WHO WE ARE...

Corvette Central has been a leading manufacturer and distributor of Corvette parts and accessories since 1975. In 2001, we moved into our current facility which included the implementation of an automated order picking system. This allows us to better control inventory and to pull orders efficiently. In 2004, we added on a new manufacturing facility where we produce 4,000 of the over 60,000 parts we sell.

Corvette Central is proud to offer the most comprehensive and detailed parts catalogs on the market today and produces a different catalog for each Corvette generation. All catalogs are also online with full search and order features. From the first V8 to C8, only Corvette Central has it all.

ORDER PICK UP

Corvette Central
13550 Three Oaks Rd
Sawyer, MI 49125

Monday - Friday: 9am-4pm

Please call to place your pick-up order at least 24 hours in advance. Current Michigan sales tax will be added to all orders picked up.

PAYMENT METHODS

We accept all major credit cards. For online orders, we also accept PayPal.

Corvette Central meets the thresholds for many states that have passed sales tax laws/regulations and is now required by state law to collect and remit sales tax on purchases made by individuals in those states.

DEALER WHOLESALE PROGRAM

We offer a wholesale program based on the amount your company purchases annually.

To Qualify:
• You must be an auto related business
• Your business needs to have a current sales tax license from the state(s) in which you do business.

Please go to corvettecentral.com/wholesale for more information and the application forms.

START TO FINISH

Our Start-to-Finish Program offers our customers doing a partial or complete restoration the best price, service, and selection for their project needs.

• Orders placed will receive a 5-15% discount on most items.
• Maintain your preferred customer status by spending only $500 per year.
• To enroll, please inquire with our order department and place an initial order of $2500 or more. The initial order will receive the Start-to-Finish discount.

MILITARY DISCOUNT

Corvette Central extends our gratitude to those military members who have served and those in active service to our country. As a token of our appreciation, Corvette Central offers a 10% discount to all current and former Military customers. Please send your email request to customerservice@corvettecentral.com along with a copy of your DD214 form or some other proof of service to enroll.

NOTE: All pricing and discounts are based on current list prices and are subject to change without notice. You may not combine any discount with any other offers or programs.

*(ND) - NO DISCOUNT - A (ND) within the description of a product means there is no discount available, regardless of any offer.

PRICE MATCH GUARANTEE

Corvette Central will match any Corvette Competitor's current advertised price on an identical product. Simply send us a copy of the competitor's catalog or ad showing the current advertised price. The product must be from the same source or vendor.
Note: This does not include sale prices or web specials. Cannot be combined with any other discount or special offer.

We are the Caretakers of the Legend, and the Legend is Quality.

Corvette Central has been a leading manufacturer and distributor of Corvette parts and accessories since 1975. We know that your Corvette is important to you, and you will only put parts on it that look good and work right. That is why our quality standards are so high. If we wouldn't put it on our Corvette, we won't offer it.

Our manufacturing facility produces 4,000 of the over 60,000 parts we sell. We are proud to offer the most comprehensive and detailed parts catalogs on the market today and we offer a different catalog for each Corvette generation. All catalogs are also online with full search and order features. From the first V8 to C8, only Corvette Central has it all.

The Customer Service team is available to take and assist with any questions you may have regarding your order. For questions about the parts, our Product Assistance team has a vast library of knowledge to answer your questions.

We are in contact with our suppliers every day for updates so that we can maintain good communication with you, our Valued Customer. We've been doing it since 1975 and we will keep doing it to keep the Legend going strong.

CARETAKERS OF THE LEGEND
EST. 1975

SHIPPING & PACKAGING CHARGES
Pertaining to orders shipped within the continental USA: Ground service freight charges for your entire order will be charged at the time of the first shipment. Any backorders shipped after the initial shipment will not incur any additional shipping charges.

Small packages are sent by U.S. Postal Service Priority Mail. This service is the fastest and most economical for this size package. The U.S.P.S. delivers to the continental United States, as well as Alaska, Hawaii, Puerto Rico, U.S. Virgin Islands, and military addresses (APO/FPO) Monday through Saturday.

Larger packages will be shipped by regular ground service by UPS or FedEx. Ground service delivers to a large section of the U.S. within 3 days from our location. We also offer Next Day, 2nd Day, and 3 Day air delivery services. Saturday delivery service is only available with Next Day air charges for an additional fee.

OVERSIZED SHIPPING CHARGES
Some products have additional shipping charges due to heavy weight or oversize dimensions.

RUSH SERVICE
If you need your order processed and shipped the same day, we offer "RUSH" service. For an additional $5.95, any order received before 1:00 PM ET will be processed and shipped that same day. Orders received after 1:00 will ship the following business day using the "RUSH" service.

NOTE ON UPS SHIPPING CHARGES
Changes recently made by UPS have impacted shipping costs. UPS no longer uses actual weight of packages to calculate shipping. They now use “dimensional weight” of packages. We measured every product we sell and entered that information into our system. This enables our system to calculate the size box/boxes your order will ship in and calculate the shipping costs when the order is placed. Retail customers pay shipping for entire order on the 1st shipment. Corvette Central audits the calculated shipping charges after each order is complete. If we have overcharged you, we will automatically send you a Merchandise Credit for that amount you overpaid. Currently this is the best way to be fair to our customers.

BACK ORDERS
Due to the wide variety of speciality products we distribute, back orders are unavoidable. We automatically ship back orders when they come in stock. If you wish to cancel your back order, please call, email or chat for a cancellation number.

Canada

CANADIAN SHIPMENTS
Corvette Central ships to Canada via UPS exclusively. UPS and Corvette Central entered into agreements with the Canadian government in order to collect and remit all duties, taxes and brokerage when your order is processed and shipped. This allows you to know the total cost of your order to be delivered to your door, at the time your order is placed. There are no hidden charges! The exception to this program is Prince Edward Island. Orders shipping to this province will be processed through a Canadian brokerage house. We cannot ship truck freight items to Canada.

INTERNATIONAL ORDERS
We ship Corvette products to every corner of the globe. There are many variables, depending on size of order, location and timing. Please contact us by email for the most efficient and economical means of shipping your order. Due to recent changes in VAT rules, we require a minimum order of $150.00 for customers shipping to the EU.

TRUCK FREIGHT
Parts in this catalog noted with "†" for Truck Ship and any other item exceeding carrier size or weight limits will be shipped by truck. All items being Truck Shipped must be prepaid or charged to a credit card.

IMPORTANT – INSPECT ALL PACKAGES IMMEDIATELY!!!

All damages, shortages, or errors must be reported within 7 days of receipt of package. Please have invoice ready when you call. See the back of your invoice for a complete list of Return Policies and Procedures.

DAMAGED ITEM – SHIPPING RELATED
• If there appears to be any external damage, i.e. crushed or dented side or corner, any tears or holes in package, immediately inspect contents of package for parts damage. If damage is found, **DO NOT CONTACT THE CARRIER. IMMEDIATELY CALL CORVETTE CENTRAL AT (800) 345-4122 to report any damages**.
• Do not destroy the package or box that the item shipped in. Please save it for inspection by the carrier.
• Have the package and invoice with you when you call.
• If a claim is filed, arrangements will be made for pickup of package with entire contents.

NON-SHIPPING RELATED
Call us at 800-345-4122 immediately with description of damage and we will process a replacement and make arrangements for pickup of damaged item.

SHORTAGES AND MISTAKES
Call us at 800-345-4122 immediately and we will process an exchange or replacement as required.

RETURNS
• There is no need to call for authorization. Fill out the return slip enclosed with your shipment, and send the package back to us. It is recommended that you insure the package and retain your receipt of shipment. Items must be returned in the original packaging for credit.
• All returns must be made within 60 days of invoice date. After 61 days a restock fee will be charged.
• No returns on electrical products or tools.
• Items that have been installed, altered, damaged or are otherwise not in a condition to be resold will be returned to the customer at their expense.

REFUSED SHIPMENTS
Shipping and handling charges on refused shipments are the responsibility of the customer.

68-82 Shop Manual

Over 300 pages of solid repair, troubleshooting, and tune-up information are combined from 17 years of GM service manuals. Covers small block, big block, tune-up, troubleshooting, fuel systems, ignition, cooling, driveline, chassis, electrical, and specifications. One great book for the Corvette owner who works on his car at home or the owner who needs reference to understand the mechanics of his or her Corvette.

112950 44.15

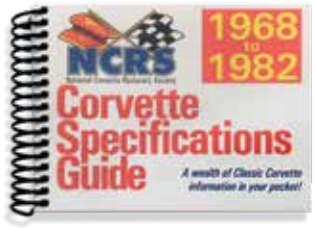

1953-2023 Corvette Black Book

The gold standard in Corvette reference! New and greatly expanded with even more facts and figures up to 2023. Includes production figures by color, more option figures, expanded engine data, block and head numbers, and month of production. 160 pages with 71 photos. 4-3/8" x 10". Softbound.

111930 21.60

68-82 NCRS Pocket Spec Guide

A convenient 4-inch x 6-inch size that fits right into your pocket. Perfect for carrying along at swap meets, junkyard searches, and judging events. It is a quick reference technical encyclopedia of basic C3 Corvette information, including major mechanical and electrical component part numbers, casting numbers, engine, transmission, and axle identification codes, original prices, options, and production quantities, power teams, color combinations, body codes, and much more! Pocket-sized spiral bound with approximately 189 pages.

103169.....27.00

Instruction Manuals

Specify Year When Ordering

Designed for conscientious owners and restorers, these manuals enable you to know what is stock, what is original, what is right! Reprinted through the courtesy of Chevrolet Motor Division, manuals are accurate reprints of the manuals used on the Corvette assembly lines! Actual "on-line" notations remain so that the information is factory original and correct. All parts, part numbers, and available options are included with original diagrams. Page numbers and indexes have been added to provide quick reference.

113114.....7.20

Assembly Manual CD

We now have our printed assembly manuals on CD. These are the original manuals we already carry – scanned with Optical Character Recognition software and saved in PDF format. That means the PDFs on these discs can be searched by keywords using Acrobat's built-in search function, making it faster and easier to find exactly what diagram you are looking for. When you've found it, print out just the page you need and nothing else.

How to Install Corvette Interior Kits

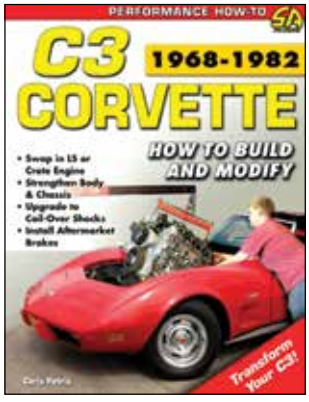

- **Paperback, 176 pages**
- **520 color photos**

This first-of-its-kind book walks you through the steps of how to properly install seat upholstery, door panels, carpet, convertible tops, and troubleshoot those pesky fitment issues. Installation tools, supplies, and why you need them are all fully illustrated with color photos and easy-to-follow steps. Saving money and getting the satisfaction of doing a project yourself is what this book is all about.

Learn tricks from professional Fred Mattson, who has more than 46 years of installation experience and knows how to make a difficult project look great. It just takes a little guidance.

113583.....41.95

How To Build and Modify C3 Corvette

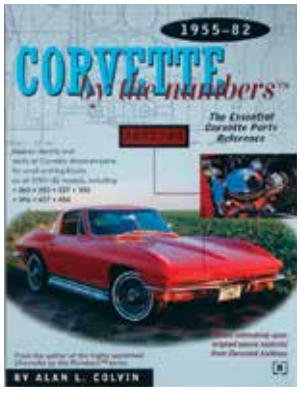

BY CHRIS PETRIS

Covers the installation of top-quality aftermarket suspension components, LS crate engines, big brakes, frame upgrades, and improved driveline parts. The book also includes popular upgrades to every component group, including engine, transmission, differential, suspension, steering, chassis, electrical system, interior, tires, wheels, and more. Softbound, 176 black & white pages.

113000.....45.40

Corvette by the Numbers

This essential Corvette parts reference tells you how to identify all Corvette drivetrain parts for 55-82. Author Alan Colvin identifies and verifies by casting number, the correct engine and drivetrain components for your exact model of Corvette. GM materials consist of engineering blue prints, technical service bulletins and build sheets. Included is information such as Delco starters, radios, LOF glass codes and year-by-year model changes. Whether you are new to the Corvette hobby or a seasoned Corvette judge, this book is a valuable reference. B&W, 570 Pages

Corvette 1968-1982 C3 Restoration Guide

BY RICHARD PRINCE
Everything from running production changes to interpreting component part numbers and dates codes is clearly explained. Corvettes 1968-1982 Restoration Guide provides accurate information on different paint and plating finishes, fastener types, engine parts, upholstery, gauges, soft trim, chassis components, body glass, wheels and tires, and virtually every other part that enables you to restore your Shark Corvette to its exact original factory configuration.
More than 400 color photographs of low mileage, beautifully preserved original cars as well as perfectly restored examples complement the detailed text and help illustrate vital information. Paperback, 224 pages.
113093.....INQUIRE

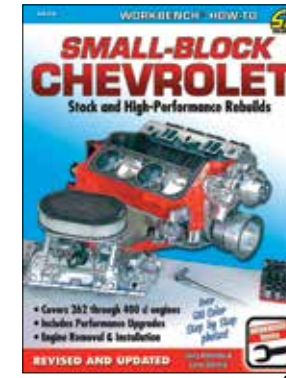

How To Restore Your C3 Corvette

BY WALT THURN
Through the pages of this book, you are expertly guided through each crucial stage of the restoration process from disassembly to inspection and parts selection to assembly.
The hands-on restoration techniques for all major component groups are explained in exceptional detail for professional results, including suspension, engine, interior, body, paint, brakes, steering, electrical, and interior. Special coverage is devoted to restoring the birdcage frame and the fiberglass body. It will also contain essential model information, VIN identification, powertrain, and interior options and more. Softcover, 8.5" x 11",176 pages, 500 photos.

1969 Stingray Guidebook

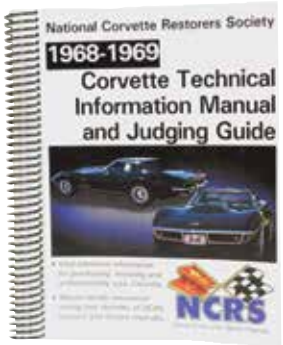

BY RICK BIZZOCO

ALSO GREAT FOR ANY 68-70 OWNERS!

This book is a very detailed study of the evolution of the '69 Stingray. It is an excellent source for illustrating subtle design differences made during early, middle, and late production dates. Literally thousands of comparison photos reveal 1st, 2nd, and 3rd design parts from '68 to '70 models. The serial number of the car is shown with each photo. Also included are documentation details, rare low production cars, and historical notes. 220 pages. Softbound.

113028.....77.25

NCRS Judging Manual

CURRENT EDITIONS

If you're having your car judged, this is the most helpful reference book available. Each manual is the result of hundreds of hours of research. This is a collection of everything currently known about each model. Details part-by-part how Corvettes appeared at the time of final assembly. 8-1/2" x 11"; coil-bound.

Mosom Plus

Best for Outdoor Use

- **Durable 5-Layer Protection**
- **4-Outer layers plus inner fleece lining**
- **Water resistant yet breathable**
- **Thick fabric resists door dings**
- **Fewest seams for clean appearance**
- **Simple installation**
- **3-Year repair or replace warranty followed by Coverking Care's lifetime repair program.**
- **Multiple layers of polyester spun-bound fabric and melt down polypropylene**
- **Elasticized edges keep dirt and dust out**
- **Soft fleece inner liner to pamper vehicle finish**
- **Great comprehensive protection**
- **Custom Fit**

103713 68-82 ..... 214.20

Silverguard Plus™ Car Cover

Includes Embroidered Emblem

- **Silver-Tech polyester material.**
- **Fleece lining**
- **150 Denier woven polyester, coated with aluminized polyurethane and acrylic.**
- **Soft and non-abrasive to clear coat finishes.**
- **Protects from UV rays.**
- **Will not absorb water like some perforated covers.**
- **Nearly waterproof, yet breathable.**
- **Extremely lightweight and yet extremely protective.**
- **Grommets for cable lock.**
- **Snug fit all the way around.**

Best for Outdoor Use

103695 68-82 ..... 214.20

Gray Flannel Lined

Best for Indoor Use

- **Softest Indoor Protection**
- **Brushed Lining Guards Your Corvette's Precious Paint**
- **Treated to Resist Rot and Mildew Damage**
- **Custom Fit with Front and Rear Elastic Hems**

Traditional flannel car covers are a top choice for 1953-2010 Corvette owners who store their car indoors. Heavy gray flannel keeps finish clean and protects from minor bumps and scrapes. Features no-scratch tie down grommets.

103005 68-82 (ND) 232.25

Triguard

Lower Cost Alternative

Coverking has comprised Triguard out of three layers and each layer is treated with UV retardant to ensure your Corvette is protected against the sun's rays. The middle layer of polypropylene goes through a meltblown procedure, which means that it is heated and rolled so that it is water-resistant. The middle layer is then inserted between two layers of Spunbound fabric, which means it is compressed in a way to allow breathability in return preventing mildew and rot build up. Triguard's material is easy to clean, store and even though it is light weight, it will not make your wallet light.

- **Includes matching storage bag**
- **Elasticized, hemmed seams in the front and back assure the cover will stay snug.**
- **Two year warranty**

113120.....194.65

Autobody Armor Car Cover

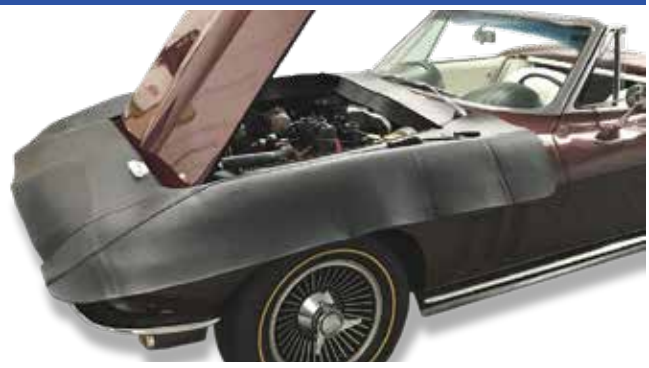

Best for Outdoor Use

Autobody Armor is made from two outer layers of strong latticed polyester that sandwiches a middle layer of thermoplastic polyurethane. This combination bestows your legend with the best water resistance out there and excellent breathability. The Autobody Armor also offers your Corvette UV protection by treating each layer of the cover with UV inhibitors. Similar to its indoor counterpart, Satin Stretch, the Autobody Armor is also highly stretchable. It hugs the curved contours of your Corvette. Its silk like softness provides good protection against moisture, dents and scratches while making it easy to handle.

113549 68-82.....377.20

Fender Apron

One-piece design fender cover. Made of heavy foam/vinyl material.

103003 68-82.....319.95

Stretch Satin™ Custom Car Cover

Specify color:
-01 Black, -03 Red, -04 Dark Blue, -05 Yellow

Coverking's Stretch Custom Car Covers are made for vehicles parked indoors (it will fade if exposed to extended sun, and is not water resistant), and for owners who want nothing but the best for their vehicle. Stretch Satin is the SOFTEST fabric available. The material has Lycra fibers for stretch in both directions, mirroring every perfect contour of your vehicle. And the inner liner is the softest fleece you will find, specially designed not to rub off on convertible tops. It is available in Black, Steel Gray, Dark Blue, Yellow and Red. Blind stitching results in invisible seams-this is a SEXY car cover.

103617 68-82.....324.70

Car Capsule

See Our Website for More Details

- **Economical to Run**
- **Continuous Air Flow**
- **Filtered Air**
- **Clear Inflated Bubble** — Allows you to enjoy and show your car. Protects against accidental damage - bikes, brooms, etc. Material is 8 mil double polished, 100% PVC. Nylon zipper will not scratch vehicle. Small tears easily repaired with PVC tape. Base material is made of DuPont Hercolite 18 oz. Abrasion, mildew, gas, oil, and antifreeze resistant. Also flame retardant - material does not support flame.

Cleartastic Paint Protectors

- **Protects paint from stone chips.**
- **Adheres by static electricity.**
- **Reusable.**

Cleartastic is a great way to protect your paint. To apply precut flexible film, simply press it on. To remove, just peel it off. The clear, thin film lets the body color show through so that the product is almost invisible.

103361	68-82	Front of Rear Wheel, pr.	42.85

Adam's Premium Car Care Products

ADAM'S WATERLESS CAR WASH

Adam's Waterless Wash is designed to clean the surface of a car that is slightly dirty or dusty without getting out the hose! Adam's Waterless Wash provides for an effective and efficient way to safely clean dirt, grime, and debris from the surface without causing scratching or marring. This formula provides a means of washing without access to a water supply or in areas that are under water restrictions.

102546 16 0z. 10.25

INVISIBLE UNDER CARRIAGE SPRAY

Adam's developed this special product to make your wheel wells and under carriage completely invisible. Spray after a wash and before detailing for best results. You'll love the low-gloss, dark finish that this Invisible Under Carriage Spray leaves behind. Guaranteed to please.

104845 16 oz. 13.35

BRILLIANT GLAZE

Adam's Brilliant Glaze takes personal reflection to a new level. This liquid glaze adds depth and clarity to chrome, glass, and paintwork. Brilliant Glaze is a top seller for its extreme ease of use and for its ultra-high gloss results. Product can be used in direct sun and has no dust. Shake well before and during use. Product separates by design. Not for use on oxidized finishes.

102768 Bottle 25.70

ADAM'S STRIP WASH

Adam's Strip Wash is a concentrated soap blend that removes any wax and sealant protection as you clean your ride, preparing it for paint correction session with a machine polisher or hand polish, or to start clean with a fresh layer of sealant or wax.

102948 16 oz. 15.40

V.R.T. (VINYL, RUBBER, TIRE)

Enhance and protect the appearance of plastic, rubber, tires, moldings, dashboards, and door panels. Adam's V.R.T. contains no harmful silicone or alcohol. The thick moisturizing cream applies easily with a sponge and will not leave a greasy film, attract dirt, or harm paint and glass. Added U.V. protection keeps vehicle interiors and exteriors looking and feeling like new.

106824 16 oz. 20.55

IN & OUT SPRAY

Often imitated, but never duplicated, Adam's In & Out Spray is the ultimate solution for dressing those hard to reach areas around your car, under the hood, or even your interior.

Use Adam's In & Out Spray to dress those complex areas that are simply tedious to deal with using an applicator. The plastic grill, those hood scoop vents, the ribbed hoses under the hood, even the tight corners around your mirror caps. This incredible dressing sprays on, self levels, and finishes with a clean, satin look that completes the job. Overspray onto adjacent glass or paint wipes easily away with a microfiber towel and a shot of Adam's Detail Spray.

