Corvette Central.com Accessories

Who we are...

**Family owned
and operated
for 45 years**

Corvette Central has been a leading manufacturer and distributor of Corvette parts and accessories since 1975. In 2001, we moved into our current facility which included the implementation of an automated order picking system. This allows us to better control inventory and to pull orders efficiently. In 2004, we added on a new manufacturing facility where we produce 4,000 of the over 60,000 parts we sell.

Corvette Central is proud to offer the most comprehensive and detailed parts catalogs on the market today and produces a different catalog for each Corvette generation. All catalogs are also online with full search and order features. From the first V8 to C8, only Corvette Central has it all.

Dealer Wholesale Program

Corvette Central offers a wholesale discount program that is based on the amount your company purchases annually.

To Qualify:

- You must be an auto related business
 - Your business needs to have a current sales tax license from the state in which you do business.
- Please go to our website for more information and the application forms.

Start To Finish Discount Program

Private individuals planning a complete restoration project should go to our website for information on this program designed with them in mind.

We are the
**Caretakers of the
Legend, and the
Legend is Quality.**

**CARETAKERS
OF THE LEGEND**
EST. 1975

We know that your Corvette is important to you and you will only put parts on it that look good and work right. That is why our quality standards are so high. If we wouldn't put it on our Corvette, we won't list it. Some of our vendors are just a guy in his garage that figured out how to make a particular part that you need. Sometimes he might have a problem getting it made quickly. We do our best to keep in contact with our suppliers every day to keep the parts coming and keep good communication with you, our Valued Customer. We've been doing it for over 40 years and we will keep doing it to keep the Legend going strong.

SHIPPING INFORMATION

Small packages are sent by U.S. Postal Service Priority or First Class Mail. This service is the fastest and most economical for this size of package. The U.S.P.S. delivers to the continental United States, as well as Alaska, Hawaii, Puerto Rico, U.S. Virgin Islands, and military addresses (APO/FPO) Monday through Saturday. Larger packages will be shipped regular ground service by UPS. Ground service delivers to a large section of the U.S. within 3 days from our location.

Corvette Central offers Next Day, 2nd Day, and 3 Day air delivery services. Saturday delivery service is only available with Next Day air charges for an additional fee.

There is an additional delivery fee on shipments to residential areas.

NOTE ON SHIPPING CHARGES

Changes recently made by UPS have impacted shipping costs. UPS no longer uses ACTUAL WEIGHT of packages to calculate shipping. They now use "DIMENSIONAL WEIGHT" of packages. We measured every product we sell and entered that information into our system. This enables our system to calculate the size box/boxes your order will ship in and calculate the shipping costs when the order is placed. Retail customers pay shipping for entire order on the 1st shipment. Corvette Central audits the calculated shipping charges after each order is complete. If we have overcharged you, we will automatically send you a Merchandise Credit for that amount you overpaid. Currently this is the best way to be fair to our customers.

BACK ORDERS

Due to the wide variety of specialty products we distribute, back orders are unavoidable in some cases. Normally back orders are shipped in 7 to 10 business days. We automatically ship back orders or, if you wish to cancel your back order, please call or email for a cancellation number.

RUSH SERVICE

If you need your order processed and shipped the same day, we offer "RUSH" service. For an additional \$5.95, any order received before 1:00 PM ET will be processed and shipped that same day. Orders received after 1:00 will ship the following business day using the "RUSH" service.

See the back of your invoice for a complete list of Return Policies and Procedures.

IMPORTANT

TRUCK FREIGHT

Parts in this catalog noted with "+" for Truck Ship and any other item exceeding carrier size or weight limits will be shipped by truck. All items being Truck Shipped must be prepaid or charged to a credit card.

Corvette Central ships to Canada via UPS exclusively. UPS and Corvette Central entered into agreements with the Canadian government in order to collect and remit all duties, taxes and brokerage when your order is processed and shipped. This allows you to know the total cost of your order to be delivered to your door, at the time your order is placed. There are no hidden charges! The exception to this program is Prince Edward Island. Orders shipping to this province will be processed through a Canadian brokerage house. This program does not apply to truck freight items.

INTERNATIONAL ORDERS

We ship Corvette products to every corner of the globe — from one small part, to large wholesale orders.

There are many variables, depending on size of order, location and timing. Please contact us by email or phone for the most efficient and economical means of shipping your order.

ND = No Discount

INSPECT ALL PACKAGES IMMEDIATELY!!!

All damages, shortages, or errors must be reported within 7 days of receipt of package. Please have invoice ready when you call.

DAMAGED ITEM — SHIPPING RELATED

- If there appears to be any external damage, i.e. crushed or dented side or corner, any tears or holes in package, immediately inspect contents of package for parts damage. If damage is found, **DO NOT CONTACT THE CARRIER. IMMEDIATELY CALL CORVETTE CENTRAL AT (800) 345-4122** to report any damages.
- Do not destroy the package or box that the item shipped in. Please save it for inspection by the carrier.
- Have the package and invoice with you when you call.
- If a claim is filed, arrangements will be made for pickup of package with entire contents.

DAMAGED ITEM — NON-SHIPING RELATED

- Call us at **800-345-4122** immediately with description of damage and we will process a replacement and make arrangements for pickup of damaged item.

SHORTAGES AND MISTAKES

- Call us at **800-345-4122** immediately and we will process an exchange or replacement as required.

RETURNS

- **There is no need to call for authorization.** Fill out the return slip enclosed with your shipment, and send the package back to us. It is recommended that you insure the package and retain your receipt of shipment. **Items must be returned in the original packaging for credit.**
- All returns must be made within **60 days** of invoice date. After 61 days a restock fee will be charged.
- No returns on electrical products or tools.
- Items that have been installed, altered, damaged or are otherwise not in a condition to be resold will be returned to the customer at their expense.

REFUSED SHIPMENTS

- Shipping and handling charges on refused shipments are the responsibility of the customer.

CURRENT PRICES

- See our WEBSITE for Current Prices.

OVERSIZED SHIPPING CHARGES

- Some products have additional shipping charges due to heavy weight or oversize dimensions.

See our WEBSITE for a full list of Policies.

Shipping & Packaging Charges

Pertaining to orders shipped within the continental USA:

Ground service freight charges for your entire order will be charged at the time of the first shipment. Any backorders shipped after the initial shipment will not incur any additional shipping charges. The shipping fees are based on the calculated weight of the parts ordered and the destination zip code according to current UPS and USPS shipping rates.

1953-2021 Corvette Black Book

The gold standard in Corvette reference! New and greatly expanded with even more facts and figures up to 2019. Includes production figures by color, more option figures, expanded engine data, block and head numbers, and month of production. 175 pages with 71 photos. 4-3/8" x 10". Softbound.

111930 19.95

Corvette Fuel Injection & Electronic Fuel Management

This book is a hands-on guide to understanding, servicing and modifying your Corvette electronic engine management system. The heart of the Corvette is its' electronic engine management system, and this book explains that system. It covers fuel injection systems from 1982 L83 to ZR1 through LS1. Included are 112 pages of model specific wiring diagrams, trouble codes and test specifications along with hundreds of GM photos and illustrations. If you have an interest in electronic fuel injection systems, author Charles Probst makes these systems easy to understand. 8 1/2 x 11 softbound, 380 black and white pages.

How to Build LS GEN IV Engine for Max Horsepower Book

Author Richard Holdener reveals effective, popular, and powerful equipment packages for the GEN IV LS Engine. With this information, you can select the parts to build a powerful and reliable engine by removing the research time and guesswork to buy a performance package of our own. In this book, performance packages for high-performance street, drag race, and other applications are covered. Then the assemble engine packages

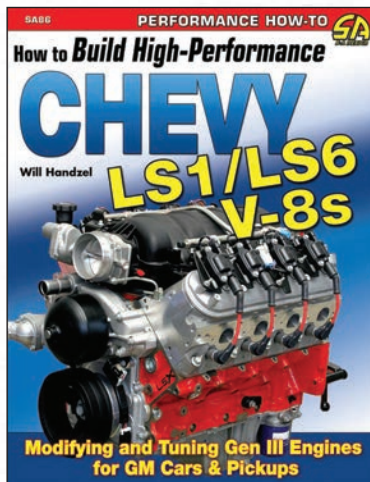

are Dyno tested to verify that the parts produce the desired and targeted performance increases. This comprehensive build-up guide covers intakes, throttle bodies, manifolds, heads and camshafts, headers and exhaust, engine controls, superchargers and turbochargers, and nitrous oxide. 8.5" x 11" Paperback Book, 144 Pages Packed with 267 Color Photos and Charts.

115041 29.95

How to Build High-Performance Chevy LS1/LS6 Engines Book

By Will Handzel. The LS1 engine first appeared in the 1997 Corvette, and soon followed in the Camaro Firebird and thousands of full-size Chevy trucks and SUVs. It also powers the hot new Pontiac GTO! This book is essential for the enthusiast who wants to get the most performance out of this new engine design but is only familiar with the older Chevy small-blocks. Covered is everything you need to know about these engines, including the difficult engine removal and installation, simple engine bolt-ons, electronic controls for the Generation III engine builds at four different power levels. Paperback, 8-1/2" x 11", 160 pages, 556 color photos.

115025 36.95

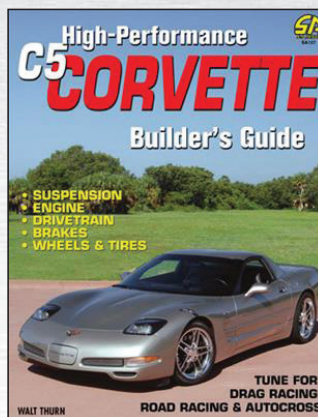

High-Performance Chevy Small Block Cylinder Heads Book

111065 26.95

High-Performance Automotive Cooling Systems Book

111228 29.95

High-Performance C5 Corvette Builder's Guide

Shows you how to upgrade you Corvette's engine, from basic bolt-ons to serious engine modifications. There are also chapters on tweaking your suspension, drive-train, brakes, wheels, and tires. Included are tables, charts, black & white pictures, and step-by-step build-ups and how-to sequences to explain how to correctly modify your C5 for drag racing, road racing, autocross, or simply to turn heads on cruise nights. The photos in this edition are black & white, is 144 pages with 350 black & white pictures.

115122 26.95

How to Rebuild GM LS-Series Engines

By Chris Werner

In this Workbench book, author Chris Werner uses more than 600 photos, charts, and illustrations to give simple step-by-step instructions on disassembly, cleaning, machining tips, pre-assembly fitting, and final assembly. This book gives considerations for both stock and performance rebuilds. It guides you through both the easy and tricky procedures, showing you how to rebuild your engine and ensure it is working perfectly.

The book also illustrates many of the performance components, accessories, and upgrades that have been developed for the LS-series family of engines.

As with all Workbench titles, this book details and highlights special components, tools, chemicals, and other accessories needed to get the job done right, the first time. Appendices are packed full of valuable reference information, and the book includes a Work-Along Sheet to help you record vital statistics and measurements along the way. You'll even find tips that will help you save money without compromising top-notch results. 8-1/2" x 11", 152 pages, 604 color photos, softbound.

115063 36.95

Supercharger And Turbocharger LS Engines Book

How to Supercharge and Turbocharge GM LS-Series Engines covers supercharger and Turbocharger design and operation in detail, so the reader has a solid understanding of each system and can select the best type for his particular budget, engine, and application. The attributes of Roots-type and centrifugal-type superchargers as well as turbochargers are extensively discussed to establish a solid base of knowledge. Benefits and drawbacks

of each system as well as the impact of those systems on the vehicle are explained. Also covered in detail are the installation challenges, necessary tools, and the time required to do the job. Once the system has been installed, the book covers tuning, maintenance, and how to avoid detonation so the engine stays healthy.

The 8.5 x 11" softbound book features 144 pages packed with 388 color photos.

**ONLY
\$189.95
EACH**

The Lower

Cost Alternative

Trigard

Coverking has comprised Triguard out of three layers and each layer is treated with UV retardant to ensure your Corvette is protected against the sun's rays. The middle layer of polypropylene goes through a melt-blown procedure, which means that it is heated and rolled so that it is water-resistant. The middle layer is then inserted between two layers of Spunbound fabric, which means it is compressed in a way to allow breathability in return preventing mildew and rot build up. Triguard's material is easy to clean, store and even though it is light weight, it will not make your wallet light.

Stretch Satin™ Custom Car Cover

Coverking's Stretch Custom Car Covers are made for vehicles parked indoors (it will fade if exposed to extended sun, and is not water resistant), and for owners who want nothing but the best for their vehicle. Satin Stretch is the SOFTEST fabric available. The material has Lycra fibers for stretch in both directions, mirroring every perfect contour of your vehicle. And the inner liner is the softest fleece you will find specially designed not to rub off on convertible tops. It is available in solid color designs, including Black, Steel Gray, Dark Blue, Yellow and Red. Blind stitching results in invisible seams—this is a HOT car cover.

Specify color: -01 Black, -02 Gray, -03 Red

103688.....29.95

In & Out Spray

Watch your faded and dull trim go from boring to brilliant with a single treatment of one of our all time best products.

An aerosol spray dry to the touch within moments and still capable of restoring your faded and dull plastic, rubber, and vinyl trim to like new condition with just a single spray. Use this amazing product on all the hardest to reach areas, like air conditioning vents, wiper cowl, grilles, and even under the hood to dress your engine compartment.

In & Out Spray wipes easily and cleanly away from surfaces like glass and paint so there's no need to stress about over-spray getting into areas you don't want. One swipe of a plush microfiber towel and the over-spray residue is gone!! There's never been an easier way to dress your trim than In & Out Spray guaranteed to impress you every time you use it.

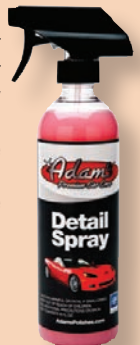

102606 Aerosol.....14.95

Detail Spray

This "Best of Show" winner is a favorite at car shows. Use as a waterless wash, a clay bar lubricant, or to enhance the depth and clarity of paint, chrome, plastic, aluminum, and glass. Specially formulated lubricants gently remove dirt, smudges, and grime, leaving surfaces with a smooth, ultra-high gloss finish. Use in the sun or shade, and in hot or cool temperatures.

102284 16 oz.....12.95

106802 Gallon.....44.95

Buttery Wax

Leading the charge in technological advances, Adam's Buttery Wax is formulated with a special blend of polymers, resins, and natural Carnauba. Buttery Wax contains no cleaners or abrasives, and will not stain plastic or rubber. Always treat an imperfect finish with Clay Bar and Polish before applying Buttery Wax.

