# Who we are...

Corvette Central has been a leading manufacturer and distributor of Corvette parts and accessories since 1975. In 2001, we moved into our current facility which included the implementation of an automated order picking system. This allows us to better control inventory and to pull orders efficiently. In 2004, we added on a new manufacturing facility where we produce 4,000 of the over 60,000 parts we sell.

Corvette Central is proud to offer the most comprehensive and detailed parts catalogs on the market today and produces a different catalog for each Corvette generation. All catalogs are also online with full search and order features. From the first V8 to C8, only Corvette Central has it all.

**Family owned  
and operated  
for over  
45 years**

## Telephone Service Hours

### Order Dept. and Customer Service Hours

**Monday through Friday 8:00 am – 5:00 pm**

**Saturday 10:00 am – 2:00 pm**

Orders can always be placed on our website at [corvettecentral.com](http://corvettecentral.com).

### Product Assistance Hours

**Monday through Friday 9:00 am – 5:00 pm**

Please Check Our WEBSITE for seasonal or special Holiday hours.

Corvette Central is closed from December 24 through January 1.

13550 Three Oaks Rd. • Sawyer, MI 49125

## Order Pick-up Hours

**Monday - Friday**

**9:00 am – 4:00 pm**

Current Michigan sales tax will be added to all orders picked up.

### OUR COUNTER IS OPEN, WITH LIMITED SERVICES AVAILABLE

You can pick up your "preplaced order" at our counter. Please call ahead and advise the representative taking your order that you wish to pick it up. We will process and pull your order, charge your credit card, and call you when your order is ready for pick-up. Please allow 24 hours of processing time.

## WAYS TO ORDER

ORDERING IS EASY

**[www.corvettecentral.com](http://www.corvettecentral.com)**

Secure ordering  
with current pricing  
and availability.

*By Credit Card  
or PayPal*

We accept all major credit cards and PayPal.

Corvette Central meets the thresholds for many states that have passed sales tax laws/regulations and is now required by state law to collect and remit sales tax on purchases made by individuals in those states.

**800-345-4122**

Retail Orders

**269-426-3342**

Wholesale &  
Product Assistance

**269-426-4108**

Order seven days  
a week,  
24 hours a day.

## Dealer Wholesale Program

Corvette Central offers a wholesale discount program that is based on the amount your company purchases annually.

To Qualify:

- You must be an auto related business
- Your business needs to have a current sales tax license from the state in which you do business. Please go to our website for more information and the application forms.

## Start To Finish or Military Discount Program

Private individuals planning a complete restoration project should go to our website for information on these programs designed with them in mind.

We are the  
**Caretakers of the  
Legend, and the Legend is Quality.**

**CARETAKERS  
OF THE LEGEND**

SINCE 1975

We know that your Corvette is important to you and you will only put parts on it that look good and work right. That is why our quality standards are so high. If we wouldn't put it on our Corvette, we won't list it. Some of our vendors are just a guy in his garage that figured out how to make a particular part that you need. Sometimes he might have a problem getting it made quickly. We do our best to keep in contact with our suppliers every day to keep the parts coming and keep good communication with you, our Valued Customer. We've been doing it for over 45 years and we will keep doing it to keep the Legend going strong.

# SHIPPING INFORMATION

Small packages are sent by U.S. Postal Service Priority or First Class Mail. This service is the fastest and most economical for this size of package. The U.S.P.S. delivers to the continental United States, as well as Alaska, Hawaii, Puerto Rico, U.S. Virgin Islands, and military addresses (APO/FPO) Monday through Saturday. Larger packages will be shipped regular ground service by UPS. Ground service delivers to a large section of the U.S. within 3 days from our location.

Corvette Central offers Next Day, 2nd Day, and 3 Day air delivery services. Saturday delivery service is only available with Next Day air charges for an additional fee.

There is an additional delivery fee on shipments to residential areas.

## BACK ORDERS

Due to the wide variety of speciality products we distribute, back orders are unavoidable in some cases. Normally back orders are shipped in 7 to 10 business days. We automatically ship back orders or, if you wish to cancel your back order, please call or email for a cancellation number.

## RUSH SERVICE

If you need your order processed and shipped the same day, we offer "RUSH" service. For an additional \$5.95, any order received before 1:00 PM ET will be processed and shipped that same day. Orders received after 1:00 will ship the following business day using the "RUSH" service.

**See the back of your invoice for a complete list of Return Policies and Procedures.**

## IMPORTANT

## TRUCK FREIGHT

Parts in this catalog noted with "+" for Truck Ship and any other item exceeding carrier size or weight limits will be shipped by truck. All items being Truck Shipped must be prepaid or charged to a credit card.

Corvette Central ships to Canada via UPS exclusively. UPS and Corvette Central entered into agreements with the Canadian government in order to collect and remit all duties, taxes and brokerage when your order is processed and shipped. This allows you to know the total cost of your order to be delivered to your door, at the time your order is placed. There are no hidden charges! The exception to this program is Prince Edward Island. Orders shipping to this province will be processed through a Canadian brokerage house. We cannot ship truck freight items to Canada.

## INTERNATIONAL ORDERS

We ship Corvette products to every corner of the globe. There are many variables, depending on size of order, location and timing. Please contact us by email for the most efficient and economical means of shipping your order. Due to recent changes in VAT rules, we require a minimum order of \$150.00 for customers shipping to the EU.

## NOTE ON SHIPPING CHARGES

UPS no longer uses ACTUAL WEIGHT of packages to calculate shipping. They now use "DIMENSIONAL WEIGHT". We measured every product we sell and entered that information into our system. This enables our system to calculate the size box/boxes your order will ship in and calculate the shipping costs when the order is placed. Retail customers pay shipping for entire order on the 1st shipment.

## INSPECT ALL PACKAGES IMMEDIATELY!!!

**All damages, shortages, or errors must be reported within 7 days of receipt of package. Please have invoice ready when you call.**

### DAMAGED ITEM — SHIPPING RELATED

- If there appears to be any external damage, i.e. crushed or dented side or corner, any tears or holes in package, immediately inspect contents of package for parts damage. If damage is found, **DO NOT CONTACT THE CARRIER. IMMEDIATELY CALL CORVETTE CENTRAL AT (800) 345-4122** to report any damages.
- Do not destroy the package or box that the item shipped in. Please save it for inspection by the carrier.
- Have the package and invoice with you when you call.
- If a claim is filed, arrangements will be made for pickup of package with entire contents.

### DAMAGED ITEM — NON-SHIPING RELATED

- Call us at **800-345-4122** immediately with description of damage and we will process a replacement and make arrangements for pickup of damaged item.

### SHORTAGES AND MISTAKES

- Call us at **800-345-4122** immediately and we will process an exchange or replacement as required.

### RETURNS

- **There is no need to call for authorization.** Fill out the return slip enclosed with your shipment, and send the package back to us. It is recommended that you insure the package and retain your receipt of shipment. **Items must be returned in the original packaging for credit.**
- All returns must be made within **60 days** of invoice date. After 61 days a restock fee will be charged.
- No returns on electrical products or tools.
- Items that have been installed, altered, damaged or are otherwise not in a condition to be resold will be returned to the customer at their expense.

### REFUSED SHIPMENTS

- Shipping and handling charges on refused shipments are the responsibility of the customer.

### CURRENT PRICES

- See our WEBSITE for Current Prices.

### OVERSIZED SHIPPING CHARGES

- Some products have additional shipping charges due to heavy weight or oversize dimensions.

**See our WEBSITE for a full list of Policies.**

# Shipping & Packaging Charges

Pertaining to orders shipped within the continental USA:

Ground service freight charges for your entire order will be charged at the time of the first shipment. Any backorders shipped after the initial shipment will not incur any additional shipping charges. The shipping fees are based on the calculated dimensional weight of the parts ordered and the destination zip code according to current UPS and USPS shipping rates.

## CUSTOMER INFORMATION IS CONFIDENTIAL

Please be assured that we do not sell our customer list or provide access to our customer information.

*Fast, accurately packed orders, combined with our central location, will get your order to you promptly.*

*Central location makes for fast delivery!*

111930.....20.50

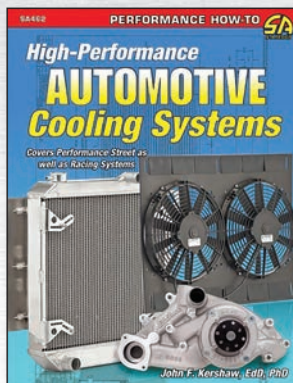

## High-Performance Automotive Cooling Systems Book

In High-Performance Automotive Cooling Systems, author Dr. John Kershaw explains the basics of a cooling system's operation, examines coolant and radiator options, explains how to manage coolant speed through your engine and why it is important, examines how to manage airflow through your radiator, takes a thorough look at cooling fans, and finally uses all this information in the testing and installation of all these components. Fast-forward to today, and it's easy to forget that C4-C8 Corvettes even have coolant. The temp needle moves to where it is supposed to be and never moves again until you shut the car off. Whether you are a fan of modern performance cars or a fan of more modern performance in vintage cars, this book will help you build a robust cooling.

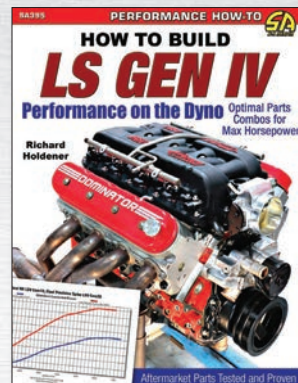

- Pages: 128
  - Format: Paperback
  - Illustrations: 349 color photos & illustrations
- 111228.....30.75

## How To Build LS GEN IV Engine for Max Horsepower Book

Author Richard Holdener reveals effective, popular, and powerful equipment packages for the GEN IV LS Engine. With this information, you can select the parts to build a powerful and reliable engine by removing the research time and guesswork to buy a performance package of our own. In this book, performance packages for high-performance street, drag race, and other applications are covered. Then the assemble engine packages are Dyno tested to verify that the parts produce the desired and targeted performance increases. This comprehensive build-up guide covers intakes, throttle bodies, manifolds, heads and camshafts, headers and exhaust, engine controls, superchargers and turbochargers, and nitrous oxide.

