.95

**396/427 Alternator with Power Steering**
- 302049: 63-67 Alternator Pulley Nut w/Washer ..................3.95
- 302054: 66-67 Alternator Fan (Used/Reconditioned) ..............32.00
- 302011: 65-67 390-435 HP no AC, w/PS Alternator Pulley ......39.95
- 302013: 66-67 390-400 HP w/AC, w/PS Alternator Pulley ......45.00
- 302078: 65-67 396/427 w/PS Alternator Bracket Kit (Includes #302030, 302029, 302028, 302032, 562325, 302048) ..................199.00

**396/427 Exc. PS Alternator Bracket Kit**
- 396/427: 302038: 65-67 Top Alternator Adjust Bolt w/Washer *WB* ......2.95

**302048: 65-67 Power Steering Pump Mount Bracket 396/427 52.95**

**362235: 65-67 Power Steering Pump Mount Bracket 396/427 52.95**

**302087: Natural Finish 139.95**

**302036: 63-67 42 Amp Remanufactured Alternator (Exc. AC) 79.95**

**302089: 63-67 Alternator Terminal Nut w/Lockwasher 1.50**

**662043: 63-67 Alternator Plug 4.00**

**302039: 63-67 Alternator Wiring Harness Boot on Back of Alternator (Replacement) 4.50**

**302198: 63-67 Alternator Plug Boot - Correct + 11.00**

**302040: 63 #628 Alternator w/Date - 37 Amp (Rebuilt Original) (ND) 359.00**

**302044: 65-67 #693 327/427 Alternator w/Date - 37 Amp (Rebuilt Original) (ND) 229.00**

**= These are original rebuilt alternators with correct part number and date code. Specify date when ordering. Allow 4-6 week delivery.**

**100 Amp Alternator**

Includes pulley with fan.

- 302296: 63-67 Natural Finish 139.95
- 302233: 63-68 100 Amp Chrome Alternator w/turbo Fan 139.95
- 662058: 63-67 Alternator Conversion Harness (Allows use of internal regulator alternators) 21.00
- * = 63-67 Cars Use With Conversion Harness #662058

**Alternator Relocation Harness**

- 662266: 63 ..................................................51.00
- 662300: 64-65 ..................................................51.00
- * = Use when alternator is moved from original passenger side location to drivers side.
- 662058: 63-67 ..................................................21.00

Simple plug-in conversion kit allows use of 69-86 SI series internally regulated alternators in place of original externally regulated alternator.

---

**IMPORTANT**

Electrical components such as Starters & Alternators are **NON-RETURNABLE PARTS**

Always refer to a factory service manual when diagnosing engine service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.

---

**302801: 65-67 Alternator Bolt Kit 396/427 w/PS 5.50**

**302828: 65-67 Alternator Strap w/PS 396/427 16.00**

**302029: 65-67 Alternator Brace w/PS 396/427 14.95**

**302030: 65-67 Alternator Bracket w/PS 396/427 54.00**

**302032: 65-67 Alternator Adj.& PS Pump Mount Bracket 396/427 66.00**

**322039: 65-74 PS & Alternator Mount Adj. Stud 396/427 6.95**

Water Pump Pulley (Upper)  
302360  63-65  250/300 HP 2 Groove Water Pump Pulley, 7¡ OD (Correct) (#356) (ND) ....................... 169.00
63-65 250/300 HP used 302360 Pulley, even though they only used 1 fan belt.
302359  64-65  250/300 HP w/A 2 Groove Water Pump Pulley, 6-1/4¡ OD (#680) (ND) ..................... 149.00
301245  63-67  340/350/360/375 HP Deep 2 Groove Water Pump Pulley - Exc. AC - 1 Piece Pulley .................. 89.95
301107  63-65  340/350/360/375 HP Deep 2 Groove Water Pump Pulley -Exc. AC - 2 piece pulley (U/R)(ND) .... 315.00
302358  65  350 HP W/P (Exc. AC)/Water Pump Pulley (#646) (U/R) ........................................ 109.00
301111  6-67  300 HP Single Groove Water Pump Pulley .......................................................... 49.95
302364  6-66  396/427 w/AC 2 Groove Water Pump Pulley (#480) ........................................... 149.00
302365  67  427 390/400/430/435 HP 2 Groove Water Pump Pulley -Exc. AC (#656) ......................... 105.00
302367  66-67  427 w/AC 3 Groove Water Pump Pulley ........................................................... 218.00
302314  66-67  AC Double Water Pump Pulley (#419) .......................................................... 159.00
301110  65-67  396/427 Exc. AC Water Pump Pulley Reinforcement (Use w/302370 Pulley) ...................... 5.95

Crankshaft Pulley (Lower)  
302370  63-67  250/300 HP Lower Crankshaft Pulley (2 Groove) ................................................... 54.95
302371  63-67  327-250/300 HP Exc. AC, 65-350 HP (Front Lower Add-On Pulley for P/S) (U/R) ............... 159.00
303210  63-67  327 SPHP Exc. AC/350 HP w/Power Steering Deep 2 Groove Lwr Crank Pulley 6-3/4¡ OD ...... 59.95
302315  63-67  327-340, 350, 365 HP Front Lower Add-On Pulley w/P/S (Use w/302310 Pulley) ............. 109.00

Note: 340/365 HP cars were not originally available with Power Steering.
You will have to use part #302298 Oil Pan.

Chrome "Bowtie" Bolts Engine Dress-up Kit

Kit includes intake, valve cover, water pump, water neck, timing cover, fuel pump, oil pan, and distributor holddown. These bolt sets are not for a specific horsepower, so they may not include the correct thermostat housing bolts. These bolt sets are not for a specific horsepower, so they may not include the correct thermostat housing bolts.

Emission (A.I.R.) System

A.I.R. - Air Injector Reactor (Smog Pump): A belt driven pump that injects cool outside air to the exhaust valves to promote combustion of unburned fuel.

Brad Penn 10W-30 High Performance Oil

- Increased levels of “zinc” (zinc dialkyldithiophosphate) provide outstanding anti-wear protection for engines with either “flat tappet” or roller type cams.
- Penn Grade base oils provide excellent film strength while synthetic stocks enhance performance over a wide range of operation temperatures and conditions.
- Oxidation and foam inhibitors offer protection against thermal degradation and air entrainment.

A truly versatile oil suitable for engines used both on the street and/or the track. The multi-viscosity grade and synthetic components facilitate cold starting and quicker engine warm-up while insuring adequate engine protection during competition.

Engine Oil Additive

ZDD Plus (Zinc)

- Excellent For Preventing Cam & Lifter Wear On Non-Roller Cam Engines
- Ideal Substitute For GM’s E.O.S. (Engine Oil Supplement)
- ZDDP (Zinc Dialkyldithiophosphate)
- Brings Current SM Oil Category Back To SF Specifications FoEP (Extreme Pressure)
- Required For All Engines Prior To OBD Vehicles with Flat Tappet Cams
- 4 oz. Bottle

Engine Rebuild
Intakes designed to give your LS engine the look of the highest performing Corvettes of the mid 60's. These manifolds are designed to give a vintage Chevy vibe to your restomod while utilizing some of the modern LS3 components such as Injectors, drive by wire throttle body and Intake Gaskets. These units do not include a Throttle Body or Fuel Injectors. Designed for the LS3, but some are available in both cathedral and LS3 ports. See our website for more information and photos.

Remember to carefully check all pulleys for correct O.D. when ordering fan belts. Our belt lengths are per G.M. specs, and will not fit properly if any of your existing pulleys are incorrect. We can assist you on our tech lines if you are in doubt. Please be sure before ordering a specific belt.

**Note:** Prices are subject to change without notice. For the most up-to-date pricing, please contact Corvette Central. Prices are for parts only. Installation labor is not included. Prices do not include sales tax. **Corvette Central will match any Corvette competitor’s current advertised price on an identical product. Simply send us a copy of the competitor’s catalog or ad showing the current advertised price. Product must be from same source or vendor. Note: This does not include sale prices or web specials. Cannot be combined with any other discount or special offer.**
THE ORIGINATORS OF ALUMINIZED MUFFLERS
AND EXHAUST SYSTEMS FOR YOUR CORVETTE

SPECIAL ALUMINIZED PRICING

Exhaust Pipe Heat Shields – See Page 85

SPECIAL BONUS
Get aluminized pipe at standard carbon prices. Our .070 wall aluminized tubing will outlast standard carbon tubing 2 to 1.

Think Aluminized
You will notice that our exhaust section does not list any stainless steel (SS) pipes. Our previous catalogs listed SS systems, but we have always promoted aluminized systems for the following reasons:

- SS retains heat which makes the pipes run hotter. This heat is radiated through the floor of the car.
- Customers that purchase SS for its appearance will be soon disappointed because the SS pipes turn blue near the manifold and yellow back to the mufflers.
- The heat retained by the SS will cause your exhaust system to grow in length as the car warms up. Customers have measured this growth at as much as 1 1/2". This change is enough to make even properly fitting pipes rattle.
- The stiffness of the SS causes inconsistencies in bending and also clamping difficulties.

At half of the cost, we feel that aluminized exhaust systems are the way to go. The aluminized coating on the I.D. and O.D. of the pipe allows for proper cooling. SS has many good applications for restoration parts on your car, but we do not feel quality exhaust systems are one of them.

Correct Factory Exhaust Pipes!

Starting in 1966, all small block exhaust manifolds were 2" and therefore, all manifold to muffler exhaust pipes were 2" where they bolted to the manifold. Hi-performance engines used exhaust pipes that went from 2" to 2-1/2" as shown above. See exhaust application chart on page 67. This is how GM pipes were originally manufactured. Lower horsepower engines used 2" pipe throughout the exhaust system.