102606 Aerosol 15.40

DETAIL SPRAY

This "Best of Show" winner is a favorite at car shows. Use as a waterless wash, a clay bar lubricant, or to enhance the depth and clarity of paint, chrome, plastic, aluminum, and glass. Specially formulated lubricants gently remove dirt, smudges, and grime, leaving surfaces with a smooth, ultra-high gloss finish. Use in the sun or shade, and in hot or cool temperatures.

102284 16 oz. 13.35
106802 Gallon 46.30

BUTTERY WAX

Leading the charge in technological advances, Adam's Butter Wax is formulated with a special blend of polymers, resins, and natural carnauba. Buttery Wax contains no cleaners or abrasives, and will not stain plastic or rubber. Always treat an imperfect finish with Clay Bar and Polish before applying Buttery Wax.

104685 16 oz. 20.55

CAR WASH

- **New concentrated formula produces more suds**
- **Gentle on all surfaces and pH neutral**
- **Slickest formula ever, reduces the changes of swirls**

ADAM'S ALL PURPOSE CLEANER

- **Tough On Dirt But Easy On Your Car**
- **Cleans Wheels,Tires, Engines and More**
- **Great For Cleaning Up Your Detailing Accessories**
- **Safely Cleans Your Foam Buffing & Polishing Pads**

A degreaser that's guaranteed to be one of your favorite products! Safe, easy and effective for a number of jobs.

102897 16 oz. 13.35

ADAM'S DETAILING VISCO CLAY

- **Use with Adam's Detail Spray for best results**
- **Removes contaminants without causing damage**
- **Geoimpressions - work more effectively, faster and safe**
- **Use on paint, glass, wheels and more**
- **Safe for even the most delicate clear coat**
- **1-80 Gram Viscoelastic Bar**
- **1-Geoimpression Tool**

104773 8 oz. 30.85

ADAM'S CARPET & UPHOLSTERY CLEANER

We think Adam's Carpet & Upholstery Cleaner is the best available. It's easy to use, safe, and it knocks out the worst soil and stains you can imagine. Adam's Carpet & Upholstery Cleaner is different. Our non-foaming formula contains no soaps. That means it stops cleaning when it's supposed to.

102845 16 oz. 11.30

ADAM'S AMERICANA PASTE WAX

- **Adds Unbelievable Depth and Gloss**
- **Super Easy to Use Paste Car Wax**
- **America's Favorite Made in the USA Car Wax**
- **Perfect Balance of Longevity and Enhancement**
- **Made in the USA**

Adam's Premium Carnauba Paste Car Wax protects your clear coat from the elements.

104986 16 oz. 51.45

Rejex (Anti-Stain Protection)

- **Super Tough Protection**

When applied according to the directions, Rejex covers your Corvette with a tough polymer coating that produces a very slippery surface. So slippery that most water, dirt tar, bird droppings, tree sap, exhaust stains and brake dust simply does not stick to the surface. Eventually, some things will remain on the finish, but wash off easily with a blast of water and a quick wipe with a wet cloth.

101884..... 27.65

Raggtop Convertible Top Cleaner

- **Helps new convertible tops maintain their appearance longer**
- **Renews and extends the life of older tops**
- **UV protection with Ciba Tinuvin UV blockers**
- **Micro-Bonding Fluoropolymer Formula**
- **Contains no Silicone, Freon, or CFC's**
- **Ozone friendly to meet California Air Quality Standards**

104553 Fabric Top 50.80

Flitz Polish Paste

For Metal, Plastic and Fiberglass

A concentrated cream that is unsurpassed in its ability to clean, polish, deoxidize, and protect. Nothing works faster, easier, or better.

Use on: brass, copper, chrome, stainless steel, nickel, bronze, solid gold, aluminum, anodized aluminum, painted surfaces, glass, plexiglas, plastic, and fiberglass. Removes: tarnish, rust, water stains, heat discoloration, oxidation, bugs, tar, oil, fingerprints, tree sap, bird droppings, black streaks, and scuff marks. NOT for electroplated finishes.

103726 Paste 5.29 oz. Tube 28.70
102596 Liquid 7.60 oz. Bottle 20.05

PlastX Clear Plastic Cleaner & Polish

Use PlastX on:

- **Plastic Headlights**
- **Plastic Hardtop Windows**
- **Convertible Windows**
- **Hard Plexiglass Surfaces**
- **Scratched CD Surfaces**

101958..... 13.30

Flitz Buff Ball

- **Fits any 3/8" drill or air tool**
- **Ball won't tear like foam**
- **Buffs at up to 2000 rpm**
- **Won't overheat or cake-up**
- **Will not shed or lint**
- **Has "no-scratch" 8" shaft**
- **Hand-washable**

112503 Mini 2"..... 41.05
113512 Large 7" 44.30

Metal Rescue Rust Remover

Metal Rescue is an acid-free, non-hazardous and safe rust-removing liquid. It is water-based, biodegradable, non-toxic and environmentally friendly. No messy acids or creams needed, simply soak, check, rinse and dry. Metal Rescue is a clean, safe and easy option for removing rust from metals.

102894 Gallon (ND)..... 34.95

Rust Preventative Paint

High-tech, high performance rust-preventive coating designed for application directly on rust or seasoned metal surfaces. It dries to an incredible rock-hard, non-porous finish that won't chip, crack, or peel, and it prevents rust from recurring by protecting metal from further exposure to moisture. Use it to coat rusty frames, floor pans, or even a heavily corroded battery tray. Sensitive to UV light (sun) and must be topcoated for prolonged exposure to sunlight. Topcoating is not required for areas not exposed to sunlight.

101537 Quart Gloss Black.....51.45
101622 Quart Satin Black.....51.45

Cleaner/Degreaser

KBS CLEAN cleans and degreases in one application without leaving residues, noxious fumes or flammable solvents. No other cleaner works as fast or as well. It makes petroleum-based cleaners almost obsolete. KBS CLEAN removes grease, oil, mildew, alge, musty oders, soap films, wax. Use it to clean canvas, vinyl, nylon, auto parts and more.

101849 Gallon with Spray Bottle.....31.85

RustBlast - Metal Acid Etch - Rust Remover - Pre-Paint Primer

RustBlast is a powerful rust remover, zinc phosphate pre-primer, and metal etch. RustBlast effectively dissolves rust, corrosion, metal oxides, and tarnish from most metal surfaces. RustBlast is ideal for removing rust from chrome surfaces.

101842 Quart with Sprayer 21.95

Rust Encapsulator Black Paint

Epoxy-fortified for better adhesion and topcoat compatibility. Penetrates deeper to prevent rust from spreading or forming, even in hard-to-reach areas.

102866 12 oz. Aerosol 19.55

KBS Asphalt Paint

A superior rubberized paintable undercoating that provides protection in wheel wells, gas tanks, frames, and floor pans. KBS UnderCoat produces a very tough, yet flexible film with excellent adhesion, and helps prevent road salt from eating away at your Corvette's metal and fiberglass.

181011 16 oz. Aerosol 13.40

Black Top Chassis Coater

A single stage, moisture-cured, and UV stable coating. BlackTop is a high-performance protective coating specifically formulated to withstand dulling and fading caused by prolonged sunlight exposure. BlackTop is ideal for topcoating surfaces previously sealed with RustSeal or any other paint/primer application, and also excels as a direct to bare metal coating, no primer required.

102712 Gloss Black Aerosol.....27.85
103773 Gloss Black Quart.....55.65

Exterior Touch Up Paint

Heal the nicks and seal the scratches. Exterior Touch-Up Paint matches original colors. Includes a brush for precise application. 1 oz. bottle.

Specify Color

331312.....29.95

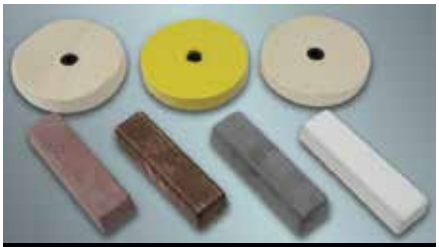

Paint Chip Repair Kit

Finally! A solution for repairing paint chips and scratches. Just apply your color matching touch up paint. Let dry from 2 hours up to 4 days (or longer), and then remove in 15-30 seconds with the Blob Eliminator leaving the paint inside the chip or scratch without affecting your original paint.

101857.....44.30

Metal & Plastic Buffing Kit

101843 Shown

Kit Contains:

- **Black Emery Cake**
- **Brown Tripoli**
- **White Rouge**
- **Red Rouge**

This kit is packaged especially for the industrial/commercial and workshop trade that requires a handy ready-to-use buffing wheel and polishing compound kit, for immediate or occasional use. Shelf life storage is indefinite.

101843 For Use with 6" Bench Grinder 82.80
102973 For Use with Electric Drill-1/4" Shaft.....49.65

Plastex Plastic Repair Kit

Plastex has created a plastic-repair kit that not only allows you to fix cracked and damaged parts, but also re-create parts with missing pieces. The Plastex kit is available in three different colors of plastic powder material (white, black, and clear), the trigger material, applicators, quick release pads, and even fiberglass fabric for repairs requiring structural support. For cracked areas, repairs can be made in a matter of minutes, with plastic hardening taking two to three minutes. Best of all, the new Plastex material is tougher than the surrounding plastic.

102713 Black (High strength and heat resistant).....33.15
103854 White (Best adhesion for general repair).....33.15
104948 Clear (Transparent for general repair) 33.15

Interior Vinyl Dye - See Page 135

Corvette Central has tested and used a variety of detailing and restoration paints. As a result, we have chosen paints that we believe work the best and produce the most accurate finish.

Hazardous and aerosol materials such as paint cannot be shipped by air or overseas.

Cast Blast Paint

An ideal choice if you want to restore that cast iron gray appearance. Protects cast iron parts and maintains their sandblast factory appearance. Use on drive train yokes, spindles, pittman arm, tie rods, idler arm, etc. Cast Blast (not for exhaust) is fast drying and provides excellent adhesion and protection.

101020.....13.25

Cast Blast Hi-Temp Paint

A 1200˚ heat resistant stainless steel coating ideal for exhaust manifolds. This spray will not burn off or discolor.

101021..... 16.60

Alumi-Blast Paint

Restores a new aluminum look to alternators, intake manifolds, transmission housings, etc. Non-smudge formula protects and will not rub off.

101019.....13.30

Engine Paints

Fast dries to an extremely rugged, high heat-resistant finish. Repeated exposure to engine heat up to 500˚ F. will fuse the enamel to the surface. Resistant to oil and gasoline, will not crack, lift or peel and it can be re-coated at any time. Colors are exact matches to original engine manufacturer standards.

101024 Chevrolet Engine Hi-Temp Orange Paint - 12 oz.14.05
111644 POR-15 Chevy/Orange Paint-Pint.....30.90
103028 Chevrolet Engine Hi-Temp 75-82 Blue Paint.....14.05

Synthetic Zinc Chromate Primer

This paint duplicates the olive green zinc chromate primer that the factory used, but performs much better. Prevents rust and provides a smooth tough surface for top coatings. Use on body "birdcage" metal components and more.

101139.....16.60

Stainless Steel Paint

Works great for the look of raw steel, especially on drive shafts and 1/2 shafts. 100% 316L stainless steel pigment. Rust proof. 13 oz. aerosol.

101795.....15.10

Bonding Adhesive - See Page 114
Asphalt-Based Frame & Chassis Paint - See Page 32
Wheel Paints - See Page 228

Low Gloss Black Paint

For the factory look on various underhood and chassis components. Uses include: wheel wells, T-Top frames, under car blackout, interior blackout, and contrasting glosses.

103536 12 oz.....14.70

Medium Gloss Black Paint

For the factory look on various underhood and chassis components. Uses include: engine pulleys, underhood blackout, radiator support, starter, generator, bumper, engine and frame, brackets, clutch and brake pedals, power steering pump and pulley, oil filter canister, and battery tray.

102012 12 oz.....16.95
101540 Rubberized Coating-20 oz. Aerosol.....19.95

Rust Encapsulator Black Paint

Epoxy-fortified for better adhesion and topcoat compatibility. Penetrates deeper to prevent rust from spreading or forming, even in hard-to reach areas.

102866 15 oz. Aerosol.....19.55

Hot Spot Hi-Heat Resistant Spray Paint

A special formulation designed to withstand temperatures up to 1200°F (648°C) on a continuous basis. Must be heat cured at a minimum temperature of 400°F for two hours. More than one coat may be required for full hide. DO NOT use a primer.

301187 Black Hi-Temp Paint -12 oz. Aerosol.....16.75

Engine Gloss Black Paint

Works great for repainting your air cleaner or any other gloss black items on engine or exhaust where a high-temp paint is required. 300˚ heat resistant. Gas and oil resistant.

102053.....15.10

Diamond Clear™ Gloss Finish For Bare Metal

This paint can be applied directly to a cured automotive basecoat, standard solid color paints, and single part or two part paints. It can also be applied to non ferrous metals including aluminum, alloys, brass, chrome, and copper. This special self-leveling formulation when properly applied will not chip, crack, fade, or yellow. Resistant to fuels and temperatures up to 300˚F, this product is ideal for underhood applications (except exhaust manifolds). Great for polished mag wheels, aluminum valve covers.

102019 15 oz.. .....25.75

Metal Trim & Wheel Blackout Paint

Black finish for stainless, aluminum, and metal trim parts. Perfect for 77-82 windshield mouldings and 73-79 aluminum wheels.

103029 Semi Gloss Black (15 oz.).....17.30
103813 Gloss Black (15 oz.) 17.30

Rust Prevention Magic

KEEPS METAL PARTS LOOKING BRAND NEW!

- **Dry to the touch.**
- **No oily residue left behind.**

Dry to the touch! Not all types of metallic surfaces prone to oxidation can benefit from RPM protection. Cast iron, stamped and cast metals, as well as aluminum are some of the common automotive applications. RPM works great to preserve natural metal drivetrain, suspension, and bare metal components to a like new condition.

Corvette Aero Rivet-II Tool

If you work on your own Corvette (1953 through 1982) your rivet setting delimma is over once you buy this Aero Rivet-II Tool. It allows for the precise setting of steel, aluminum and brass tubular and semi-tubular rivets on classic Corvettes. Its overall size is 4"x3.5 with 2" wide by 2.5", deep throat opening and comes with four inter-changeable drive bolt tips.

181016.....99.30

- **Precision Rivet Tool for Corvettes**
- **Made in the USA!**
- **Patent US8381565B2**

Race Ramps

These race ramps are unique in their design. They are made for low ground clearance performance vehicles with a gross weight handling of 1200 pounds per ramp or 2400 pounds per set. They are specially designed for the Corvette enthusiast, allowing you to get under your car quickly, safely and without any frustrating hassles. Constructed in one solid piece, Race Ramps will not slide across your garage floor, dig into your asphalt driveway, scratch or otherwise damage your cement or painted floors. They can be used to raise your car up eight inches. You get all of this in an unbelievable lightweight of 20 pounds a pair. Most ramps can only accommodate a tire width of six to eight inches. Race Ramps are not hollow in the center or made with questionable reinforcements. They are 100% solid on all sides and constructed in one solid piece - giving you the non-skid support that you need. The ramps come complete with straps for easy carrying, or use them to hang the ramps on the wall when you're done.

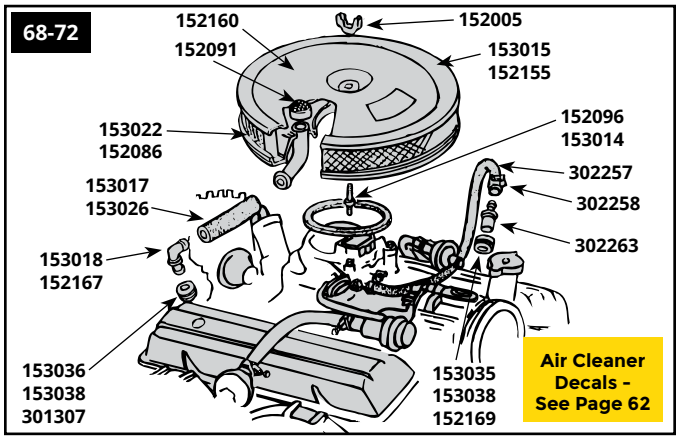

101875 56" Race Ramps, pr. (Lifts car 8", ramp is 12" wide).....317.95 (25.95 Shipping)

LIFETIME GUARANTEE

Improve performance – Go Green! As in Green Filter USA. The flow difference between paper and oiled cotton may not be much when both filters are brand new, but a few hundred miles later it can be significant (as paper loses efficiency once dirty). Green filter's precision pleat geometry traps 20% more contaminants while optimizing airflow into the engine.

BlackTop Chassis Coater

A single stage, moisture-cured, and UV stable coating. BlackTop is a high-performance protective coating specifically formulated to withstand dulling and fading caused by prolonged sunlight exposure. BlackTop is ideal for topcoating surfaces previously sealed with RustSeal or any other paint/primer application, and also excels as a direct to bare metal coating, no primer required.

GM Chassis & Restoration Black Recondition Paint

Do it the way GM did with GM Black Reconditioning Paint. It has a smooth satin finish for use on under-hood sheet metal surfaces, chassis, trunk interiors, tires, rubber floor mats, and more. Dries to the touch in 30 minutes under normal temperature and humidity. It may be sprayed directly from the can or thinned if desired. This paint is designed to be used with a spray gun.

Chassis Detailing Kits

Specify Car Serial Number When Ordering

These kits include everything you need to detail the chassis of your 68-72 Corvette, including:

- **A custom-made frame stencil**
- **White frame stencil fast-drying spray ink**
- **Special colored permanent paint crayon for shim marks, option codes, and engine marks.**
- **Six to eight color-matched inspection paints**
- **Original thickness and width shim hold-down tape**
- **A set of Technical Bulletins for your specific year car.**

These kits make it easy to accurately reproduce your factory frame and chassis marks. They've been used by many professional restorers.

Brake Pad Bed Instructions

1. After installing new brake pads, make 6 to 10 stops from approximately 30-35 mph applying moderate pressure.
2. Make an additional 2-3 hard stops from approximately 40-45 mph.
3. DO NOT DRAG BRAKES!
4. Allow 15 minutes for brake system to cool down.
5. After step 4 your new pads are ready for use.

O-Ring Caliper Conversion Kits

- **Heat Range 550°**

192343 (ND) Front O-Ring Seal Conversion.....70.35
192390 (ND) Rear O-Ring Seal Conversion.....75.75

Why go with O-Rings?

Lip seal design seals are used on 65-82 Corvette calipers and have inherent problems.
When they sit for a period of time they leak brake fluid.
When they are used on a Corvette with out of spec rotors, spindles, loose bearings or a Corvette that is driven hard; they can actually suck air into the caliper fluid area causing a loss of brake pedal.
This problem is called (by GM engineers) reverse air oscillation. Because of these problems, GM quit using lip seals in 1982.
O-Ring seals virtually eliminate all of these lip seal problems. If GM doesn't use lip seals anymore, why are you?

Disc Brake Installation Service Manual

This manual is written specifically for '65-82 Corvette brake systems. It will enable the average mechanic or do-it-yourselfer to properly complete a Corvette brake job and troubleshoot typical brake problems.

***DOT 5 (Silicone) Brake Fluid is not recommended**

Wilwood Hi-Temp 570 Racing Brake Fluid

Wilwood's specially formulated High-Temp° 570 Racing Brake Fluid has a minimum 570° F dry boiling point to withstand the severe heat requirements of automotive racing. Wilwood Hi-Temp 570 Racing Brake Fluid is recommended for ABS, Hydraulic drum, disc brake systems, and hydraulic clutches requiring Dot 3 Motor Vehicle Brake Fluid.

191069 12 oz. 244.95

GM/Delco Supreme II Brake Fluid

GM Delco Supreme II Brake Fluid is recommended for all vehicles that require DOT 3 brake fluid. It contains enhanced corrosion inhibitors to prevent premature wear, and retains its boiling point properties longer than conventional DOT 3 brake fluids. It is also compatible with disc and drum brake systems. Cannot be shipped by air or overseas.

191064 16 oz. 11.15

Willwood Forged Narrow Superlite 6R Big Brake Kits

The unsurpassed braking capacity of the Forged Narrow Superlite 6R six-piston caliper serves as the base of this group of 13"-14" big rotor kits for these popular late model vehicles. FNSL6R kits are engineered application specific for simplified installation and full compatibility with OE master cylinder output and ABS functions where used. Big brake kits provide increased brake capacity and complimentary style with wheel, tire, and suspension upgrades on show cars and high performance street/track machines. Optional caliper finishes and rotor designs simplify personalizing the style and braking requirements of any application.

Kit Features:
- Specifically designed for the 1965-1980 Corvette
- Forged Narrow 6-piston Superlite radial mount calipers in a choice of Wilwood red or black
- GT competition or SRP drilled performance rotors, available in 13.06" front, and 12.88" rear diameters
- GT aluminum hats with stainless steel rotor bolts
- Wilwood BP-10 compound brake pads

192463 65-67 Front, Slotted Rotor 1,834.95
192478 65-67 Rear, Slotted Rotor 1,947.95

192500 65-67 Rear, Drilled & Slotted Rotor 1,947.95

Willwood Compact Tandem Master Cylinders

Wilwood's Compact Tandem Master Cylinders in ball burnished and black e-coat finish. These master cylinders are designed for mount flanges from 3.22" to 3.40", with fluid outlet ports on both sides of the bore.. Machined from high-pressure die castings, each master cylinder weighs only 3lbs, a 75% weight savings over most cast iron OE type master cylinders.

193235 Black, 1" Bore 320.95
193239 Media Burnished, 1" Bore 320.95
193242 Black, 1 1/8" Bore 320.95
193256 Media Burnished, 1 1/8" Bore 320.95

Willwood Flex Brake Lines

For Use with Direct Fit Calipers

192273 Front (ND) 69.95
192298 Rear (ND) 69.95

Power Stop Cross Drilled Rotor & Brake Pad Kit

Includes four cross drilled rotors and eight carbon ceramic brake pads.

192327 (ND) Z23 Daily Driver (ND) 504.95
192335 (ND) Z26 Street Warrior 565.55

Power Stop™ cross-drilled and slotted rotors offer many advantages over your stock brake components:

- Each hole is radiused with Power Stop's own designed tooling. Radiusing, unlike chamfering, produces a smooth transition at the edge of the hole diameter, which reduces stress risers and the occurrence of fractures.
- Rotors are silver zinc plated to military quality specifications. Power Stop was the first to provide this high performance look, which also protects the rotor from the elements.
- Power Stop cross-drilled rotors will help eliminate brake fade and rotor warping, as well as enhancing wet weather braking. After several stops, during spirited street driving and under emergency braking, they will out perform your original brake components.