104685 16 oz.19.95

Car Wash

- New Concentrated Formula produces more suds
- Gentle on all surfaces and pH neutral
- Slickest formula ever, reduces the changes of swirls

102571 16 oz. 9.95

106755 Gallon.....39.95

Invisible Under Carriage Spray

Adam's developed this special product to make your wheel wells and under carriage completely invisible. Spray after a wash and before detailing for best results. You'll love the low-gloss, dark finish that this Invisible Under Carriage Spray leaves behind. Guaranteed to please.

104845 16 oz.....12.95

Brilliant Glaze

Adam's Brilliant Glaze takes personal reflection to a new level. This liquid glaze adds depth and clarity to chrome, glass, and paintwork. Brilliant Glaze is a top seller for its extreme ease of use and for its ultra-high gloss results. Product can be used in direct sun and has no dust. Shake well before and during use. Product separates by design. Not for use on oxidized finishes.

Adam's Strip Wash

Adam's Strip Wash is a concentrated soap blend that removes any wax and sealant protection as you clean your ride, preparing it for paint correction session with a machine polisher or hand polish, or to start clean with a fresh layer of sealant or wax.

102948 16 oz. 14.95

V.R.T. (Vinyl, Rubber, Tire)

Enhance and protect the appearance of plastic, rubber, tires, moldings, dashboards, and door panels. Adam's V.R.T. contains no harmful silicone or alcohol. The thick moisturizing cream applies easily with a sponge and will not leave a greasy film, attract dirt, or harm paint and glass. Added U.V. protection keeps vehicle interiors and exteriors looking and feeling like new.

106824 16 oz..... 19.95

Meguiar's® Quik Interior Detailer

• Mist and Wipe

Quickly and easily maintains the look and feel of interior plastics, vinyl, leather, rubber, metal. Unlike traditional protectants that leave an artificial greasy feeling, Quik Interior Detailer leaves your interior surfaces looking natural and revitalized.

102485 16 oz. 8.95

Wheel and Tire Cleaners

Adam's Tire and Rubber Cleaner

Adam's Tire and Rubber Cleaner deep cleans tires and removes baked on tire dressing, blooming, and discoloration. It effectively removes oxidation, wax, and polish residue from rubber and plastic trim parts as well.

112617 16 oz. 12.95

California Micro Fiber Wheel Duster

Micro Fibers effectively trap dust and dirt

- The "fork" easily spreads when pushed on an object for true one-handed convenience
- It "clamps" around the object to clean both sides at the same time

- Can also be used as a conventional duster on any surface
- Easily cleaned to allow repeated use time after time

Use to remove annoying brake dust and much more! Also great for roof racks and automotive grilles and can be washed and re-used hundreds of times.

101948..... 11.95

Adam's Eco Wheel Cleaner

- Direct-Release to the Environment Approved
- Powerful cleaning capability with a pleasant citrus scent
- Thin formula allows for a wider working area
- Breaks down brake dust, road grime, and dirt
- Safe on painted, powder-coated, anodized, clear coated, and chrome wheels

Adam's Eco Wheel Cleaner is an environmental friendly wheel cleaning solution. It is pH neutral formula that is Direct-Release to the Environment Approved and breaks down road grime and wheel contamination.

111598 16 oz. 12.95

Tire and Wheel Brush

Get all of the nooks and crannies in your wheels and tires clean with this brush. Soft and natural tampico bristles and angled head design take some of the struggle out of the chore.

101079..... 8.95

Adam's Wheel Cleaner

- Safe on painted, powder coated, clear coated, and chrome wheels
- Thick gel-like viscosity clings to wheels for excellent cleaning power
- Dissolves brake dust, road grime, and dirt
- Color changes to purple as it's working

Adam's Wheel Cleaner is the most high-performance wheel cleaner you've ever tried. It is a pH neutral formula that specifically targets iron and metallic particles left behind by today's modern brakes

111628 16 oz. Bottle 14.95

Forever Black™ Tire Gel

- Black pigmented color
- Water based
- Silicone & oil free
- Environmentally safe
- Does not attract dust
- Fast drying
- Does not sling off tires
- Protects against UV damage

Unlike all other tire dressings on the market, Forever Black is a black pigmented polymer. This environmentally friendly product will restore the faded bronze look of your tires to their original appearance. The hand held applicator eliminates the mess of oversprays. One easy application will protect and restore your tires.

101816 8 oz. 15.95

Use for Transmission or rear end lubricants.

These race ramps are unique in their design. They are made for low ground clearance performance vehicles with a gross weight handling of 1200 pounds per ramp or 2400 pounds per set. They are specially designed for the Corvette enthusiast, allowing you to get under your car quickly, safely and without any frustrating hassles. Constructed in one solid piece, Race Ramps will not slide across your garage floor, dig into your asphalt driveway, or scratch or otherwise damage your cement or painted floors. They can be used to raise your car up eight inches. You get all this in an **Unbelievable lightweight of 20 pounds a pair**. Most ramps can only accommodate a tire width of six to eight inches. Race Ramps are not hollow in the center or made with questionable reinforcements. They are 100% solid on all sides and constructed in one solid piece - giving you the non-skid support that you need. The ramps come complete with straps for easy carrying, and you can also use them to hang the ramps on the wall when you're done.

Priority Start

- Works with Both Top and Side Post Batteries
- Prevents a Dead Battery
- Monitors Voltage
- Senses Drain
- Automatically Disconnects
- Automatically Reconnects

Priority Start is a computerized electro-mechanical switch that consistently monitors the vehicle's battery power voltage. If an accidental drain occurs such as lights left on, door ajar, radio or any other electrical accessories (even power draining shorts), it only allows the battery voltage to drain to a predetermined level (11.7 volts). Then it automatically disconnects the load, leaving starting power. It automatically reconnects when the ignition key is turned to the "on" position.

Corvette Central Exhaust.com

Halltech Air Intake

Similar to the Killer Bee II Z06 Cold Air Induction System, this second-generation intake flows more air than any induction system on the market. It utilizes the stock Mass Air Flow sensor for easy installation and seamless, smooth response on the street or at the track.

Starting with the Super Bee II 15" wide Halltech filter with a built-in velocity stack flange, the actual changes to our mold design have increased flow to the throttle body. The filter is made by K&N exclusively for Halltech's Super Bee II. The air bridge is also made from the KB II mold which dynoed over 13 HP on the Katech Engine Dyno.

Fits 2001-2004 Corvette C5 LS1 and LS6. The MAF sensor shown is not included, but we do provide our laminar flow screen with higher flow than the stock LS1 screen. Use your stock MAF, elbow for the A.I.R.

155020 01-04 Stinger Venom Air Intake - Black (ND).....599.95

BBK Aluminum Cold-Air Induction System

- Lightweight aluminum plenum casting
- High-flow conical filter
- Add 14-20 rear wheel horsepower and show-stopping looks

This performance bolt-on system combines a titanium finished metal air coupler with a cotton filter element that may be cleaned and re-used over and over. Plus, while competing plastic couplers start to melt under the pressure of your C5's high performance engine compartment, this induction unit is designed to persevere under even the most extreme temperatures!

Advanced Airflow Technology In A Direct Bolt-on Package

The ultimate Ram Air System for C5 and Z06 Corvettes. The VaraRam System will produce up to 40+hp gains, as it improves your 1/4 mile times by .35 to .4 seconds! Above and beyond a ducted unit, this compressed system allows compression of air at much lower speeds where it is most beneficial. Manufactured with reshaped ram tubes, top air box and water box, the VaraRam is purpose-built to squeeze the most velocity and performance from your C5. Plus, it's a true bolt-on system, requiring no modification for an easy installation.

155013 VaraRam-Ram Air System339.95

Blackwing Filter

- Mounts To Stock Location
- Up To 16 H.P. Increase
- Installs On Stock Cushions
- Cleanable Filter
- Fits All C5's Including Z06

The stock C5 Corvette air cleaner is a known power restriction. This C5 air cleaner assembly is a known power enhancer that is a radical departure from existing air filter technology. Developed by Donaldson, it incorporates 100% synthetic filtration media. This lifelong warranted reusable filter will out flow its competition, yet filters out the smallest dust particles. Another exclusive feature is a flow restriction indicator that changes from green to yellow to red as restriction increases. A red indicator warns that it is time to service the filter.

K&N FIPK Air Intake

- Large washable, reusable, rechargeable conical filter
- Approximately 11 RWHP gains
- 10 year/1,000,000 mile warranty
- Easy installation, all hardware included

The K&N FIPK (Cold Air Intake Kit) for your Corvette features advanced materials, including a nylon crosslinked tube, that insure colder air actually gets to your engine's throttle body. Installation is totally painless - all hardware is in the box, and everything bolts on to factory locations, so you'll be running cooler in no time.

HELPER EMISSIONS SYSTEM TERMINOLOGY

EGR - Exhaust Gas Recirculation: Exhaust gases containing unburned fuel are recirculated back into the engine to be re-burned.

ECM/PCM - Electronic Control Module: As the control center of the fuel injection system, the electronic control module constantly monitors information from various sensors, including the opening times (pulse width) of the injectors. It can diagnose operational problems, alert the driver through the "check engine" light, and store a code which identify the problem areas to assist in making repairs.

A.I.R. - Air Injector Reactor (Smog Pump): A belt driven pump that injects cool outside air to the exhaust valves to promote combustion of unburned fuel.

M.A.T./I.A.T. - Manifold/Intake Air Temperature Sensor: Measures air coolant temperature and signals computer to adjust fuel mixture.

AFE Magnum Force Stage 2 Air Intake

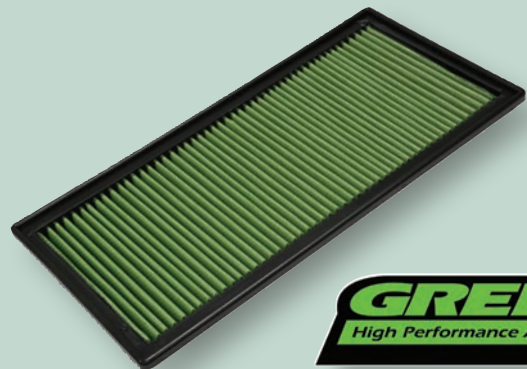

- Cold Air Intake System Stage 2
- Magnum Force Stage 2 Pro 5R Intakes Systems-C5 Z06 1997-2004 V8-5.7L (LS1/LS6)

This air intake system produces 24 max horsepower, 29 lbs x ft torque and out-flowed the factory intake by 13%. Features a washable/reusable conical air filter and a heat-insulating molded plastic tube, that replaces the stock intake tract and directs increased air flow with improved volumetric efficiency for maximum performance. The air filter is constructed with 100% polyurethane for long life and multiple cleaning cycles.

This intake is 50-state legal for 1997-2004 models (CARB E.O. Number D-550-2)

155056 97-04 Each (ND)382.95

Green High Performance Air Filter

• Lifetime Guarantee

Improve performance – go Green! As in Green Filter USA. The flow difference between paper and oiled cotton may not be much when both filters are brand new, but a few hundred miles later it can be significant (as paper loses efficiency once dirty). Green filter's precision pleat geometry traps 20% more contaminants while optimizing airflow into the engine.

154110 97-04.....64.95

Note: Fits all 2008-2013 LS3, LS7 and LS9 Corvettes. LS9 Corvettes will require an additional filter retainer (CC #156192) to complete installation.

Vararam Power Duct

THIS IS NOT JUST ANOTHER POWER DUCT!

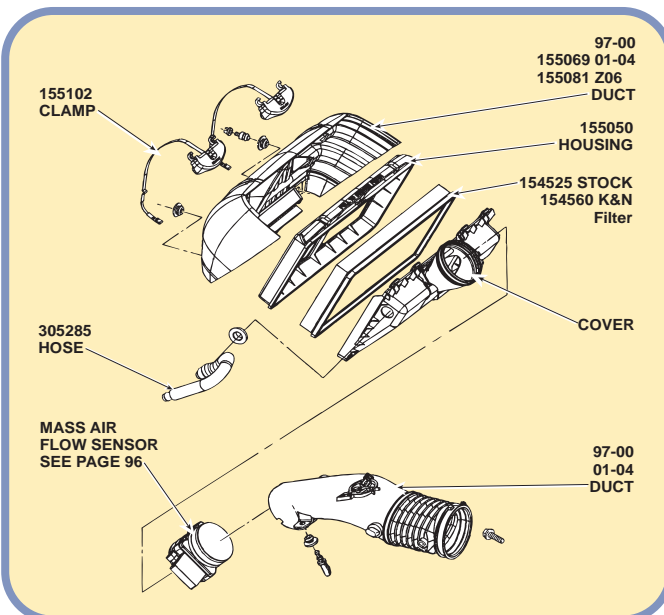

The key to it's performance is in its Patent Pending reverse venturi design with integrated rear air horn. It's not about making a bigger hole for airflow; it's about streamlining the existing airflow while increasing the overall volume delivered at the highest possible velocity at each RPM level THROUGH THE MAF AND THROTTLE BODY!

Other features include:

- Relocated MAF position-moves the MAF closer to the motor for a cleaner read, a must for any heads cam or stroker motor cars.
- Superior quality in construction-a resin reinforced Crosslink Material that is set at a specified charge weight for strength and longevity. More expensive, yes, but 50% stronger than other systems.
- Full adjustability-this enables the unit to fit a wide range of intake and filter combinations so you can use the VR power duct even if you don't have a VR-B2 system.
- Positive clamp rings front and rear.

3D Air Bridge Emblem

These are not just vinyl decals. They are a three (3) dimensional decal that looks like a factory manufactured emblem. Available in various colors. They look great! These raised inserts are made of the highest-grade material available by 3M and Avery graphics. Each process goes through an extensive quality control to ensure that you're getting the very best. No yellowing, color fading up to 5 years guaranteed (tested). Clean surface as advised in instructions then just peel it and apply it to any flat surface, it's that easy.

Optima Spiral Technology Battery

Optima is the most advanced battery available. It delivers 800 cold cranking amps at 0° F and lasts 3 to 5 times longer than conventional flat plate batteries. The electrolyte is completely absorbed, and sealed construction gives you a safe, leak-proof battery. Unique spiral cell design resists jarring, eliminates plate shedding, and requires no maintenance. The battery can go unused for up to a year without recharging, which makes it ideal for Corvettes that may see no use for extended time. Optima is backed by an excellent 2 year warranty.