Exhaust Guarantee
If you are the original purchaser of any exhaust component and it fails due to rust, corrosion or workmanship, return it to Corvette Central for a replacement.

Correct Factory Sound!

Reproduction ALUMINIZED Mufflers
Manufactured by

- Manufactured to OEM specifications
- No sleeves or adapters required
- Correct fit and look
- Factory type brackets

Carbon Steel Exhaust Pipes are also available on request. Allow 4 Weeks - Not Returnable
Attention 63-67 Owners!

Corvette Central now offers a DELUXE Exhaust System. This is our complete system as listed above, but also includes a heat riser with gasket, center and muffler hangers and SS exhaust extensions.

To order, add "DLX" to the system number from above.

---

**Example:**

322636 DLX = 64-65 2 1/2 OEM Style Deluxe Exhaust Kit - $563.00

**Exhaust Paints and Helpers**

Calyx Manifold Dressing - Keep your exhaust manifolds concours prepared at all times, without removing them. Produces a natural silver gray, long lasting finish. Apply with cloth. Can be polished to high lustre.

101022  3 oz. Jar .......................................................... $17.95

Exhaust Pipe Sealer - Use to seal the front crossover pipe to exhaust pipe (as was done originally at the factory) or at any exhaust pipe connection to assure a leak-free installation.

322123  6 oz. Tube .................................................. $7.95

101795  Stainless Steel Paint, 13 oz. Aerosol .................. $12.95
101020  Cast Iron Blast Paint, 12 oz. Aerosol .................. $11.95
101021  Spray Coat Hi-temp Cast Iron Paint, 12 oz. Aerosol... $14.95
301187  Black Hi-temp paint 1200°, 12 oz. Aerosol........... $14.95
321013  Aluminized Finish Exhaust Paint, 11 oz.(For pipes and mufflers, not headers or convertors) .................. $14.95

Factory Manifold Gray is a high temp gray paint capable of withstanding extreme temperatures up to 1400 degree F. This high temp paint will maintain a durable iron gray color and won’t burn off. Can be used on all cars, domestic or foreign, and it meets or exceeds properties and requirements of MIL-C-13370.

381040  POR 15 Factory Manifold Gray Coating, 8 oz ........ $18.95

It is no longer necessary to haul your Corvette to an exhaust shop after installing headers. Corvette Central offers a winning trio with a bonus:

- **Patriot aluminized headers**, which fit stock 327’s and 350’s as well as GM Performance Parts ZZ Series motors.
- Corvette Central’s 14 gauge aluminized pipes manufactured to our high quality standards from the best materials available.
- MagnaFlow performance mufflers—widely known for their wide-open performance and great sound.
- System does not include hangers. Exhaust hangers must be purchased separately.

By adding “-CS” to the part number, you will receive carbon steel pipes that are re-formed and welded as close to original as possible. The conventional part numbers are for our regular aluminized pipes. Please Note: all tubing is 14 gauge single wall pipe unless otherwise noted.

322020 “Off Road Muffler” Rubber Stamp Kit.......................25.95

**Dual Exhaust Systems With Headers And MagnaFlow Mufflers**

326-67 Fiberglass Side Exhaust Covers

These 63-67 style side exhaust covers, reproduced in fiberglass, come unpainted. Spray them silver and black to simulate original chrome, or paint to match.

142120 Set........................................................................529.00

**396/427 Direct Fit Headers**

The headers that fit 396, 427, 454, and 502 Corvettes from 1965 to 1974 are now being handmade and directly replace the cast iron manifolds. These 2” primary tube 16 gauge headers are all handmade and welded then ceramic coated. Your steering box, a-arms, frame rails, idler arm, and A/C boxes all clear your new headers and even 4 speed owners, your clutch jack-shaft will clear too! With 2 1/2” Collectors exactly the same as your old Cast Iron Manifolds

322084 65-67 396/427 Headers, pr.......................................................795.00
322101 65-67 Header Mount Kit (Bolts, Gaskets, Sleeves)....................61.95

**63-67 Side Exhaust Header Systems**

Side mount systems are complete with headers and side tubes. Slip-in mufflers can be ordered separately. Applications are for any combination of air conditioning, power steering or brakes, and manual or automatic transmissions. Header sets include header gaskets, header bolts, and instructions. Some systems may not be legal for street use in some states — check state laws before installing.

**Header components available separately...INQUIRE**

- Slip in Muffler and Flanged reducers are sold separately

**Helper Fiberglass Terms**

- **HL** = Hand Luyup parts are manufactured by hand laminating pattern cut fiberglass mat and fiberglass resin into a precision mold. This method produces high strength panels with uniform thickness and smooth surface only on 1 side.
- **IFP** = To answer the need for original looking fiberglass body panels there is now a process to fully finish the insides of traditional hand laid products. These are significantly less expensive and stronger than Press Molded panels. When assembled with the appropriate bonding strips they are identical in appearance from the original GM O.E.M. panels.
- **PM** = Press molded parts are formed under pressure in matched moulds as original. This assures a high strength part with a smooth surface on both sides.
- **+ =** Truck Ship Items are shipped freight collect direct from our supplier, and orders must be prepaid.

**Fiberglass Repair Kit**

Bondo Fiberglass Repair Kits have everything needed for the Do-It-Yourselfer, including easy How-To directions.

**HELPER**

- **Fiberglass Repair Kit**
- **141169** ................................................................. 28.95

**NOTE:** There may be a crating charge on some fiberglass items. Some items require a special box to insure that you receive the items undamaged.

Note: We accept ordering information in front of catalog.

 Lucas Octane Booster
- Safe for turbos, oxygen sensors, and catalytic converters.
- Suitable for use in fuel injected and carbureted engines.
- Provides more boost than most other brands.
- Promotes clean burn for fewer emissions.

A real Octane Booster! Tested and proven to deliver three times more power.
- Promotes clean fuel burn for fewer emissions.
- Provides more boost than most other brands.

NOTE: This is a hazardous item and cannot be shipped by air or outside the Continental U.S.
Gas Tank and Related

- Includes Correct OLA Logo
20 gallon gas tanks with correct indents as original. Includes gas neck gasket, gas neck screws, gas tank meter gasket, and gas tank meter locking ring. OEM grade Ni-Terne steel, not just zinc plated.

362100 ............................................. 229.95

Deluxe Gas Tank Kit
- Includes Correct OLA Logo
Includes everything to put a new gas tank in your 63-67: tank, meter, neck, boot, straps, pads, and all mounting hardware plus gaskets. Even includes a new gas cap and gas neck overflow hose.

362101 63-67 EFI/Fuel Injection Gas Tank ............................................. 279.95

Gas Tank Helpers
- Tank Tone Paint
Not to be mistaken for ordinary silver paint, this coating actually contains zinc to protect your gas tank from rust. Many gas tanks came from the factory with a similar coating. Works well over minor surface rust and helps stop its spread. Two cans required for the average tank.

361023 13 oz ................................................................. INQUIRE

- Gas Tank Repair And Liner Kit
Fuel Tank Sealer is specifically formulated to stop rust and corrosion by forming a tough, fuel impervious coating, while simultaneously sealing small pinholes and weld seams.

This kit contains KBS Klean (a water-based, heavy duty, cleaner/degreaser) and RustBlast (a powerful rust remover/metal etch) to obtain a permanently sealed, rust-free fuel tank.

Not recommended for tanks that have been coated on the inside from the factory.

442048  (L or R) (ND) ............................................. 699.00

Electric Headlight Door Conversion Kit

This Electric Headlight Door Kit replaces the stock electric actuated system. When installed, this kit operates the headlight doors more reliably, smoother and in synch than stock.

Electric Headlight Kit uses current sensing technology to provide a system that needs no adjustment and is extremely safe. Installation with no permanent modification to your classic Corvette. This allows owners the option to return their vehicle back to its original configuration if desired, leaving no holes or spliced wires behind. Once installed, you will no longer need to operate the headlamp doors separately with the problematic factory momentary switch, the control module will automatically actuate them when the headlamps are turned on/off. The doors can also be manually opened and closed for headlight maintenance/cleaning by simply rotating them by hand. The kit comes complete with everything you need for installation including two electric actuators, a control module, harness, mounting brackets, and hardware.

**Air Conditioning and Related — See Page 111**
Condensers & Related are Electrical components such as Motors, Compressors, Evaporators, and the correct part. Be sure you are replacing the service problems. You can damage electrical components if the proper procedures are not followed. Always refer to a factory service manual when diagnosing engine problems.

Heater Core

*CC Special*

Replace that old heater core before it leaks and ruins your expensive carpet set! CC suggests you order a heater gasket kit at the same time.

**Important**

Electrical components such Motors, Compressors, Evaporators, Condensers & Related are NON-RETURNABLE PARTS. Always refer to a factory service manual when diagnosing engine service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.

**NOS, certified used and survivor quality Corvette parts, 24/7/365.**

www.corvettecentral.com
Complete Factory Style Heating and A/C Kit

Gen IV SureFit System

Complete Kit includes: Evaporator, condenser, drier, compressor, compressor bracket, hose kit and binary safety switch.

- Fully electronic operation - No cables or vacuum controls
- Kit includes individual Rotary Electronic Controls for electronic operation
- Micro-processor controlled coil temperature monitor. No capillary tube to install!
- Separate high capacity heat and cool coils
- Aluminum plate/fin A/C coil (most efficient evaporator design available)
- Copper/brass parallel flow heater coil
- Blend air door for instant temperature adjustment
- Infinite dash/floor air blend (in most applications)
- Infinite defrost / floor air blend with dedicated defrost option
- Steel firewall cover plate

All Gen IV systems allow for optional smooth fire configuration (must use modified hose kit)

- Positive shut off solenoid operated heater control valve in max A/C

The Gen IV is Vintage Air’s most powerful and intelligent climate control system. Gen IV systems utilize our exclusive fully electronic microprocessor control servomotor drives to eliminate cables or vacuum connections. Separate high capacity copper parallel-flow heat coil and aluminum plate and fin cooling coils provide outstanding performance and instant temperature adjustments. Our new Corvette SureFit System includes a three individual rotary control and factory style knobs that install in the stock dash location. Additional features include variable blower speed and dash/floor/defrost blend. SureFit Systems are engineered specifically for each vehicle application and require minimal alteration to the vehicle for installation.