192325 Front Cross-Drilled Rotors, Pair 226.55
192339 Rear Cross-Drilled Rotors, Pair 205.95

Willwood Hi-Temp 570 Racing Brake Fluid

Wilwood's specially formulated High-Temp° 570 Racing Brake Fluid has a minimum 570° F dry boiling point to withstand the severe heat requirements of automotive racing. Wilwood Hi-Temp 570 Racing Brake Fluid is recommended for ABS, Hydraulic drum, disc brake systems, and hydraulic clutches requiring Dot 3 Motor Vehicle Brake Fluid.

191069 12 oz. 14.50

GM / Delco Brake and Clutch Fluid DOT 3

GM Delco Supreme II Brake Fluid is recommended for all vehicles that require DOT 3 brake fluid. It contains enhanced corrosion inhibitors to prevent premature wear, and retains its boiling point properties longer than conventional DOT 3 brake fluids. It is also compatible with disc and drum brake systems. Cannot be shipped by air or overseas.

Parking Brake Console – See Pages 47-48

Brake Bleeder Bottle

Make bleeding your brakes a one-person job! This 16 oz. bottle connects to your brake bleeder with a one-way valve feature. Press your brake pedal and the fluid and air go into the bottle. Use the drain back fitting to secure the hose when you finish so there is no leaking of excess fluid from the hose. A side magnet lets you secure the bottle, giving you the ability to drain the brakes by yourself.
191106..... 27.00

Power Bleeder

Now you can bleed hydraulic braking and clutch systems like the pros with a Motive Products Power Bleeder. The Power Bleeder operates just like the professional mechanics' tool-at a fraction of the cost.

The Power Bleeder uses pressurized brake fluid to force air and contamination out of your lines and cylinders, so you'll get all the air out of your system the first time you bleed. No more bleeding and re-bleeding to get an air-free system.
191119 Power Bleeder (ND)..... 99.30

Brake Bleeder and Vacuum Test Kit - Mityvac

- **Vacuum Testing**
- **Brake Bleeding**
- **Fluid Transfer**

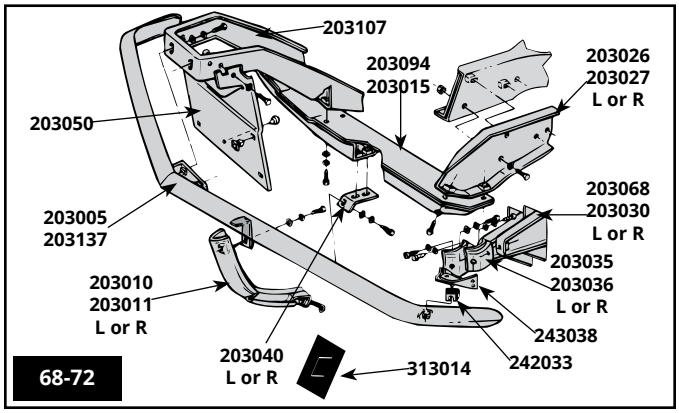

Bleeds brakes, test vacuum auges, transfers fluid and more. 360 degree rotating gauge head displays inches Hg and kpa. Complete range of adapters and hoses included.

143120	76L-79	TruFlex Rear Bumper	535.75
143200	76L-79	Fiberglass Rear Bumper	476.40

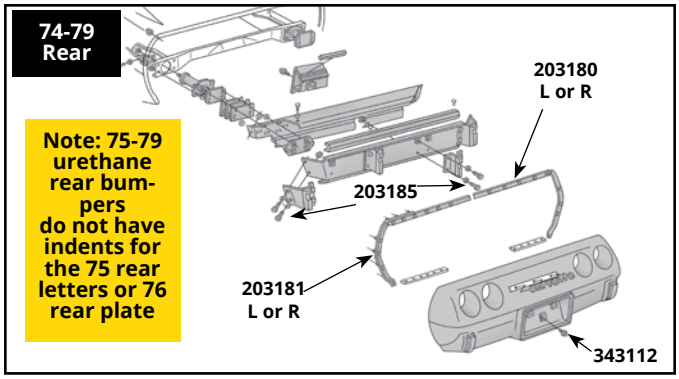

Early '76 rear bumper covers had a depression for the 6-1/4" OL 'Corvette' name plate (1st Design); late '76-79 covers had no depression for name plate (2nd Design).

Fiberglass VS Urethane: Which one to choose?

Fiberglass bumpers are a solid material and therefore need to be fitted to the body. Sanding and filling the bumper, and in some cases the body, will result in perfectly matched body lines between the bumper and the body. Fiberglass bumpers do not have the ability to absorb even minor impacts without breaking the surface. However, Corvette Central now offers TruFlex bumpers, which are constructed of fiberglass and a revolutionary new resin which makes them 70% more flexible than standard fiberglass bumpers. After fitting, TruFlex bumpers can be painted without adding a flex agent to the paint. This means that exact paint matches are easier to achieve.

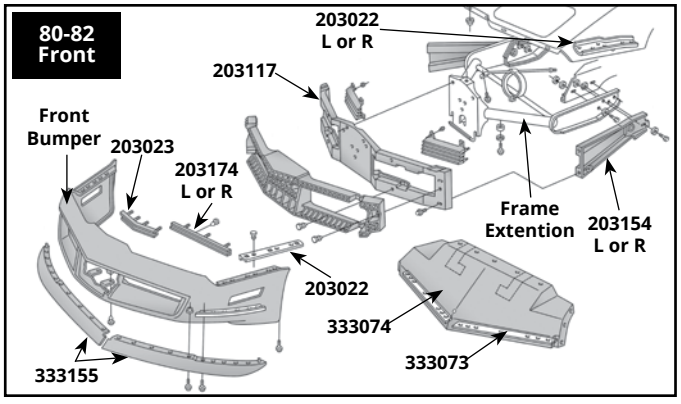

Urethane bumpers were originally installed on Corvettes at the factory. They will absorb low speed impacts without bumper damage but they have a marginal fit and are subject to warping over time. Bumper to body fit is adequate but cannot be precisely fit like TruFlex bumpers. Color matches on urethane bumpers may be more difficult because a flex agent must be added to the paint, resulting in color shifts.

There is a $10.00 special box fee on most fiberglass bumpers.

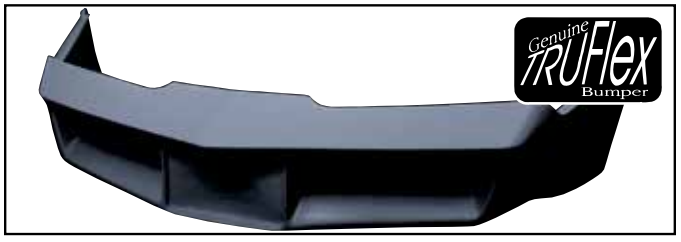

Note: 80-82 style rear bumpers can be used on 75-79 Corvettes.

Important Note:

All fiberglass replacement parts are considered collision parts and should be fit to the car before final finishing.

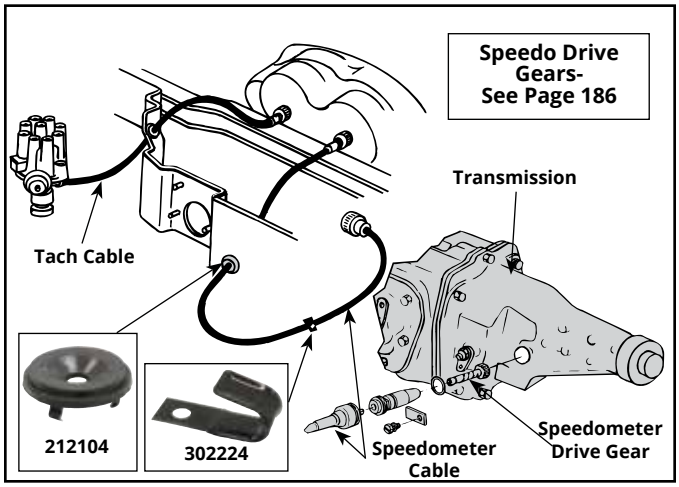

It is normal for these parts to have chips, scratches, and even minor cracks when received. This is considered to be normal and is not a reason for parts replacement.

Reminder: Left or Right

Always specify left or right when ordering (L or R) parts (Left = driver's side, Right = passenger's side).

68-72 Correct Reproduction Aluminum Radiators

- **Correct**
- **Dated, Painted and Detailed**
- **Specify Date When Ordering**
- **5 Year Manufacturers Warranty**

Protect Your Original Engine — Don't Risk Overheating
Our correct aluminum radiators are manufactured by DeWitts and licensed by GM Restoration Parts. They are a 100% correct reproduction radiator with the GM part number and are available with the date. You will notice that we don't list a brass radiator for small block Corvettes. Aluminum radiators work best in the Corvette because you gain almost 25% more heat transfer over inadequate brass replacements. This must be why GM used aluminum radiators in Corvettes!
When ordering dated parts please specify car serial number or the code you require.

Direct Fit Replacement Aluminum Radiators

Manual

Automatic

242002

- **Cools Better Than Stock Copper/Brass Radiator**
- **Direct Fit/No Modifications Required to Install**

These "Direct Fit" aluminum radiators feature two rows of 1" tubes and press formed end tanks. This doubles the cooling capacity of the original single row units. This design eliminates failures due to cracked plastic end tanks and/or gasket leaks.

242002	68-72	327/350 3-4 Speed Exc. AC 784.95
242145	68	350 Auto w/AC Direct Fit Aluminum Radiator 884.95
242241	68-69	L88 ..... 784.95
243074	69-72	26" - Automatic 884.95
243044	69-72	26" - Manual 784.95
243061	69-72	427/454 - Automatic 884.95
243031	69-72	427/454 - Manual 784.95

Some of these radiators have a formed dent in the lower radiator hose neck. As original, this is for suspension clearance. It is often mistaken for damage.

243022	73-76	Automatic 884.95
243056	73-76	Manual 784.95
243039	77-82	• Automatic 884.95
243067	77-82	• Manual 784.95

•=These radiators use cushions part #**243081**, for both L48 and L82 applications

Direct Fit Radiators are shipped unpainted aluminum. If you would like the radiator black painted, specify-BLK to part number and add $125.00. Example: **243074-BLK** $1,034.95

High Performance Coolant - Gallon

- **Premixed 50/50 coolant ready to pour and go.**
- **Anti-foam agents are included to reduce water pump cavitation.**
- **Meets GM performance specifications.**
- **Protection from -34°F to +265°F with a 15lb cap.**

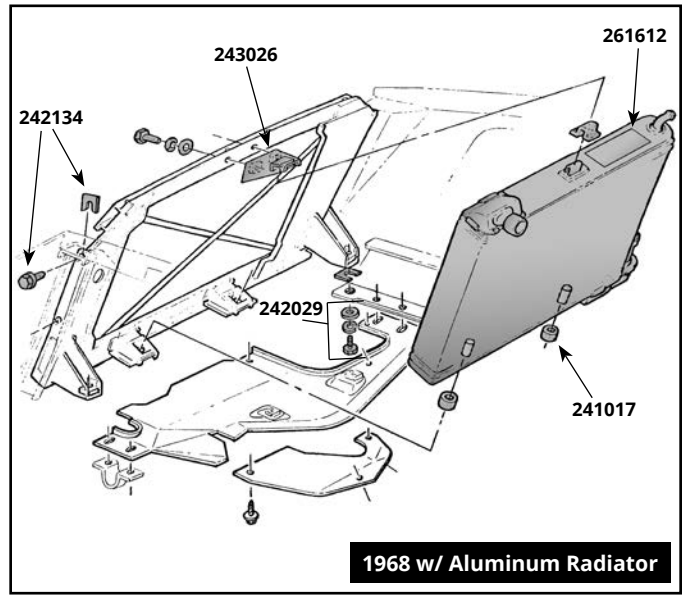

DeWitts™ High-Performance Coolant is specifically formulated to be a premium, all-season coolant/antifreeze for high-performance automotive engines. It contains a patented low silicate corrosion protection package that prevents rust and corrosion and is specifically engineered to protect materials used in modern performance engines. DeWitts™ High-Performance Coolant offers a more advanced additive package than standard "green" coolants and maintains better thermal conductivity and heat transfer than propylene glycol (PG) based coolants.

Water Wetter

A unique wetting agent which reduces cooling system temperatures up to 30o F. Helps provide rust and corrosion protection and improves heat transfer properties of plain water, ethylene, and propylene glycol cooling systems. Use with aluminum, cast iron, brass, and bronze components. One bottle does up to a 20 quart system.

241041 12 oz 15.95

Note: Too much anti-freeze in your system or an air pocket will also cause your car to run hot.

RUNNING HOT?

Does your Corvette run hot or overheat when you drive slow or around town? Sometimes there is an easy fix. If the fan clutch does not function the way it should. To test it, get your engine up to normal operating temperature at idle, shut down the engine and observe fan. Fan should stop rotating 3-5 full turns after engine stops — if it spins for a long time, you have a fan clutch problem.

FAN BLADE AND FAN CLUTCH

71 Owners: Your car would use either the 241151 or 243163 fan clutch. You will have to check your car for small or large bolt pattern.

Fan Clutch Eliminator

For those who want more cooling than even a new fan clutch can offer, we have available a spacer that positions the fan properly and eliminates the fan clutch. Keep in mind that, because the fan blades will be turning faster, you will experience more fan noise.

Corvette all use short water pumps.
68-70 have a 5/8" shaft.
71-82 have a 3/4" shaft.

Edelbrock High Performance Aluminum Water Pump

High performance pumps produce maximum flow and equal distribution to both sides of the block. Features include heavy duty 3/4" integral ball/roller bearings, billet steel nuts and a unique O-ring that provides a superior seal over a conventional gasket. Large cast iron impeller is CNC machined for accuracy and durability that far exceeds stamped steel impellers.

Custom Dash Kits

Dash kits are available in 6 material choices. Each dash kit is crafted from a single piece of material so grain pattern and color is consistent from one piece to another. Material is laminated to a temperature stable core material to eliminate warping, and then finished with a high gloss, scratch resistant epoxy coating. All dashes are computer machined for a perfect fit and install over your existing dash with hardware and adhesive included with each kit. No-Mar dash kits are an economical alternative to real wood dashes. No-Mar dashes are made of a durable, thin, scratch and stain-resistant laminate.

Note: The ashtray door cannot be opened when you install a wood dash kit on a 77-82.

Application Chart

HEI Tach Drive Distributor

Will Not Fit Factory Aluminum Intakes Before 1972

- **Built-in Performance Curve Kit**
- **Adjustable Vacuum Advance Kit**
- **64,000-Volt Coil**
- **High-Performance Ignition Module**

Keep your 62-74 Corvette's original factory mechanical tachometer and move up to a high-energy ignition system. This new mechanical tach-drive HEI distributor has a high-performance module and 50,000-volt internal coil. Direct replacement for the OE unit, however the stock distributor shielding must be removed. Features built-in performance advance curve. Comes with high-performance cap and rotor with solid terminals for maximum conductivity. Requires 75-81 HEI type spark plug wires.

272136.....173.00

You will also need to purchase 663279 plug and HEI spark plug wires

Pro Series HEI Tach Drive Distributor with Power Coil

An integrated high performance circuit board provides smooth firing to 10,000 RPM. Features continue with vacuum advance, hardened steel gear, additional springs and bushing for fine tuning of mechanical advance. The Power Coil magnet puts out 70% more spark energy over stock coils, giving you a much hotter and larger spark to burn fuel more efficiently, and provide smooth acceleration through the entire RPM band.

272034.....252.70

"Ignitor" Breakerless Ignition

Use with Flamethrower Coil

IGNITOR

The Ignitor solid-state electronic ignition system uses rotating cobalt magnets mounted on the distributor shaft to trigger an electric switching module for higher output up to 35,000 volts. Ignitor eliminates the points and condensor and promotes increased plug life, better fuel economy and stable timing. And, for a stock look, it fits entirely inside your stock distributor. This system eliminates the need for an after market distributor and you can use a stock distributor cap. Ignitor systems are backed by a 30 month warranty.

IGNITOR II

Ignitor II takes it a step further by adding a powerful new microcontroller, that controls the dwell period, for the best possible spark over the entire RPM range and enhanced performance levels only found in more expensive "box type" ignition sytems.

IGNITOR III

- **20% more spark energy than Ignitor II...Increased Burn Time**
- **Multi-spark thru the entire RPM range...Improved Combustion, more HP**
- **Rev limit set by user...Accurate to +/- 50 RPM**

271057 Ignitor 133.30
271090 Ignitor "II" 184.75
271059 Ignitor "III" 207.85

Delco-Remy distributor ID tag, all all exc. F.I. Tag includes part number & date. Non-returnable.

273006 68-74.....35.40

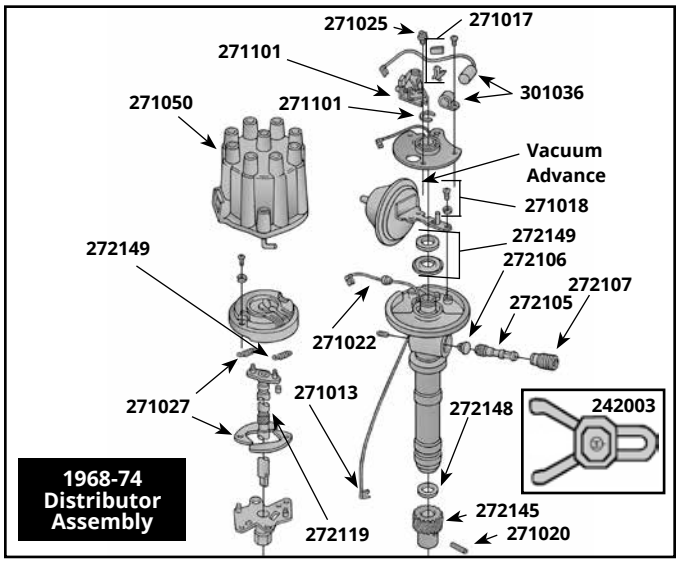

Delco-Remy distributor ID tag, all exc. F.I. Tag includes part number & date. This part has the red anodized side up. A small percentage of vehicles came equipped w/this variety. Non-returnable.

271051 68-74.....38.30

When ordering dated parts please specify serial number and year or the code you require.

Cable Drive Adapter

No more premature failure of tachometer or speedometer cables due to excessively sharp bends. This 90Þ Transducer offers a sensible solution to problems attaching tach and speedo cables in confined spaces, without affecting the accuracy of your gauges.

272110.....49.95

High Tech Cross Gear Assembly

These needle bearing cross gears will eliminate all the problems associated with the cross gear design. The problem is metal to metal contact between the cross gear and brass coupling. Cross gears have no undercuts and run through bronze and needle bearings. This eliminates coupling wear and provides a cross gear which will virtually last forever.

271001 High Tech Cross Gear Assembly (Bronze Coupler) 88.30

HEI Performance Distributor

Produces 67% more energy in the coil with a 45% faster spark time. Distributors have a high-performance coil and module that work together to operate without misfires up to 7500 RPM, while delivering twice the spark energy of a stock HEI The distributors include: brass terminated cap and rotor, nylon rotor screws, hardened distributor gear, center less ground shaft with bronze bushings and an A384 alloy housing. "No tach cable hookup" - HEI with Tach Cable Hookup use Part #272136.

Electrical components such as Distributors and Parts are NON-RETURNABLE PARTS. Always refer to a factory service manual when diagnosing engine service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.

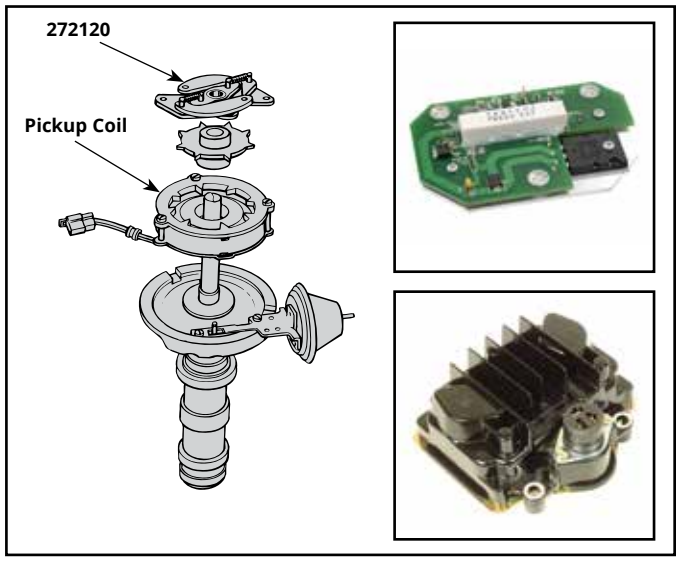

HIgh Energy Coil

These are slightly larger in diameter than stock (2-3/16" vs 2-1/8"). Some adjustment of the coil bracket may be necessary.

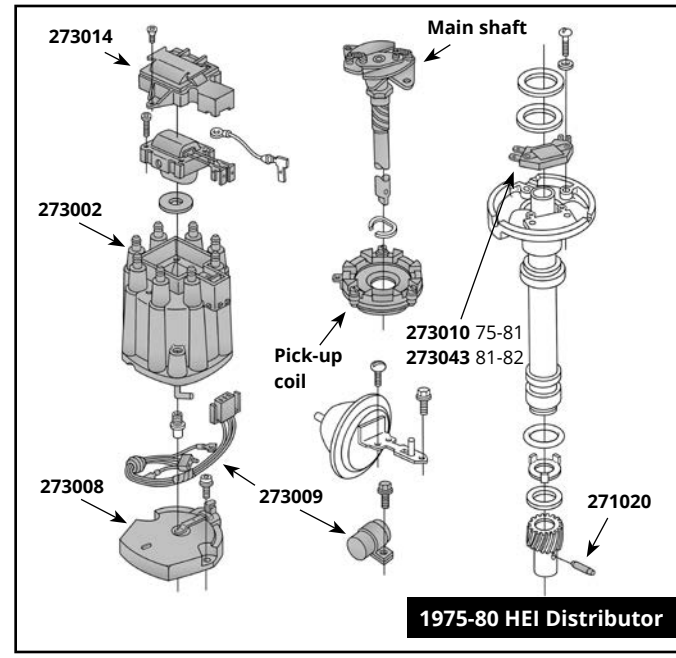

Flame Thrower high energy coil delivers an average of 15% more spark energy and voltage. More volts enables larger plug gaps for greater fuel efficiency and more power. Coils fit existing stock brackets.

Pertronix Flame Thrower Module

Now legal in 50 states, these modules are designed to fit stock and modified distributors. They feature solid state electronics and provide high coil output and superior reliability. Dwell control circuit ensures long, consistent coil charging and current control circuit protects against coil overheating. Also resists false triggering from RFI of high output coils.