- 8.5" x 11" Paperback Book
  - 144 Pages Packed with 267 Color Photos and Charts
- 115041.....30.75

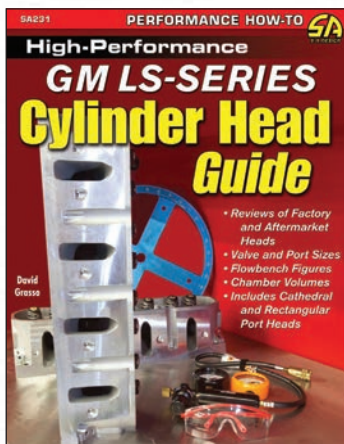

## How to Rebuild GM LS-Series Engines By Chris Werner

In this Workbench book, author Chris Werner uses more than 600 photos, charts, and illustrations to give simple step-by-step instructions on disassembly, cleaning, machining tips, pre-assembly fitting, and final assembly. This book gives considerations for both stock and performance rebuilds. It guides you through both the easy and tricky procedures, showing you how to rebuild your engine and ensure it is working perfectly. The book also illustrates many of the performance components, accessories, and upgrades that have been developed for the LS-series family of engines.

This book also details and highlights special components, tools, chemicals, and other accessories needed to get the job done right, the first time. Appendices are packed full of valuable reference information, and the book includes a Work-Along Sheet to help you record vital statistics and measurements along the way. You'll even find tips that will help you save money without compromising top-notch results. 8-1/2 x 11", 152 pages, 604 color photos, softbound.

- 115063.....37.75

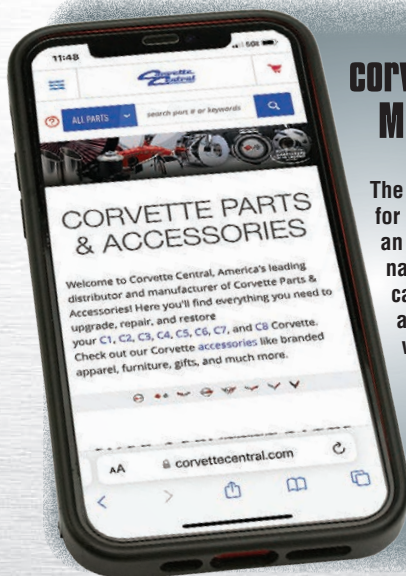

## High-Performance LS Cylinder Head Guide Book

• Includes valve, combustion chamber, and port dimensions, along with flow data for each head. This book reviews every readily available factory and aftermarket cylinder head designed for GM LS-Series engines, and delivers the facts about each in an easily comparable format. It includes the basic dimensions for each head, along with their claimed airflow rates. Also included is information on interchangeability, combustion chamber sizes, compression ratios,

applications, performance characteristics, helpful tips, and even a chapter on intakes.

Softbound, 8.5" X 11". 144 Pages. 333 Black & White Photos.

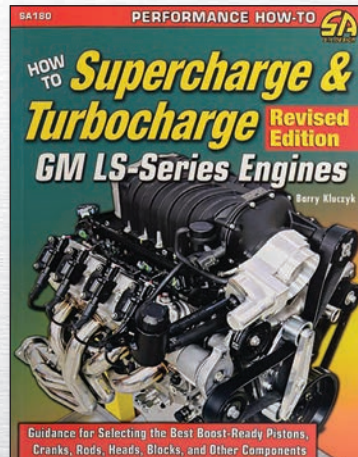

- 115039.....27.50

## corvettecentral.com Mobile Website!

The site is optimized for mobile devices with an intuitive, simplified navigation setup. Now you can access nearly everything available on the full site with your mobile device.

Mobile users are automatically directed to the new website.

## Supercharger And Turbocharger LS Engines Book

This book covers supercharger and Turbocharger design and operation in detail, so the reader has a solid understanding of each system and can select the best type for his particular budget, engine, and application. The attributes of Roots-type and centrifugal-type superchargers as well as turbochargers are extensively discussed to establish a solid base of knowledge. Benefits and drawbacks of each system as well as the impact of those systems on the vehicle are explained. Also covered in detail are the installation challenges, necessary tools, and the time required to do the job. Once the system has been installed, the book covers tuning, maintenance, and how to avoid detonation so the engine stays healthy.

The 8.5 x 11" softbound book features 144 pages packed with 388 color photos.

## Car Accessories

### "Travel Buddy 2" Cup Holder

- Installs in Seconds • No Messy Tape or Screws
- Can be Used by Driver or Passenger • Looks Like OEM Option

Finally a drink holder for the passenger side that looks good and works well.

105543 Black ..... 71.50

### Center Console Door Cover-EZ Fit

- Synthetic stretch mesh fabric and heavy duty elastic trim
- Slip-on installation with a snug fit • Patent pending design
- Protects console cover from wear and tear
- Provides all weather comfort without getting too hot or too cold
- Black in color • Made in the USA
- Limited 1-year manufacturer warranty

The console lid of your Corvette is subject to all kinds of things that can damage it. Depending on the weather, it can easily get too hot or too cold to the touch! So, what can you do? Install this EZ Fit, keeps it clean and protected. The patent pending design provides the most coverage area while remaining breathable with no operating temperature issues. Installation is slip-on and requires no cutting, drilling, or altering your Corvette. This design allows for fast removal for cleaning, polishing, and storage when not in use and it's even machine washable.

235007 No Logo ..... 35.75

236002 With Embroidered Logo ..... 57.25

### Curb Alter-Curb Warning System

- Advance infrared triangulation technology and specialized software embedded for reliable operation
- Warning distance is adjustable from 8-28 inches. (Bumper to curb)
- Automatic power-up on vehicle ignition; never a battery drain.
- Alert sound volume can be set to High, Low, or Mute inside vehicle.

With a Curb-Alert Parking Sensor you'll no longer have to worry about damaging your vehicle's front bumper or spoiler when pulling up to or leaving a curb, or approaching the end of a steep driveway. The Curb-Alert Curb Sensor will reliably detect when you are getting too close to a curb and warn you with a short series of audible beeps, preventing expensive damage to your vehicle.

102839 ..... 163.25

### Plug And Chug Cup Holder-Dual

- Room for 2 Tall Cups, Includes Cell Phone Pocket

Want a real cup holder for your Corvette? The Corvette "Plug and Chug" cup holder provides added space to the current undersized cup holder, allowing for two large drink cups to fit side by side. No tools necessary! Simply plug the "Plug and Chug" dual drink holder into the current cup holder cavity.

116748 ..... 71.50

### C6 Console Storage

- Add Your Own Emblem

At last, usable storage for your C6 Corvette. The console securely holds 2 cans, coffee cups, or travel mugs - even holds a Big Drink Cup. Separate compartments to hold your traveling essentials - cell phone, sunglasses, garage door opener, maps, and coins. Molded of high impact black textured plastic to complement your car's interior. Designed for coupes and Z06's (sorry, convertible owners). Installs securely with included fastening panel and adhesive pads (no screws). "Anti-Rattle" pad set and detailed instructions included.

106450 ..... 71.50

### Dash Mats Protects dash from sun. Pre-cut for defroster.

Care for that expensive dash with our custom fit, carpeted dash mat. They come with embroidery on the top and felt bound finished edges.

Mosom Plus

Best for

Outdoor Use

## Mosom Plus

Mosom Plus™ is a four layer material. The outer two layers are Spunbond Polypropylene, the middle layer is a special micro-porus film and the inside layer is super-soft fabric. The middle layer is an excellent rain barrier, while allowing for vapors to pass through. The special cotton flock inner layer pampers the most delicate paint finish. It is a great choice for all-around car cover use, suggested for most conditions except extreme sun, snow or ice. Mosom Plus™ is a non-woven material, so in the unlikely event a rip occurs in the material, it will not run.

## Trigard

Coverking has comprised Triguard out of three layers and each layer is treated with UV retardant to ensure your Corvette is protected against the sun's rays. The middle layer of polypropylene goes through a melt-blown procedure, which means that it is heated and rolled so that it is water-resistant. The middle layer is then inserted between two layers of Spunbound fabric, which means it is compressed in a way to allow breathability in return preventing mildew and rot build up. Triguard's material is easy to clean, store and even though it is light weight, it will not make your wallet light.

## STORMPROOF® Car Covers with C6 Logo

Stormproof material is the most waterproof yet breathable car cover material available. Stormproof car cover material exhibits outstanding sun and U.V. resistance, able to last for years in the Arizona sun without fading. The micro-fiber base material is soft to the touch and won't scratch a car's paint – yet it rolls up into a very compact package for easy storage. Stormproof is available in 4 colors with Licensed GM Logos.

Stormproof feels more like an expensive golf jacket. Stormproof accomplishes the needs of a premium Car Cover material without the coatings which can easily wear off, the treatments which fade over time, and the processing which can be undone the first time it is exposed to water.

Stormproof is immune to this, because it is inherently water resistant. And the fibers have been designed to reflect UV rays, and be immune to the color fading caused by the harsh sun. Stormproof is the only Car Cover material we can suggest for any climate or car cover need – it excels in every area except protection from dings and hail. Stormproof will last for years, and compliment your vehicle with the exciting colors and two-tone designs it is offered in.