Battery Relocation Kit

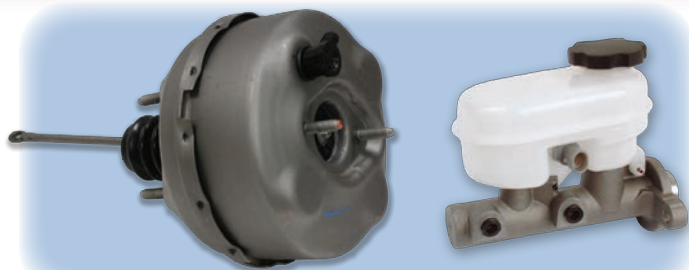

This battery relocation kit improves vehicle weight distribution by moving weight to the rear of the vehicle. The improved weight distribution increases traction for better acceleration along with providing improved handling and braking. The installed kit safely mounts the battery in the rear storage well of the Corvette and, in those applications equipped with storage well cover, fits under the existing rear storage well cover for a clean and stock appearance.

175037 (ND) 469.95

IMPORTANT

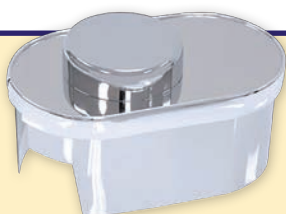

Always refer to a factory service manual when diagnosing service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.

Wilwood Hi-Temp° 570 Racing Brake Fluid

Wilwood's specially formulated High-Temp° 570 Racing Brake Fluid has a minimum 570° F dry boiling point to withstand the severe heat requirements of automotive racing. Hi-Temp° 570's low viscosity allows easy bleeding of your brake system, eliminating aeration of the brake fluid caused by foaming due to excessive pumping of the pedal.

Brake Rotor Update Kits

ProMatrix Front and Rear Replacement Rotor Kit

• 12.80" Diameter Rotors

ProMatrix Front and Rear Rotor Kits offer measurable brake performance improvements to racers and enthusiasts using the OE factory brake calipers and High performance pad compounds. One piece rotors are used to provide high temperature durability for the track or high-tech style with corrosion resistance for the street.

195028 Set of 4 346.95

Power Stop Track Day Brake Rotors with Pads Kit

Drivers who participate in "Track-Days" or "High Performance Driving Events (HPDE)" rely on their brakes and know the value of having brakes that are up to the task of Track use. High-Carbon metallurgy provides the highest coefficient of friction when used with the Power Stop "Track Day" brake pads. High carbon rotors have been used for years in competitive racing due to their resistance to thermal distortion and cracking. Precision drilling holes are strategically placed to avoid high stress areas and provide extra cooling by drawing air through the rotor. The rounded slots work to keep dust and debris off of the braking surface for better pad to rotor contact. All these features combined create the best brake rotors for your favorite Track Day event.

195131 97-04..... 409.95

Power Bleeder™

If you do any brake work on your Corvette, power bleeding is faster and more efficient than vacuum bleeding. This Power Brake Bleeder forces clean brake fluid through the system, quickly driving out all the air.

Add \$100.00 When Ordering Red.

- 4 Piston Calipers
- Dimpled and Slotted Black Electro Coated Rotors
- Improved brake response and balanced pad loading over OE floating mount caliper design
- Configured for full compatibility with the OE Corvette master cylinder output and ABS controls
- Caliper and pad kit for use with existing rotors or complete kits with SRP drilled, slotted, and E-coated rotors included
- Accepts the OE rubber hose or DOT compliant stainless steel braided flexlines
- Forged aluminum body calipers with spring dampened stainless pistons, and internal bore seals
- Red or black powder coat finishes
- BP-10 compound SmartPads included in all kits.

Wilwood Racing Brakes

These kits are for serious racing as they come with pads that are not streetable and the rear kit cannot be used with the factory parking brake.

Wilwood's radial mount calipers are coupled with the high cooling capacity of 14.00" SV-GT staggered directional vane rotors to provide the ultimate brake package for unrestricted road race competition. Thermlock pistons in the calipers resists fade and extend service life by reducing the heat transfer from the pads, caliper body, fluid and seals. Rotors mount to the hubs with forged aluminum hats and radial mount brackets secure the caliper to the spindle in the OE location without modification. Kits also include high temperature, high friction race compound pads and all premium grade fasteners.

195086	GT Rear Big Brake Racing Brake Kit	1,844.95

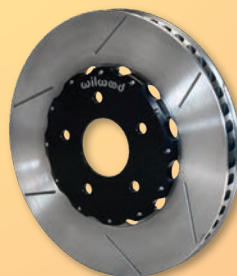

SRP = Drilled and Slotted
GT = Slotted

Front ProMatrix Track Brake Rotor Upgrade Kit

The championship proven performance of our Spec37 iron alloy is combined with lightweight aluminum hats in these extreme duty rotor kits designed for competition with factory calipers.

- Directional-cooling vane design
- Asymmetrical cleaning slot pattern
- Precision machined and balanced

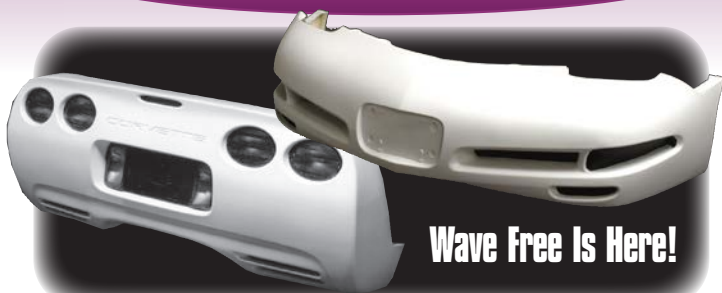

195162	Set of 2	559.95
--------	----------	--------

Drilled or Slotted?

Slotted rotors do not improve any heat transfer. However, the slots can improve brake output by removing gas and dust that is trapped between the pad and rotor. This gas and dust reduces the friction force by preventing the pad from fully contacting the rotor. Given the choice between drill holes and slots, the drill holes will give you better braking power over slots for normal city/highway driving. This is why factory Corvette rotors are drilled, not slotted. However, for track racing (high speed stops), slotted rotors are the better choice.

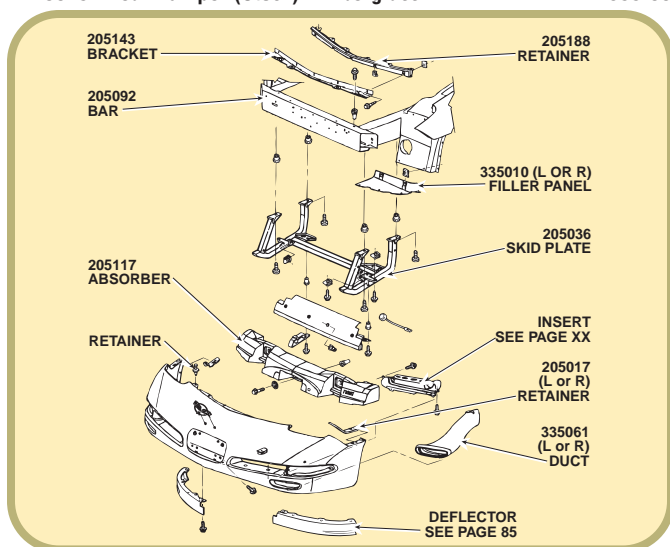

Bumper

Wave Free Is Here!

Ever receive a GM replacement C5 Bumper Cover only to discover waves, dings and distortions in the cover surface? Costly repairs are in order before installation can take place. American Custom Industries front bumper cover for 97-04 Corvettes is the solution to urethane headaches. "Wave Free" fiberglass insures a straight crisp look that paints and installs without the hassles. Ships by truck.

Meziere Electric Water Pump

The high flow electric water pump for the LS1 and LS6 engines is here. Track, dyno, and most importantly, street testing has proved engines run cooler at low speeds and gain high end horsepower when running Meziere's bolt on LS1/LS6 pumps. In addition to the released power, you get to keep all of your factory accessories. The WP319 features a dual bearing belt idler, billet parts throughout, and a "weather-tite" electrical connection. The unit is available in these colors: black, red, blue and polished; and is backed by a two-year warranty.

Dual Radiator Fan Upgrade

- Fits Stock or Direct Fit Radiators

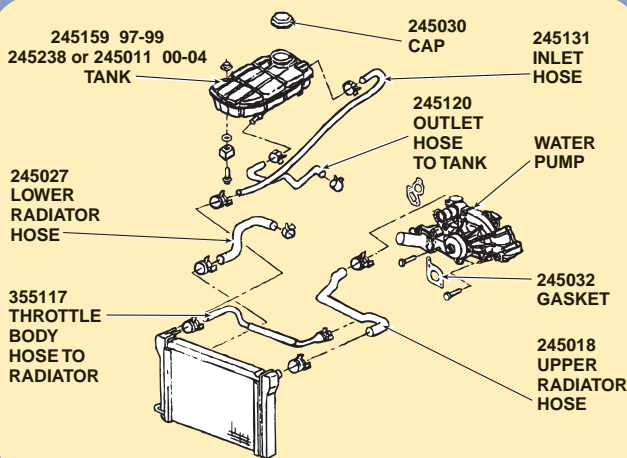

This aluminum shroud incorporates (4) four rubber flapper valves to improve air flow at high speed and close at slower speeds. Two Spal high performance fans provide 3200 cfm which doubles the factory output. What makes this really cool is customized fans with matching Corvette fan plugs, so no cutting or splicing is required.

Low Temperature Thermostat

Racers know that a cooler running engine is a better performing engine. By reducing engine running temperatures, the engine will make more power through better thermal and volumetric efficiency. This new thermostat replaces the factory 187 degree unit, allowing coolant to circulate at lower engine temperatures, keeping the engine cooler.

245021	97-03	160°	39.95
245010	04	160°	27.95

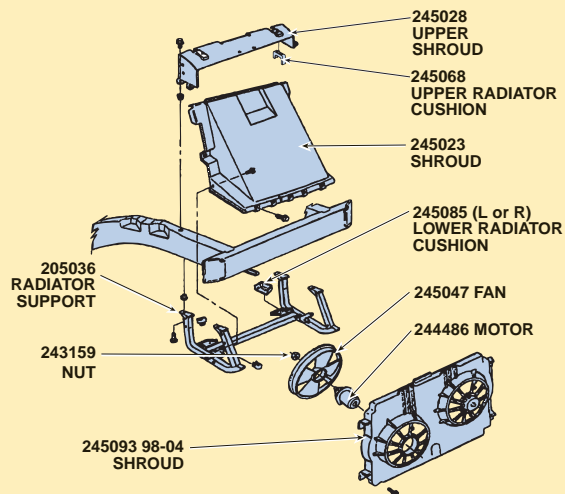

HELPER C5 Cooling Fan Operation

The low speed cooling fan is commanded on when the coolant temperature reaches 226°F. It is turned off if the coolant temperature lowers to 219°F. The high speed cooling fan is commanded on when the coolant temperature reaches 235°F. It is turned off if the coolant temperature lowers to 226°F. When the A/C is on and the coolant temperature reaches 185°F, the low speed cooling fan will be turned on at vehicle speeds less than 35 mph.

Aluminum Coolant Expansion/Fill Tank

This tank is a direct bolt-on replacement for 97-04 Corvette factory Coolant expansion/fill tanks. Tank offers increased strength and improved look over the plastic tank.

245119 (ND) 319.95

Water Wetter

A unique wetting agent which reduces cooling system temperatures up to 30° F. Helps provide rust and corrosion protection and improves heat transfer properties of plain water, ethylene, and propylene glycol cooling systems. Use with aluminum, cast iron, brass, and bronze components. Bottle does up to a 20 quart system.

241041 12 oz. 13.95

Throttle Body Coolant Bypass Kit

• Fits 97-04, including Z06

Bypass the coolant running through the throttle body by installing this simple bypass kit. With no hot coolant running through the throttle body, the air entering the engine is cooler, and cooler air has more oxygen which produces more horsepower. Simple installation.

305018 14.95

245041 Fan Relay with Switch (205° on/190° off) (ND) 79.95

Constant Monitor-Adjustable Fan Controller

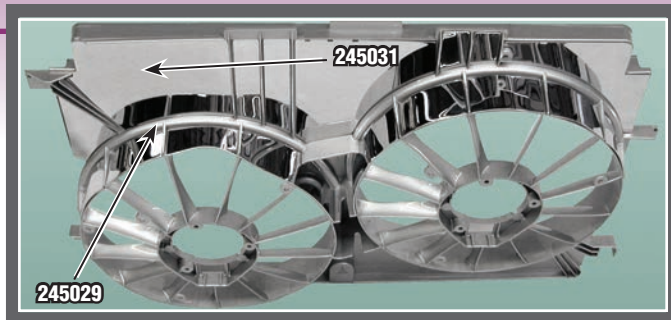

- Temperature range in degrees - 32F to 248F.
- Accuracy in degrees - +/- 7.3F

This kit is designed to allow a wide range of temperature adjustments for your electric fan. The adjustment knob may be used to set a precise temperature desired for fan activation. This complete kit includes the adjustable thermostat with bracket, a 40 AMP relay, a 30 AMP circuit breaker for overall protection, wiring, terminals and mounting hardware.

NOTE: Temperature refers to the temp of the capillary tube, not the coolant temp.

- Made of High Strength Steel
- 100% Product Guarantee
- All Kits are Patented

Give your C5 Corvette a more exotic look with this bolt on vertical door kit. Installation requires some trimming to inner panels but no paint work is needed. No modifications to the stock wiring harness are required. The purchase of aftermarket doors is not necessary as this kit uses your factory doors. And, as an added bonus, this process is reversible. Due to the design of these doors, you can always return your doors to the stock hinges if you want to. Complete instructions are included and installation time is approximately 6 hours.

Chrome Detail Screws

This kit covers the screws located in the door jamb area for both door jambs of all the C5 Corvettes. The kit includes 8 button head chrome screws with washers.

Even if you not into showing your car these screws will be in demand because they make such a nice visual touch in the door jamb area especially if you have upgraded to the chrome door strikers.

Note: The LS-1 or LS-6 engine holds 6-1/2 quarts of oil w/filter.
Mobil 1 Synthetic 5W30 is recommended.