68-75 Power Window Conversion Kit

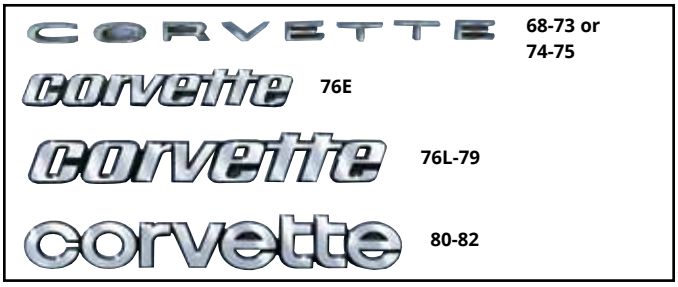

- **Uses Factory Parts**

Does your 68-75 have crank windows? We now offer a complete kit to change over to power windows. Kit includes everything required (regulators, motors, switches and wire harness). It's a time consuming job, but one that anyone with a decent assortment of hand tools and an assembly manual should be able to complete in a few evenings or over a weekend. Note: You will have to plug the crank window holes in the door panels, or buy new door panels.

303274 350 Stamped Steel Orange Powder Coated Valve Covers, pr.....49.65

Brad Penn 10W-30 High Performance Oil

- **Increased levels of "zinc" (Zinc Dialkyl Dithiophosphate) provide outstanding anti-wear protection for engines with either "flat tappet" or roller type cams.**
- **Penn Grade base oils provide excellent film strength while synthetic stocks enhance performance over a wide range of operation temperatures and conditions.**
- **Oxidation and foam inhibitors offer protection against thermal degradation and air entrainment.**

A truly versatile oil suitable for engines used both on the street and/or the track. The multi-viscosity grade and synthetic components facilitate cold starting and quicker engine warm-up while insuring adequate engine protection during competition.

301236 Quart 10W-30 .....11.20

Engine Oil Additive ZDD Plus™ Zinc

- **Excellent For Preventing Cam & Lifter Wear On Non-Roller Cam Engines**
- **Ideal Substitute For GM's E.O.S. (Engine Oil Supplement)**
- **ZDDP (Zinc Dialkyl Dithiophosphate)**
- **Brings Current SM Oil Category Back To SF Specifications For EP (Extreme Pressure)**
- **Required For All Engines Prior To OBD Vehicles With Flat Tappet Cams**

301157 **4 Oz. Bottle**.....13.25

K & N Performance Air Filter

K & N Performance Gold Oil Filters meet or exceed all high performance automotive engine builder's standards. The K & N filter will flow up to 12 gallons per minute and is unaffected by racing fuels. Filters also feature a 1" wrench nut for easy removal, an anti-drainback valve to eliminate "dry starts" and a ribbed core constructed of a resin impregnated filter media to provide maximum filtering surface.

High Performance Spark Plug Wires

- **Low 500 ohm per foot resistance**
- **Silicone jackets to resist high temperatures, moisture, oil and chemicals**
- **Fiberglass reinforcing braid for added strength and flexibility**
- **Lifetime warranty**
- **Made in U.S.A.**

Stock appearing 7.0 mm black wire sets are custom built for a perfect fit - no cutting, crimping or splicing.

302203 68-74 427/454 .....80.80

MSD Super Conductor Spark Plug Wire Set

Each kit features extra-long wires with the spark plug terminal and boot installed. This way you can route the wire to fit your needs before installing the other boot and terminal. A handy Mini-Stripper-Crimper Tool is even supplied!

301242 (ND) 153.95

Dielectric Grease

Prevents fusing of spark wires to spark plugs, boot tears, corrosion and arcing.

271015 .33 oz 6.35

75-82 MSD Street Fire Spark Plug Wire Set

- **Helically wound conductor surppresses electro and radio noise**
- **Kevlar core combination for great strength and durability**
- **8mm silicone and synthetic jacket reists heat and abrasion**
- **500 Ohms per foot resistance for improved spark delivery and power**
- **Silicone boots protect against exhaust temps**

AC Delco Spark Plug Sets

Original equipment spark plugs are designed to totally complement every other component in your factory ignition system. The resistance in AC spark plugs is perfectly matched to your ignition system so that radio interference is minimal. You'll realize optimum performance when AC Delco plugs are used in an AC Delco ignition system.

Locking Engine Mounts

The locking engine mounts that are available in parts stores and warehouses do not approach the original factory mounts in terms of material thickness, particularly in critical areas that are most susceptible to flex under load. Our mounts address these issues, providing our customers with the most correct appearing and performing mounts on the market today.

302005 **70-82** **Engine Mount - Locking (68-69 Repl.) Correct, ea. 29.50**

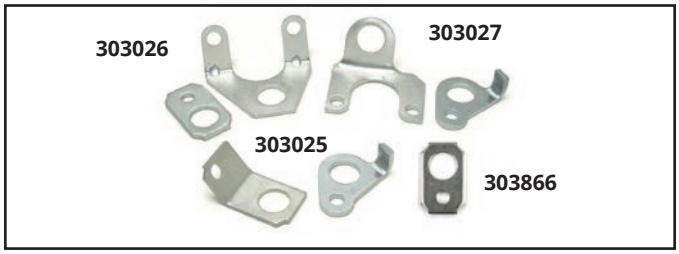

ENGINE MOUNTING

302270 **63-82** **Polyurethane Engine Mount, pr. 126.90**
Aftermarket part; may need to alter your power steering pump bracket for clearance.

HELPER: Emission Terminology

EGR - Exhaust Gas Recirculation: Exhaust gases containing unburned fuel are recirculated back into the engine to be re-burned.
EFE - Early Fuel Evaporation: Right side exhaust manifold gases (heat riser side) are recirculated to reduce emissions and shorten engine warm-up time.
TVS - Thermal Vacuum Switch: A temperature sensitive switch that controls vacuum supply to other engine components by opening and closing at specific temperatures.
A.I.R. - Air Injector Reactor (Smog Pump): A belt driven pump that injects cool outside air to the exhaust valves to promote combustion of unburned fuel.
TCS - Transmission Controlled Spark System: Introduced in 1970, this system controls exhaust emissions by eliminating vacuum advances in the lower forward gears.

Emission Hose Sets

Vacuum hose kits include all correct color hoses and connectors to properly connect the following components as required: Distributor vacuum advance control, carburetor choke vacuum control, smog pump diverter valve, EGR valve and fitting, EFE valve and fitting, spark controls, carburetor idle control, air cleaner vacuum diaphragm, and clean air and choke tubes.

Engine Belts

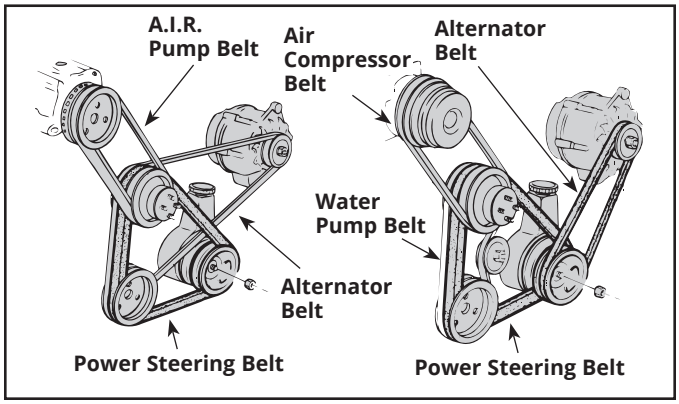

68-72 ORIGINAL BELTS

Cloth wrapped to give the belt more durability and a more original appearance. All belts have GM logo, part number and vendor I.D. hot stamp embossed just like the original.

Cut Belts vs Wrapped Belts

The difference between 'cut' and 'wrap' belts are 'cut' belts have visible cords showing on the sides of the belt, where as 'wrap' belts have a cloth-like material wrapping the entire surface of the belt.

Front Frame Camber Brace

- **Fits big block or small blocks and Corvetttes with electric fans.**
- **Increase cornering confidence**
- **Reduce frame flex.**
- **Powder Coated Adjustable Mounts & Brace**
- **HD Rod Ends**

Reinforce the front frame of your 63-82 Corvette for better handling and road manners. This bar helps reduce frame flex while cornering or large bumps.
302583 63-82 (ND)....312.05

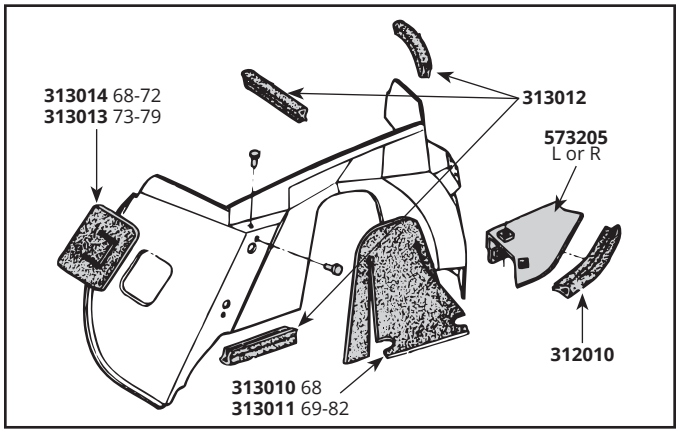

White Lithium Grease

General purpose lubricant protects against rust and corrosion. Makes contact surfaces friction free.
301026 10.5 oz. Aerosol....11.10

Silicone Compound

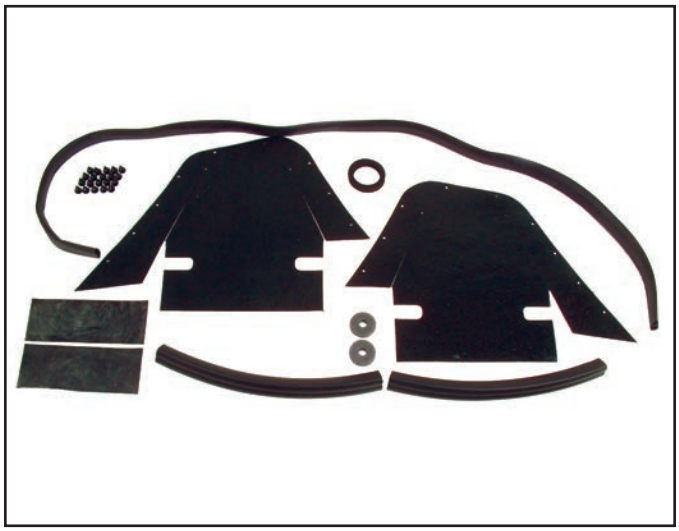

Contains no petroleum or by-products and will not attack rubber. An excellent release agent and lubricant for rubber and plastic parts, such as o-rings, valves and plastic gears. Locks out moisture and has excellent wash-away resistance. Unaffected by extreme temperatures.
101232 5.3 oz. tube....16.80

Engine Compartment Seals

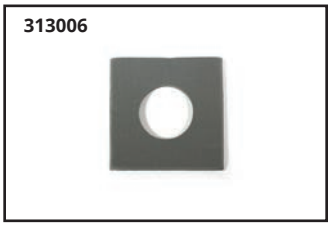

313010	68E	A-Arm Flaps w/Staples, pr.	17.60
313011	68L-82	A-Arm Flaps w/Push-In Fastener, pr.	23.95
313012	68-82	Upper & Lower Inner Fender Seals 3 pcs - Cut to Fit	23.60
312021	68-82	Wiper Motor Seal	6.50
312010	68-79	Splash Pan Edge Seal, pr.	14.25

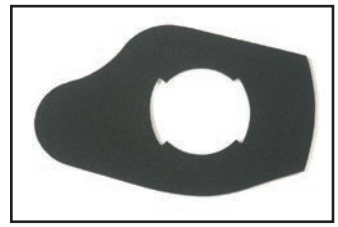

Engine Compartment Seal Kits

Includes: Upper and Lower Fender Seal Kits, A-Arm Dust Covers with Fasteners, Windshield Wiper Motor Seal, Fender Skirt Splash Shield Weatherstrips, Steering Column Seal(s), Bumper Brace Seals (68-79), and Front Marker Lamp Seals (80-82).

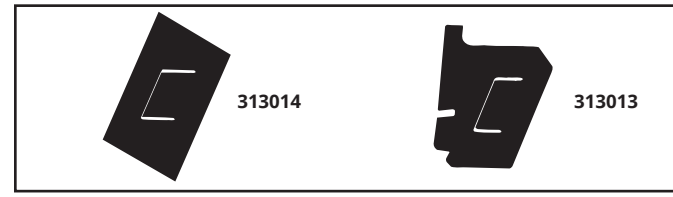

313108	68	(15 pcs.)	86.40

82 Throttle Performance Switch

• Not for use with Power Chips

Power performance products and improvements for 1982 owners are scarce and in great demand. Now there is a throttle enhancer programmed specifically for the crossfire cars. Direct plug in performance, no tools required. Does not affect idle. 50 state legal. Just plug in and hang on!

354277..... 132.45

71-82 Hi-Performance Pulley System

Increases horsepower by reducing accessory drag. 12-15 HP at rear wheels typical, Eliminates belt throwing. Designed for daily street driving. Precision CNC machined to run perfectly true. 6061-T6 aluminum strength and wear. Finished with a "No Polishing" clear powdercoat. Pullys have their own unique v-spacing and must use original 1971-newer brackets and water pump.

303306 W/P, Alt., P.S. (Inc. 5 1/2" 2-Groove Crank Pully, 6 1/4" 2-Groove W/P Pulley, 3 3/16" 1-Groove Alt. Pulley w/Cap) (ND) 346.70

Chrome Bowtie Engine Dress-Up Bolts

Kit includes intake, valve cover, water pump, water neck, timing cover, fuel pump, oil pan, and distributor holddown. These bolt sets are not for a specific horsepower, so they may not include the correct thermostat housing bolts.

301069 Small Block (ND).....183.95

302121 Big Block (ND).....189.35

81-82 Power Chips

Street Runner Power Chips are designed for daily street driving on stock or slightly modified engines (high-flow air cleaner, cat back exhaust) with a stock thermostat. Thermo Master Power Chips include all the features of the Street Runner. It is programmed to use a 160° Powerstat. Power Chips are programmed to recalibrate fuel delivery and ignition timing to deliver maximum torque and horsepower without sacrificing reliability. Installation is easy and quick — just plug in the new Power Chip.

Model	Street Runner Power Chip Stage I	Thermo Master Power Chip Stage II
81 Automatic	303012 163.20	* 303013 142.80
81 4 Speed	303014 163.20	* 303015 153.00
82 Automatic	303016 142.80	* 303017 153.00

ND = No Discount on Power Chips.
* = Designed for use with #243139 Powerstat.

68-82 Shop Manual

Full maintenance, repair, troubleshooting, and tune-up information for the home mechanic and professionals alike. 305 pages, 523 illustrations. Softbound.

Stainless steel body, end caps and one piece core, deliver long life protection

Straight-through one-piece stainless steel perforated core for smooth unrestricted flow. No backpressure.

Body filled with high temperature accoustical supression material for maximum sound absorption

Stainless steel mesh provides durability under high tempera-tures, with additional sound absorption and no blow out.

All-Welded Lap-Joint Construction

THE ORIGINAL ALUMINIZED

The originators of aluminized mufflers and exhaust systems for your Corvette.

• You will notice that our exhaust section does not list any stainless steel (SS) pipes.Our previous cat-alogs listed SS systems, but we have always promoted aluminized systems for the following reasons:
• SS retains heat which makes the pipes run hotter. This heat is radiated through the floor of the car.
• Customers that purchase SS for its appearance will be soon disapointed because the SS pipes turn blue near the manifold and yellow back to the mufflers.
• The heat retained by the SS will cause your exhaust system to grow in length as the car warms up. Customers have measured this growth at as much as 1 1/2". This change is enough to make even properly fit-ting pipes rattle.
• The stiffness of the SS causes inconsistencies in bending and also clamping difficulties.

At half of the cost, we feel that aluminized exhaust systems are the way to go. The aluminized coating on the inner and outer diameter of the pipe allows for proper cooling. SS has many good applications for restoration parts on your car, but we do not feel quality exhaust systems are one of them.

Magnaflow mufflers can be ordered with 2 1/2" complete systems. See chart for details. Add -MAG, MAGDLXA, MAGDLXB to part number.

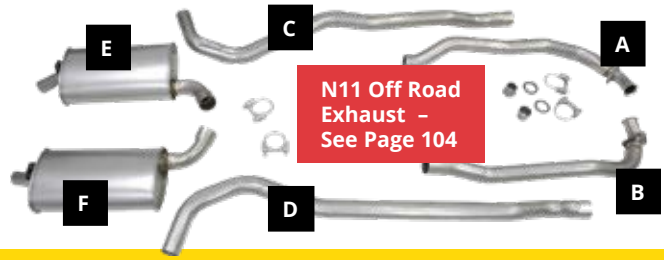

Side Exhaust - See Pages 103 & 105

Correct Factory Exhaust Tips

Starting in 1966, all small block exhaust manifolds were 2" and therefore, all exhaust pipes were 2" where they bolted to the manifold. Hi-performance engines used exhaust pipes that went from 2" to 2-1/2" as shown above. See exhaust application chart on page 75. This is how GM pipes were originally manufactured. Lower horsepower engines used 2" pipe throughout the exhaust system.

• = Original factory exhaust systems came on the car with the secondary pipe welded to the muffler. The chart above lists systems both with the welded mufflers and with the muffler and pipe separate. NOTE: This system is not to be confused with the O.E.M. high performance "off road" exhaust system which also came as a welded secondary pipe and muffler assembly. •• = These systems are available with our Magnaflow Hi Flow Mufflers. To order, add $90.00 and specify - Mag. Ordering Example: 323710-Mag = 68-72 SB 2-2 1/2" Exhaust System = 474.00.

Attention 68-72 Owners!

Corvette Central now offers a DELUXE Exhaust System. This is our complete system as listed above, but also includes muffler hangers, stainless steel exhaust extensions, and heat riser with gasket.

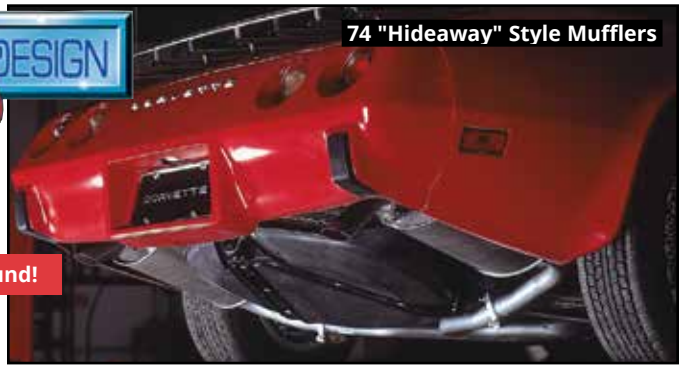

To order, add "DLX" to the system number above.

Example:
323711- DLXB = 68-72 327/350 Auto 2 to 2-1/2" Exhaust Kit = 727.00
- DLXA 68-69 2" System ..... Add $140.00
- DLXA 68-69 2-1/2" System .. Add $145.00
- DLXB 70-72 2" System ..... Add $140.00
- DLXB 70-72 2-1/2" System .. Add $145.00

"Hideaway Mufflers"

73-78's from factory had a round case muffler which can be seen below your rear valance or bumper when installed. In 79-82, GM went back to an oval case muffler, similar to what was used in 63-72. This muffler tucked up under the car and was not visible under your bumper. Corvette Central has designed a line of direct fit 74-78 oval mufflers so you don't have to live with your mufflers "ridin' low." We call these "Hideaway." Try a set of these Corvette Central improved design mufflers!

• = Original factory exhaust systems came on the car with the secondary pipe welded to the muffler. The chart above lists systems both with the welded mufflers and with the muffler and pipe separate. NOTE: This system is not to be confused with the O.E.M. high performance "off road" exhaust system which also came as a welded secondary pipe and muffler assembly. •• = These systems are available with Magnaflow mufflers. To order add $60.00 and specify -MAG.

Corvette Central is your source for Correct 73-77 Round Style Mufflers!

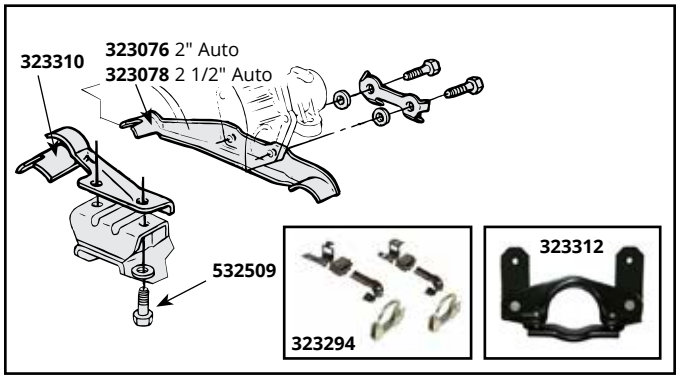

74-82 Exhaust Tip/Downspout is part of CC's Mufflers - Just like factory.

Hideaway Mufflers

73-78s from factory had a round case muffler which can be seen below your rear valance or bumper when installed. In 79-82, GM went back to an oval case muffler, similar to what was used in 63-72. This muffler tucked up under the car and was not visible under your bumper. Corvette Central has designed a line of direct fit 74-78 oval mufflers so you don't have to live with your mufflers "ridin' low." We call these "Hideaway." Try a set of these Corvette Central improved design mufflers!

By adding '-CS' to the part number, you will receive carbon steel pipes that are reformed and welded as close to original as possible. The conventional part numbers are for our regular aluminized pipes. Please Note: all tubing is 14 gauge single wall pipe unless otherwise noted.
• = These systems are available with hangers and tips. See our WEBSITE - DLX

Dual Exhaust Systems with Headers & Mufflers

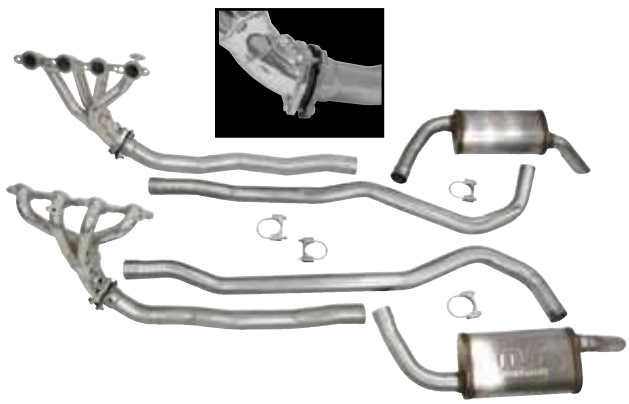

- **Patriot ceramic coated headers, which fit stock 327's and 350's as well as GM Performance Parts ZZ Series motors.**
- **Corvette Central's 14 gauge aluminized pipes manufactured to our high quality standards from the best materials available.**
- **Magnaflow performance mufflers-widely known for their wide-open performance and great sound.**

It is no longer necessary to haul your Corvette to an exhaust shop after installing headers. Corvette Central offers a winning trio with a bonus: System does not include hangers. Exhaust hangers must be purchased separately.