## Stretch Satin™ Custom Car Cover

Coverking's Stretch Custom Car Covers are made for vehicles parked indoors (it will fade if exposed to extended sun, and is not water resistant), and for owners who want nothing but the best for their vehicle. Satin Stretch is the SOFTEST fabric available. The material has Lycra fibers for stretch in both directions, mirroring every perfect contour of your vehicle. And the inner liner is the softest fleece you will find specially designed not to rub off on convertible tops. It is available in solid color designs, including Black, Steel Gray, Dark Blue, Yellow and Red. Blind stitching results in invisible seams-this is a HOT car cover.

116108 Moda Black Stretch Car Cover with C6 Emblem ..... 163.50

## Autobody Armor Car Cover

Autobody Armor is made from two outer layers of strong latticed polyester that sandwiches a middle layer of thermoplastic polyurethane. The combination of these three layers bestows your legend with the best water resistance out there and excellent breathability. The Autobody Armor also offers your Corvette UV protection by treating each layer of the cover with UV inhibitors. In addition, similar to its indoor counterpart Satin Stretch, the Autobody Armor is also highly stretchable. It hugs the curved contours of your Corvette. Its silk like softness provides good protection against moisture, dents and scratches while making it easy to handle as well.

103688.....30.75

## In & Out Spray

Watch your faded and dull trim go from boring to brilliant with a single treatment of one of our all time best products.

An aerosol spray dry to the touch within moments and still capable of restoring your faded and dull plastic, rubber, and vinyl trim to like new condition with just a single spray. Use this amazing product on all the hardest to reach areas, like air conditioning vents, wiper cowl, grilles, and even under the hood to dress your engine compartment.

In & Out Spray wipes easily and cleanly away from surfaces like glass and paint so there's no need to stress about over-spray getting into areas you don't want. One swipe of a plush microfiber towel and the over-spray residue is gone!! There's never been an easier way to dress your trim than In & Out Spray. Guaranteed to impress every time you use it.

102606 Aerosol.....14.95

## Detail Spray

This "Best of Show" winner is a favorite at car shows. Use as a waterless wash, a clay bar lubricant, or to enhance the depth and clarity of paint, chrome, plastic, aluminum, and glass. Specially formulated lubricants gently remove dirt, smudges, and grime, leaving surfaces with a smooth, ultra-high gloss finish. Use in the sun or shade, and in hot or cool temperatures.

102284 16 oz. ....12.95

106802 Gallon .....44.95

## Buttery Wax

Leading the charge in technological advances, Adam's Butter Wax is formulated with a special blend of polymers, resins, and natural Carnauba. Butter Wax contains no cleaners or abrasives, and will not stain plastic or rubber. Always treat an imperfect finish with Clay Bar and Polish before applying Butter Wax.

104685 16 oz. ....19.95

## Car Wash

- New concentrated formula produces more suds

106755 Gallon .....39.95

## Adam's All Purpose Cleaner

- Tough On Dirt But Easy On Your Car
- Cleans Wheels, Tires, Engines and More
- Great For Cleaning Up Your Detailing Accessories
- Safely Cleans Your Foam Buffing & Polishing Pads
- 16 Oz.

A degreaser that's guaranteed to be one of your favorite products! Safe, easy and effective for a number of jobs.

102897.....12.95

## Invisible Under Carriage Spray

Adam's developed this special product to make your wheel wells and under carriage completely invisible. Spray after a wash and before detailing for best results. You'll love the low-gloss, dark finish that this Invisible Under Carriage Spray leaves behind. Guaranteed to please.

104845 16 oz. ....12.95

## Brilliant Glaze

Adam's Brilliant Glaze takes personal reflection to a new level. This liquid glaze adds depth and clarity to chrome, glass, and paintwork. Brilliant Glaze is a top seller for its extreme ease of use and for its ultra-high gloss results. Product can be used in direct sun and has no dust. Shake well before and during use. Product separates by design. Not for use on oxidized finishes.

102768 Bottle .....24.95

## Adam's Strip Wash

Adam's Strip Wash is a concentrated soap blend that removes any wax and sealant protection as you clean your ride, preparing it for paint correction session with a machine polisher or hand polish, or to start clean with a fresh layer of sealant or wax.

102948 16 oz. ....14.95

## V.R.T. (Vinyl, Rubber, Tire)

Enhance and protect the appearance of plastic, rubber, tires, moldings, dashboards, and door panels. Adam's V.R.T. contains no harmful silicone or alcohol. The thick moisturizing cream applies easily with a sponge and will not leave a greasy film, attract dirt, or harm paint and glass. Added U.V. protection keeps vehicle interiors and exteriors looking and feeling like new.

See Our WEBSITE for Photos and More Info

The Absorber® will dry your Corvette faster and easier than chamois or towels. Gentle on all automotive finishes, the Absorber absorbs 3 times faster and holds 50% more water by surface area than a hide chamois. Unharmed by grease or oil it can be machine washed and it resists tearing or shredding. Comes in a plastic storage tube for damp storage. Generous 27" x 17" size.

101664.....18.50

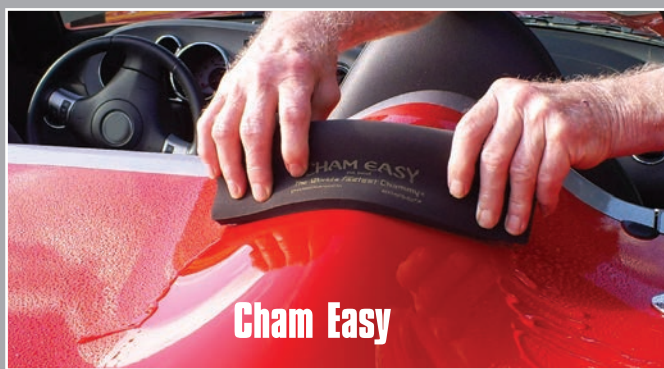

## The Absorber®

## Genuine Leather Chamois

- Dries streak free and spotless
- Clear coat safe
- 100% cod oil tanned
- 2-1/2 square feet

101074..... 20.40

## Cham Easy

### A Totally Flexible, Bendable Chamois / Squeegee

The closed cell foam material is totally flexible allowing the Cham Easy to conform to any contour. Get in the grooves, hug the curves, and bend over rises. Soft all over there are no sharp or hard parts to scratch or dent your vehicle. Wonderful for even the most delicate paint jobs.

102836..... 19.50

## Meguiar's® Quik Interior Detailer

### • Mist and Wipe

Quickly and easily maintains the look and feel of interior plastics, vinyl, leather, rubber, metal. Unlike traditional protectants that leave an artificial greasy feeling, Quik Interior Detailer leaves your interior surfaces looking natural and revitalized.

102485 16 oz. .... 9.25

## Wheel and Tire Cleaners

### Adam's Tire and Rubber Cleaner

Adam's Tire and Rubber Cleaner deep cleans tires and removes baked on tire dressing, blooming, and discoloration. It effectively removes oxidation, wax, and polish residue from rubber and plastic trim parts as well.

112617 16 oz. .... 12.95

### California Micro Fiber Wheel Duster

Micro Fibers effectively trap dust and dirt

- The "fork" easily spreads when pushed on an object for true one-handed convenience
- It "clamps" around the object to clean both sides at the same time
- Can also be used as a conventional duster on any surface
- Easily cleaned to allow repeated use time after time

Use to remove annoying brake dust and much more! Also great for roof racks and automotive grilles and can be washed and re-used hundreds of times.

101948..... 15.30

### Adam's Eco Wheel Cleaner

- Direct-Release to the Environment Approved
- Powerful cleaning capability with a pleasant citrus scent
- Thin formula allows for a wider working area
- Breaks down brake dust, road grime, and dirt
- Safe on painted, powder-coated, anodized, clear coated, and chrome wheels

Adam's Eco Wheel Cleaner is an environmental friendly wheel cleaning solution. It is pH neutral formula that is Direct-Release to the Environment Approved and breaks down road grime and wheel contamination.

111598 16 oz. .... 12.95

### Tire and Wheel Brush

Get all of the nooks and crannies in your wheels and tires clean with this brush. Soft and natural tampico bristles and angled head design take some of the struggle out of the chore.

101228..... 9.20

### Forever Black™ Tire Gel

- Black pigmented color
- Water based
- Silicone & oil free
- Environmentally safe
- Does not attract dust
- Fast drying
- Does not sling off tires
- Protects against UV damage

Unlike all other tire dressings on the market, Forever Black is a black pigmented polymer. This environmentally friendly product will restore the faded bronze look of your tires to their original appearance. The hand held applicator eliminates the mess of oversprays. One easy application will protect and restore your tires.

101816 8 oz. .... 16.30

### Adam's Wheel Cleaner

- Safe on painted, powder coated, clear coated, and chrome wheels
- Thick gel-like viscosity clings to wheels for excellent cleaning power
- Dissolves brake dust, road grime, and dirt
- Color changes to purple as it's working

Adam's Wheel Cleaner is the most high-performance wheel cleaner you've ever tried. It is a pH neutral formula that specifically targets iron and metallic particles left behind by today's modern brakes

111628 16 oz. Bottle ..... 14.95

### V.R.T. (Vinyl, Rubber, Tire)

Enhance and protect the appearance of plastic, rubber, tires, moldings, dashboards, and door panels. Adam's V.R.T. contains no harmful silicone or alcohol. The thick moisturizing cream applies easily with a sponge and will not leave a greasy film, attract dirt, or harm paint and glass. Added U.V. protection keeps vehicle interiors and exteriors looking and feeling like new.