**A/C Compressor**
- Light Weight
- Aluminum
- 52% Lighter
- Ultra Quite
- Super Efficient
- Works with Factory Hose Assemblies

The Pro 6 Ten compressor is a 10 Cylinder "bolt-in" direct replacement for the GM Frigidaire/Harrison A-6 Compressor. This new design is specifically engineered to fit original A-6 mounting brackets and A/C hose assemblies. This highly efficient compressor offers a smoother, quieter operation, creating less vibration and engine drag, increased fuel mileage, improved engine and cooling system performance. Note: Compressor’s are set for R-134 refrigerant, to use old R-12 compressor, oil would have to be drained and replaced with R-12 compatible oil.

**R-134a Conversion Kit**

This kit allows you to convert your A/C system from R-12 to R-134a usage in a cost effective manner. Compared to a typical R-12 service procedure, only three additional steps are needed to convert to R-134a. Includes new D-rings, Ester oil and instructions.

63-66 S.T.V Valve Update Kit

Eliminates problems with sticking piston and leaking diaphragms. Kit converts the original STV valve to a more reliable cycling clutch system as on later model GM vehicles and offers improved performance with new automotive refrigerants.

67 P.O.A. Valve Update Kit

Replaces the original POA valve and converts it to a more reliable cycling clutch system improves performance with new automotive refrigerants.

**JetMatch**

Corvette Central will match any Corvette competitor's current advertised price on an identical product. Simply send us a copy of the competitor's catalog or ad showing the current advertised price. Product must be from same source or vendor. Note: This does not include sale prices or web specials. Cannot be combined with any other discount or special offer.
### Interior Color Codes

Color Codes are added to part numbers of interior parts requiring a color.

Many parts in the Interior Section require a color code specification when ordering. Below is a chart showing code numbers for each year.

**COLOR CODE CHART**
- Go down left hand column to Year
- Go across to center column finding Color
- To the right of the color is the Code

<table>
<thead>
<tr>

Use to pull wire through seat covers and form and hook to seat frame.

Seat Hardware: Bezels, Buttons, Bolts, Side Rails, Fasteners — See page 128

63-67 Seat Cover Installation Tool

Let us take the hassle out of recovering your worn and dirty seats! All you need to do is send your seats in to us and we'll do the rest. Our installation experts can ensure that your new seat covers are installed correctly and for much less than a traditional upholstery shop would charge. The entire process takes about 4-6 weeks, and the workmanship is guaranteed for a full year! Seat covers, foam, and any necessary hardware and parts must be purchased separately from Corvette Central. Price shown includes labor only.

131018 Set (ND) ........................................ 579.00

Seat frames can be cleaned and refinised for an additional $209.95 — use part #132403.

SPECIFY COLOR

Refer to Color Code Chart Page 118
63-67 Convertible Deck Lid Trim Strips
Found on all 63-67 Corvette convertibles, a deck lid trim strip is the vinyl trim piece that mounts along the front horizontal edge of the deck lid—where it’s vulnerable to bumps and scrapes. Original vinyl comes in all original colors and grains. All necessary mounting hardware included.

### L.E.D. Tail Lamps

- **L.E.D. Tail Lamps**:
  - set includes LED flasher

If you're looking for a way to set your C2 apart from the rest, we have a new set of L.E.D. taillights that will brighten things up. Tail lights feature L.E.D. bulbs that are much brighter than the factory units and have multiple light sources around the housing as well as in the center of the lens. These tailights fit C2 models and easily plug into the factory wiring harness and bolt in place. It's an easy way to upgrade your Corvette's appearance while adding a measure of increased safety.

NOTE: The 512018 Mirror is a great replacement mirror for all 63-67’s.
**USA-740 Bluetooth Radio**

The USA-740 offers built-in Bluetooth (microphone included), answer calls and get Bluetooth streaming music from your Bluetooth capable phone or Bluetooth compatible device. A solid 300-watt peak power, Hi 4volt, 4channel RCA Pre-outs and a Subwoofer RCA pre-out for additional amplifiers. The USB input allows you to plug in a USB flash drive (thumb drive) for playback of MP3/WMA/FLAC/WAV song files. A front mini jack auxiliary audio input and a rear RCA auxiliary audio input provide versatility for options like satellite radio, I-pod or any portable player you wish to use. Match the dominant color of your instrument cluster with user selectable multiple LCD color choices with LCD dimmer control. The AM/FM RDS tuner shows station, song and artist on the LCD display.

**USA-230 Stereo Radio**

Custom Autosound’s USA-230 is an excellent choice for Corvette enthusiasts looking for a more affordable radio without sacrificing quality electronics and a classic stereo look. Designed to fit in the stock dash without any modifications required. This radio includes an auxiliary input which can connect to iPods, iPhones, satellite radio tuners or any other device with a headphone jack. With 300 watts peak power, it provides plenty of power. It also boasts 4 Channel RCA pre-outs and a digital display with electronic tuner, 16 station pre-sets and a 4-way fader.

**RediRad Radio Adapter**

- Designed for Simple Out-of-Sight Installation

At last, you can listen to music from your CD player, iPod®, satellite radio or cassette player without modifying the car’s original AM radio. Offering a real solution to an ongoing dilemma, the all-new RediRad™ allows you to retain your Corvette’s factory radio and enjoy music from any portable music player! Music is seamlessly routed from your CD, cassette, MP3 player or even a satellite radio unit into your AM or AM/FM radio without any vehicle modifications or the need for cumbersome, theft-prone aftermarket equipment!

**“Secretaudio” Radio Hideaway Solution**

- Bluetooth
- Wireless Remote

Especially ideal for Corvettes or any vehicle. You can leave your original radio intact, mount the LCD display sensor almost anywhere, and control it with a wireless remote from up to 40 feet away. The tuner/amplifier unit can be hidden out of sight (under dash or in storage compartments). Features: AM/FM Stereo • 200 Watts (4x50) • CD Changer Control • Separate Bass & Treble • 4-Way Fader • Dual RCA Pre-Outs (front & rear) • 30 Pre-sets (12 AM/18 FM) • Wireless Remote & LCD Control. Unit dimensions: LCD Display: 4.5” (w) x 1.5” (h) x .75” (d); Tuner/Amp: 6.5” (w) x 1.375” (h) x 5.75” (d).

63-82 Bass Ported Sound Bar

A great solution for locating rear speakers for your Corvette’s sound system. Custom mounting against rear horizontal panel of all Corvette storage areas looks like factory installation with very little reduction of storage space. May also be used on 78-80 Corvettes without optional dual rear speakers. Only 3” deep with 2 - 4” speakers and 2 mid range speakers (6 speakers total!). 200 watt power handling.

<table>
<thead>

Radio Alternator Noise Suppression Kit

If you experience unwanted motor whine or engine noise, check all grounds on radio, amp, antenna, etc. If you still have noise our filter may help! This noise suppression kit attaches to your alternator to suppress whining and other irritating interference. This kit is for alternator equipped Corvettes. Just connect two wires and mount in a "hidden" location.

<table>
<thead>
<tr>
<th>Year 63-82</th>
<th>102312</th>

</tbody>
</table>

63-67 Dual Voice Coil Speaker

Dual voice coil speakers produce the best quality sound possible from your original speaker location. Speakers have up to 70% more cone area than conventional dual front speakers resulting in improved bass response and 140 watt power handling. Both stereo channels connect directly to this one speaker. 15 oz. magnet.

<table>
<thead>
<tr>

**Stock Style Hurst Shifter Handle**

Our Hurst Shift Handles are designed to fit Hurst Competition Plus shifters with 2 bolt handle design. 63-67 Shifter Handle includes T-Handle and Knob. Mounts on Hurst Shifter but gives you a stock look. Hurst Shift Handles use stock shift boot. You can have a stock Corvette look, but the crisp, positive shifts of your Hurst Competition Plus Shifter! These stock style handles are dead ringers for the original T-handle shifters, but are custom crafted to attach to your Hurst Shifter. Shifter will function as normal. Includes T-handle and knob. Fits stock shift boot.

Automatic Shifter Conversion Kit

The purpose of this kit is to allow the use of the factory installed automatic shifter when the transmission is replaced with a newer 3-speed (TH350 or TH400) or 4-speed overdrive (TH700-R4, 4L60, or TH200-4R) transmission. The kit retains the original linkage.

### Complete Transmission Rebuild Kits

If your transmission is making noise or shifts hard, now is the time to rebuild it before serious damage occurs. These kits are assembled by one of the country’s top transmission rebuilders and contain the following: front and rear main bearings, synchro rings, gaskets, seals, strut rods, springs, needle bearings, snap rings, thrust washers, main drive nut, and a new countershaft. Many of these parts are hard to find, especially when you need them! Order a kit today and get your transmission back in top condition.

GM Syncromesh Transmission Fluid

- Excellent as a lubricant
- Withstands high temperature
- Specifically for use in GM manual transmissions
- Excellent as a lubricant

Dexron III is being phased out as a product name. It is being renamed Manual Transmission Fluid. DO NOT use Dexron VI in place of manual transmission fluid in any manual transmissions or transfer cases that specify Dexron III, as a failure may result.

Note: This is a hazardous item and cannot be shipped by air or outside the Continental U.S.A.