C2 Style Side Pipe Kit

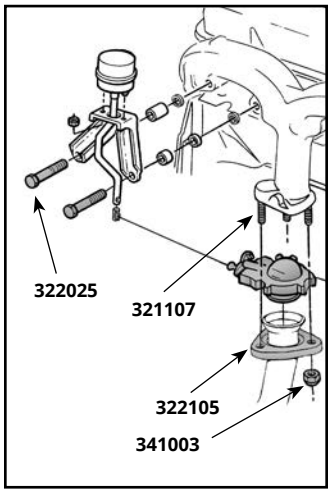

The OEM 1969 style side exhaust is a little restrictive and has a raspier note to it. This side exhaust features a C2-style chambered muffler for that beefier tone and better flow, correct hanger welded in place and correct C3 style tip for easy bolt-on application. These pipes will also fit better under the OEM covers than the OEM "figure 8" side pipes.

Exhaust Paints & Helpers

Exhaust Manifold Dressing - Keep your exhaust manifolds concours prepared at all times, without removing them. Produces a natural silver gray, long lasting finish. Apply with cloth. Can be polished to high lustre.

101022	3 oz. Jar	18.50
111987	3 oz. Aresol	20.95

Exhaust Pipe Sealer - Use to seal the front crossover pipe to exhaust pipe (as was done originally at the factory) or at any exhaust pipe connection to assure a leak-free installation.

322123	**6 oz. Tube**	**10.90**
101795	**Stainless Steel Paint, 13 oz. Aerosol**	**15.10**
101020	**Cast Iron Blast Paint, 12 oz. Aerosol**	**13.25**
101021	**Spray Coat Hi-temp Cast Iron Paint, 12 oz. aerosol**	**16.60**
102012	**Black Semi-gloss Paint, 12 oz. aerosol**	**16.95**
321013	**Aluminized Finish Exhaust Paint, 11 oz. (For pipes and mufflers, not headers or convertors)**	**17.30**

Factory Manifold Gray is a high temp gray paint capable of withstanding extreme temperatures up to 1400 degree F. This high temp paint will maintain a durable iron gray color and won't burn off. Can be used on all cars, domestic or foreign, and it meets or exceeds properties and requirements of MIL-C-13370

321040	**POR 15 Factory Manifold Gray Coating - 8 oz.**	**28.30**

427/454 Headers

- **2" Primary Tubes**
- **2-1/2" Collectors**

These are direct replacements and bolt to stock front exhaust pipes.

• = Includes Hardware Kit and Tips.
•• = Has Pins for Use with T-Top Carrier Kit

Important Luggage Rack Information!

1968-75 Luggage racks were a dealer installed option. Over the years, GM used more than one source and unfortunately not all dealer installed racks had the same dimensions. If the luggage rack you are replacing is an original rack, please check this measurement. Racks featured in this catalog measure 14-1/4" between the two holes on each side of the rack. If your rack is slightly different, the washers supplied with the new luggage rack will cover the variance. Also noted above is the side to side hole measurements.

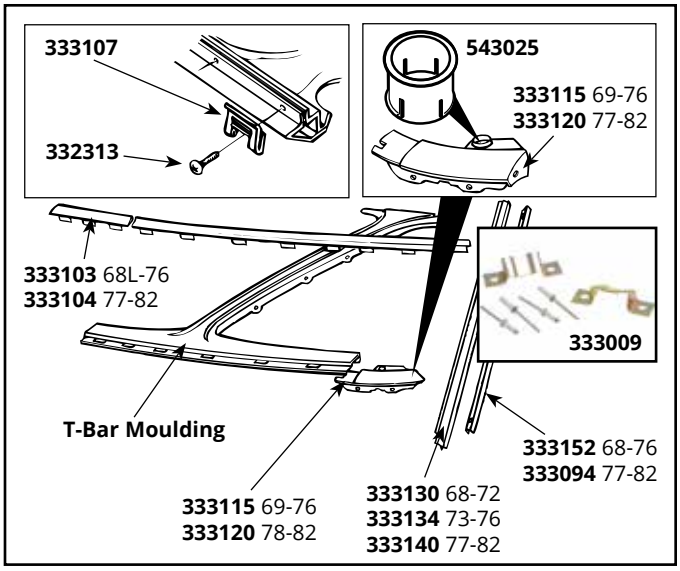

103059	76-77	T-Top Mount/Luggage Rack, ea.	176.55

Can be used with luggage racks that have alignment pins in rack.

Important Note

All fiberglass replacement parts are considered collision parts and should be fit to the car before final finishing.
It is normal for these parts to have chips, scratches, and even minor cracks when received. This is considered to be normal and is not a reason for parts replacement.

Fiberglass Terms

HL = Hand Layup parts are manufactured by hand laminating pattern cut fiberglass mat and fiberglass resin into a precision mold. This method produces high strength panels with uniform thickness and smooth surface only on 1 side.

IFP = To answer the need for original looking fiberglass body panels there is now a process to fully finish the insides of traditional hand laid products. These are significantly less expensive and stronger than Press Molded panels. When assembled with the appropriate bonding strips they are identical in appearance from the original GM O.E.M. panels.

PM = Press molded parts are formed under pressure in matched moulds as original. This assures a high strength part with a smooth surface on both sides.

BPM = Black Press Molded

+ = Truck Ship Items are shipped freight collect direct from our supplier, and orders must be prepaid.

68-82 Body Repair CD Guides

If you or your body shop are going to make fiberglass repairs to a 68-82 Corvette, then these two books are required reading. Both books are written to guide the reader in techniques used for fiberglass repairs and panel replacement specifically for 68-82 Corvettes. Written in a step by step format for both the do-it-yourselfer and the professional, the books include detailed photos and illustrations to clarify every step.
Front end repairs are covered in Volume 3 -116 pages with more than 175 black and white photos. Repairs to the rear of the car are covered in Volume 4 - 113 pages and over 20 photos and illustrations. Spiral bound.

Edelbrock Single-Quad Manifold & Caruburetor Kit

With a single plane aluminum intake manifold and carburetor, it's easy to upgrade your induction system with the best combination of Edelbrock proven performance and looks in a single box. These kits include: an Edelbrock manifold, AVS2 Series carburetor, chrome fuel inlet, intake gasket set, intake bolt set and carb stud kit. The manifold and carbs are a standard satin finish.

351462 Small Block.....790.95
352480 Big Block.....1,029.95

Edelbrock Intake Manifold

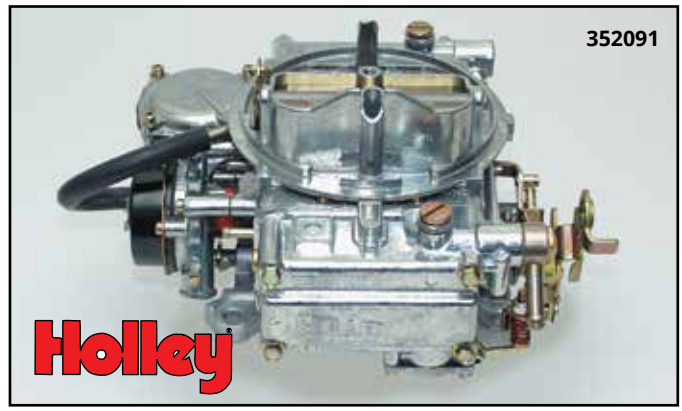

The Edelbrock "Performer Intake Manifold" is an ideal performance replacement for Corvettes with stock small blocks with performance cams and /or headers. The "Performer" dramatically improves off idle response and low end torque and extends all theway to 5,500RPM. The QuadraJet Carburetor bolts directly to the "Performer" utilizing all stock brackets, fittings, and cables. Rejetting of the carburetor or other modifications are not required because the manifold fits under all stock hoods. Gaskets not included.

NOTE: You will have to check for hood clearance before using this intake manifold. This manifold is approximately 5/8" taller than a stock intake manifold

SPECIAL ORDER

We can help if you have something you can't find in our catalog!

Holley's Sniper Stealth 4150 Master Kit gives you carburetor styling that functions like the Sniper, making it a cost-efficient way to upgrade your fuel injection with four simple connections. Take your build to the next level with improved engine performance, better MPG, and easier starting. This kit supports up to 650hp naturally aspirated and 600hp boosted with four 100 Lb/Hr injectors! Holley's calibration wizard asks you a few questions, then will begin self-tuning. You can use the high-resolution 3.5" full-color touchscreen for tuning and gauge displays. The stealth 4150 also includes transmission kick-down provisions for GM TH350/400, 200R4/700R4. The 4150 has a complete fuel system with all the necessary hardware to return fuel to your tank. Additionally, you're getting a 4.9 wideband leak-free oxygen sensor, OEM style TPS/IAC, fuel pressure regulator, all stainless steel T-bolt clamps, and a stainless steel weldable flange.

EFI Fuel Tank Meter / Module - See Page 126

The Sniper 2 EFI is a self-tuning, easy-to-install EFI conversion for common four-barrel (4150 flange) carburetors. We added 14 new features to make your EFI conversion simple, reliable, and modern. Sniper 2 works with the Sniper Ecosystems with Hyperspark ignition, complete fuel systems, multiple user interfaces/dash displays, and more.

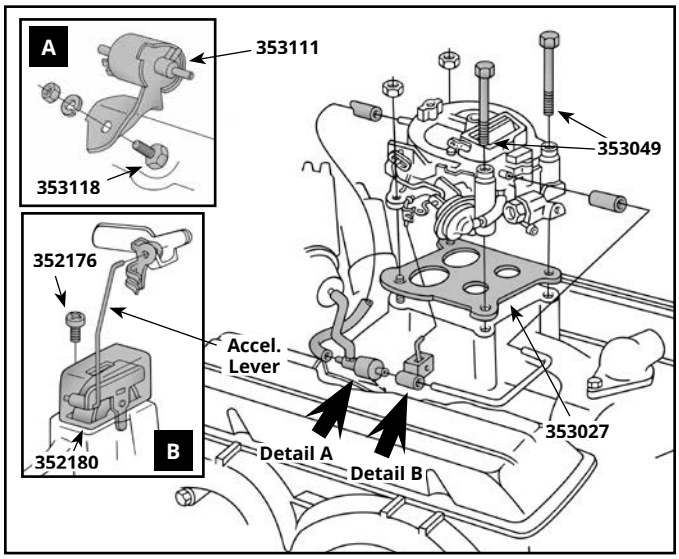

New to Sniper 2 is the optional Power Distribution Module (PDM). This cost-effective accessory isolates the core of your EFI and ignition wiring into one easy-to-use location by sliding the stripped wire ends under the positive lock connector and tightening down the set screw. A battery and a switched 12-volt source will power the PDM and your Sniper EFI.

Make your classic drive like a modern fuel-injected Corvette with easy cold starts, smooth drivability, and improved fuel economy! Sniper 2 installs with limited tools and Holley's installation manual and videos. The setup wizard asks you a few questions then begins self-tuning. No laptop or tuning experience is required.

Lucas Octane Booster

- **Suitable for use in fuel injected and carbureted engines.**
- **Promotes clean fuel burn for fewer emissions.**

A real octane booster! Tested and proven to deliver three times more boost than most other brands. Lucas Octane Booster is a genuine performance enhancer! It's safe for turbos, oxygen sensors, and catalytic converters. Stops knocks, and raises MPG in high compression engines. One 15oz bottle treats up to 25 gallons of fuel. Not street legal. Safe for any gasoline engine.

351136 15 oz.....12.25

NOTE: This is a hazardous item and cannot be shipped by air or outside the Continental U.S.

Red Line Lead Substitute

Prevent valve seat recession in vehicles designed to use leaded fuels. Red Line Lead Substitute prolongs the useful life of these engines and cleans carburetor deposits. 1 oz. treats 10 gallons.

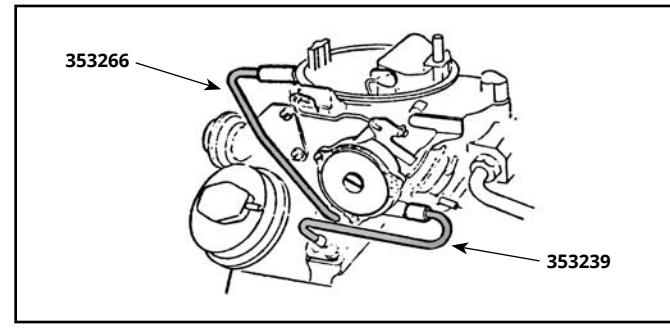

351094 12 oz 15.95

GM Fuel System Treatment Plus

- Cleans sulfur corrosion from fuel gauge sending units.
- Prevents harmful sulfur components from attacking sensitive fuel system electronics.
- Protects by coating metallic surfaces of the fuel system.
- Removes engine deposits left from use of poor quality fuels

HELPER: Gas Tank

Gas Tank Repair And Liner Kit

Fuel Tank Sealer is specifically formulated to stop rust and corrosion by forming a tough, fuel impervious coating, while simultaneously sealing small pinholes and weld seams.

This kit contains KBS Klean (a water-based, heavy duty, cleaner/degreaser) and RustBlast (a powerful rust remover/metal etch) to obtain a permanently sealed, rust-free fuel tank.

Not recommended for tanks that have been coated on the inside from the factory.

68-82 Headlight Rebuild Kit

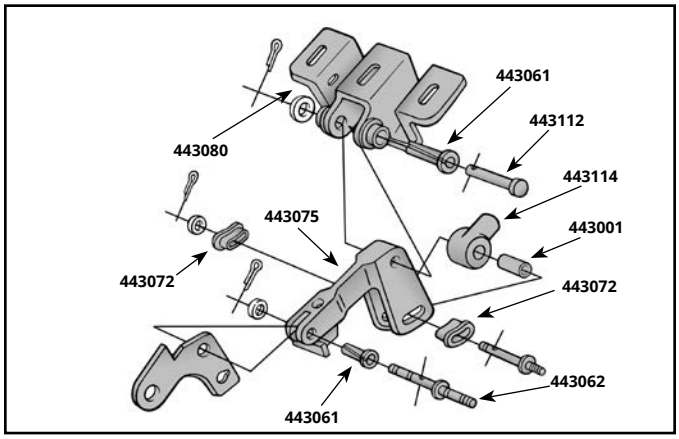

Does both headlights

Kit Consists of:

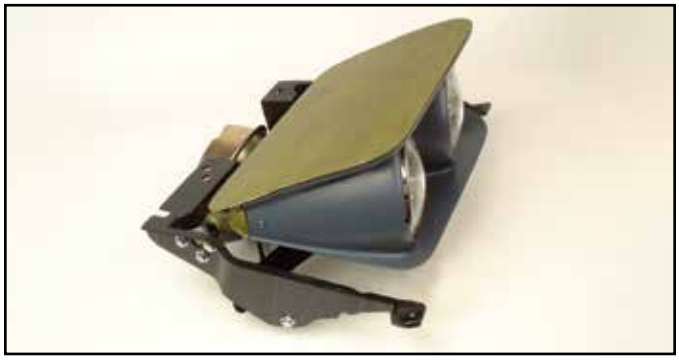

- 4 Headlight Bearings
- 8 Housing Mechanism Springs
- 8 Headlight Bulb Adjusters
- 8 Headlight Bulb Adjuster Screws
- 4 Headlight Bulb Springs
- 12 Plastic Sleeves

443022	Minor Rebuild Kit (Includes bearings, springs & Bushings)	99.95

Electric Headlight Doors Conversion Kit - C5 Style

- **No work or wire harness routing under the dash**
- **Headlights "pop" up and down just like 1988-2004 Corvettes**
- **1997-1999 New metal case Corvette headlight motors with manual turn up knob**
- **1988-2004 Corvette headlight actuator module reproduction**

This kit replaced stock C3 Corvette vacuum actuator systems and operates headlamp doors more reliably, smoother, and in sync.

443108.....811.60

68-82 Electric Headlight Door Conversion Kit

The Detroit Speed Inc. Electric Headlight Door Kit replaces the stock vacuum actuated system on all C3 Corvettes. When installed, this kit operates the headlight doors more reliably, smoother and in sync than the stock vacuum system. The complicated, failure prone and bulky vacuum accessories can all be eliminated. Vehicles with large engine cams with low vacuum signals will also benefit from this system since they are electronically controlled.

Easy installation with no permanent modification. This allows owners the option to return their vehicle back to its original configuration if desired.

443143 **68-78** **895.00**
443178 **79-82** **895.00**

Includes supports, brackets and lens covers. Does not include bulbs or bulb holders.

443027 68-82 Lemans Style Headlight Conversion Kit (ND) 901.75

RetroBright LED Classic White Headlamp Bulb

- **5.75 in. Round**

Gen IV SureFit System

Complete kit includes: Evaporator, condenser, drier, compressor, compressor bracket, hose kit, and binary safety switch.

- **Fully electronic operation - no cables or vacuum controls**
- **Kit includes individual Rotary Electronic Controls for electronic operation**
- **Micro-processor controlled coil temperature monitor. No capillary tube to install!**
- **Separate high capacity heat and cool coils**
- **Aluminum plate/fin A/C coil (most efficient evaporator design available)**
- **Copper/brass parallel flow heater coil**
- **Blend air door for instant temperature adjustment**
- **Infinite dash/floor air blend (in most applications)**
- **Infinite defrost / floor air blend with dedicated defrost option**
- **Steel firewall cover plate**
- **All Gen IV systems allow for optional smooth fire configuration (must use modified hose kit)**
- **Positive shut off solenoid operated heater control valve in max A/C**

453084	**68**	**For Factory AC Cars**	**1,995.00**

453227	**78-82**	**For Factory AC Cars**	**1,995.00**

This kit is a special order and cannot be returned.

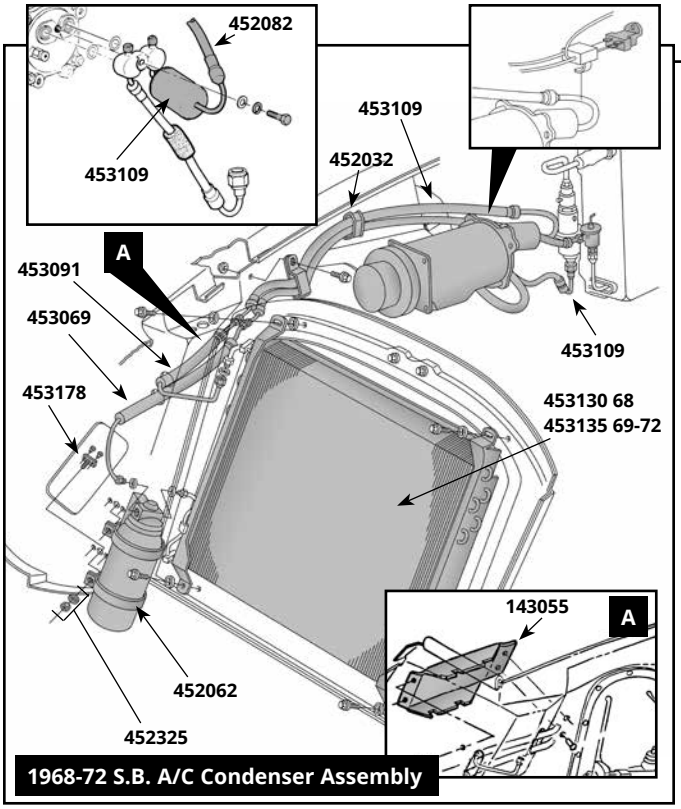

AC Compressor

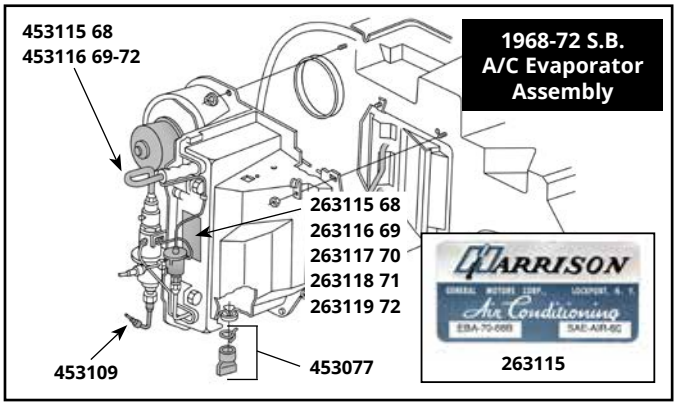

- **Light Weight and Efficient**
- **52% Lighter**
- **Ultra Quiet**
- **Super Efficient**
- **Works with Factory Hose Assemblies**

The Pro 6 Ten compressor is a 10-cylinder "bolt-in" direct replacement for the GM Frigidare/Harrison A-6 Compressor. This new design is specifically engineered to fit original A-6 mounting brackets and A/C hose assemblies. This highly efficient compressor offers a smoother, quieter operation, creating less vibration and engine drag, increased fuel mileage, improved engine and cooling system performance.

- **Prevents Oil from Spraying on Hood**
- **Protects from Touching Air Conditioner Belt**
- **Dresses-Up 68-76 Compressors**
- **Easy Slip On Installation**

452133	Black Air Conditioning Compressor Pulley Shield	49.60
453089	Polished Stainless Steel Air Conditioning Compressor Pulley Shield	68.75

68-72 POA Valve Update Kit

Replace the original POA valve and convert it to a more reliable cycling clutch system. Improves AC system performance with new automotive refrigerants.

452249 134A.....118.40
452173 R12.....123.55

453141 73-77E VIR Maintenance Kit 38.10
Includes desiccant bags, seals and screen.

73-77 Air Conditioning VIR to Evaporator Conversion Kit

This kit eliminates the troublesome VIR (valve-in-received) assembly and updates the air conditioning system to an accumulator/orifice tube type system like found on later model Corvettes. This evaporator conversion works very well to improve the air conditioning efficiency and a system converted to 134A refrigerant. Included in the kit are evaporator and tube seals, accumulator and mounting hardware, manifold hose assembly, liquid line tube, smart orifice, low pressure cycle switch, binary switch, wiring harness, and o-rings.

453168 73-76 With A6 Compressor (ND) 746.70
453175 76-77 With R4 Compressor (ND) 746.70

74-76 VIR Eliminator

Converts A/C system to an accumulator orifice, cycling clutch system as found on later model vehicles. Eliminates the troublesome VIR sticking POA and TXV. Reduces the desiccant breakdown and rust in the steel casing, enhanced by excessive heat from exhaust manifold. Compatible with all automotive refrigerants.

453065.....178.40

74-76 VIR Eliminator

Retrofitting your vehicle to non-ozone depleting refrigerant protects our atmosphere. This kit allows you to convert your A/C system from R-12 to R-134a usage in a cost effective manner. Only three additional steps to the R-12 service procedure are needed to convert to R-134a. Includes new D-rings, Ester oil and instructions.