K&N High Performance Oil Filter

K&N Performance Gold Oil Filters meet or exceed all high performance automotive engine builder's standards. The K&N filter will flow up to 12 gallons per minute and is unaffected by racing fuels. Filters also feature a 1" wrench nut for easy removal, an anti-drainback valve to eliminate "dry starts" and a ribbed core constructed of a resin impregnated filter media to provide maximum filtering surface.

305417

Prothane Polyurethane and Aluminum Engine/Motor Mount

These motor mounts have polyurethane bushings with billet aluminum casings. The polyurethane bushings offer a much sturdier surface than the hydraulic mounts. This sturdiness increases engine response and allows for more efficient torque transfer all while being much more durable than the hollow mounts. In much the same way the aluminum casings offer great protection for the new mounts while further enhancing their durability and keeping your weight low.

305417 Set (ND) 269.95

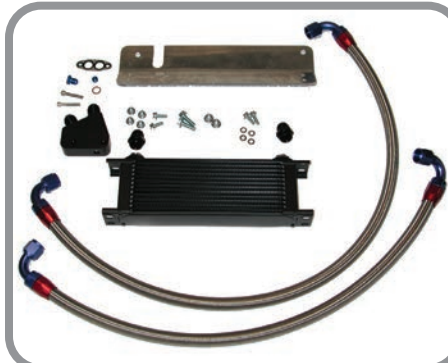

Pfadt Aluminum Engine Mounts

305250

An excellent solution for high horsepower or high performance Corvettes, they've approached these mounts as a complete system to limit unnecessary movement. The soft stock mounts allow power-robbing movement that shakes the car and can break parts. Constructed with 6061 T6 aluminum and anodized for durability.

305250 Pair (ND) 379.95

Lingenfelter Engine Oil Cooler

Designed to reduce the oil pressure drop caused with most aftermarket engine oil coolers located in the radiator. This kit will substantially reduce engine oil temperatures for street and race applications.

305379	Kit (ND)	614.95
305391	Adapter Only (ND)	99.95

Delphi Stock Spark Plug Wire Set

OEM Wire Set Features:

- Correct OHMS Resistance / Foot
- Correct Lengths
- Correct Premium Boots / Terminals
- Kevlar Wrapped Insulation / Superior to Fiberglass
- Stainless Terminals That Won't Corrode
- Includes Heat Tubes

305255..... 79.95

MSD 8.5mm Super Conductor Spark Plug Wire Set

- 40-50 ohms per foot of resistance
- High EMI suppression abilities
- Tough silicone/synthetic sleeve
- Durable, extra thick plug boots
- Dual crimp terminals grip the wire and conductor

Too-high resistance decreases the spark energy, yet too-low resistance will not suppress electronic noise which will interfere with other sensitive electronics on the vehicle. The MSD Super Conductor wire utilizes technology that provides the lowest resistance available in a suppression style spark plug wire. With this design, EMI is held inside the wire while more spark energy reaches the plugs.

305319 (ND)..... 89.95

Granatelli Performance Spark Plug Wire Set

- 0 Ohm resistance
- Patented design
- Solid stainless connector cable with stainless snap lock spark plug connectors, unique EMI/RMI protection ring
- The only true solid stainless steel core wire that works with today's computer dependent engine and all race cars.
- Increase power to the spark plugs, up to 400% over stock
- Improves mileage and throttle response
- High temperature silicone boots, 8 MM jacket with fiberglass-reinforced braid resists temperatures up to 500° F

305169 Set of 8 183.95

Packard Hi Temperature Spark Plug Wire Set

- Designed by GM specifically for high performance LS applications.
- Real horsepower gains over stock wires when using improved coil packs.
- Compatible with all OE electronics including radios and computer systems.
- All wire sets include new heat tubes and improved boots and connectors.
- All terminals are "dual crimped" maintaining integrity, even with multiple spark plug changes.
- Outer is heat resistant up to 600 degrees and will not tear.
- Inner jacket designed to dissipate heat to ensure consistent spark.
- Center core is made with "Kevlar" fibers to eliminate breakage.
- Outer core is a copper alloy wrap that surrounds the innercore & carries 90% of the voltage

305274..... 99.95

Spark Plug Wire Protectors

- Ideal for protecting wires and boots from header heat
- Helps prevent misfiring
- Simply slide over existing wires and boots

305181 Titanium Set of 8... 79.95

305425 Black Braided

Set of 8 64.95

GM Performance Spark Plug Wire Set

- 8 mm Red Wires

305046 (ND) 93.95

POWER BOOSTER from

Bosch Platinum +4 Spark Plugs
Revolutionary firing technology provides multiple spark paths delivering the most powerful spark.

The four grounded electrodes provide optimal access to the air/fuel mixture for the most efficient combustion. Only Bosch uses a pure platinum center electrode that's heat-fused to reach its self-cleaning temperature faster, for smoother acceleration, top fuel efficiency and optimum engine performance. The electrode gap is factory-set and never requires adjustment.

305044 Set of 8 49.95

AC Delco Iridium Factory Spark Plugs

305032 (Set of 8) 69.95

Corvette Central recommends NGK spark plugs for street and performance applications. These plugs typically result in quicker throttle response and an overall smoother running engine.

Ignitability of V-Power Spark Plugs

"NGK's unique V-Power design directs the spark to the edge of the electrode where it can develop more rapidly. This allows easier and more complete combustion of the air/fuel mixture. The increased ignitability allows the engine to burn air/fuel ratios that would otherwise be too lean."

Iridium IX - The ultimate evolution of a performance spark plug.

It may be time to invest in precious metal futures. NGK Iridium Spark Plugs represent the ultimate evolution of spark plug technology and performance. Iridium allows for a center electrode 75% the size of a platinum electrode and 24% the size of a conventional nickel electrode.

305257 •NGK TR55 Spark Plug-Stock Set of 8 24.95

305271 •NGK TR55 Iridium Spark Plug-Stock Set of 8 79.95

304142 ••NGK T6 Spark Plug - Colder Than Stock Set of 8... 19.95

• = Stock heat range, gapped at .050

•• = One heat range colder than stock, gapped at .035. (Works well in Nitrous, Supercharger or High-Compression motors.)

HELPER EMISSIONS SYSTEM TERMINOLOGY

EGR - Exhaust Gas Recirculation: Exhaust gases containing unburned fuel are recirculated back into the engine to be re-burned.

ECM/PCM - Electronic Control Module: As the control center of the fuel injection system, the electronic control module constantly monitors information from various sensors, including the opening times (pulse width) of the injectors. It can diagnose operational problems, alert the driver through the "check engine" light, and store a code which identify the problem areas to assist in making repairs.

A.I.R. - Air Injector Reactor (Smog Pump): A belt driven pump that injects cool outside air to the exhaust valves to promote combustion of unburned fuel.

M.A.T./I.A.T. - Manifold/Intake Air Temperature Sensor: Measures air coolant temperature and signals computer to adjust fuel mixture.

Powermaster XS Torque Starter

Powermaster's highly efficient XS Torque starters feature extra-powerful motors that churn out up to 200 ft.-lbs. of torque. Coupled with their 4.4:1 gear-reduction ratio, that adds up to reliable cranking power for engines, up to a whopping 18.0:1 compression ratio. These starters come with a billet adapter/mounting block for durability. They'll also clear your oil pan if the OE starter did.

Important

Electrical components such as coils, spark plugs, wires, ECM's, switches and sensors are

NON-RETURNABLE PARTS

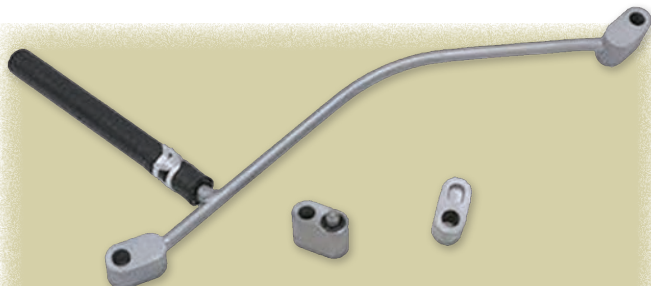

Always refer to a factory service manual when diagnosing engine service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.

Tune Up Kit

C5 tune up kit includes genuine AC-Delco air filter, fuel filter, oil filter, PCV valve, spark plugs and original-stye Delphi Packard spark plug wires.

Electronic Control Module (ECM/PCM) Repair Service

• Includes Flash

As the control center of the fuel injection system, the electronic control module constantly monitors information from various sensors including the opening times (pulse width) of the injectors. It can diagnose operational problems, alert the driver through the "check engine" light, and store a code or codes which identify the problem areas to assist in making repairs.

305267	01-03	Power Control Module/ECM 229.95
305199	04	Power Control Module/ECM Repair Service (ND) 299.00

When sending in exchange, the ECM must not have any visible evidence of damage or fluid intrusion. Keep the chip out of your original ECM.

Allow three weeks for service.

We will need your V.I.N. number when ordering these modules; the price includes having the module "flashed" with current updates and specs for your car. This is drop shipped to you from our vendor after the unit has been flashed.

Why Should I Reflash My C5 Corvette's Engine Computer?

For approximately 5 years after a vehicle's production, GM produces software updates for the engine management system (PCM/ECM). These are updates learned from driving the car and feedback from engineers and dealers, as well as customers. These updates were previously only available from a dealer at a high cost. These updates are similar to updates that Microsoft sends to their customers via the Internet. Unfortunately your Corvette is not connected to the Internet.

When the PCM/ECM is reflashed the original software is reinstalled along with all factory updates. There can be up to 14 or 15 updated files for an individual car. These updates include:

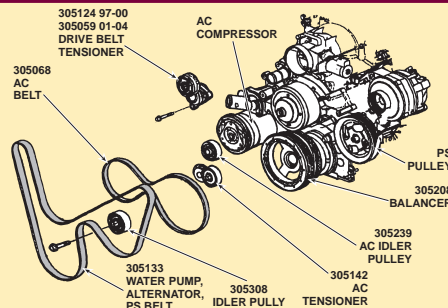

- Engine Fuel Management Optimization
- Hot Start Fuel Idle Issues
- Transmission Shift Point Changes
- Speedometer Error Corrections
- Design Defect Corrections
- Clears Trouble Codes
- Improvement in Fuel Consumption
- Better Overall Performance

In addition, all software in a computer tends to deteriorate over time and needs to be reinstalled to bring back original performance and operational speed.

GM estimates that over 25% of their cars on the road need a PCM/ECM refresh. Corvettes are much higher in % since so few are taken to a dealer.

All programming takes less than 1 hour and is vehicle specific, that is, it is based on the car's VIN # (Vehicle Identification Number). **Note, cars which have had a computer "tune" cannot be reflashed without removing the "tune"**

Get your Corvette "flashed" to bring it up to maximum performance!

PRODUCT**

Fast-Flash™ Power Programmer

- The VCM Editor Utility is a comprehensive VCM/PCM programmer and parameter editor
- The VCM Scanner Utility is a fully featured OBDII scanning and diagnostic tool
- VCM Suite is the complete package
- Comes with 9 credits installed
- Unlock the full potential

VCM Suite is designed for both the home enthusiast and the professional tuner shop. The product is easy to use and has many powerful features usually found in custom tuning ship software!

The VCM Suite Editor is a comprehensive VCM/PCM programmer and parameter editor that allows the user to not only flash and save memory but also modify the saved images. Editing parameters such as spark, fuel, rpm, limits, fan temperatures, shift points, and speedometer settings are just a few of the changed available with the VCM Suite. For the professional the PRO VCM Suite includes additional features that allow the user complete control over the VCM/PCM software.

Minimum Requirements:

1.5 GHz CPU

2GB RAM

Microsoft .NET Framework 4.0

305423 Standard HP Tuners VCM Suite Programmer (ND)499.00

305444 Pro HP Tuners VCM Suite Programmer (ND)649.00

SCT Power Flash Programmer

- Adds up to 12HP and 14 FT-LBS Torque
- Stores 3 Custom Tunes
- Huge Backlit LCD Display
- High Speed Data-logging/Monitoring
- Reads/Clears DTC Trouble Codes
- User Adjustable Vehicle Parameters
- Easy Restoration Back to Stock
- Dual Analog Inputs
- Most Popular Vehicles Supported
- Installs Quickly and Easily
- USB Interface Cable Included

The SF3 Power Flash arrives Pre-Loaded with Dyno Proven tune files that increase horsepower and torque! Programming your vehicle with one of SCT's pre-loaded performance or fuel economy tune files is as easy as 1-2-3. Simply plug the OBDII connector into your vehicle's OBDII port, select the pre-loaded tune file using the simple to navigate menu and within minutes the SF3 programs your vehicle.

305406 (ND) 399.95

Diablo Sport In-Tune Programmer

- Free Automatic Online Updates for Life
- Drag and Drop File Transfers (tunes, updates, etc...)
- Fastest Programming Available
- Easy to Use
- Removable Cables for Simple Storage
- External Sensor Inputs (0-5v analog devices)
- Virtually Unlimited Custom Tunes (based on memory)
- Fits in Your Pocket-Smaller Than Your Average Cell Phone
- Preloaded with Multiple Tunes for Each Application
- Features Diablo Sport's "Vehicle Protocol Engine"
- Includes Mileage Booster and Throttle Booster
- Warranty Safe-No Watermarks, Fingerprints, or Counters
- Virtually Unlimited Data-logging (based on memory)
- 1 Year Warranty
- USB Connectivity

Diablo Sport in-Tune advanced handheld programmer features dual processors and more than 1GB of memory. Powerful and reliable. Designed to improve power and fuel economy. It also offers data logging, compatibility with custom tuning, a wide range of adjustable parameters and extensive diagnostics. Designed, engineered, and manufactured in the United States, it is wrapped in a stainless steel case.

306170 (ND) 379.95

Hypertech Max Energy Power Programmer

- Delivers Maximum Horsepower & Torque
- 50-State Emissions Legal
- Easy Plug & Play Installation

Now you can get the most from your C5 with Hypertech's Max Energy Programmer. Use every molecule of fuel, both a part throttle as well as wide-open throttle. Hypertech's Max Energy Programmer allows you to set engine cooling fan on/off settings, set top-speed limiter, engine RPM "Rev" limiter and even transmission shift points and firmness. Hypertech's Max Energy Programmers also allow you to return to stock settings or change settings anytime. Have you changed your tire and wheel size or differential? If so, then you can make your speedometer corrections by using Hypertech's Max Energy Programmer.