106824 16 oz. .... 19.95

### Adams 20" Fender Tire and Wheel Well Brush

- Designed to clean your fender linings and tires with ease
- Long handle to reach those hard to reach wheel wells
- Durable premium quality flocked nylon bristles

102915..... 14.95

## Exterior Touch Up Paint

Heal the nicks and seal the scratches. Our Exterior Touch Up Paint matches original colors. Includes a brush for precise application. 1 oz. bottle.

**\*Specify Color\***

331312..... 26.50

**Exterior Color Code Chart – See Page 77**

## Paint Chip Repair Kit

Finally! A solution for repairing paint chips and scratches. Just apply your color matching touch up paint. Let dry for 2 hours up to 4 days (or longer), and then remove the Blob in 15-30 seconds with the Blob Eliminator leaving

the paint inside the chip or scratch without affecting your original paint. Kit contains Langka PrePaint (2 oz.), Langka The Blob Eliminator (2 oz.), Plastic Card, Langka Paint Sealant (2 oz.) and Fine Tip Brush.

101857..... 40.95

## Clear Coat Paint Restore

This kit will remove scratches once and for all so they never return unlike some products that only fill scratches in with polishes containing wax. Pads and flannel are washable and re-usable!

101895 Kit..... 15.50

## Rust Prevention Magic

*Keeps Metal Parts Looking Brand New!*

- Dry to the touch
- No Oily Residue Left Behind

All types of metallic surfaces prone to oxidation can benefit from RPM protection. Cast iron, stamped and cast metals, as well as aluminum are some of the common automotive applications. RPM works great to preserve natural metal drivetrain, suspension, and bare metal components to a like new condition.

112512	8 oz. Container .....	40.95
103938	4 oz. Container .....	20.50

## Amazing Shine, Unsurspassed Protection, and Extremely Easy to Use!

- Protects Paint, Glass and Wheels.
- Creates a Super-Slippery Surface.
- Prevents Bugs from Sticking to Bumpers and Windshields.

101875 Ramps

2pc. Race Ramps

101917 Ramps

101907 Roll Ups

Wheel Cribs

These race ramps are unique in their design. They are made for low ground clearance performance vehicles with a gross weight handling of 1200 pounds per ramp or 2400 pounds per set. They are specially designed for the Corvette enthusiast, allowing you to get under your car quickly, safely and without any frustrating hassles. Constructed in one solid piece, Race Ramps will not slide across your garage floor, dig into your asphalt driveway, or scratch or otherwise damage your cement or painted floors. They can be used to raise your car up eight inches. You get all this in an **Unbelievable lightweight of 20 pounds a pair**. Most ramps can only accommodate a tire width of six to eight inches. Race Ramps are not hollow in the center or made with questionable reinforcements. They are 100% solid on all sides and constructed in one solid piece - giving you the non-skid support that you need. The ramps come complete with straps for easy carrying, and you can also use them to hang the ramps on the wall when you're done.

# Garage - Battery

## 8 Stage MSX 5.0 Battery Charger

- Fully automatic charging and maintenance in 8 steps maximizes battery life and performance
- Numerous accessories allows using the same charger for multiple batteries
- One charger for the car, motorcycle, lawn mower, snowmobile, sump pump, and tractor
- Water-resistant
- Patented maintenance charge for maximized life and performance
- Recondition of deep discharged batteries
- Patented desulphation that extends the battery life
- No sparks, short-circuit proof and reverse-polarity protected for untroubled usage
- Automatic detection of end-of-life batteries that eliminates surprises

102851	Charger .....	114.95
103874	Battery Status Indicator .....	15.50
102971	Cigarette Lighter Adapter Plug .....	17.95

## Priority Start

- Works with Both Top and Side Post Batteries
- Prevents a Dead Battery
- Monitors Voltage
- Senses Drain
- Automatically Disconnects
- Automatically Reconnects

Priority Start is a computerized electro-mechanical switch that consistently monitors the vehicle's battery power voltage. If an accidental drain occurs such as lights left on, door ajar, radio or any other electrical accessories (even power draining shorts), it only allows the battery voltage to drain to a predetermined level (11.7 volts). Then it automatically disconnects the load, leaving starting power. It automatically reconnects when the ignition key is turned to the "on" position.

"A battery tender is a battery charger that is designed to maintain the charge in your battery when the car is stored for an extended period of time. However, it will charge a "dead", but still usable battery if it is used for an extended period of time (12-36 hours)."

## Power Plus 75A Battery Tender Charger

- Output: Charging 1.25A: Battery Boost @ 20A; Engine Start Assist @ 75A
- Wireless connectivity to mobile device via Wi-Fi (point to point and network)
- For all size AGM, Gel, Flooded and Lithium (LiFePO4 batteries)
- 5-Year Warranty
- Charger Size: 9.5" x 7" x 5.5"

171022 (ND) ..... 189.95

# Air Intake

## Callaway Honker Air Intake

26% more airflow, 12 BHP on the LS2, 16 BHP on the LS3 more than the factory system.

- Rigid base ingests cooler, denser inlet air from outside of engine compartment
- Works with all OEM engine management sensors
- Includes Ultra-high flow air inlet duct, low restriction K+N, washable and reusable air filter element, sturdy filter element housing, premium quality hardware and complete installation instructions.

156012	LS2 Honker Air Intake .....	399.00
156131	LS3 or LS7 Honker Air Intake .....	499.00
155042	Replacement Filter .....	84.95

## Holley iNTECH Cold Air Intake

- 2008-2013 LS3 intake produces + 15 horsepower and +13 lbs. (Z06 = +20 horsepower and +17 lbs.) x ft. or torque with excellent performance across all RPM levels
- Uses a unique dual filter "Hammerhead" intake tube that provides maximum air flow and velocity and moves the filters closer to the intake vents than other designs
- Utilizes factory mounting locations for a simple and secure installation
- System includes two high-flow, washable and reusable 4-layer dry performance air filters for maximum air flow and filtration eliminating the use of filter oils that may damage MAF sensors and set off check engine lights.

## BPP Vortex V2 Rammer Cold Air System

This Vortex Rammer kit replaces the restrictive stock air box assembly. Look closely at the filter and note that this is not the K & N filter that everyone sells. This revolutionary air cleaner contains an internal vortex velocity stack. It obtains cool, pressurized air from the radiator cavity through your modified shroud. Air is forced through a sealed box, where in turn, it directly injects cold air into your intake (lowering manifold air temperature by almost 30°). Remember, cold air means more power. HP results have already shown up to 25 HP and 25 FT/LBS at the flywheel. Running at speed has given up to an additional 10 more HP due to the air being forced in. This is from the benefit of the pressurized air that is created at high speeds (which means there will be more HP at speeds over 35 MPH. One-quarter mile test showed 3 MPH and .30).

## Blackwing Cold Air Package

### • Carbon Fiber Finish Air Bridge

The stock C6 air cleaner is a known power restriction. This completely new air cleaner assembly is a known power enhancer that is a radical departure from existing air filter technology. Developed by Donaldson, it incorporates 100% synthetic filtration media. This lifetime warranties reusable filter will out flow its competition, yet filter out the smallest dust particles. Another exclusive feature is a flow restriction indicator that changes from green to yellow to red as restriction increases. A red indicator warns that it is time to service the filter.

155002 Blackwing Cleaner and Oil Kit..... 29.60

## Lingenfelter Z06 High Flow Intake System

Lingenfelter High Flow Air Intake for the Z06 Corvette has been tested back to back against the competitions air intakes and has been proven to make more overall performance gains. Intake system includes the Lingenfelter 100 MM MAF sensor. This air intake will require programming updates.

Lingenfelter Z06 high flow air intake has shown a 30 HP gain at the rear wheels in back to back testing on a stock engine with higher gains on modified engines. The system is designed to provide lower temperature or cold air from outside the engine compartment in order to produce optimal performance. Testing also included a Lingenfelter 160 degree thermostat and PCM tuning.

This high flow air intake maintains a high quality factory appearance and includes S&B washable air filter assembly, filter housing, fasteners & detailed installation instructions. Radiator shroud will have to be modified/cut.

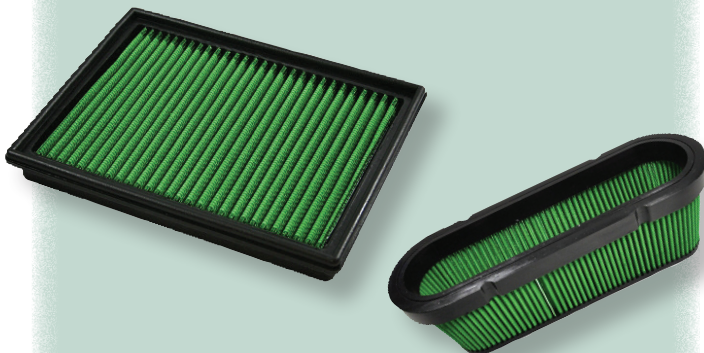

156019 (ND) ..... 802.75

## 160° Low Temperature Thermostat - See Page 42

## Green High Performance Air Filter

### • Lifetime Guarantee

Improve performance – go Green! As in Green Filter USA. The flow difference between paper and oiled cotton may not be much when both filters are brand new, but a few hundred miles later it can be significant (as paper loses efficiency once dirty). Green filter's precision pleat geometry traps 20% more contaminants while optimizing airflow into the engine.

**156056 05-07 LS2 (2 required) ..... 51.00**

**156018 06-13 LS3/LS7/LS9 ..... 91.80**

Note: Fits all 2008-2013 LS3, LS7 and LS9 Corvettes. LS9 Corvettes will require an additional filter retainer (CC #156192) to complete installation.

**152012 Green Air Filter Recharger and Oil Kit ..... 12.25**

## LS3/LS7/LS9 Attack Blue High Flow Filter

- Flow a whopping 45% more air than stock!
- Patent Pending narrow back design helps eliminate "power robbing" turbulence!
- Filtrates down to 5 microns, (a human hair is 50).
- Washable and reusable for extended, reliable service!
- Reinforced base prevents warping and leaks!
- Sturdy stainless mesh designed for high CFM.
- Fits perfect in your stock GM intake. Use your original filter retainer when installing!
- Made in the USA!