452116.....41.15

77-82 Chrome AC Compressor Cover

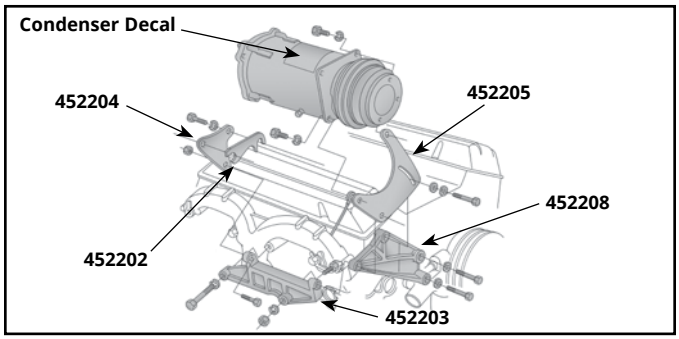

123250.....67.95

77-82 Chrome AC Compressor Cover

These shields are pre-drilled and die-cut for easy installation (via existing OEM hardware) and an exact fit. Not only do they confine oil splash, they also look great!

453063 Chrome Finish....69.40

IMPORTANT

Electrical components such as air conditioner compressors and switches are NON-RETURNABLE PARTS

Always refer to a factory service manual when diagnosing electrical service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.

70-82 "Leather-Like" Seat Covers in High Grade Vinyl

THE LOOK AND FEEL OF LEATHER AT $160-$300 OFF LEATHER PRICES!

If you have a daily driver that you would like to upgrade to the look of leather interior, but don't want to spend $400, we have the answer. These covers are cut to the original leather cover specifications, but are crafted of heavy duty, leather-grain vinyl in original colors. No, you won't fool a show judge, but they look good and can handle everyday use. These will be cut to the original leather pattern for your year.

Except Collector's Edition.

78 Pace Car & 79-82 Leather Seat Covers

Choose from 100% leather or original leather/vinyl. All leather/vinyl seat covers are manufactured only with flawlessly authentic materials. 100% leather seat covers offer an attractive alternative that eliminates the natural differences between leather and vinyl. And to ensure an accurate fit, both styles available with 2" or 4" side panels. Optional cloth seat covers are not available.

How to Select the Correct Size of Seat Covers for 79-82's

1. If you are using new seat foam, simply select seat covers and seat foam that match in size — either both 2" or both 4".
2. If you are using your original seat foam, simply locate the end of the horizontal pleats (A) on your seat back's insert area.
3. Find the middle of the double stitching line (B).
4. Measure the distance between A & B. It will be either 2" or 4".
5. Select your new seat covers directly from the chart. For an even easier installation, check out our new mounted leather seat covers above.

68-82 Molded Seat Foam Sets

Manufactured to original specifications to provide proper density and feel. Let our affordable reproduction seat foam help restore not only the look of a brand new seat, but also give you new driving comfort. 1 set does 2 seats.

Seat Cover Installation

68-78 SEAT COVER INSTALLATION SERVICE

Let us take the hassle out of recovering your worn and dirty seats! All you need to do is send your seats in to us and we'll do the rest. Installation experts will ensure that your new seat covers are installed correctly and for much less than a traditional upholstery shop would charge. The entire process takes about 4-6 weeks, and the workmanship is guaranteed for a full year! Seat covers, foam, and any necessary hardware must be purchased separately from Corvette Central. Price shown includes labor only.

133097	(ND)	602.65

Seat frames can be cleaned and refinished for an additional 259.60 — use part #132403.

133077	68-77	Door Panel Vapor Barrier-Plastic Moulded pr. 54.10

69-82 Door Panels are manufactured with improved ABS backing and window felts installed.

70-77 Door Panels

Specify Color

These door panels are exact reproductions of original door panels available in correct interior colors. Panels available for standard or deluxe interiors.

Basic panels have upper window felt only (if the other trim is in good condition, you can save money by transferring it to a basic panel).

Standard panels have upper window felt, armrest U-trim, and lock knob trim plate.

Deluxe panels have upper window felt, armrest U-trim, lock knob trim plate, wood grain panel, lower carpet trim, and carpet metal trim strip.

133796	76L-77	Coupe Rear Window Lower Trim 162.25

73-77 Inside Rear Window Mouldings - See Page 165

79-82 Sunvisor Repair

Tired of a sagging LH sunvisor? In many cases, this is caused by a worn out bushing in the televisor end. Corvette Central has a new bushing available to solve the problem. Order a new bushing (#133739) and if your cast support elbow is broken, replace it with a new end part (#133743).

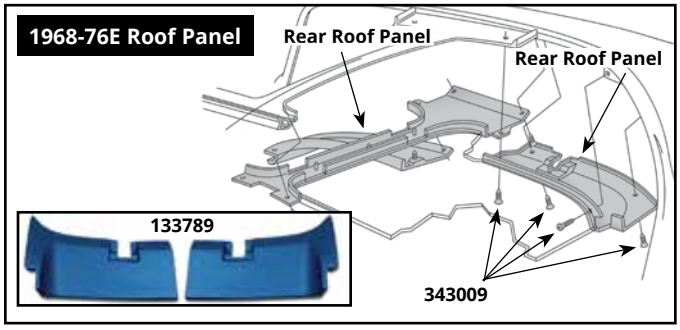

Mount Hole Repair Kit

Fix oversized holes in fiberglass. Simply spot plate over oversized hole, rivet to fiberglass using included rivets, and then drill your screw holes into metal for a permanent fix.

131125 20 Plates With Rivets 35.40

68-82 Coupe Rear Roof Panels

Specify Color

Perfect grain, texture, and size with hard-to-find individual model-year features. 1968 2nd Design features an extended area around the rear T-top latches. 1969-72 features contour-molded rear window latch openings. 1976 2nd Design-77 comes with pre-drilled clothes hanger mounting holes on passenger side.

68-82 T-Top Pads & Center Panels

T-Top & Related - See Page 222

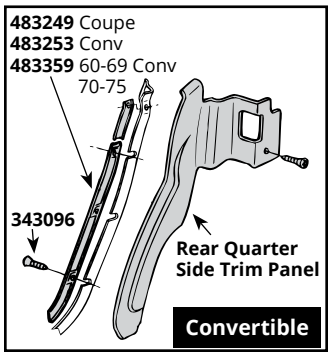

68-82 T-top panels are constructed of vinyl with an ABS substrate. Panels are correct in every detail, including attached original style hardware. 68-73 panels include larger area for sunvisors. For 76 late, the protruding area between latches tapers from 1-1/8" to 3/4" verse a constant 1/2" on the early design. T-top center panels are also correct in every detail. 1976 early did not use a pre-cut dome light opening; late 76-82 use this option.

These kits were factory delivered in all Corvettes from 68-75 and were dealer installed if requested in 1976. They are used to angle the seat back to a more upright position for driver comfort without interfering with the operation of the seat back safety latch. Spacers are die-cut and finished exactly as the originals. The storage bag is also the correct size and color as was supplied by Chevrolet and is available separately if needed.

LED Tail Lamps

A BRIGHT IDEA FOR YOUR C3

If you're looking for a way to set your C3 apart from the rest, we have a new set of LED taillights that will brighten things up. Tail lights feature LED bulbs that are much brighter than the factory units and have multiple light sources around the housing as well as in the center of the lens. These taillights fit C3 models and easily plug into the factory wiring harness and bolt in place. It's an easy way to upgrade your Corvette's appearance while adding a measure of increased safety.

In Dash CD Player for 68-82 w/ Bezel

68-76 Pioneer Shown

77-82 Kenwood Shown

Includes Correct Repro Bezel!
This is absolutely the best way to add a CD player and upgrade your sound system all in one compact unit. Corvette Central now has an upgrade kit that incorporates a new custom factory center gauge and clock surround bezel with a custom designed opening. To complete the installation, you will have to transfer your factory gauges and vents to the new bezel. The result is a center panel that looks like it came right from the factory! No cutting, no gaps, no fitting, no remote CD player, just a very good-looking center dash with great sound!

Upgraded quality dual cone 6 x 9 replacement speaker — 400 watts, 4 ohms. Ideal improvement for 78-82 Corvettes with a 4-speaker sound system. Perfect match for #103303 4x6 dash speakers. Rear compartment 6 x 9 replacements.

103312 78-82 Rear, pr. 154.45

63-82 Bass Ported Sound Bar

A great solution for locating rear speakers for your Corvette's sound system. Custom mounting against rear horizontal panel of all Corvette storage areas looks like factory installation with very little reduction of storage space. May also be used on 78-80 Corvettes without optional dual rear speakers. Only 3" deep with 2 - 4" woofer speakers and 3" mid range speakers, 22" tweeter (6 speakers total!). 200 watt power handling.

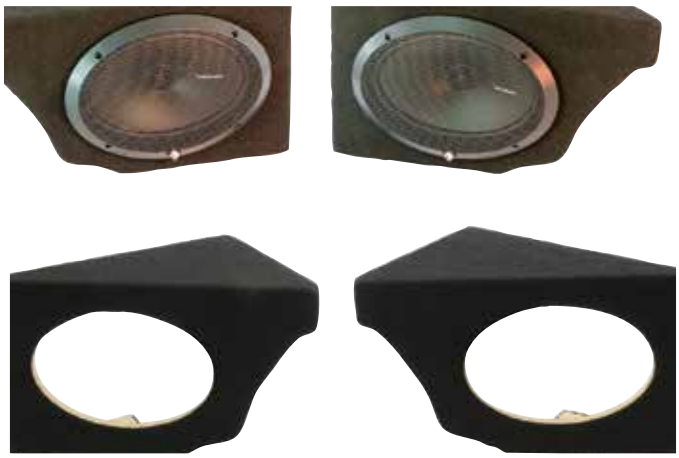

103416 **Coupe 192.65**

68-82 Custom Rear Speaker Boxes

- **"Tuck-Away" design for a custom look**
- **Takes advantage of car's natural acoustical configuration**
- **Maximizes rear compartment storage space**
- **Room for T-Top storage**
- **Won't block interior rear light**
- **Easy to follow instructions**
- **Premium MDF carpeted speaker boxes**

These custom rear speaker kits are especially designed for C3 Corvettes. Unlike other speakers, this "Tuck-Away" design maximizes valuable rear compartment space and provides a custom look found only by stereo component professional. The speakers included are Rockford Fosgate Prime Speakers (4-Ohm 2-way, 65 Watts RMS, 130 Watts Max.)

TH or OD Automatic Shifter w/ Cable

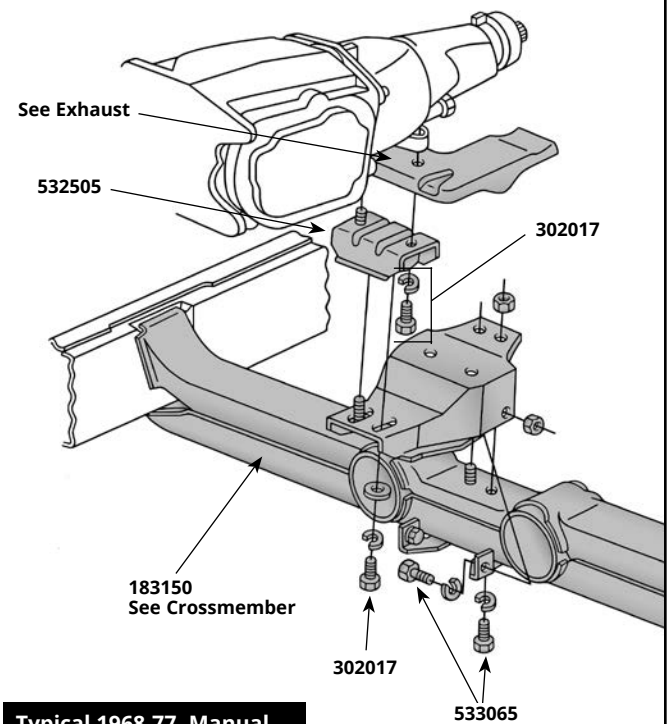

- **For TH or OD Transmission**
- **Use with TH350, TH400, 700-R4, 200-4R, 4L60E, 4L60E & 4L80E transmissions**

This C3 Corvette Shiftworks floor shifter has been designed to be a direct replacement for your factory shifter and properly function with whatever GM transmission you decide to use in your vehicle. The shifter body has been crafted from quality stainless steel to fit just like the original and utilizes the original mounting bolts.
The shifter connects to the transmission with an included cable linkage. The cable mounts to the transmission with the provided pan bracket (case mounted on 6L80E, 6L90E, & 8L90E) and the correct length shift lever(s) is included as well. We even install the neutral safety / back up light switch and adjust it for you, it's ready to simply wire into your Corvette.

4-Speed Complete Transmission Rebuild or Gasket Kits

If your transmission is making noise or shifts hard, now is the time to rebuild it before serious damage occurs. These kits are assembled by one of the country's top transmission rebuilders and contain the following: front and rear main bearings, synchro rings, gaskets, seals, strut rods, springs, needle bearings, snap rings, thrust washers, main drive nut, and a new countershaft. Many of these parts are hard to find, especially when you need them! Order a kit today and get your transmission back in top condition.

SST SILVER SPORT Transmissions
PerfectFit™ is an SST exclusive and here's why...

PerfectFit™ is an SST Exclusive and here's why...
- 30-50% percent increases fuel economy are common
- Greatly reduced driver fatigue - road trips are fun again!
- Long engine life
- Reduced NVH (noise-vibration-harshness)
- You will want to drive your Corvette much more than ever before!
- Shifter comes up to the proper factory location in console
- Shifter stub duplicates factory appearance with correct angle
- Compact shift tower for best fit
- Crisp shift with short throw
- Reproduction parts for factory look

Low RPM Cruising Gear Overdriven 5th gear provides comfortable highway driving, improved fuel economy, reduced wear and tear on engine and accessories. Several ratio choices are available.
The TKX has a rounded case and is streamlined to the max to fit inside tight transmission tunnels with no cutting in most applications. The shifter plate has a low profile and the shifter is nice and compact. It's pretty perfect right out of the box, but if you need a shorter throw or a PerfectFit™ shifter location, Silver Sport Transmissions is ready with an STX Shifter®.

68-82 Add-On Automatic Transmission Cooler

Increase the cooling capacity of your automatic transmission fluid. Helps increase the life of automatic transmissions by reducing the operating temperature of the fluid. Includes mounting hardware and installation instructions.

533598 ..... 60.20

B & M Shift Improver Kit™

FOR AUTOMATIC TRANSMISSIONS

The Shift Improver Kit is our least expensive and simplest to install transmission performance kit. The transmission pan is removed and the valve body is taken out. The stock separator plate is replaced or modified, reinstall the valve body, filter and pan and you're done! In some cases other minor modifications may also be made. The B&M Shift Improver Kit can be installed in one of two modes — you select which mode you want at time of installation.

Stage 1: Heavy Duty - Firm, positive shifts without loss of driver comfort for improved performance in all street vehicles. Recommended for regular passenger vehicles.

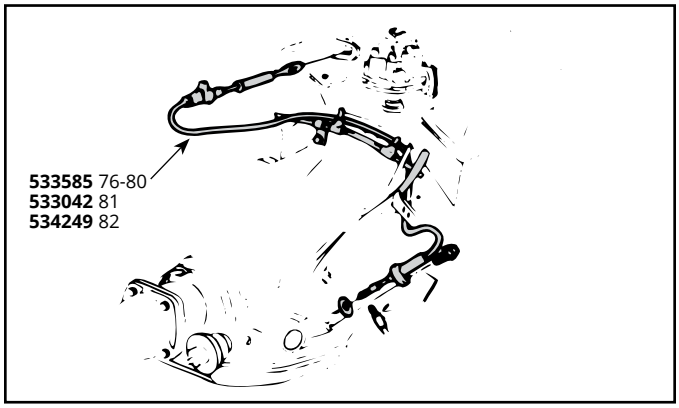

Stage 2: Street/Strip - Provides very positive shifts for high performance street use or for competitive events. This model is for the enthusiast who wants the hardest, quickest possible shift.

68-75 Original Type Convertible Top Kit

68-75 original equipment tops match the original factory convertible tops in every detail, and they are a must for the Corvette owner wanting exacting quality and originality right down to the washing instructions tag. All of our tops are crafted from the finest quality 40 oz. heavyweight vinyl material with black mildew-resistant fabric backing. The crystal-clear, heavy-gauge rear window is heat sealed as original. Kit includes top, pads, straps, cord, finish strip with tips, warning tag, and instructions.

133655 68-75 Original Type Soft Top Kit 399.95

Note: Date on top 470 = April 1970. This date should be within at least 3 months prior of car's assembly date.

With Correct Logo and Date Stamped Rear Window As Original

Same top as above, but correct date and manufacturer's logo are heat stamped into the back window — just like the factory.

133661 68-75 Original Type Soft Top Kit (Dated) (ND) 515.00

When ordering dated parts, please specify car serial number and year or the code you require. Please allow at least 2-3 weeks when ordering dated items.

1968-75 Deck Lid Protectors

FOR USE WHEN YOUR TOP IS UP!
• 2 Piece
Prevent your soft top or hard top from leaving scratches and unsightly marks on your Corvette's rear deck. Deck Lid Protectors are static cling film (no adhesives needed!), die-cut for your model year! They cover the area where your top comes in contact with your rear deck — keeping it in like new condition. Available in clear or black.

Steering Column To Transmission Shifter Interlock Cables - See Page 181

IDIDIT Tilt Steering Column

Designed and engineered as a direct replacement part for your Corvette and does not require modification to your original C3 to install. It comes with a pre-welded under-dash mount, and a new factory-style firewall mount. Fully collapsible for safety, this new column also features 8-position tilt, self-canceling turn signals, 4-way flashers, an ignition and relay pack, and both 3-7/8-inch and 4-1/4-inch wiring plugs. In addition, IDIDIT designed the column to work with multiple steering boxes. Using an adapter, add an aftermarket wheel or bolt your original 1968-76 Corvette wheel directly to this column, putting the steering wheel back in the original position. Includes an extendable 3/4" DD lower shaft.

Custom Steering Wheels

Fits 69-82 (Excluding 1976). Add a unique look and feel to any 69-82 interior with these deep-dish steering wheels. Designed so that they won't interfere with the stock turn signal lever, our deep dish steering wheels install quickly with no modifications required. Measures 14" in diameter and features a 3-spoke chrome center.

Flaming River Microsteer Steering Column

Flaming River now offers a great steering solution for the manual steering in your 1969-1982 Corvette (Auto Trans Only). The Microsteer Electric Power Assisted Steering System in integrated into our Flaming River Tilt Column and can be used with the original Corvette manual steering box or with a Manual Rack and Pinion Cradle Systems. The entire Microsteer unit is concealed behind the lower dash panel, so you keep your classic 1969-1982 Corvette looking beautiful!

563260	69-82	Black Powder Coated (ND) 2,559.00
563269	69-82	Paintable (ND).....2,389.00

Heavy Duty Tie Rod Sleeves

Eliminate performance robbing steering flex with heavy duty steering rods. Essential for all Corvettes using hi-performance tires. These steering rods replace the stock stamped rods and utilize your existing tie rod ends. Clamps not included. Use #572158.

572236 Pair.....86.50

The following components are included:

- **Remanufactured GM Saginaw rack and pinion**
- **Adapter brackets and miscellaneous fasteners (Grade 8)**
- **Self cleaning and lubricating teflon lined tie rod ends**
- **U-Joint assembly**
- **Power steering hoses**
- **For cars with power steering**

68-82 Bolt on Rack and Pinion Steering Kit

Get improved steering feel with greater control and responsiveness from this lighter than stock rack and pinion steering system. Additional improvement comes from a quicker steering ratio that gives you approximately 2.75 turns lock to lock.

Kit includes everything you need to complete a well engineered conversion with the exception of a power steering pump. Re-use your existing pump or a stock pump and brackets for your application. This system will clear aftermarket tubular headers. Bolt on installation requires absolutely no welding, cutting or drilling and installs with basic hand tools in about 3 hours.

562186	68-79	327/350 (ND)-For cars with power steering. 2,504.00

562204	68-82	Manual (ND)-For car without power steering 2,504.00

Steering Upgrades

POWER STEERING GEAR BOX

The Borgeson Conversion Box is a remanufactured GM Delphi 600 integral power steering gear box. The Delphi 600 represents the last generation of integral power steering gear box technology with true modern power steering fee, feedback, and a sporty 12.7:1 ratio. Borgeson has remanufactured this box to bolt directly to the factory mounting location and to fit the stock pitman arm. A new rag joint is included for connection to the stock column. The factory column will need to be collapsed or shortened 1-2" for clearance of conversion box. Eliminate your leaky control valve and feel the road with a new integral power steering conversion from Borgeson.

563084 68-82 327/427 Power Steering Gear Box w/Manual Steering Add On (ND). 1,092.65
563067 68-82 Power Steering Gear Box w/Factory Power Steering (ND) 830.00
562207 68-82 Borgeson Steering Box To Frame Reinforcement (ND) 80.00
• Eliminates Steering Box Flexing Issues
562207 68-82 Manual Steering Relay Rod Adapter (ND) 125.95

Manual to Power Steering Conversion Kit

- **Includes Power Steering Pump, Pulley, Brackets, and Hardware**

For use with Steeriods or Power Steering Gear Box

562150 68-74 350 Except HP 306.05
562183 68-74 350 HP 525.05
562205 68-74 427/454 ..... 592.05
562191 75-79 ..... 264.10

Bump Steer Kit

Bump steer is when the front wheels steer themselves without input from the steering wheel. The undesireable steering is caused by bumps in the road interacting with improper length or angle of the suspension and steering linkages. Includes stainless steel studs along with chomoly heims that have a static load of 18,000. The sleeves are powder coated for a durable finish.

562231 ..... 422.25

EPAS Electric Power Steering Conversion Kit

- **Get power steering without the hydraulics**

The system includes 40amp electric motor designed to be installed into your steering column (must cut factory column). No major or irreversible modifications are made to your C3, everything is located under your dash and is almost, if not completely invisible. One of the advantages of an electric steering system is the variable control depending on vehicle speed. More steering assist at low speed, less assist at high speed!

563281 (ND) 1,523.40

Correct A-Arm Sets

Why mess around restoring worn out or rusted A-Arms. With this complete A-Arm Set, you get new correct arms including, correct riveted ball joints, washers and bolts, bumpers, cross shafts, and bushings.

1963E (first 1/2 year) lower A-Arms did not have the welded support on the underside below the sway bar link boss. All late 63-82 lower A-Arms are the same. The upper A-Amrs are the same from 63-66E (first 1/2 year). They have rectangular shaped cross shafts with the GM part number. 66L-82 upper A-Arms are all the same with a rounded cross shaft.
572145 68-82 With Stock Bushings 1,777.05
572322 68-82 With Poly Bushings.....1,799.95

Rebuilt Upper & Lower Control Arms

Completely disassembled, inspected and powder coated. Reassembled with new ball joints, bumpers and rubber bushings.
572171 Upper (L or R) (ND)..... INQUIRE
572229 Lower (L or R) (ND)..... INQUIRE
The above products will have a $100.00 core charge added to it if your core is not received before the time of order.