LS1 / LS6 Heavy-Duty Oil Pump

- Ported and Blueprinted

This helps keep oil temperatures down, increasing engine-component longevity and reducing power-robbing oil shear. Each pump is fully disassembled, and then its individual components are inspected and cleaned in a heated, dual-frequency ultrasonic cleaner. Finally, expert technicians pre-lube all critical assembly points with a leak-resistant moly lubricant and re-assemble the pieces to GM blueprint specs. The completed pumps feature a corrosion-resistant coating and bears a unique serial number corresponding to their batch, build date, and assembly tech. No other oil pumps offer this combination of features - at any price! Note: Strongly recommended for use with our head and cam package or with any other high-performance LS1, LS2, LS6 applications.

Meziere Electric Water Pump

The high flow electric water pump for the LS1 and LS6 engines is here. Track, dyno, and most importantly, street testing has proved engines run cooler at low speeds and gain high end horsepower when running Meziere's bolt on LS1/LS6 pumps. In addition to the released power, you get to keep all of your factory accessories. Features a dual bearing belt idler, billet parts throughout, and a "weather-tite" electrical connection. The unit is available in these colors: black, red, blue and polished; and is backed by a two-year warranty.

Coil Relocation Kit

- Includes black anodized brackets and stainless steel hardware
- Includes MSD (8.5mm) wires

Katech Inc. designed coil relocation brackets to attach to the back-side of our aluminum valve cover. This kit was designed to leave the cover bolts accessible for easy removal and installation of the valve cover assembly. Also included in the kit is a set of 8 MSD spark plug wires. These wires retain the same resistance as the factory wires so there won't be any interference with other delicate electronic devices. Recently updated with a new modular design, these brackets slide on a rail to accommodate any setup.

Carbon Fiber Look Engine Dress-Up Covers

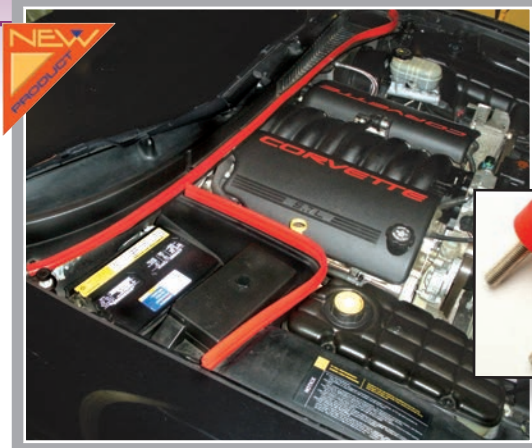

Battery Covers -
See Page 34

Multi-step finishing process that includes:

- Sanding and cleaning the part
- Special primer applied
- Carbon fiber is wrapped onto the part via water transfer printing
- Parts are washed, dried, then three coats of PPG UV automotive clear is applied
- Parts are scuffed, then two final coats of clear
- Inspected then buffed to show quality shine
- Lifetime warranty against cracking, peeling, or fading

Result is a better quality product than real carbon fiber and is always a perfect design.

tech.corvettecentral.com

Gain an amazing 20.7 HP with Magnaflow's C5 Corvette Cat-back system featuring large diameter mandrel-bent stainless steel tubing. The system includes two Magnaflow Mirror Finish Performance Mufflers in a "True Dual" outlet configuration. Exhaust exits out of 2 sets of twin polished 4" tips. System halves are joined by a billet nameplate and high-flow X-pipe crossover that balances exhaust flow and further enhances Magnaflow's horsepower gains. No Baffles, No Chambers, No Louvers and No Restrictions. Just Straight-Through Wide Open Performance with an Aggressive Smooth, Deep Tone. Lifetime Warranty.

Magnaflow Wide Open System

Magnaflow X-Pipe with any system also fits stock systems.

PRODUCT

Sweet Thunder Chambered Exhaust System Muffler/Rear Section

- Streamlined mandrel bends with shallow angles reduces back pressure and a larger crossover passage to maximize exhaust system balancing
- The Sweet Thunder Exhaust System uses all the factory hangers
- The integrated chambered muffler specifically designed for the C5 allows for a cleaner tight fit without sacrificing flow or sound
- Bolt-On exhaust system for enthusiasts looking for performance and sound utilizes 2-1/2" 14 gauge aluminized tubing throughout
- Exhaust tips are made from 300 series polished stainless steel formed to fit the factory opening

Sweet Thunder Mandrel Bent Rear Section Exhaust System with the great classic muscle car sound. No doubt those not lucky enough to be driving your Corvette will end up seeing this view of the highly polished stainless tips and the second pair of chambers pumping out that Sweet-Thunder V8 tune!

CORSA Performance "Power Pulse™" Muffler System

ROUND TIP

PRO SERIES TIP

TIGERSHARK

Systems include hardware and mount to your original hangers.

We suggest these systems be used with the part # 325043 X pipe for best performance and to eliminate any burble or popping on deceleration.

"Power Pulse RSC™" System Features

- Choice of 2 systems
- Choice of 3 tip options
- Powerful sound under acceleration-quiet stock sound during cruise
- Custom tuned to eliminate annoying 1500-2000 RPM cabin resonance
- All stainless steel construction with smooth plasma welds and polished tips
- Easy bolt on installation with no cutting
- Will not void new car warranty
- Limited lifetime warranty

CORSA'S Power-Pulse RSC™ cat-back systems use breakthrough reactive sound cancellation technology! It cancels offensive noise frequencies (cabin resonance) yet delivers the pure sound of power under acceleration and delivers a pleasing exhaust note at idle. By eliminating the baffles, chambers and packing material found in conventional mufflers, Corsa systems provide 45% more flow than the factory system. Corsa also adds the visual appeal of highly polished exhaust tips. Corsa systems are available in the Touring version and Indy system. The Touring system is music to the ears of a true performance enthusiast.

Looking for a little more sound?

CORSA PERFORMANCE manufactured the exhaust system that was used on the actual 1998 Indy 500 Corvette Pace Car! The Indy system is a louder version of the "Power Pulse" and has a somewhat bolder and more aggressive sound. Both systems run without resonance at cruising speed. Limited lifetime warranty to original purchaser. Power-Pulse RSC™ Patent #59525625.

PRT

**Aggressive at WOT,
Mild at Cruise**

The Billy Boat Performance Exhaust PRT after-cat system employs exhaust technology unique to the aftermarket. So unique, in fact, it doesn't use a muffler at all. The Billy Boat Performance Exhaust PRT system is simple in design, though more complex in theory, which suggests that you can have a mellow sound at cruising speeds and a sport note when you're tearing up the streets. It allows true straight through exhaust passage under aggressive driving conditions, through a mellow sound is emitted at cruising speeds thanks to the unique Purge Chamber. This Billy Boat Performance Exhaust PRT system works purely on physics without mechanical devices to direct exhaust flow.

- 325090 Quad Oval Tips-Pair (ND) 1,149.95
- 325074 Quad Round Tips-Pair (ND) 1,239.95
- 325151 Speedway Tips-Pair (ND) 1,149.95

Billy Boat Performance Exhaust has created the most aggressive C5 performance exhaust system to be released - the **BULLET!** Not for the meek or mild, the Bullet has quickly become the industry standard for a deep, aggressive muscle car sound on the C5. You can see up to 18 rear wheel horse power and 17 foot pounds of torque from the Bullet. With Billy Boat Performance Exhaust's boldest tip style and configuration insure the C5 will scream "muscle car."

Fusion

The Fusion is a bi-modal exhaust system, meaning it has two passages, or modes, that the exhaust can travel through the muffler. Each of the mufflers has two outlets, with one side having a butterfly type valve which allows the exhaust flow to be shut off, regulating which side of the muffler the flows exhaust. One side of the muffler is the "quiet" side, and one side is the "loud" side. The "quiet" side is a smaller, muffled and chambered tube, while the "loud" side is 3" tubing straight through.

and Mid-Section Pipe System**

Kooks Long Tube Headers

With their first custom bends in 1962, Kooks gained the reputation of building the highest quality and best performing headers and exhaust systems available. Fast-forward 40-plus years and you'll find that same level of excellence in their designs for the C6 Corvette.

304 stainless-steel headers feature 3/8" laser-cut flanges sprouting mandrel-bent primaries to move spent gases out through 3" merged collectors plumbed with emission fittings. We recommend 1-3/4" for stock or engines modified with an air intake system, 1-7/8" if running aftermarket cylinder heads and camshaft.

Note: Installing long tube headers requires replacement of factory mid-section exhaust. An ideal upgrade is Kooks' 304 stainless high-flow catalytic converters with X-crossover and mid-section pipes.

High Performance Styling!

- Stainless Steel, Black or Zinc Chromate Finish

Now you can incorporate the 'screened' styling of the Z06 front air intake for your Brake Duct, Side Coves and Rear Bumper with these innovative, custom-designed screens. Made of a die-cut, high-grade 304 stainless steel, just like the factory Z06 grilles. Easy pressure-fit installation requires only minutes with provided instructions. Inner skirt must be removed to install side vents.

"Clean Shield" Trash Catcher

Allows Front Spoiler To Work Correctly

The Clean Shield is designed to eliminate 80% of the debris that gets picked up while driving your Corvette on the street or track. The Clean Shield saves possible costly engine repairs by stopping debris before it can block the airflow to the radiator and cause engine failure due to overheating. It is satin finished aluminum.

335028	109.95
---------------------	---------------

Radiator Protection Screen

Protect and enhance the cooling capacity of your C5! Deter road debris from invading the underside of your front end with our innovative Aluminum Shield, grated and custom-fitted to protect the area without inhibiting essential airflow. A clogged radiator and/or condenser will result in poor air circulation, which may create overheating conditions, inferior overall performance and costly engine repair. Easily installs with existing bumper bolts and provided instructions.

Convertible Wind Restrictor

- General Motors Licensed Product
- Lifetime Warranty
- Custom options such as logos and lighting available
- Made in the USA

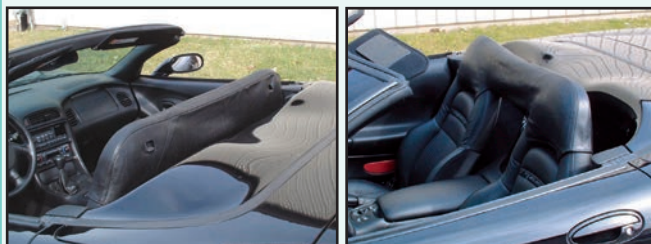

Wind Restrictor is an amazing, unique and durable product that blocks as much, if not more, wind turbulence than the factory OEM mesh net windscreens and helps to maintain the temperature inside of your roadster when the top is down. It can remain in place with the convertible top up and is mounted solid yet inconspicuously without any permanent alterations. Made from double-sided AR Polycarbonate, a very durable acrylic type material is also scratch resistant!

Rear Brake Air Duct System

Designed to be installed over your existing rocker panel, this system channels cool air directly to the rear brakes reducing the chances of over heating under extreme conditions. Kit includes fascia and ducting. Template is placed and marked on the lower panel. You can use a dremel to cut the opening on the rocker panel, the rear wheel wells are removed to be cut to slip the duct through. The outer duct can be secured with a 2-part epoxy.

145148 Pair (ND) 359.95

Rocker Enhancement Kit

ACI has redesigned their great looking C5 rocker kit, cutting the installation time in half. Now you too can transform your car at half the labor cost. The new rocker kit comes complete with illustrated instructions allowing a skilled body tech to install the rocker kit with minimal alteration to the original rocker. Make the rocker kit functional by sending cool air to the rear brakes. Order rear cooling ducts part #145008.

145003 Pair 629.00

145008 Brake Cooling Ducts for 145003 Rockers (2 pc. set) ...389.00

Bumper Spears

Break up the large surface area of the rear bumper with these moldings that are styled after the body side moldings. Adds definition and style to rear view of any C5.

145134 Pair (ND) 169.00

Important Note:

All fiberglass replacement parts are considered collision parts and should be fit to the car before final finishing.

It is normal for these parts to have chips, scratches, and even minor cracks when received. This is considered to be normal and not a reason for part replacement.

+ = Ships Truck Freight

NOTE: There may be a packaging charge on fiberglass items. Some items require a special box to insure that you receive the items undamaged.

Form With Function

Front Fascia Winglets are used at the track to provide down force on the front nose of race cars. C5 Front Fascia Winglets, are the "Streetable" version giving your C5 that racing look. Made of fiberglass with a gel-coat finish, these Winglets just need to be primed and painted to color match your car. Easy bolt on installation.

145130 Front Fascia Winglets-Fiberglass, pr.....299.00

"Lowered Illusions" Rocker Panel Extensions

ACI's bolt on C5 Side Skirts installs in minutes giving your C5 an aggressive lowered look without actually sacrificing ground clearance. Rocker panels are fiberglass, just need to be primed and painted to color match your car. Easy bolt-on installation.

Fiberglass Repair Kit

Bondo Fiberglass Repair Kits have everything needed for the Do-It-Yourselfer, including easy How-To directions.

141169..... 28.95

Hard Setting Epoxy Repair

A two part high strength epoxy adhesive, filler, and surface designed for bonding or repairing SMC, rigid plastics, fiberglass, steel, aluminum, glass, and other rigid type materials.

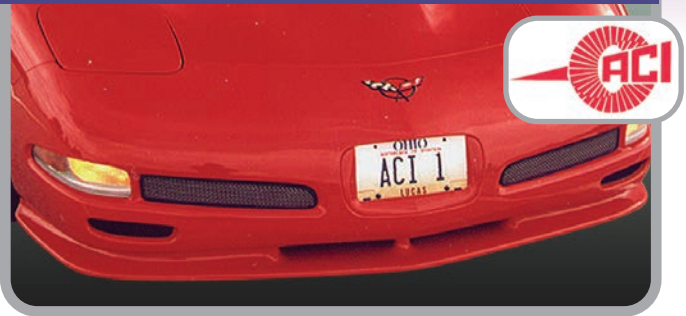

141061..... 33.95

+ = Truck Ship Items are shipped freight prepaid from our supplier, and orders must be prepaid.

*** = Dropship Only**

NOTE: There may be a crating charge on some fiberglass items. Some items require a special box to insure that you receive the items undamaged.

STYLING WITH ATTITUDE

Motorsport Front Spoiler

Give your C5 front end the aggressive look it deserves with this new Front Spoiler. Simple bolt-on installation using the included mounting hardware. And it's functional too! This Front Spoiler directs more fresh air under your hood to your air cleaner. Ground clearance is 5-1/2". Made of gel-coated fiberglass...simply prep, paint, and install!