RPO Codes

Regular Production Options for 63-67 Transmissions are as follows:

- M20 — 4 Speed
- M22 — Close Ratio 4 Speed HD
- M21 — Close Ratio 4 Speed
- M35 — Powerglide Automatic

5 SPEED TRANSMISSION KITS

Please specify the following when ordering:
- Year of Car
- Engine Size and Horsepower
- Rear Axle Ratio (Example 3:11)
- Tire Size

12 month product warranty - includes 24 month activation delay so you can finish your project.

Soft Top Rear Window Warning Tag

This kit contains materials and instructions that will minimize light scratches and improve the appearance of moderate scratches in the vinyl rear windows of convertible tops. It will also remove most of the discoloration except in the case of severely discolored windows.

101188 .............................................................. 29.95

Soft Top Rear Window Warning Tag

Stafast Cloth Soft Top Kit

Stayfast canvas is used in the C4 and C5 Corvettes. A three layer composite made of 100% acrylic square weave outer fabric, a rubber inner layer, and a 100% drill lining fabric.

Available in black-67 or tan-68. Includes top, pads and straps.

561040 .............................................................. 15.95

63-67 Original Type Convertible Top Kit

63-67 original equipment tops match the original factory convertible tops in every detail, and they are a must for the Corvette owner wanting exacting quality and originality right down to the washing instructions tag. All of our tops are crafted from the finest quality 40 oz. heavy-weight vinyl material with black mildew-resistant fabric backing. The crystal-clear, heavy-gauge rear window is heat sealed as original. Kit includes top, pads, straps, cord, finish strip with tips, warning tag, and instructions.

**Convertible Top Window Pillow**

- Eliminates friction scratches and pinch folds to the vinyl (glass) on the convertible rear window when the top is retracted and folded into the top storage compartment.
- The window pillow casing is made of durable but soft (no scratch) poly cotton twill, and filled with treated Dacron 808 to retain pillow shape and contour.
- One size fits all retractive tops with permanent rear vinyl windows.

131206 ................................................................. 19.95

**Deck Lid Weatherstrip – See Page 176**

**Deck Lid Protectors**

For use when top is up!

Before it happens, prevent your soft top or hard top from leaving scratch-es and unsightly marks on your Corvette’s rear deck — keeping it in like new condition. Available in clear or black. For use when your top is up.

**Deck Lid Protectors**

For use when top is up!

Deck Lid Protectors

Before it happens, prevent your soft top or hard top from leaving scratch-es and unsightly marks on your Corvette’s rear deck. Deck Lid Protectors are static cling film (no adhesives needed!), die-cut for your model year! They cover the area where your top comes in contact with your rear deck — keeping it in like new condition. Available in clear or black. For use when your top is up.

The strength of these jacks is limited by size and original design. They are intended for display purposes only.

Gorilla Power Wrench

A lug wrench designed to remove even the tightest lug nuts.

"21" Telescoping Lug Wrench *4 Socket Sizes: 17mm, 19mm (3/4")
21mm (13/16"), 23mm (7/8") = Fits all foreign and domestic cars and trucks.
The telescopic handle extends to 22" providing the extra leverage needed for removing even the tightest lug nuts. Solid steel and built to last, it comes with 2 dual sockets that fit virtually all applications. Also comes with a durable vinyl carrying case.

551001 ............................................................. 29.95

Note: This is a reproduction of the 63-67 Corvette jack. We do not recommend it to be used to lift the car as the design is over 25 years old. We recommend buying a heavier duty jack to use to lift the car. Never work on a car or get under a car while being lifted or supported by any jack! Use jack stands!

**63-67 Tilt Steering Columns**

- 8-Position Tilt
- Self-Canceling Turn Signals
- 4-Way Flashers
- Knobs & Levers
- 3/4" - 36 Lower Shaft

This stylish 8-position tilt column is designed to fit your C2 and does NOT require modification to your original car to install. Easily installs in the same location as the old column using your original under dash mount, floor mount and a rag joint.

**Power Steering Gear Box**

The Borgeson Conversion Box is a remanufactured GM Delphi 600 integral power steering gear box. The Delphi 600 represents the last generation of integral power steering gear box technology with true modern power steering fee, feedback, and a sporty 12.7:1 ration. Borgeson has remanufactured this box to bolt directly to the factory mounting location and to fit the stock pitman arm. A new rag joint is included for connection to the stock column. The factory column will need to be collapsed or shortened 1-2" for clearance of conversion box. Eliminate your leaky control valve and feel the road with a new integral power steering conversion from Borgeson.

- 562207 Borgeson Steering Box To Frame Reinforcement (ND) .................. 79.95
  - Eliminates Steering Box Flexing Issues

---

**Redline Power steering fluid** provides much improved wear protection and resists thermal breakdown. Provides continued high pump output at high temperatures and resist evaporation and foaming at high temperatures. Suitable in most power steering units.

- 562209 Quart .................................................. 12.95

---

**EPAS Electric Power Steering Conversion Kit**

- Get Power Steering without the hydraulics. The system includes 40amp electric motor designed to be installed into your steering column (must cut factory column). No major or irreversible modifications are made to your C2, everything is located under your dash and is almost, if not completely invisible. One of the advantages of an electric steering system is the variable control depending on vehicle speed. More steering assist at low speed, less assist at high speed!

- Requires removal and cutting of original steering. Approximately 8-10 hours for installation. Designed for non-power steering equipped Corvettes. You can remove your factory power steering components if you wish to install this electronic power steering kit.

- 562229 63-66 (ND) ........................................ 1,449.95
- 562345 67 (ND) ........................................ 1,449.95

---

**63-69 Steering Boxes have cast iron top covers, 70-82 are aluminum.**

---

**Steering Box Rebuild Service**

Steering boxes are completely disassembled, cleaned and inspected. Re-assembly includes all new pre-greased bearings, races, seals and adjustment to factory specs. Rebuilt boxes are in stock, ready for shipment. Additional costs may be added if worm gear or pitman shaft gear is damaged. A $125.00 core charge is additional if old, rebuildable steering box does not accompany order. Approx. 2 week rebuild time.

- 562250 Rebuild Service .................................. 199.00

---

**Corvette Central buys rebuildable 63-82 steering boxes for 45.00 each.**

---

**ALL NEW... Steering Boxes for 63-82 Corvettes**

These NEW steering boxes are manufactured using the highest quality all new components. Even the castings and cap are new! (This also means no core charge is required!) These are new steering boxes manufactured by the original supplier. They are preset to factory spec and “Do not Need Adjustment”.

Power Steering Renew Kit

Includes a valve and cylinder plus a new set of hoses!

- $35.00 each for a PowerSteeringRenewKit
- $15.00 each for Power steering cylinder cores
- Corvette Central will buy your rebuildable power steering valve cores for $77.00 each, new valve and cylinder - No Core Charge

**Special Price**

- New Valve, Rebuilt Cylinder - 77.00 Core Charge
- New Valve and Cylinder - No Core Charge

Kits also include mounting hardware kits.

- Will not Fit Engines w/ 6 Qt. Oil Pan or Wide Groove Pulleys

**G3-67 Bolt On Rack and Pinion Steering Kit**

The following components are included:
- Remanufactured GM Saginaw rack and pinion
- Adapter brackets and miscellaneous fasteners (Grade 8)
- Self cleaning and lubricating teflon lined tie rod ends
- U-Joint assembly
- Power steering hoses

Get improved steering feel with greater control and responsiveness from this lighter than stock rack and pinion steering system. Additional improvement comes from a quicker steering ratio that gives you approximately 2.75 turns lock to lock.

Kit includes everything you need to complete a well engineered conversion with the exception of a power steering pump. Re-use your existing pump or a stock pump and brackets for your application. This system will clear after-market tubular headers. Bolt on installation requires absolutely no welding, cutting or drilling and installs with basic hand tools in about 3 hours.

**Manual to Power Steering Conversion Kit**

For use with Steeroids or Power Steering Gear Box

- Includes Power steering pump, pulley, brackets, and hardware

**Power Steering Hose Set**

Set of 4

- 327 Power Steering Hose Set-Rubber w/Clamps
- 427 Power Steering Hose Set-Rubber w/Clamps
- 327 Stainless Steel Braided Power Steering Hose
- 427 Stainless Steel Braided Power Steering Hose

63-67 Front Suspension Rebuild Kits

We now offer correct front suspension rebuild components, competitively priced to replacement or generic kits. Manufactured and approved by Corvette Central.

572094 Standard Kit 229.95
572105 Super Kit 329.95
572121 Upper A-Arm Bushing 15.95 ea. 4 4
572109 Lower A-Arm Bushing 15.95 ea. 4 4
572137 Ball Joint - Upper 34.95 ea. 2 2
572143 Ball Joint - Lower 29.95 ea. 2 2
572030 Stabilizer Link Kit 19.95 pr. 1 1
572303 Tie Rod End - LH 19.95 ea. 2 2
572304 Tie Rod End - RH 19.95 ea. 2 2
572157 Tie Rod Tube w/Clamps 45.95 ea. 2 2
572099 Idler Arm 59.95 ea. 1 1
572020 Front Suspension Bumper 21.95 set 1 1

63-67 Corvettes have 4 tie rod ends, so does our kit.

Front Wheel Bearings

Front Wheel Bearings and Dust Caps

572115 63-67 Front Wheel Bearing Kit (2 Req.) 22.95
(Includes 1 ea. in and out Bearing and Inner Seal)
Front wheel bearing kits listed are for 1 wheel. CC suggests you buy 2
kits and do both front wheels!

572116 63-67 Front Inner Wheel Bearing, ea. 9.95
573116 63-67 Front Inner Wheel Bearing, ea. 13.95
572117 63-67 Front Outer Wheel Bearing, ea. 8.95
572118 63-67 Front Wheel Bearing Seal, ea. 6.95
572126 63-67 Front Wheel Grease Caps w/Dimple, (Set of 2) 19.95
572128 63-67 Front Wheel Static Collector, ea. (in Dust Cap) 19.95

GM Chassis Grease

This GM Lube will properly lubricate your Corvette’s chassis (ball joints, tie rods, drive shaft). Grease gun required.