**156097 ..... 132.75**

**156010 Attack Blue Filter Cleaning and Oil Kit ..... 14.95**

Note: Fits all 2008-2013 LS3, LS7 and LS9 Corvettes. LS9 Corvettes will require an additional filter retainer (CC #156192) to complete installation.

**OPTIMA**  
BATTERIES

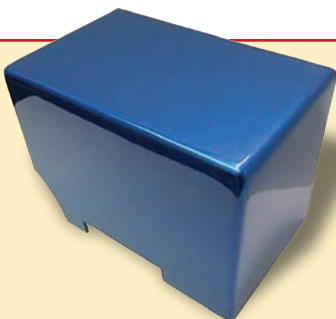

THE ULTIMATE STARTER

## Optima Spiral Technology Battery

- Fits both top or side post

Optima is the most advanced battery available. It delivers 800 cold cranking amps at 0° F and lasts 3 to 5 times longer than conventional flat plate batteries. The electrolyte is completely absorbed, and sealed construction gives you a safe, leak-proof battery. Unique spiral cell design resists jarring, eliminates plate shedding, and requires no maintenance. The battery can go unused for up to a year without recharging, which makes it ideal for Corvettes that may see no use for extended time. Optima is backed by an excellent 2 year warranty.

## Brake Pad Bed Instructions

1. After installing new brake pads, make 6 to 10 stops from approximately 30-35 mph applying moderate pressure.
2. Make an additional 2-3 hard stops from approximately 40-45 mph.
3. DO NOT DRAG BRAKES!
4. Allow 15 minutes for brake system to cool down.
5. After step 4 your new pads are ready for use.

## Hawk Brake Ferro-Carbon Pads

*Simply the best brake pads available anywhere in the world. Hawk Brake offers many lines of unique pad compositions to suit normal street to super speedway driving applications.*

**Hawk Performance HPS** material provides advanced braking characteristics to enhance your driving experience. This unique Ferro-Carbon compound combines the safety and quality of aerospace design partnered with the braking technology of motorsports. Performance, safety, and quality are the trademarks of this material. Features: Extremely low dust • High friction/torque hot or cold • Gentle on rotors • Virtually noise-free • Much improved braking over OE • Long pad life.

## Wilwood Hi-Temp° 570 Racing Brake Fluid

Wilwood's specially formulated High-Temp° 570 Racing Brake Fluid has a minimum 570° F dry boiling point to withstand the severe heat requirements of automotive racing. Hi-Temp° 570's low viscosity allows easy bleeding of your brake system, eliminating aeration of the brake fluid caused by foaming due to excessive pumping of the pedal.

**191069** 12 oz. ....19.95

## GM/Delco Brake and Clutch Fluid

GM Delco Brake Fluid is recommended for all vehicles that require DOT 3 brake fluid. It contains enhanced corrosion inhibitors to prevent premature wear, and retains its boiling point properties longer than conventional DOT 3 brake fluids. It is also compatible with disc and drum brake systems. Cannot be shipped by air or overseas.

**191064** Pint. ....10.25

## Brake And Clutch Fluid-GM Dot 4

- Lubricates Seals • Extends Seal Life
- Resists Air Entrapment • Minimizes Friction

**534342** 16 oz. ....20.50

Brake Fluids cannot be shipped by air or overseas.

- 4 Piston Calipers
- Dimpled and Slotted Black Electro Coated Rotors
- Improved brake response and balanced pad loading over OE floating mount caliper design
- Configured for full compatibility with the OE Corvette master cylinder output and ABS controls
- Caliper and pad kit for use with existing rotors or complete kits with SRP drilled, slotted, and E-coated rotors included
- Accepts the OE rubber hose or DOT compliant stainless steel braided flexlines
- Forged aluminum body calipers with spring dampened stainless pistons, and internal bore seals
- Red or black powder coat finishes
- BP-10 compound SmartPads included in all kits.

**196055** Front Kit with 12.8" Rotors.....973.95

**196079** Rear Kit with 12" Rotors.....913.75

Specify Black -01 or Red -02 Caliper When Ordering.  
Add \$100.00 When Ordering Red.

## Wilwood Racing Brakes

These kits are for serious racing as they come with pads that are not streetable and the rear kit cannot be used with the factory parking brake.

Wilwood's radial mount calipers are coupled with high cooling capacity of 14.00" SV-GT staggered directional vane rotors to provide the ultimate brake package for unrestricted road race competition. Thermlock pistons in the calipers resists fade and extend service life by reducing the heat transfer from the pads, caliper body, fluid and seals. Rotors mount to the hubs with forged aluminum hats and radial mount brackets secure the caliper to the spindle in the OE location without modification. Kits also include high temperature, high friction race compound pads and all premium grade fasteners.

**195086** GT Rear Big Brake Racing Brake Kit .....2,238.50

## Power Stop Track Day Brake Rotors

Drivers who participate in "Track-Days" or "High Performance Driving Events (HPDE)" rely on their brakes and know the value of having brakes that are up to the task of Track use. High-Carbon metallurgy provides the highest coefficient of friction when used with the Power Stop "Track Day" brake pads. High carbon rotors have been used for years in competitive racing due to their resistance to thermal distortion and cracking. Precision drilling holes are strategically placed to avoid high stress areas and provide extra cooling by drawing air through the rotor. The rounded slots work to keep dust and debris off of the braking surface for better pad to rotor contact. All these features combined create the best brake rotors for your favorite Track Day event.

196053 05-13 Kit-Z51/J55/F55 ..... 539.95

### HELPER

Anti-lock brake Corvettes (1986 and newer) cannot use silicone fluid. The higher viscosity silicone fluid will damage the brake controller.

### EradiSpeed+Plus Rotors

**EradiSpeed Plus-2** indicates 2-piece rotors which are larger than stock and include all necessary brackets and hardware to move the stock rotors outward to accommodate the OEM calipers. The result is increased performance by increased leverage of the larger rotor.

195073 Standard Front 13.35" Rotor-Except Z51 or Z06, pr. .... 861.95

Check Wheel Size When Ordering

### Direct Fit Performance Brake Caliper with Pads Kit

Upgrade your Corvette's brake system without the hassle of complete brake system overhaul. Wilwood's "direct fit" calipers mount to your Corvette's factory brackets.

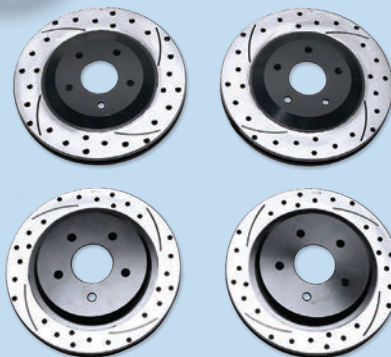

- 4 Piston Forged aluminum body calipers with spring dampened stainless pistons, and internal bore seals.
- Direct bolt on replacement on all C5's and base model C6's using 12.80" front and 12.00" rear dimension OE style rotors.
- Available in Red or Black powder coat finishes.

195020 Front ..... 714.95

196043 Rear ..... 664.25

### Brake Rotor Update Kits

### ProMatrix Front and Rear Replacement Rotor Kit

• 12.80" Diameter Rotors

ProMatrix Front and Rear Rotor Kits offer measurable brake performance improvements to racers and enthusiasts using the OE factory brake calipers and High performance pad compounds. One piece rotors are used to provide high temperature durability for the track or high-tech style with corrosion resistance for the street.

## Urethane Bumper Repair Kit

A Flexible Epoxy Repair Compound for the auto body shop which sets in 6-8 minutes. It has strong adhesion to all surfaces plus excellent paint adhesion. Use to repair cuts, holes, tears and gouges in rubber bumpers, flexible header panels, and filler strips (exc. polyethylene and polypropylene).

203039	Flexible Urethane Bumper Repair Kit	49.95
--------	-------------------------------------	-------

# Cooling System

## Direct Fit Aluminum Radiator

This new high performance Direct Fit aluminum radiator features two rows of 1" cooling tubes, doubling the cooling capacity of the factory single row. The press formed aluminum end tanks are tig welded to the core, eliminating failures due to cracked plastic end tanks and/or gasket leaks. This unit fits into the original mounting and has all the factory connections.

246145	EOC Radiator	939.95
306190	Engine Oil Cooler Hose Assembly	193.95

## 160° Low Temperature Thermostat

These low-temp thermostats dramatically reduce operating temperatures, while increasing thermal efficiency and your engines performance in the process. Racers know that a cooler running engine is a better performing engine. This new thermostat replaces the factory unit, allowing coolant to circulate at lower engine temperatures, keeping the engine cooler. Not legal for use on pollution controlled vehicles.

245010	05-08	LS2, LS3, LS7	28.75

## Meziere Electric Water Pump

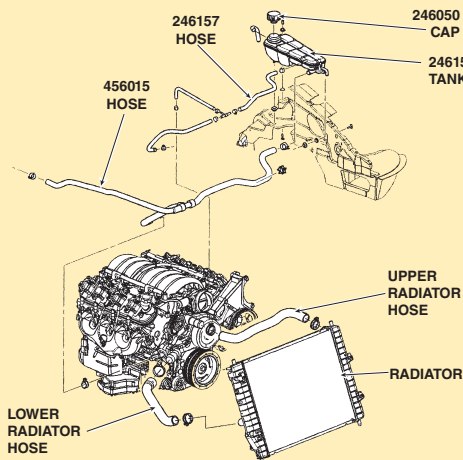

The high flow electric water pump for the LS2 engine is here. Track, dyno, and most importantly, street tested, has proved engines run cooler at low speeds and gain high end horsepower when running Meziere's bolt on pumps. In addition to the released power, you get to keep all of your factory accessories. The WP319 features a dual bearing belt idler, billet parts throughout, and a "weather-tite" electrical connection. The unit is available in these colors: black, red, blue and polished; and is backed by a two-year warranty.