145011 Front Spoiler 389.00

When installing custom fiberglass panels, be aware that all Corvettes do not come from the factory with exact identical body dimensions. Therefore when replacing or adding any custom fiberglass parts to your Corvette, it is recommended that you fit these parts to the body before you begin painting. This will help assure a quality appearance to your restyling job and avoid installation problems after painting.

The same procedure is also recommended when using factory replacement panels such as bumpers, hood, etc.

Underguards/Skid Plates - Frame Protectors

• Ball Milled Mandrel Bent Aluminum • Watch for Imitations

Save your Corvette's underbody from undue damage with a set of underguards! Lightweight aluminum milled units with incorporated jacking pucks so they install with no modification in approximately 30 minutes. Direct bolt-on 1/2" guards attach to the frame rail with provided mounting hardware and detailed instructions. An absolute must-have for lowered Corvettes! Sold in pairs.

Coupe/Hardtop Waterfall Extension

This C5 Corvette Waterfall Extension is designed to simply press down behind your seats on your C5 Coupe, C5 Z06, or C5 Fixed Roof Coupe. This waterfall extension will give your coupe the same look as the convertible interior. This is a very classy and very easy upgrade.

485009..... 479.95

Check Out This Tail!
ACI has finished what GM started!

Many C5 owners take issue with the large blank area below the tail lights of a C5. The area appears to just "hang" there. ACI has repositioned the license plate and tail light pockets, effectively redistributing the bumper surface area. Notice the added detail in the lower muffler vent area. To complete the look as shown below, add ACI's C5 Rear Spoiler (#145223) and Underwing (#145015).

Fuel System

**MSD
Air Force**

**NEW
PRODUCT**

- Polymer material resists heat soak and minimizes weight.
- 103mm Throttle bore allows the use of large throttle bodies for greater air flow.
- Direct flow path runner design promotes maximum airflow.
- Allows for the use of stock fuel rails, aftermarket rails including the Atomic LS EFI.
- The two-piece manifold design provide convenient access to the runners for porting.
- Designed using Computational Fluid Dynamic Modeling to create optimal plenum volume and efficient air flow paths.
- Patent Pending CARB Pending.

When you're serious about power for your C5 engine, call in the AirForce! The all-new MSD Atomic AirForce intake manifold delivers improved airflow and distribution to improve the performance of stock and modified engines.

The unique bell-mouthed runner entrances maximize airflow and minimize shrouding - all while optimizing the available plenum volume for an unobstructed flow path over opposing runners. The polymer molded 2-piece design allows for easy access to the runners for porting.

Atomic AirForce accepts an OEM or 103mm throttle body as well as stock or aftermarket fuel rails including MSD's Atomic LS EFI system. The intake bolts on and is supplied with new gaskets and hardware for a direct bolt-on package.

**FAST
LSX Intake**

- Increases Horsepower over stock manifold with no loss of drivability or low rpm torque
- Incorporates high-quality polymer materials which resist "heat sink"
- Maximizes potential of other popular engine performance upgrades such as cylinder heads
- Significant bolt-on performance gains in stock applications and gains upwards of 25+ horsepower in larger displacement or highly modified combinations
- While it features a 102mm air inlet, it can be used with 90mm or 92mm throttle bodies

The patented Fast LSX Intake Manifold is a three-piece advanced polymer material manifold proven to deliver increased performance without compromising bottom-end drivability or high rpm power. The Fast LSX Intake Manifold maintains the performance gains achieved over stock intake manifolds with no loss in drivability or low rpm torque. While it delivers terrific performance right out of the box, it can be ported for even more flow. The intake features the added benefits of corrosion-free stainless steel assembly bolts, an improved throttle body sealing flange and o-ring gasket and threaded insert throttle body mounts that provide increased durability. The LSX comes with integrated nitrous oxide injector ports. In addition, the LSX manifold has the capability to be ported and is easily accessible as a result of the multi-piece design. Intake gaskets are included with the manifold.

Corvette Fuel Injection Book

This book is a hands-on guide to understanding, servicing and modifying your Corvette electronic engine management system. The heart of the Corvette is its' electronic engine management system, and this book explains that system. It covers fuel injection systems from 1982 L83 to ZR1 through LS1. Included are 112 pages of model specific wiring diagrams, trouble codes and test specifications along with hundreds of GM photos and illustrations. If you have an interest in electronic fuel injection systems, author Charles

Probst makes these systems easy to understand. 8 1/2 x 11 soft-bound, 380 black and white pages.

Fuel Pump Wiring Upgrade

This kit is designed to install into your C5 and overcome the losses associated with factory wiring to the fuel pump. Because of the heavy 12 gauge (stock is an inadequate 18 gauge) feed, sealed relay and attachment to the output stud of the alternator, extra voltage (on average 2.5 volts) and current become available to the fuel pump, increasing both fuel volume and pressure during WOT, when it's needed most.

Gauges

395027	Instrument Cluster Lens	INQUIRE
255101	Instrument Cluster Bezel.....	169.95

Machined Aluminum Gauge Bezels

• 6 Piece Set

Give your gauge cluster a new look and set it apart from the rest. Gauge bezels are precision machined from aluminum, then anodized to prevent oxidation and to provide a uniform satin finish. Set comes complete with bezels for the speedometer, tachometer, fuel gauge, temperature gauge, battery gauge, oil pressure gauge and a tube of adhesive for mounting the bezels.

395000	89.95
---------------	-------	-------

Instrument Gauge Cluster Rebuild Service

Is your 1997-2004 Corvette's dash cluster not working properly? Rebuild service includes: disassembly and inspection of unit, all-new bulbs, verification of electrical connections including chimes and switches. Gauges are then recalibrated to factory specs. Typical lead time is 10-14 business.

Hardtop

C5 Smoothline Hardtop

Complete, ready to install.

- The exterior finish is a smooth black primer coating which is compatible with all paints or an optional premium grade embossed haartz vinyl covering.
- The interior is upholstered with a thick black automotive felt. This soft material offers extra insulation in inclement weather and absorbs road noises.
- The rear window is AS-1 tinted safety glass.
- Premium grade fiberglass composite construction making a strong, dent proof, lightweight unit (35 to 45 lbs.) that can easily be lifted on and off the car.

HID Conversion Kit • Does Both Sides

H.I.D. (High Intensity Discharge) Conversion Kits have become one of the best personal investments in car accessories. HID Conversion Kits provide more than 300 percent the amount of light of a Halogen bulb. The 6K clear white light produced by our HID Conversion Kits is similar to daylight, reflecting road markings and signs better than conventional lighting. The Xenon Bulb is a micro-discharge bulb filled with a mixture of noble gases including Xenon, and life time of the bulb is equal to that of the car. The bulb has no filaments and the light arc is created by two electrodes, giving it a wider range of lumination. These fit directly into your existing headlights.

Quad Beam Headlight Relay Kit

- Provides Four Beam Lighting for Safer Driving
- Automatically Turns Low Beams On When High Beams Are Switched On
- Easy to Install

Why not take advantage of greater lighting by using your existing bulbs? This kit wires into your Corvette's high and low beam wires, no cutting is required, and then connects with two wires to your battery and alternator. It's as simple as that. Instructions included.

Fixed Headlight System • Lemans Style

Give your C5 a more contemporary aggressive appearance with this fixed headlight system. Now night driving can be as aerodynamic as day driving with flush mounted headlights. Low beam lights are DOT approved 160 watt units and high beams are CATS performance lights with a total of 360 watts. Kit includes aluminum brackets and durable acrylic molded lens covers. A heat and moisture reduction fan system is incorporated in each headlight module. Everything comes "pre-mounted" to make for an easy 2 to 3 hour installation. Paint to match.

CC will purchase your original take out headlight assemblies - INQUIRE

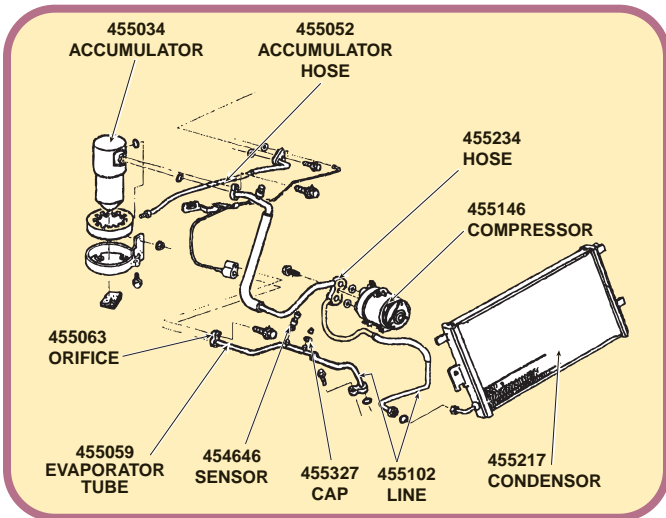

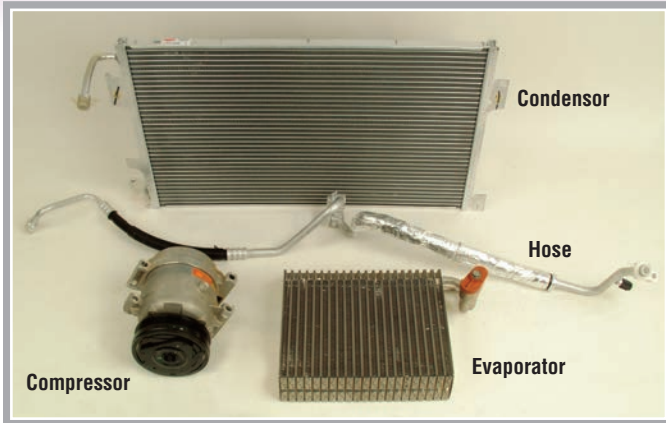

Racing Type Front Bumper Auxiliary Lighting System

- Paint to Match

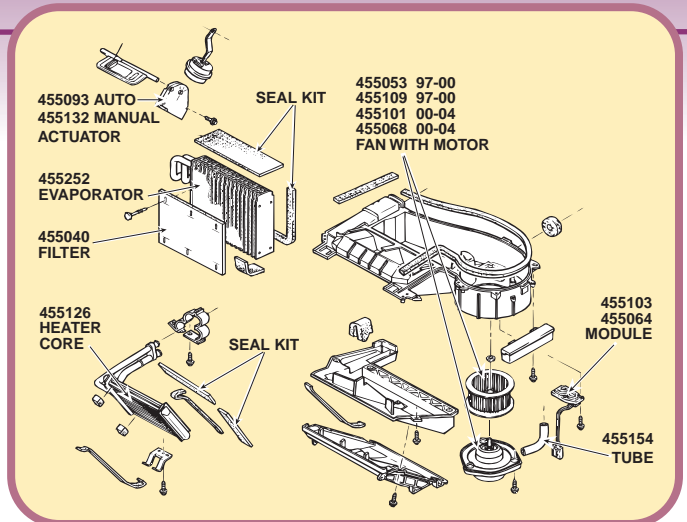

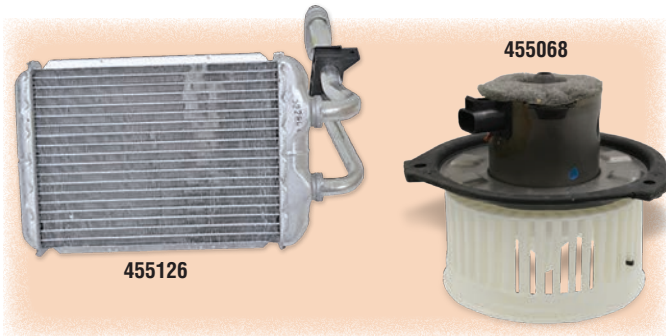

Custom C5 Racing type front bumper auxiliary lighting system. This lighting system mounts in the center of your front bumper with minor modifications. Kit includes two high-powered (240-wattage) hyper white halogen bulbs enclosed in a CATZ performance casing. In your installation packet you have: Custom aluminum bracket, fiberglass insert panel, clear acrylic lens cover with complete wiring harness for simple install. Both lights are fully adjustable. The kit has an easy four wire hook-up, which requires no alteration to your stock harness.

Door Panel Mount Repair Retainer

- Includes 6 Metal Retainers
- Quickly & Easily Repairs Broken Retainer Mounts
- Saves the Expense of Buying Used or New Door Panels
- CNC Machined Aluminum Retainer

Now instead of buying a new door panel for hundreds of dollars you can quickly and inexpensively fix a door that has the "top" of the mount broken off. Simply slide the ingenious aluminum repair retainer onto the bottom of the remaining mount, slip the retainer pin into the mount and the unit is held into place with a solid, but movable pressure fit.

Door Panel Armrest Cushion

- Adds comfort that the factory forgot.
- Ideal to use as an interior accent color.
- Installs easily with self-adhesive backing.

Styled after the 50th Anniversary Edition armrest, these cushions are made of color-matched leather for a factory look and have automotive grade foam for maximum comfort and years of trouble-free service. The base is made of soft ABS plastic which has a double-sided adhesive for installation.

Floor Mats

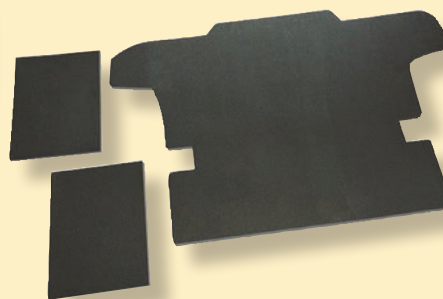

Perfor-Mats Molded Protection At Its Best!

Perfor-Mats were designed and created to be the ultimate Corvette floor mats. Perfor-Mats are made by bonding Corvette carpeting to a special waterproof backing and then trimming the mat with a surged edge. Perfor-Mats protect better than any other mat because they are molded with a "dish" design that traps dirt and moisture so nothing touches your carpet. Perfor-Mats are available in an exact OE color match. Because of their unique Design, Perfor-Mats fit exactly and won't move or slide. Sold as a two-mat set. Specify color.

135148	Plain, pr.	114.95

Add C5 Elegance to Your Cargo Area

The C5 Cargo Shade offers you the factory design, yet adds style to your coupe's cargo area. Black shade with embroidered C5 emblem not only finishes out the rear cargo area, but also protects carpet from the sun's harmful UV rays. Fastens easily with attached elastic loops, which hook onto the rear window.