101524 14 oz. 19.95

Front Suspension

ADDCO Performance Anti-Sway Bar Systems

You can feel it and you can see it, and now you can correct it with ADDCO anti-sway bars. Body roll, that uncomfortable leaning of your Corvette as you turn corners, can now be corrected with adjustable anti-sway bars. Easily bolted on to your chassis, the sway bars start out in the base line position and can be adjusted to suit your specifications. You decide just how fast or how much reaction you want out of the bars. The sway bars are adjusted by simply tightening or loosening the links on the bars. All necessary hardware and instructions are included.

Correct A-Arm Sets
Why mess around restoring worn out or rusted A-Arms. With this complete A-Arm Set, you get new NCRS Correct Arms including, correct riveted ball joints, washers and bolts, bumpers, cross shafts, and bushings.
1963E (first 1/2 year) lower A-Arms did not have the welded support on the underside below the sway bar link boss. All late 63-82 lower A-Arms are the same. The upper A-Arms are the same from 63-66E (first 1/2 year). They have rectangular shaped cross shafts with the GM part number. 66L-82 upper A-Arms are all the same with a rounded cross shaft.

572101 63E .........................................................1,399.00
572123 63L-66E ....................................................1,399.00
572145 66L-67 .....................................................1,399.00

Rebuilt Upper & Lower Control Arms
Completely disassembled, inspected and powder coated. Reassembled with new ball joints, bumpers and rubber bushings.
572171 Upper (L or R) (ND) .................................199.00
572229 Lower (L or R) (ND) .................................249.00
The above products will have a $75.00 core charge added to it if your core is not received before the time of order.

Correct Shape Tie Rod Ends
Note: These new design tie rod ends come pre-greased with (EP2 GREASE) and are now a sealed unit that does not require any additional grease, "Zerk fittings are for cosmetic purposes only."
572303 Left Hand Thread - Correct Shape..........................19.95
572304 Right Hand Thread - Correct Shape........................19.95
572107 Set of 4 Tie Rod Ends .................................. 74.95
572092 Tie Road End and Tube Kit - Does Both Sides...........109.95

63-67 Cotter Pin Kit
Many hours of research by NCRS Judge Terry McManmon was involved in putting this kit together. Includes 38 zinc plated correct cotter pins for your suspension, shifter, transmission, clutch and brake. Includes instructions for usage. Note: Does not include Long Trailing Arm Cotter Pins.
572349 ..............................................................10.50

572027 Lower Ball Joint Rivet Set - Solid (Set of 4) ............3.95

Idler Arm
572099 63-82 Idler Arm-Correct Shape Reproduction- No Grease ........................................59.95
Corvette shape and thickness forging without zerk fitting. Includes correct boot. Does not have GM part number cast into it as original.
572165 63-82 Idler Arm with 2 Grease Fittings...............39.95

Front & Rear Suspension DVD
- Over 1 Hour of Step-By-Step Tips
- Includes Both Front & Rear Suspension
- Reveals Tricks-of-The Trade
If you’re going to do any work on your front and rear suspension, you owe it to yourself to learn the tricks that make mechanical work as easy and professional as possible. This video covers rear suspension disassembly, bearing assembly removal, strut rod disassembly, front suspension disassembly, rear suspension overview, rear differential installation, trailing arm assembly, quickie rear end alignment and front suspension overview and installation.
582154 .............................................................. 29.95
American Made From 4130 Chromoly. These hubs come complete with Timken USA bearing and races. The races will be installed in the unit along with new stock size wheel studs. Also included are new castle nut, cotter pin, washer, and grease cap.

572147...............................249.95

Front Wheel Hub w/Bearings-New

American Made From 4130 Chromoly. These hubs come complete with Timken USA bearing and races. The races will be installed in the unit along with new stock size wheel studs. Also included are new castle nut, cotter pin, washer, and grease cap.

572147........................................249.95

Suspension Upgrades

Aluminum Upper Control Arms
- Improves Suspension Geometry
- Improved Handling and Cornering
- Increased Positive Casters and Bumpsteer
- 8 lbs Pair Less Weight Than Stock
- A True Bolt-On

572095 Natural Finish - No Ball Joints, pr. (ND)......................739.00
572133 Natural Finish - Includes Stock Ball Joints, pr. (ND) ..INQUIRE
572148 Natural Finish - Includes Hi-Performance Ball Joints, pr. (ND)...............................................899.00

Aluminum Lower Control Arms
- Significant reduction in un-sprung weight over factory A-Arms
- Precision no maintenance PTFE-lined ball joint bearings for accurate repeatable suspension tracking
- Welded/machined aerospace alloy construction
- Heavy duty steel cross shaft
- Compatible with coil over shock and spring packages
- Precision U.S. made ball joints
- Complete bolt on Kit including Grade 8 fasteners

572088 Lower A-Arm/Control Arm-Natural Aluminum Finish (ND) .. 1,789.00

Adjustable Upper Control Arm
Adjustable Upper Control Arms, adjust camber, caster or length for maximum handling and performance. These arms provide quick and easy adjustment for standard or lowered heights and will accommodate most air ride systems. Fine tune your handling and alignment while minimizing tire wear. Includes Steel Cross Shaft with Custom Pivots and OE Clevite Bushings to minimize road shock. Adjust UCA from 8-1/2" to 10-1/2"

572146 Pair ...........................................469.95

Ground Touring Springs

460 lb. Grand Touring Front Coil Springs
The best all-around coil spring available. These coils are rated heavier than stock (293 lb/in) and lighter than F-41 (550 lb/in) factory optional performance springs. Stock coils are rated far too light for performance handling, and F-41 coils too stiff for everyday driving comfort. The Grand Touring coil springs will outhandle stock coils and yet offer improved ride over F-41 optional springs.

572053 Pair .............................................84.95

550 lb. Street & Slalom Front Coil Springs
Want even greater handling capacity? These poly-vinyl coated springs will upgrade your car to F-41 or Gymkhana specifications at a fraction of the cost for original equipment, and lowers the car approx 1".

572054 Pair .............................................84.95

572095 Natural Finish - No Ball Joints, pr. (ND)......................739.00
572133 Natural Finish - Includes Stock Ball Joints, pr. (ND) ..INQUIRE
572148 Natural Finish - Includes Hi-Performance Ball Joints, pr. (ND)...............................................899.00

Front Wheel Hub w/Bearings-New

American Made From 4130 Chromoly. These hubs come complete with Timken USA bearing and races. The races will be installed in the unit along with new stock size wheel studs. Also included are new castle nut, cotter pin, washer, and grease cap.

572147........................................249.95
Front Coil Over Kits

- Light Weight, Superior Strong Tubular Chromoly Steel Construction
- Delrin Bushings • Gloss Black, Long Lasting Powder Coat Finish
- Pre-Assembled • Powder-Coated Black • Limited Life Time Warranty

Light weight control arms. Designed for the Corvette owner who wants the "Race Car" convenience of adjustability and "Race Car" looks.

Complete Car Sets w/A-Arms and Coilovers

572218 Conversion-450# Springs Single Adjust - Stock Height...2,249.00
572362 Conversion-550# Springs Single Adjust - Stock Height...2,249.00
572389 Conversion-450# Springs Double Adjust - Stock Height. 2,499.00
572281 Conversion-550# Springs Double Adjust - Stock Height. 2,499.00

A-Arms Only

572401 Tubular A-Arm for Semi Coil Over (Set of 4)..........1,699.00
572326 Tubular A-Arm for Stock Spring and Shocks (Set of 4).1,699.00
572318 Tubular A-Arm - Upper Stock Spring and Shocks, Pr. (ND)....749.00
572272 Tubular A-Arm - Lower Stock Spring and Shocks, Pr. (ND)...859.00

Rear Coil Over Kits

- Aluminum, threaded body, adjustable mono-tube QA1 shocks
- Hyperco high silicone wire coil spring
- Offset Trailing Arms with Coil Over Bracket
- Upper shock mount reinforcement kit
- Hardware included

There are a lot of benefits to coil overs apart from the obvious ease of spring swapping and ride height adjustment, but there are important benefits as spring and shock tuning allows you to set up the suspension to suit your car much better than with any other system. Note: 63-64 cars need to convert to disc brakes. Will not work with drum brakes.

572158 327/350 Single Adjustable (ND)..........................1,399.95
582220 427/454 Single Adjustable (ND)..........................1,399.95
583021 327/350 Double Adjustable........................................1,699.95
583100 427/454 Double Adjustable.................................1,699.95
582179 327/350 Single Adjustable w/New Bearing Assemblies and Rotors.................................2,599.95
583049 327/350 Double Adjustable w/New Bearing Assemblies and Rotors.................................2,849.95
582233 427/454 Single Adjustable w/New Bearing Assemblies and Rotors.................................2,599.95
583128 427/454 Double Adjustable w/New Bearing Assemblies and Rotors.................................2,879.95

Tubular A-Arms For Stock Suspension

- Light Weight, Superior Strong Tubular Chromoly Steel Construction
- Delrin Bushings • Gloss Black, Long Lasting Powder Coat Finish
- Pre-Assembled • Powder-Coated Black • Limited Life Time Warranty

Light weight control arms for the 63-82 Corvette. Designed for the Corvette owner who wants the “Race Car” convenience of adjustability and “Race Car” looks. Made in the U.S. with 4130 chromoly steel, these ultra strong arms reduce weight by 8.50 pounds. They arrive to you assembled with long lasting Delrin bushings, and HD ball joints and a durable gloss black powder coat finish.