	Includes: Fan Motor, Blade, and Shroud	
206001	Lower Radiator Support and Front Bumper Skid Plate	408.00

## Adjustable Fan Controller (Hi-Low)

New design plug and play module installs easily to the PWM-controller coolant fan found on the C6 Corvette. The factory coolant fan is powerful and incorporates a solid-state controller instead of relays (as in previous years and models). This module interfaces with the factory controller and permits manual coolant fan control.

This module simply plugs into the fan connector and includes a

round rocker switch that matches similar design control switches found in the console. Using this switch allows the vehicle operator to manually override the ECU control of the coolant fan, to force-cool the engine, even when the car is unattended and not running. Ideal for off-road racing and competition use.

Very simple Installation! Installs typically in less than one hour.

246100.....101.00

## GM Radiator Cooling System Stop Leak Tabs

• DEX-COOL Compatible • Seals Minor Leaks • Non-Toxic

## Stainless Steel Dash Trim Kit

Real Stainless Dash Kit for your C6! This kit contains 1 stainless trim ring to surround your shifter, 1 stainless trim ring for your radio, 1 stainless trim ring for your console compartment, 2 stainless trim rings for your A/C vents, 2 stainless defroster trim rings and 2 control trim rings. Includes 3M attachment tape for easy peel and stick application.

486013	Brushed Stainless Steel .....	244.95
486023	Polished Stainless Steel .....	244.95

## Door

### Color Keyed Door Handles

- Color keyed to match body color
- Replaces black finished handles
- To provide improved appearance
- Bolt-on installation
- Available in all exterior colors

286010 Pair ★Specify Color★ ..... 102.00

### Chrome Door Handles

- Chrome plated plastic

286009 Pair ..... 112.25  
286121 Outside Door Release Handle Finger Pad & Switch.....24.95

- Carbon Fiber look plastic handles

286026 Pair ..... 117.50

### Door Handles-Black Plastic

286013 Factory, (L or R) ..... 45.90  
286059 Reproduction, Pair ..... 40.95

### Door Outer Window Seal

286063 05-13 (L or R) ..... 147.95

## C6 Vertical Door Kit

OPEN DOORS,  
THEN GO VERTICAL!

**VERTICAL DOORS, INC.**

- Direct Bolt-On – No Drilling
- All Kits are Made in the USA
- Mounting Hardware Included in Each Kit
- All Kits are Vehicle Specific Bolt-On
- Made of High Strength Steel
- 100% Product Guarantee
- All Kits are Patented

Give your C6 Corvette a more exotic look with this bolt on vertical door kit. Installation requires some trimming to inner panels but no paint work is needed. No modifications to the stock wiring harness are required. The purchase of aftermarket doors is not necessary as this kit uses your factory doors. And, as an added bonus, this process is reversible. Due to the design of these doors, you can always return your doors to the stock hinges if you want to. Complete instructions are included and installation time is approximately 6 hours.

See Our WEBSITE for Kit Photo.

286117 ..... INQUIRE

### Door Edge Guard

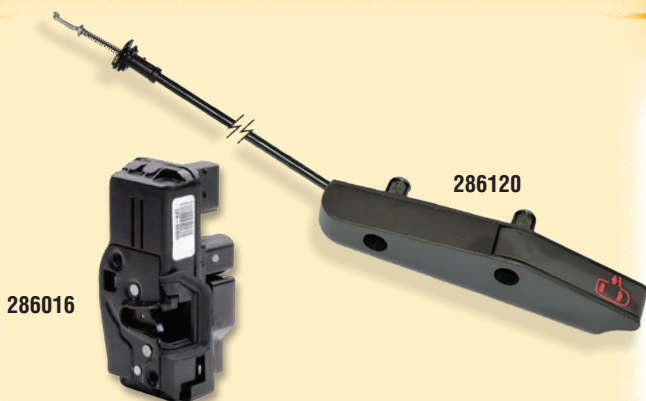

This Corvette Door Edge Guard will help protect your C6 door edge and the car next to you without permanent modification. Seals are made from high quality rubber and are adhesive lined.

286001 Pair ..... 20.50

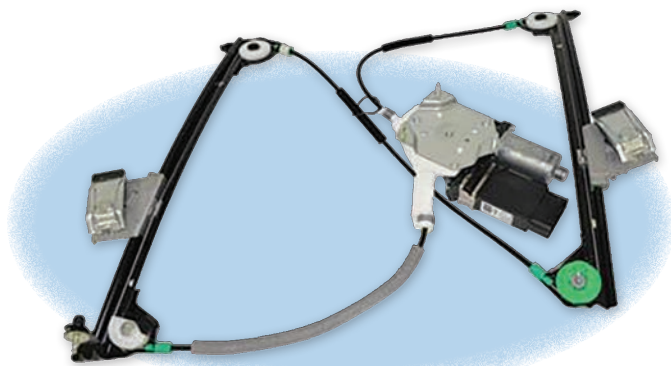

### UAW Bowling Green GM Door Decal

266002 05-13 ..... 30.75

- 286016** 05-13 Door Lock Latch Assembly with Cover (L or R) .....295.95
- Emergency Inside Door Release**
- 286120** Ebony Emergency Inside Door Release Handle w/Cable (L or R) Left..... 35.75 Right..... 29.60
- 286008** Cashmere Emergency Inside Door Release Handle w/Cable (L or R).....51.00
- 286126** Driver's Door Emergency Release Cable - In Rear Hatch Area .....13.95

- 286098** Power Window Regulator with Motor (L or R) .....438.75

## Underdoor Puddle Light Kit

Under-door puddle lights will light up a large area under the doors when opened so you can see where you're stepping! Door panel removal is not required to wire these. Mounts with super strong adhesive backing.

- 285161**.....36.95

★Specify Color★ -01 Red, -02 White, -03 Blue

## Door Grab Scratch Guards

- Clear and hardly noticeable • Will not yellow
  - Resistant to heat, cold and moisture • Scratch resistant
  - When applied properly will last for many years • Easy to apply
- Protect your C6 from scratches in the door grab area when you open the door. The new C6 door grab scratch guards are made from an innovative polymer.

- 286077** Pair..... 21.50

## Door Sill Seal

Protect the painted door sill area of your C6 from dust and water. This area is not protected by factory door seals but this supplementary seal will keep your sill area looking clean and spotless. Peel and stick application is quick and easy.

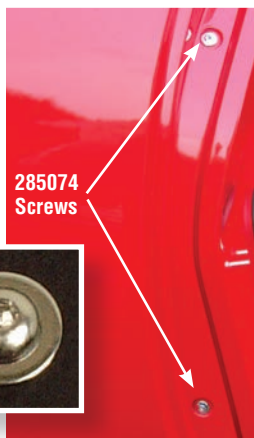

- 285065** Pair..... 24.50

These come with double stick tape, but it is a good idea to use some additional glue to help hold them on.

**285123**

- 285091** Upper Door Hinge..... LH = 132.75... RH = 127.50

## Cockpit Air Filter

Reduce interior dust while providing fresh air for you and your passenger.

This custom-cut foam filter installs easily over the exterior cowl vent air inlets, greatly reducing dust and pollutants entering the interior. The heating/cooling system components are also protected from ingesting contaminants. Spray with tap water to clean and reuse.

## Prothane Polyurethane and Aluminum Engine/Motor Mount

This Prothane Complete Motor Mount Set is for the 1997-2013 Corvette. These motor mounts have polyurethane bushings with billet aluminum casings. The polyurethane bushings offer a much sturdier surface than the hydraulic mounts. This sturdiness increases engine response and allows for more efficient torque transfer all while being much more durable than the hollow mounts. In much the same way the aluminum casings offer great protection for the new mounts while further enhancing their durability and keeping your weight low.

TERMINOLOGY

### Knock Sensors

**What They Do:** Detect cylinder block vibrations caused by engine knock and send a signal to the computer to retard ignition timing.

**Failure Symptoms:** Engine knock, Loss of power, Malfunction indicator lamp is on.

**Maintenance/Service:** Check connection and signal from sensor when complaints of engine knock are present.

### MAP Sensors

**What They Do:** Signal computer to adjust timing and air/fuel ratio based on the amount of pressure in the intake manifold.

**Failure Symptoms:** Poor performance and economy. Black smoke, stalling, surging and catalytic converter overheating can occur.

**Maintenance/Service:** Inspect during tune-up. Look for misrouted, collapsed, cracked or clogged vacuum lines or corrosion on terminals or broken wires. Check for proper voltage signals.

### Engine Coolant Temperature Sensors

**What They Do:** Measure coolant temperature and signal computer to adjust air/fuel mixture.

**Failure Symptoms:** Poor performance, economy and hard starting. Watch for service flag, or Malfunction Indicator Lamp is on.

**Maintenance/Service:** Inspect every 12,000-15,000 miles. Check connectors for corrosion or poor contact.

**POWER BOOSTER**

## AC Delco Iridium Factory Spark Plugs

305032 LS2/LS3-Set of 8 ..... 81.75  
306113 LS7/LS9-Set of 8 ..... 81.75

Corvette Central recommends NGK spark plugs for street and performance applications. These plugs typically result in quicker throttle response and an overall smoother running engine.

### Ignitability of V-Power Spark Plugs

NGK's unique V-Power design directs the spark to the edge of the electrode where it can develop more rapidly. This allows easier and more complete combustion of the air/fuel mixture. The increased ignitability allows the engine to burn air/fuel ratios that would otherwise be too lean.