485023..... 59.95

485144 Rear Cargo Net Retainer 4.95

Trunk Curtain

• Works on Convertibles or Z06/Fixed Roof Coupe Cars

It seems the designers failed to realize that any cargo thrown into the trunk, with the soft top retracted, could cause damage to the convertible top. The trunk curtain is made of a durable medium gauge vinyl contoured to fit this application separating any cargo from the convertible top. A 1/2" strip of velcro (hook) tape is stitched across the entire upper edge of the curtain. Four velcro (loop) strips with adhesive backing are provided to attach strategically to the inside 1" facing lip of the trunk. This allows for easy installation and removal.

135030-14 Black..... 29.95

Cargo Organizer Tray

- Keep Cargo Organized and Secure
- Friction Fit – In or Out in Seconds
- Sturdy Vac-Formed ABS Construction

If you are tired of items sliding around in your Corvette's rear storage area, our Rear Cargo Area Organizer Tray will keep your cargo secure, yet close at hand install in seconds with no tools or modifications.

Convertible Dress Up Hoops

- Polished Stainless Steel

These new hoops are made of high quality 304 stainless steel and have been hand polished and crafted to fit the factory convertible deck lid just behind the seats. They are a purely decorative part ONLY. The hoops have been time tested for strength of adhesion and reliability. They are simple to install in just a few steps.

335101 Pair 341.95

Brey-Krause Harness Mount Bar

- Type 304 Stainless Steel
- Powder-coated in durable black wrinkle-finish
- 17.3 lbs.

This harness mount bar properly locates and supports racing shoulder harnesses relative to the driver. In the case of an accident, it helps protect the driver's shoulders and spine. The harness guides also prevent excessive shifting and fatigue of the driver during the high G loads of cornering and braking. This bar is easy to install and remove, use only existing holes and mounting points.

485082 (ND) 539.00

Quick Release Fire Extinguisher Mount

- T6 6061 Aluminum
- Mount with 4 bolts to existing brackets or any surface
- Holds a 2.5 pound AMEREX model 417 extinguisher or any 3" diameter bottle

481032 (ND) 259.00

Sport Latch & Link System Racing Seat Belt Harness

- 5 Point Race Belts, SFI Tagged and Certified

Sport Latch & Link belt system uses drop-forged alloy steel latch and link mechanism Latch and Link and includes high-quality adjusters and pulls. The Sport harnesses have polyester webbing, which still offers maximum protection with minimum elongation and passes SFI 16.1 certification. Belts are pull-down with wraparound belt mounts but interchangeable bolt-in brackets are included.

D 3D Door Sill Domed Emblem

These are not just vinyl decals. They are a three (3) dimensional decal that looks like a factory manufactured emblem. Available in various colors. They look great! Inserts are made of the highest-grade material available by 3M and Avery graphics. Each process goes through an extensive quality control to ensure that you're getting the very best there can be. No yellowing, color fading up to 5 years guaranteed (tested). Clean surface as advised in instructions then just peel and apply it to any flat surface, it's that easy.

3rd Brake Light Pulser

These devices are full "Plug-N-Play" harnesses that simply plug into your existing Center High Mount Brake Light. There are no wires to cut, and no adjustments to make. The module automatically pulses your third brake light when you apply your brakes. The light will pulsate on and off for about a second, then stay on steady for as long as you press the brake pedal. The "Delay-Repeat" circuit means the brake lights have to be off for at least 10 seconds before the cycle can be restarted. So, if you are in bumper-to-bumper traffic, the brake light isn't always pulsing.

495045..... 59.95

495102 Turn Signal/Parking Light Socket14.95

Turn Signal Lamps

Upgrade your factory C5 factory turn signal lights. These lights put a twist to the traditional factory style lenses by having a clear lens that have a chrome inner housing. It is a subtle yet significant style change and it gives a fresh new look to the overall appearance of the car.

LED Tail Lamps

A Bright Idea for Your C5

If you're looking for a way to set your C5 apart from the rest, we have a new set of LED tail lights that will brighten things up. Tail lights feature LED bulbs that are much brighter than the factory units and have multiple light sources around the housing as well as in the center of the lens. These tail lights fit C5 models and easily plug into the factory wiring harness and bolt in place. It's an easy way to upgrade your Corvette's appearance while adding a measure of increased safety.

Tail Light Seals

Tired of having that extra drip down your rear bumper after you're done washing and drying your Corvette? Can't understand why Chevrolet didn't seal them in the first place? C5 Tail Light Seals can eliminate that drip! C5 Tail Light Seals eliminate the drip and requires no permanent modification of your Corvette. They create a water tight seal between the tail light and the bumper. They are made from high quality silicone rubber and are adhesive backed. Kit includes 4 seals, enough to complete 1 car.

- 6061-T6 Billet Aluminum Base, CNC Machined Billet Stainless Steel Stick
- Adjustable Throw Stops to Eliminate Over Travel
- Accepts Factory Knob (Knob Not Included)

B&M Short Throw Shifters are engineered to increase shift precision and substantially shorten the 6-speed shift throw in your C5 Corvette. Flawless, firm shifts coupled with highly durable components will provide smooth transmission performance. Installation takes about an hour with basic hand tools. Instructions included.

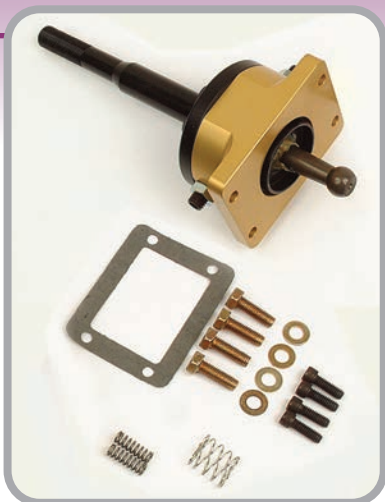

535024 (ND) 319.95

97-04 Automatic Shifter Cable Repair Bushing Kit

- Repair shifter cable without replacing it
- Replaces worn or disintegrated factory inserts
- Snaps in place in seconds
- No tools required

535100 Set of 2 23.95

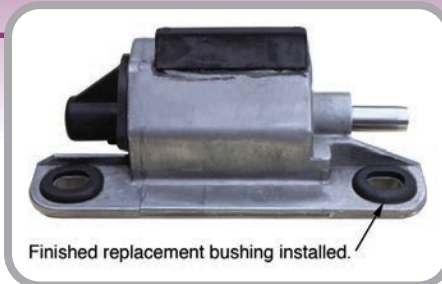

Hurst 6 Speed Shifter

The Hurst Billet/Plus shifter incorporates a high ratio pivot mechanism for reduced shifter throw, and patented adjustable bias spring loads for ease of operation. Features only the highest quality workmanship, design and materials.

- Provides shorter and quicker shifts by reducing knob travel 30%
- Custom dedicated fit eliminates any vehicle modifications for ease of installation
- Accepts stock Corvette shift knob and boot
- Self-centering alignment improves 2nd to 3rd gear changes to reduce the chance of "missed shifts"
- Positive gear stops eliminate over shifting to help prevent internal transmission damage

535105 (ND) 309.95

6 Speed Shifter Box Bushings

The OEM rubber bushings on the C5 and C6 Corvette manual shifter boxes often need replacement after only a few years. The symptom is excessive or sloppy shift lever movement and difficulty in up shift/down shift, excessive vibration or "rattling" of the shift knob.

Included in the kit are:

- (4) High quality replacement rubber bushings: 2 to install and 2 extra for future use.
- Detailed, colored instructions. The shifter box hole requires minor modification to prevent damaging the bushing in normal use.

Lingenfelter Adjustable Launch Controller

This Dual RPM Launch Controller is a true 2-Step spark based RPM limiter for use with LS based engines and ignition systems. It provides the ability to control a primary and secondary RPM limit setting. This will help provide consistent launch RPM off the line in drag racing and other standing start racing applications. In turbocharged applications it can also be used to load the engine and help build additional boost off the line. The Launch Controller can also be used as an adjustable individual cylinder RPM limiter, providing reliable and fast acting spark based engine RPM limit control. See our WEBSITE for more info

CAGS 6-Speed Skip Shift Bypass

The CAGS (Computer Aided Gear Selection) is a built-in system that automatically upshifts from first to fourth gears between 15 and 20 MPH. The CAGS plug kit will disengage the CAGS feature as well as seal the skip shift solenoid and factory connector. The plug prevents contaminants from entering the solenoid and causing a malfunction. No permanent modifications are required to install this product, and you will be able to reconnect the system if so desired. Installation instructions are included. Installation time is less than an hour. Emissions legal in all 50 states.

Note: This kit will prevent the CAGS solenoid from engaging but the "1 to 4" light on the dash will still illuminate when skip shift conditions are met.

535057.....17.95

Official GM Licensed C5 Shift Knobs (2.25")
Fits All Stock and Most Aftermarket Shifters

Emblem is embedded in the top of the knob

Shifter Knob-Black 6 Speed with Logo and Script

- OE fit 2 1/4" Shift Knobs
- Will work on Automatic Shifters when used with Adaptor (Corvette Central P#535131)

Threads right on to the stock shifter and all aftermarket shifters with 9/16 x 18 threaded shafts. Fits better than OEM and allows you to adjust the height +/- 1" and never feels hot or cold. Lock nut included. Ball C5 flag embedment with C5 script.

Pfadt's Transmission Brace

Hold the powertrain in place like never before with this uniquely designed transmission brace. This mount reduces the massive powertrain shake (sometimes mistaken as wheel hop) that is common in the C5 Corvette.

An excellent solution for high horsepower or performance driven Corvettes. It bolts to the differential to limit powertrain movement and reduces the load on your half-shaft and other driveline components. The Transmission Brace is constructed with 6061 T6 aluminum and anodized for maximum durability. You can couple this transmission mount with Pfadt's C5 Engine Mounts for an unbeatable package.

535086 (ND)	559.95

B & M Shift Improver Kit™

- For Automatic Transmission

B&M has developed a transmission shift kit that provides crisp shifts and eliminates shift overlap on your stock transmission. This kit will also improve transmission life by reducing excess wear on clutches and bands. Easy installation, requires removal of the transmission pan and valve body. Transmission removal is not required. At the time of installation, you may select one of two stages of shift modification.

Stage 1: Heavy Duty – Provides firm positive shifts without loss of driver comfort. Recommended for street use.

Stage 2: Street/Strip – Provides very positive shifts for high performance street use or competitive events. Shifts will be the hardest, quickest shifts possible.

Clutch & Related

Lingenfelter Clutch Pedal Return Kit

The C5 & C6 factory clutch systems have had issues with the clutch pedal going to the floor under high RPM use and not returning to the correct position. The Lingenfelter Clutch Pedal Return Kit will solve this problem and is fairly easy to install. The Clutch Pedal Return Kit includes a stainless steel spring with a dampening sleeve to prevent noise.

RAM Street Dual Clutch System

RAM Clutches builds dual disc clutches for the fastest Pro Stock and Pro Mod race cars in the country! Now you can have this technology for your streetcar with the RAM Street Dual. The RAM Street Dual is a must for applications using big power adders or superchargers, or just a moderate powered street car that needs a smooth engagement. System includes pressure plate, discs, floater plate, and aluminum flywheel. Units are balanced to factory specifications and ready to install. Exclusively from RAM. Made in the USA.

535136	Force 9.5 (ND)	975.00
535119	Force 10 (ND)	1,489.00

Force 9.5 are suited for applications with up to 800 horsepower, while the 10.5 is for use in vehicles with up to 1050 horsepower.

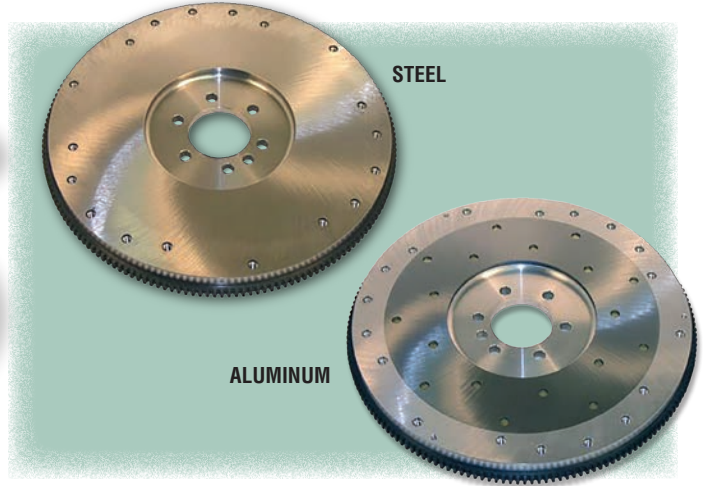

"Tick Bleeder" Remote Clutch Bleeder Line

"One Man Job" Remote Clutch SPEEDbleeder Line. At 4'+ in length, you're able to route the line to nearly anywhere on the car you want.

A huge improvement is the end allowing you to simply crack it open one time and close it once the air is out of the system, instead of having to open and close the bleeder with every pump of the pedal.

535090 (ND)	49.95
-------------------	-------

See our **WEBSITE** for info.

Flywheels

535098	RAM Billet Steel (ND)	285.00
535159	RAM Billet Aluminum	439.00

RAM generally does not recommend aluminum flywheels for street use unless it is an autocross type of car. All RAM flywheels are surface ground and factory balanced to the engine.

Which Flywheel To Choose? Aluminum is best for general use or road racing. Steel is best for drag racing.

ND = No Discount

Bump Steer Adjustable Tie Rods

Especially effective for lowered cars, but beneficial to any car that has modified suspension geometry. Allows adjustment of tie rod-to-spindle attachment point to help eliminate "darting" that occurs when a loaded suspension reacts to road surface irregularities (seam, pothole, etc.). Includes pair of rod end bearings, sleeves and hardened pins to replace outer tie rod ends.

574101..... 159.95

Stock Front/Rear Spring Adjust Bolt

- 1997-2013 Front
- 2005-2013 Rear
- Reproduction of original
- Not available separately from GM

575020 Set of 2 34.95

Adjustable Camber System

It's a known issue that the factory eccentrics are prone to slipping. This camber kit allows you to achieve the maximum negative camber and eliminates the eccentrics so that the the settings don't slip. You'll be able to get more negative camber with this kit than is possible with the stock set up.

This kit replaces the bolts on the front upper a-arms with stainless steel studs and we provide stainless steel shims to set your desired camber and caster. The lower eccentrics are eliminated and the bolts are locked into their maximum position using a set of off-set plates. For the rear they provide a set of shims for the eccentric to dial in your alignment and make it stick.