572318 Tubular A-Arm - Upper Stock Spring and Shocks, Pr.....749.00
572272 Tubular A-Arm - Lower Stock Spring and Shocks, Pr.....859.00

Offset Rear Control Arms

- Will not work with rear sway bars if the car has wider than 8” wheel
- Improved Design and Ease of Installation
- Increases Wheel Backspace Clearance Over Stock T-Arms
- Accepts OEM Size Nose Bushings
- Durable Gloss Black Powder Coating Finish
- Limited Lifetime Warranty

T-Arm is offset 2 inches. By running an offset trailing arm, it will allow you to run a wider tire on a stock rim or run a wider aftermarket rim and tire. T-Arms come powder coated gloss black and with poly bushings. All arms are made in America. They are 1/4” thick, c-channel, laser cut and jig welded.

582163 Offset, pr.(ND).................................................499.95
582144 Rear Offset Stabilizer/Sway Bar (ND).............................174.95

Use with P#582183; Off Set Trailing Arms Only

ND = No Discount

visit us on the web at: www.corvettecentral.com • email us at mail@corvettecentral.com
• Shark Bite Rear Coil Over Suspension offers truly independent suspension – no more bouncy communication from left to right from the monoleaf spring
• Shark Bite kits offer adjustable ride height in minutes while on the vehicle
• With Shark Bite kits you can change your springs in less than 20 minutes – easy access and quick release pins allow for instant spring changes for on the road or on the track.
• Lighter weight – Shark Bite kits weigh less than the factory spring
• Shark Bite kits load the same location on the vehicle as the factory spring loads
• The rocker arm design is inspired and proven by the racing industry
• Shark Bite kits are Bolt-On installation – absolutely no welding, cutting or drilling. Installs with basic hand tools in approximately 3 hours
• Shark Bite kits offer adjustable shock valving so you can tune the ride to exactly the way you like it

**Coil Over Suspension Kit**

- Works with factory exhaust and with factory spare tire
- Highly visible – great presentation!
- Shark Bite kits are complete packaged; they provide performance and they just look awesome!

**Coil-Over Complete System**

*Bolt-on Installation: Complete Transformation!*

- Coil-over shocks are placed behind the halfshafts for better accessibility and control
- Offset fabricated trailing arms offer more tire clearance and increased strength
- Relocated camber links optimize camber gain for better handling
- Delrin control arm bushings offer stable, smooth and quiet bushing movement
- Tubular StrongArms optimize strength and proper alignment

Includes: Front and Rear HQ Series CoilOvers With rebound-adjustable shocks, Front TruTurn, Rear StrongArms.

THE DECAlink™ Independent Rear Suspension features no compromises and exclusive Detroit Speed suspension geometry for superior handling and ride quality. The IRS utilizes modern CV axle shafts and hub bearings, keeping suspension loads from being transmitted through the axle shafts. The suspension is offset inboard for additional tire clearance. All suspension link lengths are adjustable and the kit has adjustments for rear anti-squat geometry and roll center height. The suspension points are hard mounted to eliminate stock rubber mounted suspension deflection.

It comes with forged aluminum uprights and a two-piece cast aluminum/steel cradle assembly which eases differential housing removal. DSE/JRI “Detroit Tuned” Coilover shocks/springs allow spring rate tuning and ride height adjustments. The kit includes a rear anti-roll bar and uses OEM cross-axis pivot bushings at all pivot points. The kit also includes Torrington bearings and a spanner tool for easy spring height adjustments.

Front Rear

The SPEEDRAY™ front suspension has no compromises and exclusive suspension geometry for superior handling and ride quality. It is available as a 100% bolt-on system or with a small amount of fabrication for a competition coilover option that allows faster spring changes. The system features ‘Detroit Tuned’ quick ratio power rack and pinion steering along with forged in the USA Detroit Speed aluminum uprights. The bolt-on powder coated cradle assembly improves suspension geometry, provides rigid mounting for the rack and pinion. DSE/JRI ‘Detroit Tuned’ Coilover shocks/springs allow for spring rate tuning and ride height adjustment. It also includes a splined sway bar with aluminum arms, composite bushings, powder coated tubular upper and lower control arms with Delrin™ bushings, forged offset upper control arm mounting brackets with caster tuner bushings to optimize suspension geometry and provide clearance for Gen V LT4 engines. The body and engine do not need to be removed for installation of the SPEEDRAY™ front suspension.
Fiberglass Rear Spring w/ Delco Gas Shock Kit
Many Corvette suspension mechanics recommend using gas charged shock absorbers with a fiberglass rear spring. The characteristics of a fiberglass spring are more closely matched with a gas shock than a standard shock. Now Corvette Central offers a fiberglass rear spring with a set of 4 gas shock absorbers in a convenient package of components that work well together. The combination of a smooth riding, lighter weight fiberglass spring along with a pair of Delco Performer gas shocks that provide optimum ride control will make a marked improvement in the ride and handling of your Corvette. Includes adjustable spring mount bolts with poly cushions. Cannot be shipped by air.

582189 $330 lb. (ND)
582194 $355 lb. (ND)

Performance Front & Rear Sway Bar System
You can feel it and you can see it, and now you can correct it with ADDCO anti-sway bars. Body roll, that uncomfortable leaning of your Corvette as you turn corners, can now be corrected with anti-sway bars. Easily bolted on to your chassis, the sway bars start out in the base line position and can be adjusted to suit your specifications. You decide just how fast or how much reaction you want out of the bars. The sway bars are adjusted by simply tightening or loosening the links on the bars. All necessary hardware and instructions are included.

572192 ................................................................. 319.95

Performance Front & Rear Sway Bar System
Order the following:
• Fiberglass Rear Spring
• QA1 or Gas Shocks
• Performance Front & Rear Sway Bar Kit
• 460 lb. Grand Touring Front Springs

Smart Struts eliminate unwanted change in rear wheel camber. At 2-1/2 inches of wheel travel the Corvette rear camber setting changes over 2°. The same car equipped with Smart Struts has a measured camber change of less then one tenth of a degree at over 5-1/2 inches of wheel travel! Smart Struts are guaranteed to improve handling and reduce uneven tire wear. They also reduce hub bearing wear by reducing side loading.

582237 63-67 (ND) ......................................................... 219.95

Bump Steer Kit
Bump steer is when the front wheels steer themselves without input from the steering wheel. The undesirable steering is caused by bumps in the road interacting with improper length or angle of the suspension and steering linkages. Includes stainless steel studs along with chomoly heims that have a static load of 18,000. The sleeves are powder coated for a durable finish.

562231 Bump Steer Kit ..................................................... 379.95

Poly-Adjustable Strut Rods
These Strut Rod Kits with Urethane Bushings eliminate the stock adjustment cam bolt system that often allows the rear tires to ‘lean in’ at the top and cause premature tire wear.

582108 Heavy Duty Strut Rods (ND) ...................... 219.95

63-67 Polyurethane Bushing Kit

The Hyper-Flex master polyurethane bushing kit replaces all the major suspension components without the search for part numbers and kits, but more importantly, without the high cost of purchasing the items separately. These bushings are constructed from a unique new chemical formulation producing a super tough material which holds up through the most demanding conditions. Race proven, performance tested, Hyper-Flex is the new generation of polyurethane that is superior to all others. Kit includes:

- Front Control Arm Bushings
- Rear Stabilizer Bar & End Link
- Power Steering Cylinder
- Rear Spring Cushions
- Differential Mount Cushions
- Front Stabilizer Link Kit

Upgrade Your 63-67 with Urethane Bushings — Improves handling while retaining stock appearance! All Poly Bushings are black — for that original look.

63-67 Correct Delco Replica Shock Absorber Set

All 1963-82 Corvettes came with oil filled shock absorbers from the factory. These shocks were referred to as 10/90 shocks because as they compressed when your car went over a bump, they had 10% resistance on the way down and 90% resistance on the way back up so the springs did not send you bouncing up too fast. The suspension was designed with this type of dampening.

These shocks are an exact replica both internally and externally of the original Delco brand shocks, which will once again help in your Corvette driving experience the way it was designed from GM.

Why Choose Polyurethane?
Polyurethane bushings have many advantages over stock rubber ones. Polyurethane, unlike rubber, is not molded to the steel outer shells. Instead of twisting like rubber, the bushings are free to rotate on the sleeves like a bearing. This means the front suspension cannot bind and becomes full floating, resulting in longer life and improved handling. Polyurethane will not rot or deteriorate from oil, gas, road salt or atmospheric conditions such as smog or other corrosive chemicals. Impregnated with graphite to inhibit wear and squeaks.

Why Choose Polyurethane?
Polyurethane bushings have many advantages over stock rubber ones. Polyurethane, unlike rubber, is not molded to the steel outer shells. Instead of twisting like rubber, the bushings are free to rotate on the sleeves like a bearing. This means the front suspension cannot bind and becomes full floating, resulting in longer life and improved handling. Polyurethane will not rot or deteriorate from oil, gas, road salt or atmospheric conditions such as smog or other corrosive chemicals. Impregnated with graphite to inhibit wear and squeaks.

63-67 Correct Delco Replica Shock Absorber Set

All 1963-82 Corvettes came with oil filled shock absorbers from the factory. These shocks were referred to as 10/90 shocks because as they compressed when your car went over a bump, they had 10% resistance on the way down and 90% resistance on the way back up so the springs did not send you bouncing up too fast. The suspension was designed with this type of dampening.

These shocks are an exact replica both internally and externally of the original Delco brand shocks, which will once again help in your Corvette driving experience the way it was designed from GM.

Shocker Adjustable And Non Adjustable, Non Coil-Over Shocks

- Aluminum
- Made in the U.S.A.
- Easy, Bolt-In Installation
- 100% Dyno Tested and Serialized
- Stock Mount

QA1 offers aluminum non or single adjustable shocks for your Corvette. Providing simultaneous compression and rebound adjustment with one easy-to-reach knob on adjustable shocks.