Idler Arm

572099 Idler Arm-Correct Shape Reproduction-No Grease....66.25
Correct shape and thickness forging without zerk fitting. Includes correct boot. Does not have GM part number cast into it as original.
572165 Idler Arm with 2 Grease Fittings.....44.15
572164 Idler Arm Mount Bolt Set with Nuts.....10.40

Suspension Upgrades

Front Semi Coil Over Shock/Spring Kit

Untouchable Performance For Your Corvette Front End

- **Easy Bolt-In Installation**
- **Specially Designed Conical Springs**
- **Ride Height Adjustable**

Our semi coil over front spring and shock packages allow for easy ride height changes without the need to disassemble the suspension. They also allow you to adjust the individual loads on each corner of the car for better, more balanced handling. Kits feature progressive rate springs, a huge step up over stock Corvette springs. Progressive rate springs give a soft ride, however as cornering forces increase the springs exert more force to keep the car flat and stable. Shocks are cutting edge race designs with velocity sensitive valving. Whether you have a full time race car or a street car, these shocks will provide the best performance and ride quality available. Single adjustable shocks are adjustable in rebound while double adjustable shocks allow for both rebound and compression adjustments individually (unlike many other adjustable shocks). All shocks have 4 inches of total ride height adjustment and are constructed from aluminum for lighter weight and better heat transfer. Shocks are completely rebuildable, making them lifetime components.

572416 400 lb Springs - Single Adjustable (ND) 858.45
572223 450 lb Springs - Single Adjustable (ND) 884.25
572427 550 lb Springs - Single Adjustable (ND) 884.25
572394 400 lb Springs - Double Adjustable (ND) 1,082.15
572439 450 lb Springs - Double Adjustable (ND) 1,040.25
572256 550 lb Springs - Double Adjustable (ND) 1,040.25

Grand Touring Springs

460 lb. Grand Touring Front Coil Springs (Stock Ride Height)
The best all-around coil spring available. These coils are rated heavier than stock (293 lb/in) and lighter than F-41 (550 lb/in) factory optional performance springs. Stock coils are rated far too light for performance handling, and F-41 coils too stiff for everyday driving comfort. The Grand Touring coil springs will outhandle stock coils and yet offer improved ride over F-41 optional springs.

572053 **Pair 108.10**

550 lb. Street & Slalom Front Coil Springs (1" Lower Ride Height)
Want even greater handling capacity? These poly-vinyl coated springs will upgrade your car to F-41 or Gymkhana specifications at a fraction of the cost for original equipment.

572054 **Pair 151.40**

Aluminum Control Arms

Upper

Lower

- **Significant reduction in unsprung weight over factory A-Arms**
- **Welded/machined aerospace alloy construction**
- **Heavy duty steel cross shaft**
- **Compatible with coil over shock and spring packages**
- **Improves Suspension Geometry**
- **Improved Handling and Cornering**
- **Increased Positive Casters and Bumpsteer**
- **8 lbs Pair Less Weight Than Stock**
- **A True Bolt-On**

572095 Upper-Natural Finish - No Ball Joints, pr. (ND) 1,235.85
572148 Upper-Natural Finish - Includes Hi-Performance Ball Joints, pr. (ND) 1,534.40
572088 Lower-Natural Aluminum Finish (ND) 3,039.45

Adjustable Front Upper A-Arms/Control Arms

- **Greaseable and rebuildable ball joint**
- **1/2" extended ball joint for improved camber curve**
- **Adjustable camber and caster**
- **Front adjustment range: camber ± 3.0° caster ± 3.0°**

Patented design with the most adjustability and best clearance of any arm on the market to modernize the front suspension of your classic C2 Corvette.

572314 Pair 891.15

Adjustable Upper Control Arm

Adjustable upper control arms, adjust camber, caster or length for maximum handling and performance. These arms provide quick and easy adjustment for standard or lowered heights and will accommodate most air ride systems. Fine tune your handling and alignment while minimizing tire wear. Includes steel cross shaft with custom pivots and OE clevite bushings to minimize road shock. Adjust UCA from 8-1/2" to 10-1/2"

572146 Pair 670.95

Front Coil-Over Kits

• Light Weight, Superior Strong Tubular Chromoly Steel Construction
• Delrin Bushings • Gloss Black, Long Lasting Powder Coat Finish
• Pre-Assembled • Powder-Coated Black • Limited Life Time Warranty
• Includes Sway Bar

Light weight control arms. Designed for the Corvette owner who wants the "Race Car" convenience of adjustability and "Race Car" looks.

UPGRADE

Tubular A-Arms For Stock Suspension

• Light Weight, Superior Strong Tubular Chromoly Steel Construction
• Delrin Bushings • Gloss Black, Long Lasting Powder Coat Finish
• Pre-Assembled • Powder-Coated Black • Limited Life Time Warranty

Light weight control arms for the 63-82 Corvette. Designed for the Corvette owner who wants the "Race Car" convenience of adjustability and "Race Car" looks. Made in the U.S. with 4130 chromoly steel, these ultra strong arms reduce weight by 8.50 pounds. They arrive to you assembled with long lasting Delrin bushings, and HD ball joints and a durable gloss black powder coat finish.

572318 Tubular A-Arm - Upper Stock Spring and Shocks, Pr.....919.85
572272 • Tubular A-Arm - Lower Stock Spring and Shocks, Pr. 1,768.50
• = Includes Front Sway Bar

Rear Coil-Over Kits

• Aluminum, threaded body, adjustable mono-tube QA1 shocks
• Hyperco high silicone wire coil spring
• Offset trailing arms with coil over bracket
• Upper shock mount reinforcement kit
• Hardware included

There are a lot of benefits to coil overs apart from the obvious ease of spring swapping and ride height adjustment. There are important benefits as spring and shock tuning allows you to set up the suspension to suit your car much better than with any other system.

582158 327/350 Single Adjustable (ND) 1,862.10

583128 427/454 Double Adjustable w/New Bearing Assemblies and Rotors 3,604.95

Offset Rear Control Arms

T-Arm is offset two inches. By running an offset trailing arm, it will allow you to run a wider tire on a stock rim or run a wider aftermarket rim and tire. T-Arms come powder coated gloss black and with poly bushings. All arms are made in America. They are 1/4" thick, c-channel, laser cut and jig welded.

582183 Offset Arms Only, pr. (ND) 767.55
582247 Offset Trailing Arm Assemblies Complete with Rotors (ND) 2,496.70
572144 Rear Offset Stabilizer/Sway Bar (ND).....292.10
Use with P#582183; Off Set Trailing Arms Only

• Will not work with rear sway bars if the car has wider than 8" wheel
• Improved Design and Ease of Installation
• Increases Wheel Backspace Clearance Over Stock T-Arms
• Accepts OEM Size Nose Bushings
• Durable Gloss Black Powder Coating Finish
• Limited Lifetime Warranty

Coil Over Suspension Kit

- **Shark Bite Rear coil-over Suspension offers truly independent suspension – no more bouncy communication from left to right from the monoleaf spring.**
- **Shark Bite kits offer adjustable ride height in minutes while on the vehicle.**
- **With Shark Bite kits you can change your springs in less than 20 minutes – easy access and quick release pins allow for instant spring changes for on the road or on the track.**
- **Lighter weight – Shark Bite kits weigh less than the factory spring**
- **Shark Bite kits load the same location on the vehicle as the factory spring loads.**
- **The rocker arm design is inspired and proven by the racing industry.**
- **Shark Bite kits are bolt-on installation – absolutely no welding, cutting or drilling. Installs with basic hand tools in approximately 3 hours.**
- **Shark Bite kits offer adjustable shock valving so you can tune the ride to exactly the way you like it.**
- **Works with factory exhaust and with factory spare tire**
- **Highly visible – great presentation!**
- **Shark Bite kits are complete packaged: They provide performance and they just look awesome!**

Detroit SPEED, INC.®

Front

Rear

Bottom View

SPEEDRAY™ front suspension has no compromises and exclusive suspension geometry for superior handling and ride quality. It is available as a 100% bolt-on system or with a small amount of fabrication for a competition coil-over option that allows faster spring changes. The system features 'Detroit Tuned' quick ratio power rack and pinion steering along with forged in the USA Detroit Speed aluminum uprights. The bolt-on powder coated cradle assembly improves suspension geometry, provides rigid mounting for the rack and pinion. DSE/JRi 'Detroit Tuned' Coil-over shocks/springs allow for spring rate tuning and ride height adjustment. It also includes a splined sway bar with aluminum arms, composite bushings, powder coated tubular upper and lower control arms with Delrin™ bushings, forged offset upper control arm mounting brackets with caster tuner bushings to optimize suspension geometry and provide clearance for Gen V LT4 engines. The body and engine do not need to be removed for installation of the SPEEDRAY™ front suspension.

572167	550 LB. Non Adjustable Shocks (ND)	7,170.95

	600 LB. Single Adjustable Shocks (ND)	6,299.00
572153	550 LB. Double Adjustable Shocks (ND)	8,469.85
	600 LB. Double Adjustable Shocks (ND)	7,517.00

The DECAlink™ Independent Rear Suspension features no compromises and exclusive Detroit Speed suspension geometry for superior handling and ride quality. The IRS utilizes modern CV axle shafts and hub bearings, keeping suspension loads from being transmitted through the axle shafts. The suspension is offset inboard for additional tire clearance. All suspension link lengths are adjustable and the kit has adjustments for rear anti-squat geometry and roll center height. The suspension points are hard mounted to eliminate stock rubber mounted suspension deflection.

It comes with forged aluminum uprights and a two-piece cast aluminum/steel cradle assembly which eases differential housing removal. DSE/JRI "Detroit Tuned" Coil-over shocks/springs allow spring rate tuning and ride height adjustments. The kit includes a rear anti-roll bar and uses OEM cross-axis pivot bushings at all pivot points. The kit also includes Torrington bearings and a spanner tool for easy spring height adjustments.

EZRide Suspension System with Rear Fiberglass Spring

This specially designed package for your 63-77 Corvette improves both ride and handling at a very affordable price. Balanced anti-sway bars assure flat natural steering. New springs restore ride height and oil filled w/a nitrogen bladder shocks smooth and control the car.

Kit includes:

- 1" Front Sway Bar - Powder Coated Gloss Black
- 5/8" Rear Sway Bar - Powder Coated Gloss Black
- 460 lb/in Powder Coated Coil Springs
- 4 QA1 Non Adjustable Shocks
- High Arch Fiberglass Rear Spring w/Hardware

572381 (ND)..... 1,591.70

Performance Front & Rear Sway Bar System

You can feel it and you can see it, and now you can correct it with ADDCO anti-sway bars. Body roll, that uncomfortable leaning of your Corvette as you turn corners, can now be corrected with anti-sway bars. Easily bolted on to your chassis, the sway bars start out in the base line position and can be adjusted to suit your specifications. You decide just how fast or how much reaction you want out of the bars. The sway bars are adjusted by simply tightening or loosening the links on the bars. All necessary hardware and instructions are included.

68-82 Fiberglass Rear Spring w/ Delco Front & Rear Gas Shock Kit

Many Corvette suspension mechanics recommend using gas charged shock absorbers with a fiberglass rear spring. The characteristics of a fiberglass spring are more closely matched with a gas shock than a standard shock. The combination of a smooth riding, lighter weight fiberglass spring along with a set of Delco Performer gas shocks that provide optimum ride control will make a marked improvement in the ride and handling of your Corvette. Includes adjustable spring mount bolts with poly cushions.

Only $580.50 Kit

Smart Struts

Smart Struts eliminate unwanted change in rear wheel camber. At 2-1/2 inches of wheel travel the Corvette rear camber setting changes over 2°. The same car equipped with Smart Struts has a measured camber change of less then one tenth of a degree at over 5-1/2 inches of wheel travel! Smart Struts are guaranteed to improve handling and reduce uneven tire wear. They also reduce hub bearing wear by reducing side loading.

582237 68-79 (ND)..... 245.95
582172 80-82 (ND)..... 256.95

Poly-Adjustable Strut Rods

These strut rod kits with urethane bushings eliminate the stock adjustment cam bolt system that often allows the rear tires to "lean in" at the top and cause premature tire wear.

582108 68-79..... 151.40
583117 80-82..... 143.45

The ultimate in rear strut rods, our tubular steel, racing quality units are manufactured with nylon fiberglass composite spherical bearing ends. These strut rods are far stronger than stock and stop handling irregularities due to strut rod flex and bushing compression. Not recommended for street use because of harsh ride.

582181 Heavy Duty Strut Rods 463.45

Polyurethane Suspension

68-82 Polyurethane Bushing Kit

- **Sway Bar Bushings are not included**
- **Front Control Arm Bushings**
- **Rear Control Arm Bushings**
- **Power Steering Cylinder**
- **Rear Strut Rod Bushings**
- **Tie Rod and Ball Joint Boots**
- **Transmission Mount**
- **Rear Stabilizer Bar & End Link Bushings**
- **Rear Spring Cushions**
- **Differential Mount Cushions**
- **Front Stabilizer Link Kit**

The Hyper-Flex master polyurethane bushing kit replaces all the major suspension components without the search for part numbers and kits, but more importantly, without the high cost of purchasing the items separately. These bushings are constructed from a unique new chemical formulation producing a super tough material which holds up through the most demanding conditions. Race proven, performance tested, Hyper-Flex is the new generation of polyurethane that is superior to all others.

572073 ..... 308.90

Upgrade Your 68-82 with Urethane Bushings - Improves handling while retaining stock appearance! All Poly Bushings are black - for that original look.

571123		Poly Bushing Lubricant 7.60

WHY CHOOSE POLYURETHANE?

Polyurethane bushings have many advantages over stock rubber ones. Polyurethane, unlike rubber, is not molded to the steel outer shells. Instead of twisting like rubber, the bushings are free to rotate on the sleeves like a bearing. This means the front suspension cannot bind and becomes full floating, resulting in longer life and improved handling. Polyurethane will not rot or deteriorate from oil, gas, road salt or atmospheric conditions such as smog or other corrosive chemicals. Impregnated with graphite to inhibit wear and squeaks.

Shock Absorbers

68-82 Correct Delco Replica Shock Absorber Set

All 1963-82 Corvettes came with oil filled shock absorbers from the factory. These shocks were referred to as 10/90 shocks because as they compressed when your car went over a bump, they had 10% resistance on the way down and 90% resistance on the way back up so the springs did not send you bouncing up too fast. The suspension was designed with this type of dampening.

These shocks are an exact replica both internally and externally of the original Delco brand shocks, which will once again help in your Corvette driving experience the way it was designed from GM.

Stock Style Replacement Springs

If your Corvette's spring shows no arch — you need a new spring for safety & handling!

- **Springs are shipped with band clamps which will need to be removed prior to installation**

Our steel springs are manufactured to exceed OEM specifications. Rubber liners are installed for no-squeak travel. Replace that worn out, dangerous spring today.

582171	**68-77**	**9 Leaf Rear Spring w/Mount Kit**	**364.95**
582185	**68-77**	**7 Leaf Rear Spring w/Mount Kit**	**351.15**
583015	**78-82**	**Rear Spring w/Mount Kit**	**308.95**

Kit includes Spring w/End Mount Bolt and Cushion Kit.

582056	68-77	Standard Rear Spring Only (9 Leaf)	339.00
582055	68-77	Heavy Duty Rear Spring Only (7 Leaf)	323.40

We do not recommend purchasing heavy duty Springs unless your car came equipped with it or you intend to use your car for racing.

582060	78-82	Except Fiberglass-Rear Spring Only	278.05

63-77 rear springs are 2-1/4" wide, 78-82 rear springs are 2-1/2" wide. We suggest you measure your spring width before ordering.

582112	68-79	Rear Spring Center Bolt w/Nut	8.50

When changing real springs or spring bolts, the stack up on the spring and plate should be checked against the bolt length. This is due to the variation of leaf and liner thickness. These springs are shipped with a band clamp which is not original. These are for shipping purpose. Customer will have to remove these clamps prior to spring installation.

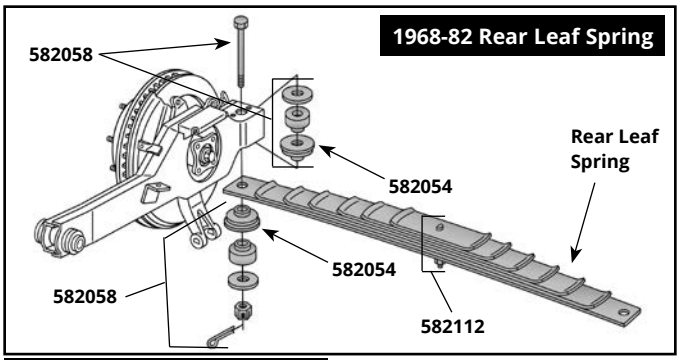

Composite Transverse Leaf Spring

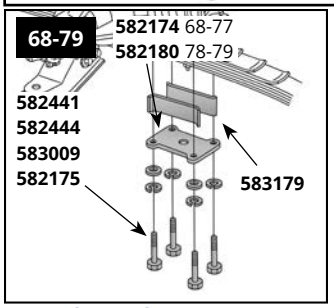

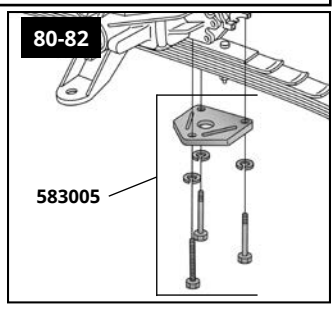

Eliminate your Corvette's choppy ride, restore lost ride height and eliminate unearthly squeaks and moans, all by replacing your worn-out steel leaf spring with a fiberglass replacement. A fiberglass leaf spring will give you a smooth, comfortable ride without sacrificing performance. They provide a very superior ride while maintaining the excellent handling associated with the Corvette. This upgrade is one you will be very pleased with! These springs are absolutely the best available and have been tested over millions of cycles on special test equipment. These springs are available in three rates...a **315# rate for standard suspension, 340# rate for heavy duty suspension needs and our 355# rate for high performance and stiffer handling.**

Complete rear spring kit includes: fiberglass monospring, 8" adjustable spring bolt and poly cushions, plate mount kit, heat shield, and instructions. Uses the original spring center mounting plate, but must be modified.

Rebuild Services

Trailing Arm Rebuild Service

REBUILDING YOUR CORES INCLUDES:

All parts cleaned, inspected and painted before assembly. Trailing arms can be repaired or replaced at an additional cost. New front bushing. New bearings/races assembled with new seals. Bearings are blue printed to exacting specifications. Unit is assembled with Mobil 1 high temp synthetic grease at assembly. New stainless parking brake kit, new emergency brake shoes, new brake flange/dust shield, new wheel studs, spindle faced to run true to bearings. New spindles can be installed at an additional cost.

582323 (L or R) 458.35

Wheel Bearing Assembly Rebuild Service

REBUILDING YOUR CORE INCLUDES:

All parts cleaned, inspected and painted before assembly. New bearings/races assembled with new seals. Bearings are blue printed to exacting specifications. Unit is assembled with Mobil 1 high temp synthetic grease at assembly. New brake flange/dust shield, new wheel studs, new parking brake shoe hold down plate, spindle face is trued to bearing journal. New spindles can be installed at an additional cost.

582192 (L or R) 349.20

• = NOTE: Approximately 3 week lead time. Any parts or labor not listed above will be additional. If parts are required, or price is different from above price, customer will be notified for price approval. It is best to include your Spindle Flange when sending in.

Rear Wheel Spindle

582078

582015

582014

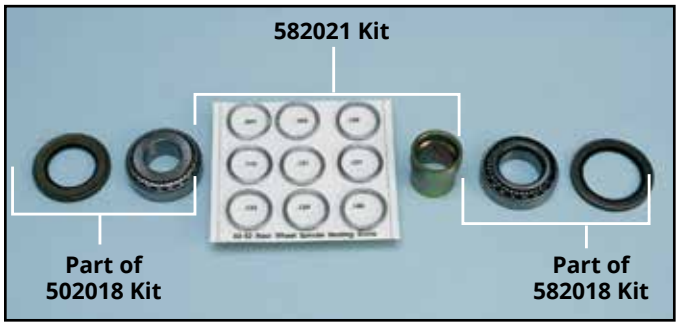

582078 68-82 •Rear Precision Spindle, ea 328.60

•The precision spindle has several features which make it superior to stock spindles. Aircraft quality steel is drop forged for extra strength and heat treated. Bearing journals are concentric within .0001 inch and round within .00005 inch. Flange is square to spindle within .0005 for better performance and reduced tire wear. When you have to replace your spindles, go with the best.

Rear End Rebuild Service

New Parts Included

- (1) Front Pinion Seal
- (1) Front Pinion Race
- (1) Rear Pinion Seal
- (1) Rear Pinion Race
- (1) Pinion Bearing Spacer
- (1) Pinion Shaft Seal
- (1) Pinion Lock Nut
- (2) Side Carrier Bearings
- (2) Side Carrier Races
- (2) Side Axle Seals
- (2) Side Axle Clips
- (1) Positraction Clutch Kit
- (1) Cover Gasket
- (1) Cover Vent
- (8) Rear End Cover Bolts
- (2) Bottles of Positract Oil (2 Qt)
- (2) Bottles of Positract Additive (2 Qt)

Labor Included

- Rebuild Rear End
- Clean & Inspect All Gears & Parts
- Setup Bearings & Torque Pinion
- Preload to GM Specifications
- Clean & Detail Case
- Setup Positraction Clutch Kit
- Setup Ring & Pinion Pattern to Remove Rear End Noise
- Torque Side Carrier Bearing Caps to GM Specifications

68-79 Heavy Duty Rear End Cover

A chronic problem with 68-79 Corvettes is fracturing of the rear spring mounting pad that is part of the rear end cover. If you have this problem or want to prevent it from occurring, add one of our heavy duty rear end covers. This unit is made of high quality cast iron and has extra strength in the spring pad area. No modifications to the existing rear end case or rear spring are required, and our heavy duty rear end cover is guaranteed.

Aluminum Rear End Cover

Ultra-light, weighs only 12 pounds. Greatly improved cooling, along with extra webbing for greater strength. Also includes bosses to allow for plumbing an external cooler for extreme applications. The interior diameter of the cover is larger than the OE cover, allowing for installation of larger ring and pinion gears.
Kit includes cover, vent, gasket, magnetic drain plug, and cover bolts.

Precision Suspension Tools

No Returns on Tools!

REAR CONTROL ARM BUSHING INSTALLATION TOOL

The only way to correctly install the forward bushings in trailing arms! This heavy duty tool correctly compresses the bushings and allows you to crimp the bushing retainer. Incorrectly installed bushings can cause accelerated tire wear and poor handling.