### Iridium IX - The ultimate evolution of a performance spark plug.

It may be time to invest in precious metal futures. NGK Iridium Spark Plugs represent the ultimate evolution of spark plug technology and performance. Iridium allows for a center electrode 75% the size of a platinum electrode and 24% the size of a conventional nickel electrode.

305257 •NGK TR55 Spark Plug-Stock Set-LS2/LS3 ..... 25.50

## Granatelli Performance Spark Plug Wire Set

- 0 Ohm resistance
- Patented design
- Solid stainless connector cable with stainless snap lock spark plug connectors, unique EMI/RMI protection ring
- The only true solid stainless steel core wire that works with today's computer dependent engine and all race cars.
- Increase power to the spark plugs, up to 400% over stock
- Improves mileage and throttle response
- High temperature silicone boots, 8 MM jacket with fiberglass-reinforced braid resists temperatures up to 500° F

306130 Set of 8 ..... 196.95

## Factory GM Spark Plug Wire Set

306034 LS2, LS3 and LS7 ..... 101.00

## MSD 8.5mm Super Conductor Spark Plug Wire Set

- 40-50 ohms per foot of resistance
- High EMI suppression abilities
- Tough silicone/synthetic sleeve
- Durable, extra thick plug boots
- Dual crimp terminals grip the wire and conductor

Too-high resistance decreases the spark energy, yet too-low resistance will not suppress electronic noise which will interfere with other sensitive electronics on the vehicle. The MSD Super Conductor wire utilizes technology that provides the lowest resistance available in a suppression style spark plug wire. With this design, EMI is held inside the wire while more spark energy reaches the plugs.

305319 (ND)..... 102.00

## Delphi Stock Spark Plug Wire Set

OEM Wire Set Features:

- Correct OHMS Resistance / Foot
- Correct Lengths
- Correct Premium Boots / Terminals
- Kevlar Wrapped Insulation / Superior to Fiberglass
- Stainless Terminals That Won't Corrode
- Includes Heat Tubes

305255..... 81.75

## Spark Plug Wire Protectors

- Ideal for protecting wires and boots from header heat
- Helps prevent misfiring
- Simply slide over existing wires and boots

305181 Titanium Set of 8 ... 81.75

305425 Black Braided

Set of 8 ..... 66.50

## Packard Hi Temperature Spark Plug Wire Set

- Designed by GM specifically for high performance LS applications.
- Real horsepower gains over stock wires when using improved coil packs.
- Compatible with all OE electronics including radios and computer systems.
- All wire sets include new heat tubes and improved boots and connectors.
- All terminals are "dual crimped" maintaining integrity, even with multiple spark plug changes.
- Outer is heat resistant up to 600 degrees and will not tear.
- Inner jacket designed to dissipate heat to ensure consistent spark.
- Center core is made with "Kevlar" fibers to eliminate breakage.
- Outer core is a copper alloy wrap that surrounds the innercore & carries 90% of the voltage

305274..... 91.75

## Granatelli 80KV Hi-Performance Coil

- Increased engine efficiency with improved engine combustion.
- Gains of up to 12hp have been seen with these coils over stock. Average gain with no other changes is 6 to 8hp on an otherwise stock vehicle. Gains of up to 18hp have been experienced on heavily modified forced induction applications.
- Rated at 80K Volts, Pro-Series Extreme coil packs offer nearly twice the voltage over the competition.
- Lifetime Warranty.

305242	LS2/LS3/LS7 Chrome Alternator and Power Steering Mount Bracket .....	295.80

## Powermaster 220 High Amp Alternator

This C6 Corvette alternator produces 220 amps - 150 amps at idle. Direct bolt-on fits existing brackets and replaces all lower-amp original Valeo alternators. Includes the decoupler pulley to eliminate belt slip and improve belt-drive system durability. Made in the U.S.A.

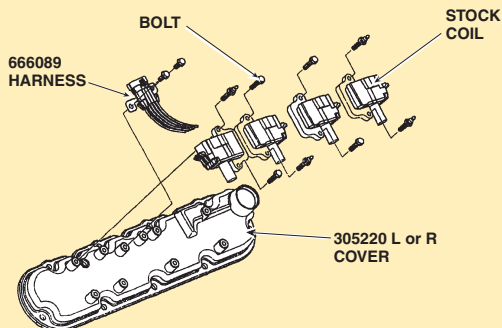

305523 (ND).....397.95

## Flame Thrower Pertronix Performance Coil

- Optimized coil design or improved spark energy
- Provides consistent spark energy throughout the RPM range and with no energy degradation up to 11,000 engine RPM's
- Moisture resistant construction ensures long life in harsh environments
- Plated terminals for added current conduction
- Epoxy molded for shock and vibration resistance

**High Performance Pulleys and Balancers – See Page 58**

### Billet Belt Tensioner

Ensures that belt stays put at high rpm through use of higher pulley sidewall design.

- Superior, lightweight design & black anodized finish
- Comes assembled and torqued with tall flange pulley for easy installation
- Uses factory drive belt but doesn't require disabling stock tensioner
- Keeps correct tension no matter the demand

- 305275** .....158.25

## Electronic Control Module (ECM/PCM) Rebuild & Reflash Service

- Allow 3-4 weeks for service

As the control center of the fuel injection system, the electronic control module constantly monitors information from various sensors including the opening times (pulse width) of the injectors. It can diagnose operational problems, alert the driver through the "check engine" light, and store a code or codes which identify the problem areas to assist in making repairs.

306006	05	LS2	.....	INQUIRE
306071	06	LS2/LS7	.....	INQUIRE
306234	07	LS2/LS7	.....	INQUIRE
306245	08	LS3/LS7	.....	INQUIRE
306279	09	LS7	.....	INQUIRE
306300	09	LS3	.....	INQUIRE

When sending in exchange, the ECM must not have any visible evidence of damage or fluid intrusion. Keep the chip out of your original ECM.

We will need your V.I.N. number when ordering these modules; the price includes having the module "flashed" with current updates and specs for your car. This is drop shipped to you from our vendor after the unit has been flashed.

### Why Should I Reflash My Corvette's Engine Computer?

For approximately 5 years after a vehicle's production, GM produces software updates for the engine management system (PCM/ECM). These are updates learned from driving the car and feedback from engineers and dealers, as well as customers. These updates were previously only available from a dealer at a high cost. These updates are similar to updates that Microsoft sends to their customers via the Internet. Unfortunately your Corvette is not connected to the Internet.

**When the PCM/ECM is reflashed the original software is reinstalled along with all factory updates. There can be up to 14 or 15 updated files for an individual car. These updates include:**

- Engine Fuel Management Optimization
- Hot Start Fuel Idle Issues
- Transmission Shift Point Changes
- Speedometer Error Corrections
- Design Defect Corrections
- Clears Trouble Codes
- Improvement in Fuel Consumption
- Better Overall Performance

In addition, all software in a computer tends to deteriorate over time and needs to be reinstalled to bring back original performance and operational speed.

GM estimates that over 25% of their cars on the road need a PCM/ECM reflash. Corvettes are much higher in % since so few are taken to a dealer.

**Note, cars which have had a computer "tune" cannot be reflashed without removing the "tune"**

**Get your Corvette "flashed" to bring it up to maximum performance!**

#### Important

Electrical components such as coils, spark plugs, wires, ECM's, switches and sensors are

#### NON-RETURNABLE PARTS

Always refer to a factory service manual when diagnosing engine service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.

## POWER BOOSTERS

### SCT Power Flash Programmer-Exc ZR1

- Adds up to 10 HP and 12 FT-LBS Torque
- Stores 10 Custom Tunes
- Huge Backlit LCD Display
- High Speed Data-logging/Monitoring
- Reads/Clears DTC Trouble Codes
- User Adjustable Vehicle Parameters
- Easy Restoration Back to Stock
- Dual Analog Inputs
- 2005-2013 LS2, LS3, LS7
- Installs Quickly and Easily
- USB Interface Cable Included

The X4 Power Flash arrives Pre-Loaded with Dyno Proven tune files that increase horsepower and torque! Programming your vehicle with one of SCT's pre-loaded performance or fuel economy tune files is as easy as 1-2-3. Simply plug the OBDII connector into your vehicle's OBDII port, select the pre-loaded tune file using the simple to navigate menu and within minutes the X4 programs your vehicle.

305406 (ND)..... 427.50

### Diablo Sport In-Tune Programmer

- Free Automatic Online Updates for Life
- Drag and Drop File Transfers (tunes, updates, etc...)
- Fastest Programming Available
- Easy to Use
- Removable Cables for Simple Storage
- External Sensor Inputs (0-5v analog devices)
- Virtually Unlimited Custom Tunes (based on memory)
- Fits in Your Pocket-Smaller Than Your Average Cell Phone
- Preloaded with Multiple Tunes for Each Application
- Features Diablo Sport's "Vehicle Protocol Engine"
- Includes Mileage Booster and Throttle Booster
- Warranty Safe-No Watermarks, Fingerprints, or Counters
- Virtually Unlimited Data-logging (based on memory)
- 1 Year Warranty
- USB Connectivity

Diablo Sport in-Tune advanced handheld programmer features dual processors and more than 1GB of memory. Powerful and reliable. Designed to improve power and fuel economy. It also offers data logging, compatibility with custom tuning, a wide range of adjustable parameters and extensive diagnostics. Designed, engineered, and manufactured in the United States, it is wrapped in a stainless steel case.