- Designed for Street Driving

Bilstein Gas Shock Absorbers
- High Pressure Gas Shock
- Our Best Performance Shock
- Limited Lifetime Warranty
- Cannot be shipped overseas or by air.

RIDE TECH HQ Monotube Adjustable Shock Kit
- Road gripping performance
- Race winning turnability
- Easy-access adjuster knob
- Single adjustable. This shock has a wide range of 26 click adjustments to change the rebound (extension) properties. By adjusting the rebound setting, you can optimize the ride quality even more as well as dial in more performance oriented handling characteristics.

KYB Gas Shock Absorbers
KYB’s provide high performance at a reasonable cost. Even under the most demanding driving conditions, KYB mono-tube shocks continue to deliver 100% shock absorbing efficiency. They are backed by a limited lifetime warranty. Cannot be shipped overseas or by air.

Fast and Easy Rear Suspension Restoration

Deluxe

Replacement hardware — Not correct headmarks, but correct style and grade!

Basic Rear Suspension Hardware Kit
• Mounts all rear suspension components • Correct sizes for all areas
• Don’t use your old rusted fasteners • Bagged and tagged for each location • All fasteners are plated • Easy assembly
The correct amount of fasteners in the sizes, grades, and finishes you need to complete your rear suspension project.

(Kit Includes: Rear Spring Mounting Kit, Rear Spring Mount Bolts, Upper & Lower Rear End Mount Cushions, Differential Carrier Bolt Set, Trailing Arm Bolt Set, Shock Bracket/Strut Arm Nuts & Clips, Differential Front Bracket Bolt Set, French Locks, French Lock Bolt Set, Spring Anchor Bolt Set, 2 Cam Assemblies, 2 Trailing Arm Cotter Pins)

582136 65-67

Only 139.95

Kit

Basic Rear Suspension Hardware w/Poly Bushings
• Rear Spring Mounting Kit with Polyurethane Bushings
• Upper and Lower Rear End Mount Polyurethane Cushions with Bolt and Washer
• Polyurethane Trailing Arm Bushings, Washers, and Bolt Set
• 2 Camber Assemblies
• 2 Strut Rods with Polyurethane Bushing
• 4 Strut Rod End Caps

582186 63-67 .................................................. 179.95

See Our Website for a photo of what is included in the kit.

FasTrax Camber/Caster Gauge
This great tool is a must for all garages and shops; plus, it can’t be beat at the track.
• Includes gauge and wheel mount
• Displays Camber +/-4° / Caster -4° to +12°
• Saves time and tires
• Accurate, rugged and easy-to-use

Portable, hands-free alignment can be done quickly and easily with the FasTrax Adjustable Camber/Caster Gauge. This tool will help you fine tune your alignment for optimal tracking and handling while minimizing alignment headaches.

Composite Transverse Leaf Spring

Eliminate your Corvette’s choppy ride, restore lost ride height and eliminate unevenly squeaks and moans, all by replacing your worn-out steel leaf spring with a fiberglass replacement. A fiberglass leaf spring will give you a smooth, comfortable ride and will do so without sacrificing performance. These are TRW design composite/fiberglass rear springs which can be fitted on any Corvette from 1963-1967. They provide a very superior ride while maintaining the excellent handling associated with the Corvette. These springs are state of the art and this technology was standard equipment on all 80-96 Corvettes. This upgrade is one you will be very pleased with! Our springs come with all the mounting hardware, including spring bolts and special heat shield. These springs are absolutely the best available and have been tested over millions of cycles on special test equipment. These springs are available in three rates...a 315# rate for standard suspension, 330# rate for heavy duty suspension needs and our 355# rate for high performance and stiffer handling.

Complete rear spring kit includes: Fiberglass Monospring, 8" adjust-able spring bolt and poly cushions, plate mount kit and instructions.

Upgrade

Order gas shocks with fiberglass springs for an improved ride.
**Poly-Adjustable Strut Rods**

These Strut Rod Kits with Urethane Bushings eliminate the stock adjustment cam bolt system that often allows the rear tires to 'lean in' at the top and cause premature tire wear. 

582108 Heavy Duty Strut Rods ..................109.95

582181 our tubular steel, racing quality units are manufactured with nylon fiberglass composite spherical bearing ends. These strut rods are far stronger than stock and stop handling irregularities due to strut rod flex and bushing compression. Not recommended for street use because of harsh ride.

63-74 Strut Rod Bushings are 1-1/4" O.D., 75-82 are 1-3/8" O.D.

Corvette Central can help if you have something you can’t find in our catalog!
65-67 New Rear Control Arm Assemblies With Matched Rotor & Wheel Bearing Assembly

- All new factory parts.
- Selectively aligned rotor.
- Bolt-on installation.

Save time and money — install our new trailing arm assembly with wheel bearing assembly. This unit contains all-new parts. Installation is easy because the rear wheel bearing and rotor are mounted to a new trailing arm with the stainless steel brake kit installed. The unit comes with a 3-year manufacturer’s unlimited mileage guarantee.

582265 65-67 Rear Control Arm Assm. w/Sway Bar Bracket Holes w/Rotor (L or R) 894.95
582198 65-67 Rear Control Arm Assm.w/Sway Bar Bracket Holes-No Rotor (L or R) 869.00

65-67 New Rear Wheel Bearing Assemblies

Save time and save money — install our rear wheel bearing assembly. This unit is carefully assembled using all new parts to give you years of trouble free service. The unit comes with a 3-year, unlimited mileage guarantee. It consists of the following parts: Spindle, Caliper Bracket, Parking Brake Flange Plate, Anchor Bolt, Guide Plate, Bearing Support, Inner & Outer Bearing, Inner & Outer Seals, Spacers, Shims, Dust Shield, and Spindle Nut.

582072 65-67 New Rear Wheel Bearing Assembly (L or R) 639.00

CORVETTE CENTRAL SPECIAL PRICE

Rebuild Services

- Rear Control Arm Rebuild Service Rebuilding Your Core Includes:
  All parts cleaned, inspected and painted before assembly. Trailing Arms can be repaired or replaced at an additional cost. New front bushing. New bearings/races assembled with new seals. Bearings are blue printed to exacting specifications. Unit is assembled with Mobil 1 high temp synthetic grease at assembly. New stainless parking brake kit, new emergency brake shoes, new brake flange/dust shield, new wheel studs, spindle faced to run true to bearings. New spindles can be installed at an additional cost.

582323 63-67 (L or R) 399.00

- Wheel Bearing Assembly Rebuild Service Rebuilding Your Core Includes:
  All parts cleaned, inspected and painted before assembly. New bearings/races assembled with new seals. Bearings are blue printed to exacting specifications. Unit is assembled with Mobil 1 high temp synthetic grease at assembly. New brake flange/dust shield, new wheel studs, new parking brake shoe hold down plate, spindle face is trued to bearing journal. New spindles can be installed at an additional cost.

65-67 Rebuilt Differentials

Professionally rebuilt differentials. Each unit is rebuilt with new ring gear and pinion, Timken bearings and races, C/R seals, new pinion set, new ring gear shaft pack with keepers, center pin, crush sleeve, new shims, ring gear bolts. A $400.00 core deposit will be added to the price of the differential. The $400.00 will be refunded upon receipt and inspection of a rebuildable core. A deduction on the core will apply for cracked cases, egg-shaped pinion shaft holes, broken rings, gear bolts and broken gears.

Note: Cores must be returned within three weeks of invoice date in order to qualify for any refund. Sorry, no exceptions.

Ring & Pinions

- 3.08 (ND) ........................................ 1,029.00
- 3.36 (ND) ........................................ 1,029.00
- 3.55 (ND) ........................................ 1,049.00

Differential Posi Clutch Disc Pack (22 pcs.)........... 164.95

Rear End Rebuild Kit

Deluxe Rear End Bearing & Seal Rebuild Kit
Includes 2 Side Carrier Bearings, 1 Front Pinion Bearing, 1 Pinion Seal, 2 Side Yoke Seals, 1 Cover Gasket, 1 Crush Sleeve, Ring Gear Bolts, Pinion Shims, Side Shims, Marking Compound, Threadlock & Pinion Nut.

Rear End Cover

We accept

- Ordering information in front of catalog

Aluminum Rear End Cover

Ultra-light, weighs only 12 pounds. Greatly improved cooling, along with extra webbing for greater strength. Also includes bosses to allow for plumbing an external cooler for extreme applications. The interior diameter of the cover is larger than the OE cover, allowing for installation of larger ring and pinion gears.

Kit includes cover, vent, gasket, magnetic drain plug, and cover bolts.

Rear End Lube

GM Special Formula Rear End Gear Lube 32 oz.

582426 ...24.95 ea.

GM Synthetic Rear End Lube 32 oz.

581123 ...28.95

GM Posi Rear End Lube Additive 4 oz. (1 Req.)

582425 ...13.95 ea.
**63-79 Rear End/Differential Delrin Kit**

- More Rigid Mount of Differential
- Raises Differential for Better Half Shaft Geometry
- Great Street or Track Upgrade
- Nearly Eliminates all Deflection in Differential

**582224** 63-79  Rear Differential Crossmember Delrin Mount Kit (ND)................................. 209.95

**NOTE:** Requires #582408 Reinforcement Kit for Installation

---

**SMART STRUTS®**

Smart Struts eliminate unwanted change in rear wheel camber. At 2-1/2 inches of wheel travel the Corvette rear camber setting changes over 2°. The same car equipped with Smart Struts has a measured camber change of less then one tenth of a degree at over 5-1/2 inches of wheel travel! Smart Struts are guaranteed to improve handling and reduce uneven tire wear. They also reduce hub bearing wear by reducing side loading. All PolyAdjustable Smart Struts have a limited lifetime warranty.