Hyperco Performance Tuned Composite Leaf Springs

Computer Designed, Track Tested and Race Proven

- Out Performs Factory Original
- Better Ride Quality Than Original Spring
- Manufactured by North America's leading manufacturer of racing suspension components.

Ready to take your Corvette to a new level? "Street" composite leaf elevates cornering ability, road feel and initial response-all while maintaining a comfortable ride. Delron pad height adjusters provide a wide range of set-up options. 565 lbs. rating. "Track" series is optimum for autocrossing, track days and competitive racing. Rated 625 lbs. front/850 lbs. rear. Adjustable ride height for dialing in level of performance.

575103	Front-Street (ND)	749.00
585088	Rear-Street (ND)	749.00
585151	Rear-Track (ND)	749.00

High Performance Tie Rod Ends

- A Must for Performance Handling
- Reduces Torque Steering
- Reduces Hub Bearing Wear

These heavy duty rod ends are head and shoulders above the stock rod ends for several reasons: a) they withstand heat better, b) they have a much better side load capacity, and c) they give longer threaded shafts to accommodate cars that are lowered. For best performance replace both the front and rears. If you're on a budget, replace the rear ones. They wear faster than the fronts.

Johnny O'Connell/Pfadt Sport Sway Bar Kit

The Pfadt Corvette Sport Sway Bars are designed to offer superb balance, simple adjustability, reduced body roll and increased cornering grip. Drawing from years of testing and development on Racing Series of sway bars Pfadt has created a sway bar package that is engineered for the Corvette enthusiast that is looking for the best handling improvement for the dollar. The rear sway bar has three adjustment points to accommodate for variations in the tire sizes and driver style. The kit includes all of the necessary hardware for a solid installation, including adjustable end links and polyurethane sway bar bushings.

575107 (ND)		748.95

571123 Polyurethane Bushing Lubricant.....4.50

Full Car Lowering Kit

A slammed C5 looks great and handles even better!

Adjustable kit lowers car's center of gravity yet maintains ride quality. This kit includes polyurethane bushings. Includes the hardware needed to lower your entire Corvette, not just the rear end. Note: Requires disassembly of suspension.

575105..... 59.95

Why Choose Polyurethane?

Polyurethane, unlike rubber, is not molded to the steel outer shells. Instead of twisting like rubber, the bushings are free to rotate on sleeves like a bearing. This means the suspension cannot bind and become full floating, resulting in longer life and improved handling. Polyurethane construction withstands oils, ozone, salt, and other corrosive chemicals. All bushings are pre-lubed with graphite to inhibit wear and squeaks.

Stage 1 Suspension Package

Without argument, C5 handling is world class right out of the box. Still for those who want to get closer to Mother Earth-and enjoy near-infinite adjustability once they get there-we have combined our three most popular upgrades into an all-in-one package. Includes lowering kit and front and rear bump steer kits. Perfect set-up for daily drivers and weekend autocrossers.

585130.....499.95

SKF Heavy Duty Racing Hub

• Fits Front or Rear

The SKF Corvette Racing Hub unit is designed to provide high stiffness during cornering, thereby, reducing piston knock-back and the need to tap the brake. It is also designed for durability and to maintain preload at sustained loading of 1.2g! All this adds up to faster lap times and better driver feedback. If you have upgraded your Corvette's performance, you will need these SKF Hubs.

575113

575163 Heavy Duty Front or Rear Wheel Hub Mounting Bolts (Set of 3) 39.95

Pfadt Sway Bar Pillow Blocks

The kit puts solid bushings in your car to extract the ultimate level of stiffness from the bars. The bushings are lubricated for long wear. We recommend this product for cars that spend most of the time on the track. Each nylon bushing fits firmly into the lightweight aluminum housing for a strong low-friction pivot. The kit works with Pfadt's bars as a bolt-in, direct replacement of the factory brackets and bushings.

585098 (ND) 429.95

Racing Front and Rear Sway Bars - Heavy Rate

This PFADT Sway Bar provides flat cornering and increased contact patch for higher cornering force.

- 4130 Chromoly 38mm 3-way adjustable front bar; 31.75mm 3-way adjustable rear bar
 - Ultra-lightweight anodized 7050-T7 Aluminum arms
 - Includes high durometer polyurethane bushings
 - Lightweight 3/8" rod end links, aluminum turn buckles and articulation spacers
 - Direct-fit installation; requires no modifications
- 575102** (ND) 1,899.95

Level 2 Coil Over HQ Series System

- Comfortable
- Road gripping performance
- Adjustability
- Race winning tenability
- Includes application specific mounting hardware, where needed, for simple no modification installation
- Easy-access adjuster knob
- This shock has a wide range of 24 click adjustment to change the rebound (extension) properties. By adjusting the rebound setting, you can optimize the ride quality even more as well as dial in more performance oriented handling characteristics
- 1,000,001 Mile Warranty

Rebound adjustment provides the driver the ability to tune ride quality and handling quality to their specific taste. A wide rebound adjustment range allows you to cruise down the road in plush comfort or firm up your suspension for those Saturday morning canyon roads.

Includes: Front and Rear HQ Series Coil Over with Single Adjustable Shocks, Coil Over Spring, and all Hardware,

585046 Kit (ND) 2,099.95

Jack Up Your C5 With Confidence

Don't risk damaging your C5 Rockers when you need to jack it up!

These jacking pads can be used with a jack or jackstands. Will not damage the body if used as directed. When inserted into the shipping slots and turned, they will not fall out!

105380 Aluminum (Set of 4) 59.95
115653 Urathane (Set of 4) 69.95

Johnny O'Connell Signature Suspension

The Stage 1 Package includes tuned shocks, balanced sway bars and upgraded sway bar end links.

- 35mm Front Bar
- 29mm 3 Way Adjustable Rear Bar

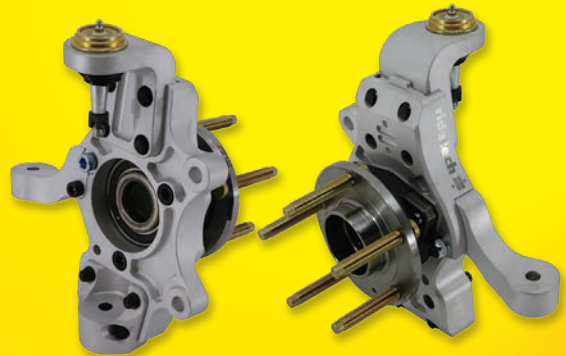

The Johnny O'Connell Signature Suspension line is the result of combining the professional driving skill from four time Le Mans winning Corvette Racing driver, Johnny O'Connell and the engineering expertise of Pfadt Race Engineering to give you a suspension package tuned to perfection. This suspension system has gone through countless engineering revisions and A/B testing on the race track, mountain passes and stretches of pot hole riddled road to provide you with a suspension that provides race car level road holding ability and the drivability you would expect from your daily driver.

575053	Sway Bar and Shock Kit (ND)	1,479.95
575107	Front and Rear Sport Sway Bar Kit (ND)	748.95
585062	Shock Absorber, Set (ND)	781.95

Front or Rear Track Modular Spindles

These Billet Modular Spindles provide next-level performance for your C5 Corvette. CNC machined from 7075 T6 Billet aluminum, these spindles are stronger yet lighter than 4130 Chromoly. The hub position has been raised to lower your Corvette 1" while maintaining proper suspension travel and geometry.

575218 (ND)..... 1,799.95

PFADT Series Featherlight Single Adjustable Street/Track Coilover System

Featherlight Coil Overs are ride height adjustable, as well as damping adjustable for rebound and compression.

- Lightweight, Hard Anodized 6061-T6 Aluminum bodies, yield high strength, while still maintaining a lightweight design
 - Mono-Tube construction utilizes an internal floating piston to separate oil and gas allowing for more predictable handling and a consistent feel
 - BOA (Ball on Axis) upper mount system is a completely sealed mono-ball design that allows articulation required for the Corvette suspension resulting in a better ride and quiet operation
- See Our WEBSITE for more photos and info.

575042 Set of 4 (ND)..... 2,653.95

ridetech

Level 3 Coil Over TQ Series System

- Comfortable
- Road gripping performance
- Adjustability
- Race winning tenability
- Includes application specific mounting hardware, where needed, for simple no modification installation
- Easy-access adjuster knob
- This shock has a wide range of 24 click adjustment to change the rebound (extension) properties. By adjusting the rebound setting, you can optimize the ride quality even more as well as dial in more performance oriented handling characteristics
- 1,000,001 Mile Warranty

The remote reservoir Triple Adjustable shock features a single rebound adjustment and a DUAL stage (high speed and low speed) compression adjustment. High speed adjustment allows tuning for impact harshness and low speed adjustment allows tuning of ride quality and general cornering characteristics.

Includes: Front and Rear TQ Coil Over with Triple Adjustable Shocks, Coil Over Spring, and All Hardware.

576010 (ND) 4,499.95

Swaybars

- High Grade Steel with Durable Black Powder Coated Finish to resist corrosion.

Bilstein Gas Shocks

- The Ultimate Ride & Handling!
- Use 575036 Simulators if Replacing F45 Shocks.

Specifically calibrated for high performance Corvette applications. Bilstein high-pressure gas shock absorbers offer all the advantages of a gas shock, plus construction and performance features that are incomparable. Guaranteed not to fade, the Bilstein shocks are 20% stiffer than original equipment shocks for true high performance and racing applications.

Note: If your Corvette is equipped with the electronic suspension option, installation of this shock will eliminate the option. This shock is permanently set in the sport mode and will trigger a warning light on your car's dash display. This warning code can be simply removed by your local dealer or service technician.

Rebuilt Differentials

- A Great Way to Upgrade to a Performance Rear End
- Professionally Rebuilt
- Gears Set to Factory Specs
- 1-Year Unlimited Mileage Warranty

Professionally rebuilt differentials are in stock and ready for drop shipment. Each unit is rebuilt with new bearings, races and seals. Plus each unit receives a new positraction clutch pack. **A core deposit will be added to the price of the differential.** This will be refunded upon receipt and inspection of a rebuildable core. A deduction on the core will apply for cracked cases, egg-shaped pinion shaft holes, broken ring gear bolts and broken gears. Note: Cores must be returned within three weeks of invoice date in order to qualify for any refund. Sorry, no exceptions. Cores must be complete and contain no broken parts to qualify for a full refund.

Automatic transmission cars must be reprogrammed for speedometer change. No programming required on 6 speeds.

GM LS Rear End Gear Oil

You may hear a clunk and/or clatter type noise from the rear of the vehicle while making turns. This condition may be caused by slip/stick of the posi-traction clutch plates due to insufficient limited-slip axle additive. As plates slip and stick, a jumping or jerking feel occurs accompanied by a clunk noise. To correct this, drain out old oil, and replace with this GM recommended fluid. 3 quarts required.

645286 Chrome Wheel Lug Nut Set with Locks (20 pcs.)... 29.95
645257 Black Wheel Lug Nut Set with Locks (20 pcs.)..... 29.95

Wheel Aligning Tool

- M12 x 1.5 thread size, 200mm (7.75") long Lug Guide Tool
- Stainless steel
- Easily guide your wheels on and off your C4, C5, C6, or C7 Corvette without damage
- Protects your brake calipers, stud threads, and rotors
- A minimum of two (2) tools are essential, but we recommend three (3)
- Made in the USA

Aligning the holes in the wheel with the threaded holes in the wheel hub while inserting the first lug nut is particularly difficult. Lug Guide Tools are also useful for aligning wheel spacers or routine brake maintenance. Anyone who has ever struggled to mount a spare tire on the side of the road will appreciate this tool. Keep a Lug Guide Tool in your glove compartment or tool box.

Fuel Pump Wiring Upgrade

This kit is designed to install into your C5 and overcome the losses associated with factory wiring to the fuel pump. Because of the heavy 12 gauge (stock is an inadequate 18 gauge) feed, sealed relay and attachment to the output stud of the alternator, extra voltage (on average 2.5 volts) and current become available to the fuel pump, increasing both fuel volume and pressure during WOT, when it's needed most.

665083	97-0274.95
665101	0374.95

Flasher Fix Harness With Relay

No More LED Hyper-Flash, or Rapid-Flash

No matter where you install exterior LED lights on your C5 Corvette, you will no longer have Hyper-Flash issues! This clever device intercepts your OEM flasher and utilizes its own Electronic LED Flasher.

665034 (ND)39.95

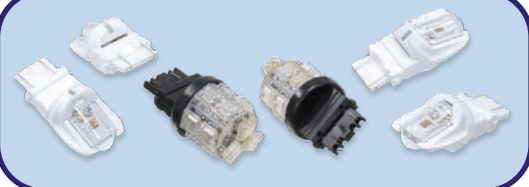

HELPER

ELECTRICAL GLITCHES

The majority of C5 electrical glitches can be traced to chassis grounding problems. These are usually caused by corrosion in the chassis ground plug due to moisture building up on the contacts. While there are several ground connectors on your C5, the underhood contact located inside the driver-side fender is the most likely culprit. Completely disassemble the ground plug and clean the contacts with contact cleaner and a small wire brush or Scotch-Brite pad. Once the contacts are clean, spray them with white lithium grease and reassemble the connector. This can typically be done in 30 minutes.

LED Light Bulbs

- Twice the Lamp Life of Ordinary Lamps

Our primary product is your satisfaction

Customer satisfaction has always been one of our main objectives.
We aren't talking about a no hassle return policy here – everyone offers that.
We are talking about remedies for products that don't seem to fit or work right.

At our end, we have over 45 years
experience in the manufacturing and sales of Corvette parts.
This unparalleled background assures Corvette Central customers
that the products they purchase are the best available, and if a problem
should arise, we know how to help.

Product assistance hours: Monday thru Friday, 9:00 to 5:00.

When looking for product assistance, there are a couple of things to keep in mind.
First of all, it is very difficult to help customers with indepth technical problems
if they aren't well informed. Please review your service and assembly manuals
before you call --- this will make solving the problem much easier.

Last but not least, whether you are doing the work or having it done . . .
be sure to call us at the first sign of trouble. It's very hard to resolve a problem
after the part in question has been damaged, no matter who's at fault.
Let's be fair, everyone makes mistakes. The important thing is working together
to resolve them.

Owning your Corvette can be a very rewarding experience.
We also understand how frustrating it can be when things aren't going smoothly
and there's no one to assist you. We are here to help.