582423.....118.95

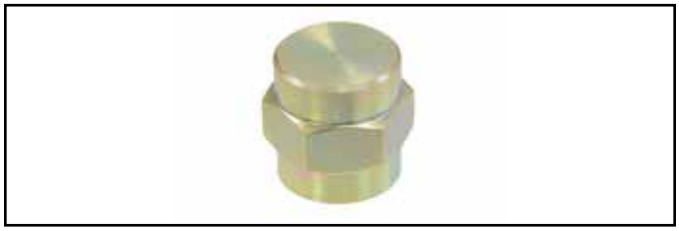

SPINDLE REMOVAL PRESS

Use to press out the most stubborn spindle with ease. Replace or inspect your Corvette's spindle quickly and without the high cost of hiring a professional. Solid steel construction guarantees a lifetime of service.

582427 (ND) 265.05

REAR SHOCK MOUNT REMOVAL TOOL

Use to drive rear shock mount stud out of support arm without damage.

582414.....28.10

FRONT AND REAR SUSPENSION TAP & DIE SET

Includes six hard to find rethreader taps and dies most needein Corvette suspension work. Includes (1) 9/16 x 12 Tap, (1) 7/16 x 20 Tap, (1) 3/4 x 20 Die - Spindles, (1) 5/8 Fine Die, (1) 7/16 Die, (1) 1/2 Die

582417 (6 pcs.).....31.00

HEAVY DUTY SPINDLE KNOCKER TOOL

Use to "knock out" the most stubborn spindle from the carrier with no damage to the spindle threads. Fully guaranteed for one year of normal use.

582415.....24.30

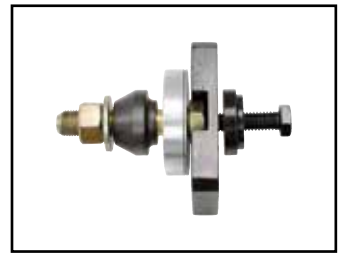

BUYER BEWARE! Watch for imitations. These tools are American made. Anything you find cheaper may be a foreign made copy!

REAR SPRING CUP INSTALLATION TOOL (FOR REAR TRAILING/ CONTROL ARM OR REAR SPRING)

Replace the rear spring cushion retainers in your C3 with our easy-to-use tool kit. No need to unmount the trailing arms or springs. Unlike other outdated methods, our innovative time-saving tool enables you to install retainers without removing mounts.

582219 68-80 .....49.60

REAR SPINDLE BEARING PULLER

Use to remove the rear wheel bearing and race from the spindle without damage. The spindle must be removed from the trailing arm to use this tool. Machine hardened steel. You can count on this tool for years of hard use.

582419 (ND) 185.55

REAR SPINDLE INSTALLATION TOOL

No more pounding spindles and bearings into place! Use this installation tool to pull the spindle and bearings into the carrier without damage to the bearings, threads, or seals. This is essential to long bearing life. Top quality tool is made to last for many restorations. - Foreign Made

582413.....73.55

REAR SPINDLE BEARING GREASER

Don't let rear bearing failure strand you in the middle of nowhere! Our rear wheel bearing greaser will enable any 68-82 Corvette owner to lubricate wheel bearings without the cost of hiring a professional to remove the spindle. Instructions are included. Use also shown in GM Shop Service Manual.

582416.....13.25

REAR BEARING SET-UP TOOL

Use this set-up tool to check the end play of new rear bearing assemblies Before you press them onto the spindle. With this tool, proper shim selection is simple and does not require repeated pressing on and off of the bearings. Bearings and shims sold separately.

IMPORTANT

Be sure you are replacing the correct part. Always refer to factory service manuals when diagnosing electrical service problems. You can damage these parts if you do not follow the proper procedures.

Electrical components are non-returnable parts.

T-Tops

Replacement Transparent T-Top

Replaces factory T-tops for 1968 - 1982 Corvette. **These tops can be retrofitted to fit 68-77 Corvettes using our 1978-1982 factory rear switch plates. Part #603013 78 Chrome or 603047 79-82 Black.** Manufactured using original factory G.M. aluminum structures, latches and components. Special high performance smoke gray break-resistant acrylic lens. Tops are completely assembled, ready for installation. 85.00 Shipping Charge.

603052	**Smoke Gray, pr. (ND)**	**1,699.00**
603062	**Smoke Bronze, pr. (ND)**	**1,699.00**
603078	**Smoke Blue, pr. (ND)**	**1,699.00**

Astro 1 - One Piece Transparent Roof Panel Replacement

- **No modification or painting needed**
- **Newly designed anti-theft fastening system**
- **10% more viewing area**
- **Custom molded, high performance smoke gray cast acrylic**

ASTRO 1 - Patented one piece engineered for a custom fit replacement right over the "T" bar of your Corvette, eliminating center gap air and water leaks. Astro 1 is lightweight (only 17 lbs.) and stores neatly behind the seats when not in use. **85.00 Shipping Charge.**

603011	**Smoke Gray**	**849.00**
603016	**Smoke Bronze**	**849.00**
603018	**Smoke Blue**	**909.00**

78-82 Glass T-Top Sunliner

The Dot® Deco T-Top Sunliner reduces heat, glare and ultraviolet rays. Made of a die-cut matrix "static cling" film that can easily be applied on any glass or plastic surface.

603015 Black Pair.....49.65

76-77 T-Top Mount / Luggage Rack

Kit includes front and rear brackets and the strap to mount your t-tops to the luggage rack. Can be used with luggage racks that have alignment pins in rack.

103059.....176.55

78-82 Glass T-Tops

These tops can be retrofitted to fit pre 1978 Corvettes using our 1978-1982 factory rear switch plate. Part #603013 78 Chrome or 603047 79-82 Black rear latch plates.

These tops, made from new parts, are the exact design of GM's 78-82 glass tops, but much more affordable. These tops are complete and fully adjustable.

603012 78-82 Glass T-Tops, pr. (LOF Tempered Black Tinted 1,560.40

78-82 Glass T-Top Recondition Service

New glass is installed on your original frames.

603008 (ND) 1,059.50

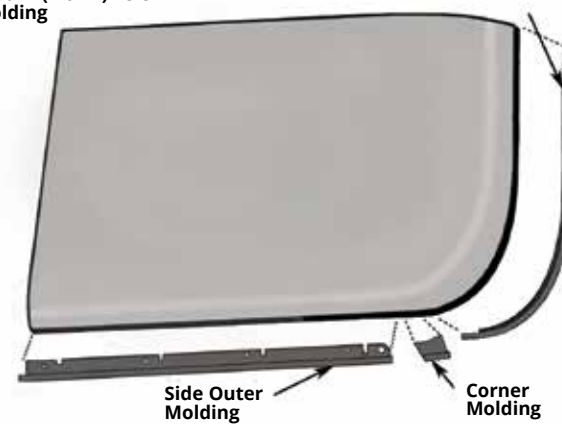

78-82 T-Top Repair Kit

Snug up the fit and the lock-down of your T-tops with this kit which contains two stainless steel rod ends, two plastic rear bushings, two black caps, eight screws for the weatherstrips, four screws for the tongue covers, and four screws for the latch covers.

Correct OEM Style Soft Latex Rubber

WHAT IS THE DIFFERENCE?

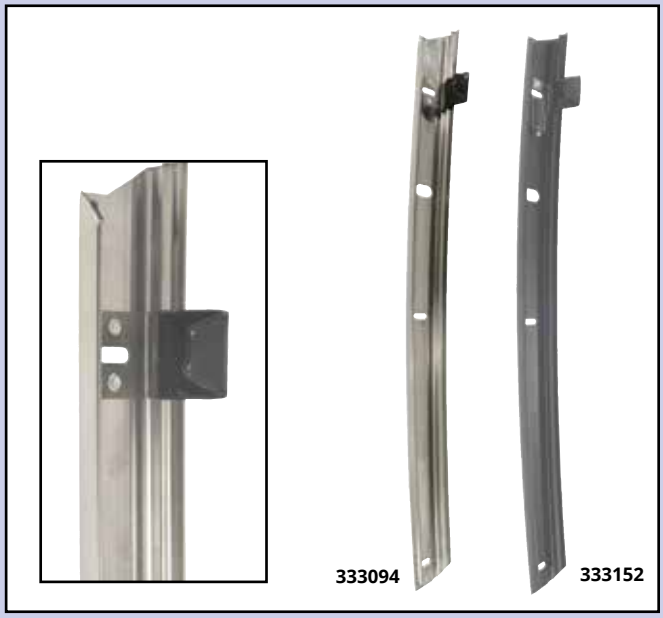

- **Accurate OEM style soft latex rubber**
- **Latex weatherstrip will not push out or bind door glass due to its softness**
- **These correct weatherstrips are included in our body weatherstrip kits**

Our latex weatherstrip in an OEM-style reproduction made with the same materials as GM weatherstrip. Developed with a softer compound, latex weatherstrip forms to the car better, not only giving you a better fit and creating a tighter seal, but it looks just like the original GM weatherstrip.

The other weatherstrips you see listed in our catalog are an American made EPDM rubber. These are a correct reproduction of the original, a more dense sponge rubber with a smooth coating to ensure longevity.

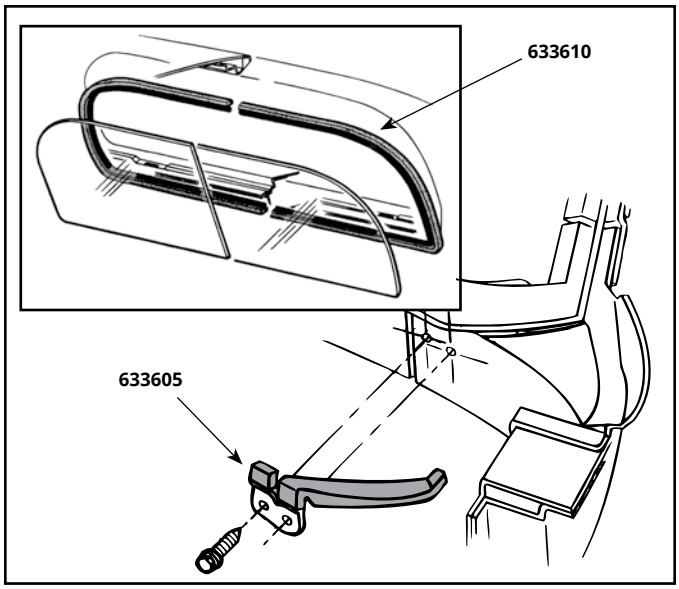

Check our WEBSITE for more OEM style weatherstrips.

76-82 Wheel Spinner & Cone Kits

Straight Ear Spinner

Swept Ear Spinner with Cone

- **Easy to install**
- **Fits stock aluminum wheels**
- **Create your own look**

Our wheel spinner kits will fit all 76-82 Corvettes with stock aluminum wheels. Construction features are as follows: the spinners are triple chrome plated, the mounting adapters are made of die cast aluminum and the cones made of highly polished aluminum. You can use the caps or spinners by themselves or along with the cones to give your wheels a "create your own" custom look. The kit is easy to install and requires no modifications to your stock wheels. Installation instructions, emblems, and all mounting hardware are included.

Wheel & Tire Cleaners

ADAM'S TIRE & RUBBER CLEANER

Adam's Tire and Rubber Cleaner deep cleans tires and removes baked on tire dressing, blooming, and discoloration. It effectively removes oxidation, wax, and polish residue from rubber and plastic trim parts as well.

112617 16 oz.....13.35

ADAM'S ECO WHEEL CLEANER

- **Direct-Release to the Environment Approved**
- **Powerful cleaning capability with a pleasant citrus scent**
- **Thin formula allows for a wider working area**
- **Breaks down brake dust, road grime, and dirt**
- **Safe on painted, powder-coated, anodized, clear coated, and chrome wheels**

Adam's Eco Wheel Cleaner is an environmental friendly wheel cleaning solution. It is pH neutral formula that is Direct-Release to the Environment Approved and breaks down road grime and wheel contamination.

111598 16 oz. 13.35

ADAM'S WHEEL CLEANER

- **Safe on painted, powder coated, clear coated, and chrome wheels**
- **Thick gel-like viscosity clings to wheels for excellent cleaning power**
- **Dissolves brake dust, road grime, and dirt**
- **Color changes to purple as it's working**

Adam's Wheel Cleaner is the most high-performance wheel cleaner you've ever tried. It is a pH neutral formula that specifically targets iron and metallic particles left behind by today's modern brakes

111628 16 oz. Bottle.....15.40

V.R.T. (VINYL, RUBBER, TIRE)

Enhance and protect the appearance of plastic, rubber, tires, moldings, dashboards, and door panels. Adam's V.R.T. contains no harmful silicone or alcohol. The thick moisturizing cream applies easily with a sponge and will not leave a greasy film, attract dirt, or harm paint and glass. Added U.V. protection keeps vehicle interiors and exteriors looking and feeling like new.

106824 16 oz. 20.55

California Micro Fiber Wheel Duster

- **Micro Fibers effectively trap dust and dirt**
- **The "fork" easily spreads when pushed on an object for true one-handed convenience**
- **It "clamps" around the object to clean both sides at the same time**
- **Can also be used as a conventional duster on any surface**
- **Easily cleaned to allow repeated use time after time**

Use to remove annoying brake dust and much more! Also great for roof racks and automotive grilles and can be washed and re-used hundreds of times.

101948.....16.10

Tire & Wheel Brush

Get all of the nooks and crannies in your wheels and tires clean with this brush. Soft and natural tampico bristles and angled head design take some of the struggle out of the chore.

101228.....11.40

Forever Black™ Tire Gel

- **Black pigmented color**
- **Water based**
- **Silicone & oil free**
- **Environmentally safe**
- **Does not attract dust**
- **Fast drying**
- **Does not sling off tires**
- **Protects against UV damage**

Unlike all other tire dressings on the market, Forever Black is a black pigmented polymer. This environmentally friendly product will restore the faded bronze look of your tires to their original appearance. The hand held applicator eliminates the mess of oversprays. One easy application will protect and restore your tires.

101816 8 oz. 17.70

Adam's 20" Fender, Tire & Wheel Well Brush

- **Designed to clean your fender linings and tires with ease**
- **Long handle to reach those hard to reach wheel wells**
- **Durable premium quality flocked nylon bristles**

102915.....15.40

Magic Guard Wheel Protection

- **Wheels: Protects Chrome, Aluminium, Magnesium and all other wheels from brake dust & road grime.**
- **Rust Prevention: Protects bare, coated and plated metals by creating durable, impenetrable barrier.**
- **Glass: Enhances visibility with water beading technology, prevents water spots**

Magic Guard is a Patented Multi-Use Car Care Product that Protects Corvette Wheels, Prevents Rust and Repels Rain!

114517 4 oz.....16.80

68-76 Selecta Speed Electric Wiper Conversion

This Detroit Speed kit includes a low profile OE smaller design wiper motor that is more compact for a clean look. An adapter plate mounts the wiper motor to the stock firewall bolt pattern and requires no permanent modifications to your C3. The supplied wiring harness uses the factory wiper grommet opening and requires no cutting of the factory harness. This allows the option to return your Corvette back to its original configuration if desired, leaving no holes or spliced wires behind. 7-speed with 5 delays.

68-72 Electric Windshield Wiper Conversion Kit

- **No cutting or altering the original hardware, wiring harness, or firewall.**
- **Kit can be removed to restore to the original vacuum system.**
- **Functions like the original vacuum system.**
- **This kit will eliminate vacuum leakage.**
- **Motor mount is powder coated black; actuator rod and stop are plated**
- **Installation instructions are easy to follow,**
- **Eliminate vacuum leaks caused by faulty vacuum relays actuators.**

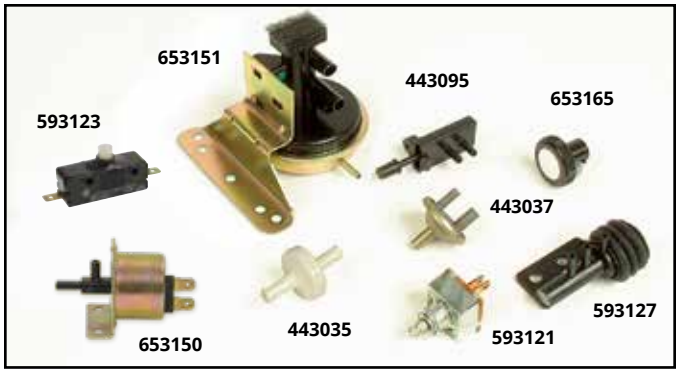

653116.....636.50

68-72 Wiper Door Repair Service

Now there is a simple solution for commonly broken windshield wiper door hinge bolts. Corvette Central removes the broken bolts, places the wiper door in a special fixture, precisely re-threads the bolt holes, and installs steel thread inserts for long lasting durable threads. The result is a wiper door that can be installed or removed easily. Paint may be scratched during repair. Bolts are not included.

Wire Terminal Quick Change Crimp Tool

Features:
- **Quick Change Dies**
- **No Tools Required**
- **Crimps Terminal Types: Non Insulated, Insulated, D-sub, Open Barrel, and Spark Plug**
- **Hardened Die Sets are Zinc-Plated Chrome-Moly for long life**

This 6-piece Quick Change Crimp Tool Kit includes 5 dies that crimp the most common automotive solderless terminal types, a carbon steel ratchet crimp tool with black oxide finish and ergonomic non-slip rubber grip, and a plastic storage case.

102864.....132.95

WeatherPack Connector Repair Kit w/ Tools

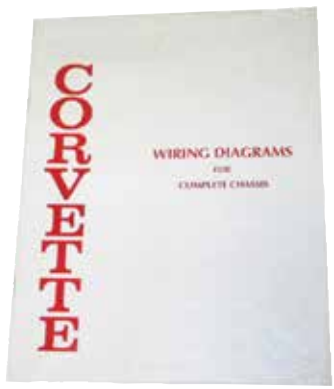

- **120 Terminal**
- **70 Seals**
- **22 Housings**
- **Tools**

We've got all the components you need to make your own Weather-Tite wire connections with this Weather-Tite connector starter kit. Comes with all the necessary components needed to build two 4-pin; four 3-pin; three 2-pin; and four 1-pin; Weather-Tite connectors.

664493.....142.80

Wiring Diagram Book

From the GM Shop Service Manual, printed in a separate book format. Approximately 10 pages.

112099	**68**	**10.15**
113103	**69**	**10.15**
113127	**70-71**	**10.15**
113139	**72**	**10.15**
113145	**73**	**10.15**
113168	**74**	**10.15**
113181	**75**	**10.15**
113194	**76**	**10.15**
113209	**78-79 Wiring Diagram CD**	**33.15**

Wire Crimper & Cutting Tool

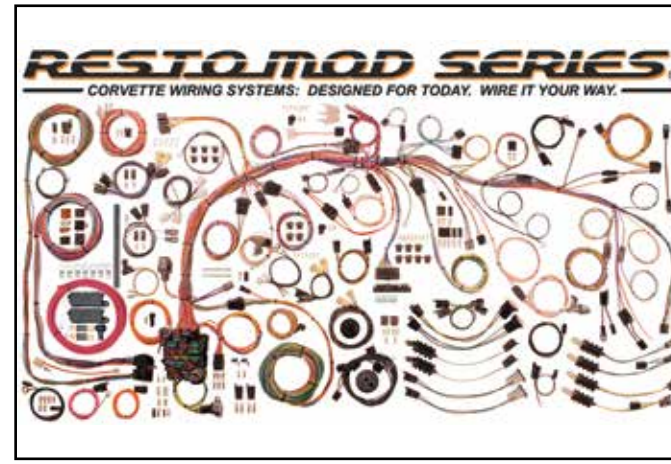

- **Ideal for solderless terminals on 14-22 gauge wire**
- **Cuts 14-22 gauge wire**
- **Durable, rust-resistant steel construction**
- **Comfortable double-dipped cushion-crip handles**
- **Heat-treated for additonal strength**

Kronus crimper and cutter is ideal for installing terminals, connectors and spade lugs.

661128.....32.05

68-76 Custom Wire Harness Update Kit

- **Dash harness routing is exactly like the original harness and will connect to all your stock dash and cluster connections while still accommodating nearly all aftermarket accessories such as: electric gauge packages, HVAC systems, power window kits and updated wiper systems.**
- **A "high powered" accessory connector is included to power accessories like power seats, door locks, cruise control, fuel pump and other accessories.**
- **A 175 amp Megafuse to protect your electrical system and 6 gauge (heavy gauge) alternator lead are provided to support a single-wire alternator or internally regulated alternator.**
- **The "through-the-firewall" bulkhead connector mounts in the stock location of the original bulkhead connector and allows for engine harness and forward lamp harness to be connected at the firewall.**
- **Engine wiring includes: feeds for coil, tachometer, water temperature, oil pressure, electric choke, wiper motor and washer pump. Mating connectors and terminals are supplied for the power and tachometer leads for a GM style H.E.I. distributor, along with various oil and temperature senders.**
- **Front lighting includes: extra-long leads that can be routed for stock or optional appearances. An ignition-switched trigger wire is provided for an electric radiator fan relay which is recommended with A/C.**

Corvette RestoMod series kit is THE most complete wiring kit on the market today. It will modernizes your Corvette's electrical system and allow expansion for additional power-hungry accessories. It boasts many features, making it the most complete wiring system available for the 3rd generation Corvette.

REBUILD ORDER FORM

It is common for extra parts to be required to complete a rebuild that are not included in the listed rebuild charges. The prices on these extra parts vary. If it is less than $35.00, you will be billed for the extra parts and the rebuild service will be completed. Please include a current email address and phone number in the event we need to reach you for charges exceeding $35.00. If you refuse the extra costs, you will be charged $25.00 for the time the rebuilder spent to disassemble the part and diagnose the problem.

Ship the part via UPS if possible and insure the package in case of damage enroute. Put at least 3" of packing material surrounding the complete part. Write rebuild on the outside of the box. Please include this form filled out with your information. We will contact you for billing info upon receipt.

Our primary product is your satisfaction

Customer satisfaction has always been one of our main objectives. We aren't talking about a no hassle return policy here – everyone claims to have that. We are talking about remedies for products that don't seem to fit or work right. We have over 48 years of experience in the manufacturing and sales of Corvette parts. This unparalleled background assures our customers that the products they purchase are the best available, and if a problem should arise, we know how to help.

Product assistance hours: Monday thru Friday, 9:00 to 5:00 ET.

When looking for product assistance, there are a couple of things to keep in mind.
First of all, it is very difficult to help customers with in-depth technical problems if they aren't well informed. Please review your service and assembly manuals before you call. This will make solving the problem much easier. Secondly, whether you are doing the work or having it done, be sure to call us at the first sign of trouble. It's very hard to resolve a problem after the part in question has been damaged, no matter who's at fault. Let's be fair, everyone makes mistakes. The important thing is working together to resolve them.
Owning your Corvette can be a very rewarding experience. We also understand how frustrating it can be when things aren't going smoothly and there's no one to assist you. We are here to help.