**582237** 63-67 (ND) .............................................................. 219.95

---

**ADDCO Performance Rear Anti-Sway Bar**

You can feel it and you can see it, and now you can correct it with ADDCO anti-sway bars. Body roll, that uncomfortable leaning of your Corvette as you turn corners, can now be corrected with adjustable anti-sway bars. Easily bolted on to your chassis, the sway bars start out in the base line position and can be adjusted to suit your specifications. You decide just how fast or how much reaction you want out of the bars. The sway bars are adjusted by simply tightening or loosening the links on the bars. All necessary hardware and instructions are included.

Front Sway Bar — See Page 156
Rear Control Arm Bushing Installation Tool
The only way to correctly install the forward bushings in trailing arms! This heavy duty tool correctly compresses the bushings and allows you to crimp the bushing retainer. Incorrectly installed bushings can cause accelerated tire wear and poor handling. This tool will pay for itself by eliminating a trip to a machine shop.
582423 .................. 89.95

Rear Shock Mount Removal Tool
Use to drive rear shock mount stud out of support arm without damage.
582414 .................. 19.95

Spindle Removal Press
Use to press out the most stubborn spindle with ease. Replace or inspect your Corvette’s spindle quickly and without the high cost of hiring a professional. Solid steel construction guarantees a lifetime of service.
582427 ............... 239.95

Heavy Duty Spindle Knocker Tool
Use to “knock out” the most stubborn spindle from the carrier with no damage to the spindle threads. Fully guaranteed for one year of normal use.
582415 .................. 18.95

Rear Spindle Bearing Greaser
Don’t let rear bearing failure strand you in the middle of nowhere! Our rear wheel bearing greaser will enable any 68-82 Corvette owner to lubricate wheel bearings without the cost of hiring a professional to remove the spindle. Instructions are included. Use also shown in GM Shop Service Manual.
582416 .................. 11.95

Rear Spindle Bearing Puller
Use to remove the rear wheel bearing and race from the spindle without damage. The spindle must be removed from the trailing arm to use this tool. Machine hardened steel. You can count on this tool for years of hard use.
582419 (ND) ............ 149.00

Rear Spindle Installation Tool
No more pounding spindles and bearings into place! Use this installation tool to pull the spindle and bearings into the carrier without damage to the bearings, threads, or seals. This is essential to long bearing life. Top quality tool is made to last for many restorations. - Foreign Made
582413 ................... 61.99

Rear Spring Cup Installation Tool
(For Rear Trailing/Control Arm or Rear Spring)
Replace the rear spring cushion retainers in your C3 with our easy-to-use tool kit. No need to unmount the trailing arms or springs. Unlike other outdated tool kits, our innovative time-saving tool enables you to install retainers without removing mounts.
582219  68-80 .................. 39.95

Rear Spring Cup Installation Tool
(For Rear Trailing/Control Arm or Rear Spring)
Replace the rear spring cushion retainers in your C3 with our easy-to-use tool kit. No need to unmount the trailing arms or springs. Unlike other outdated tool kits, our innovative time-saving tool enables you to install retainers without removing mounts.

**Important**

Electrical components such as switches, regulators, relays and horns, NON-RETURNABLE PARTS

Always refer to a factory service manual when diagnosing engine service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.

---

After simple instruction of this kit your courtesy lamp will remain on for a user adjustable amount of time (0-60 seconds), or until the ignition switch is turned on or accessory. At the end of the delay function, the courtesy lights will gradually fade to dark.

**1967 Original Style Correct Bolt on Wheels**

- Extensively Researched
- Correct Mounting Hardware
- Affordably Priced
- All Inclusive Sets - Wheels & Hardware

Widely recognized as the most beautiful wheels ever produced for Corvettes, we now offer you 1967 Replica Bolt-On Wheels that capture the true essence of the Kelsey Hayes manufactured originals. With the help of numerous Corvette Restoration experts and NCRS judges these wheels have been completely retooled. In addition to the wheels themselves all mounting hardware is made like their original counterparts and install just like they did too. Best of all, we bring them to you at a fraction of the cost you would pay for a set of used original 1967 wheels in good condition. Our complete set features 4 Replica 15" x 6" Bolt-On Wheels and all of the original style hardware, including lug nuts, needed to install the wheels. Complete installation instructions also included. 1967 bolt on Wheels Hardware is interchangeable with the hardware originally supplied from the factory.

Adam’s Tire and Rubber Cleaner

Deep cleans tires and removes baked on tire dressing, blooming, and discoloration. It effectively removes oxidation, wax, and polish residue from rubber and plastic trim parts as well.

112617 16 oz. ..............................................12.95

Adam’s Eco Wheel Cleaner

• Direct-Release to the Environment Approved
• Powerful cleaning capability with a pleasant citrus scent
• Thin formula allows for a wider working area
• Breaks down brake dust, road grime, and dirt
• Safe on painted, powder-coated, anodized, clear coated, and chrome wheels

Adam’s Eco Wheel Cleaner is an environmental friendly wheel cleaning solution. It is pH neutral formula that is Direct-Release to the Environment Approved and breaks down road grime and wheel contamination.

111598 16 oz. ............................................... 12.99

Forever Black™ Tire Gel

• Black pigmented color
• Water based
• Silicone & oil free
• Environmentally safe
• Does not attract dust
• Fast drying
• Does not sling off tires
• Protects against UV damage

Unlike all other tire dressings on the market, Forever Black is a black pigmented polymer. This environmentally friendly product will restore the faded bronze look of your tires to their original appearance. The hand held applicator eliminates the mess of oversprays. One easy application will protect and restore your tires.

101816 8 oz. .................................................. 13.95

V.R.T. (Vinyl, Rubber, Tire)

Enhance and protect the appearance of plastic, rubber, tires, moldings, dashboards, and door panels. Adam's V.R.T. contains no harmful silicone or alcohol. The thick moisturizing cream applies easily with a sponge and will not leave a greasy film, attract dirt, or harm paint and glass. Added U.V. protection keeps vehicle interiors and exteriors looking and feeling like new.

106824 16 oz. .................................................. 19.95

California Micro Fiber Wheel Duster

Micro Fibers effectively trap dust and dirt

• The “fork” easily spreads when pushed on an object for true one-handed convenience
• It “clamps” around the object to clean both sides at the same time
• Can also be used as a conventional duster on any surface
• Easily cleaned to allow repeated use time after time

Use to remove annoying brake dust and much more! Also great for roof racks and automotive grilles and can be washed and re-used hundreds of times.

101948 .......................................................... 11.95

Wheel, Grille and Bumper Brush

Get all of the nooks and crannies in your wheels and tires clean with this brush. Soft and natural tampico bristles and angled head design take some of the struggle out of the chore.

101079 .......................................................... 8.95

Adam’s Wheel Cleaner

• Safe on painted, powder coated, clear coated, and chrome wheels
• Thick gel-like viscosity clings to wheels for excellent cleaning power
• Dissolves brake dust, road grime, and dirt
• Color changes to purple as it's working

Adam’s Wheel Cleaner is the most high-performance wheel cleaner you’ve ever tried. It is a pH neutral formula that specifically targets iron and metallic particles left behind by today’s modern brakes.

111628 16 oz. Bottle ........................................... 14.95

Wheel Detail Brush

Conforms to any wheel including wire wheels. Gets dirt out of tight spaces.

101226 .......................................................... 5.95

Turbo Stick Wheel Cleaning Tool

The Adam’s Turbo Stick Wheel Cleaning Tool is the most innovative wheel cleaning tool ever invented. Plus, it’s every guys dream…it works with one of your power tools! Connect the Adam’s Turbo Stick Wheel Cleaning Tool to your cordless drill and let it do all the hard work. It does an amazing job, and it can’t harm your wheels!

65-67 = 5044662

Selecta Speed Electric Wiper Conversion

This kit provides you with the performance and convenience of a late model wiper system in a package that easily and cleanly mounts in your 1963-1967 Corvette.

This kit features a seven speed wiper system with five delays, low speed and high speed. A CNC aluminum adapter plate mounts the new wiper motor to the stock firewall bolt pattern. The new pitman arm included in the kit connects directly to your existing wiper linkage. A rotary switch is also included along with a complete wiring harness.

652027 Select Speed Windshield Washer Pump (ND) ..............49.00

Wiper Arm Adjustment

How many times have you put your mid-year wipers on and found out they hit each other while running or they are seated too high or too low on the windshield? The screw in the center of the wiper arm, facing upward, is put there for adjustment of the arm. It gives you one half of an inch up or down adjustment. Many owners are not aware of the purpose of this screw.

* = Also used on '65 396 cars.

**Important**

Electrical components such as wire harness, bulbs and fuses are NON-RETURNABLE PARTS. Always refer to a factory service manual when diagnosing engine service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.

See Our Website for Product Warnings
Our primary product is your satisfaction

Customer satisfaction has always been one of our main objectives. We are talking about remedies for products that don’t seem to fit or work right. At our end, we have over 40 years of experience in the manufacturing and sales of Corvette parts. This unparalleled background assures Corvette Central customers that the products they purchase are the best available, and if a problem should arise, we know how to help.

Product assistance hours: Monday thru Friday, 8:30 to 5:30.

When looking for product assistance, there are a couple of things to keep in mind. First of all, it is very difficult to help customers with in-depth technical problems if they aren’t well informed. Please review your service and assembly manuals before you call — this will make solving the problem much easier.

Last but not least, whether you are doing the work or having it done . . . be sure to call us at the first sign of trouble. It’s very hard to resolve a problem after the part in question has been damaged, no matter who’s at fault. Let’s be fair, everyone makes mistakes. The important thing is working together to resolve them.

Owning your Corvette can be a very rewarding experience. We also understand how frustrating it can be when things aren’t going smoothly and there’s no one to assist you. We are here to help.