## Upgraded OEM Rocker Arm Set

- Stronger, More Durable Trunnion
- Captured Bearing Design
- Increases Lift Capacity
- Utilizes Caged Roller Bearings

Comp Cams replacement LS Upgrade OEM Rocker Arms are designed to eliminate cageless needle bearing failure in stock LS rocker arms when loads are increased. LS Upgraded OEM Rocker Arms feature a stronger, more durable trunnion and captured bearing design. Upgraded rocker arms increase lift capacity and utilize caged precision roller bearings for valve train durability. The trunnions are secured by snap rings. Each upgraded rocker arm is made to meet or exceed OEM specifications of high-quality materials with a black-oxide finish for long-term durability.

LS7 – Raised Rectangular Port

## Lingenfelter Double Valve Spring with Titanium Retainer and Seals Kit

### Technical Specs:

- Installed Heights: 1.800 Pressure: 160 lbs.
- Open Height: 1.125 Pressure: 424 lbs.
- Coil Bind at 1.085
- Max Lift at 1.800 .675
- Spring Rate: 392

**Note:** Will not work with Lingenfelter LS & GT19 or GT21 Camshaft.

Lingenfelter premium dual valve spring kit for use with camshafts under .675 lift. These dual valve spring kits include 16 lightweight titanium spring retainers, 32 7 degree bead lock valve locks, 16 spring seat cups, and premium OE style valve seals.

<b>305415</b>	LS2/LS3/LS7/LS9 (ND)	510.00

## LS2/LS3/LS7 Comp Cams Rocker Arm Upgrade Trunion Kit

***Gets rid of Z06 Rocker Noises!***

- Converts stock LS series rocker arm into a captured roller trunion for race applications.
- Kit increases stability and stiffness.
- Replaces OEM powdered-metal trunion with stiffer, more durable 8620 steel alloy material.
- Factory needle bearings replaced with caged roller bearings to increase rigidity and reliability.

<b>305346</b>	(ND)	168.95

On Trunion Upgrade

## Harland Sharp Aluminum Roller Rockers

- Bolt-on application
- Fits under stock valve covers
- Needle bearing full roller fulcrum assembly reduces friction and wear to enhance engine performance
- Included-all 8mm grade 8 socket head cap screws and pedestals
- Uses a .250 diameter shaft, tying two rockers together, no more twisting on the valve

<b>305410</b>	LS2 1.7 Ratio (ND)	491.95

## OIL PUMP

<b>305080</b>	Melling High Volume - Standard Pressure (ND)	194.95
<b>305337</b>	Katech-GM Casting (ND)	255.00
<b>305343</b>	Stock GM Oil Pump	112.25
<b>305213</b>	Engine Front Main Seal	35.70

When replacing the Camshaft you will also need to replace the #305201 Timing Chain/Front Engine Gasket Kit, and the Harmonic Balancer Bolt.

## GM Hot Cam Kit

• Includes Valve Springs and Retainers.

<b>305361 (ND)</b>	641.60
--------------------	--------

## Pfadt Aluminum Engine Mounts

**305250**

An excellent solution for high horsepower or high performance Corvettes, they've approached these mounts as a complete system to limit unnecessary movement. The soft stock mounts allow power-robbing movement that shakes the car and can break parts. Constructed with 6061 T6 aluminum and anodized for durability.

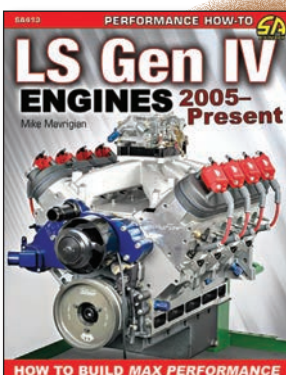

<b>305250 Pair (ND)</b>	408.00
-------------------------	--------

## Lingenfelter Adjustable Launch Controller

This Dual RPM Launch Controller is a true 2-Step spark based RPM limiter for use with LS based engines and ignition systems. It provides the ability to control a primary and secondary RPM limit setting. This will help provide consistent launch RPM off the line in drag racing and other standing start racing applications. In turbocharged applications it can also be used to load the engine and help build additional boost off the line. The Launch Controller can also be used as an adjustable individual cylinder RPM limiter, providing reliable and fast acting spark based engine RPM limit control. See our WEBSITE for more info

## Meziere Electric Water Pump Fits LS2/LS3/LS7

The high flow electric water pump for the LS engine is here. Track, dyno, and most importantly, street testing has proved engines run cooler at low speeds and gain high end horsepower when running Meziere's bolt on pumps. In addition to the released power, you get to keep all of your factory accessories. Features a dual bearing belt idler, billet parts throughout, and a "weather-tite" electrical connection. The unit is available in these colors: black, red, blue and polished; and is backed by a two-year warranty.

**245075 Red (ND) ..... 894.95**

## LS Engine Coil Pack Shields

- Semi-Rigid shield made from double sided aluminum & high temperature foam core
- Insulates & reflects heat away from the coils
- Extends coil life

305456 Pair .....33.75

## Cool/Insulating Tape

- Withstands direct heat up to 400°F
- Use to secure panels, seal air boxes, wrap wiring and more
- Strong self-adhesive backing • 1 1/2" x 15" Roll

Cool Tape is a flexible and super strong self-adhesive thermal insulating tape capable of protecting up to 2000°F of radiant heat. Made of one mil aluminized material bonded to a woven glass fiber heat resistant matting, Cool Tape is an ultra light weight heat reflective solution for wrapping wires, cables, hoses, fuel lines, covering seams, and many other uses.

### 3D Fuel Rail Cover 3D Letters

These are not just vinyl decals. They are a three (3) dimensional decal that looks like a factory manufactured emblem. Available in various colors. They look great! These raised inserts are made of the highest-grade material available by 3M and Avery graphics. Each process goes through an extensive quality control to ensure that you're getting the very best there can be. No yellowing, color fading up to 5 years guaranteed (tested). Clean surface as advised in instructions then just peel it and apply it to any flat surface, it's that easy.

**Specify Color:** -01 Chrome, -02 Red, -04 Yellow, -06 Silver, -07 Gold, -08 Jetstream Blue, -09 White

306102	LS2 Set .....	102.00

Exhaust Sounds on  
your Phone

## Power Up Your Exhaust with Borla!

• All systems have 4 – 4" Round Stainless Steel Exhaust Tips

Borla Exhausts feature patented technology to unleash hidden horsepower. Increased exhaust velocity adds power, driving excitement, fuel economy, and the distinctive Borla Sound of Power respected by motoring enthusiasts everywhere. Each system is built from premium Aircraft-Quality T-304 Stainless-Steel, an alloy superior to T-400 series knockoffs, to give you the absolute best in performance and durability. Ultra-smooth mandrel bends ensure maximum flow and power, and precision computer-controlled CNC manufacturing ensures an accurate fit. Best of all, Borla stands behind every system with a Million-Mile Warranty. Just what you'd expect from the world's most experienced (and most winning) exhaust brand.

Cat Back System Shown  
Except Z06/ZR1

Z06/ZR1 Shown

### Touring

#### Mild Growl

##### High Performance with a Low Roar

The Touring Muffler is designed for those who prefer a less aggressive tone-yet louder than the factory design-you'll call it just right. Smooth idle note grows aggressive as the RPM's climb.

**326038 05-08 Muffler, Pair (Exc. Z06) (ND) ..... 1,499.95**

### S-Type II

#### Aggressive Plus "Stinger"

##### The Head Turning Sound of Straight-Through Power

Borla's S-TYPE II system features the more classic power sound that Borla has been perfecting over the last 30 years. Increased sound pressure coupled with hi-flow technology allows your C6 Corvette to breathe easier and run stronger. At low RPM (under 3500rpm) you can still have the radio on low volume and carry-on a nice conversion-however with increased throttle the system wakes up and provides the full effect of the RPM range. In addition-Borla's new exhaust design eliminates the unwanted drone associated with performance systems providing a very comfortable sound when cruising.

<b>326046</b>	<b>05-08</b>	<b>Cat Back System (ND).....</b>	<b>2,189.95</b>

<b>326114</b>	<b>05-08</b>	<b>.....</b>	<b>937.95</b>
<b>326058</b>	<b>09-11</b>	<b>.....</b>	<b>749.95</b>

### ATAK

#### Super Aggressive

##### The Power of Borla's Multicore Technology with the Sound of Acoustic Tuning

ATAK™ (Acoustically-Tuned Applied Kinetics) is a new technology that produces the highest available dB (decibel) levels in the BORLA street-legal lineup, and is designed for high-performance purists who prefer exhaust notes over their stereos. With ATAK you get the best of both worlds - race proven technology from Borla's line of XR-1 mufflers PLUS a distinct muscle-car roar that was built specifically for the C6 Corvette. At cruise the interior sound is not overpowering - yet when driving the sound connects you to your Corvette helping you know exactly where you are in the RPM range - talk about Corvette performance at a very high level! In addition - Borla's new exhaust design eliminates the unwanted drone associated with performance systems providing a very comfortable sound when cruising.

# Performance Exhaust

326128 Shown Quad Tip

## Go Xtreme With Your C6 Exhaust

- Patented RSC Technology For No Interior Drone
- 100% Stainless Steel Construction-Lifetime Warranty
- Adds Up To 13 RWHP And 10 ft-lbs Of Torque

CORSA Performance has done it again. They've taken their popular C6 Sport Exhaust and kicked it up a notch with the all new CORSA Xtreme. Always loved CORSA quality and craftsmanship, but wanted even more attitude and sound? Then this is your exhaust. Deeper tone at idle, yet louder outside under throttle, this system delivers their most aggressive sound yet, while still controlling the interior sound level. Unlike the competition, there is no cheap packing material to wear down and cause the system to get louder with age.

### Xtreme Exhaust System-Axle Back

326011	05-08	3.5" Quad Round Tips (ND)	1,833.95
326128	09-13	4" Quad Round Tips (ND)	1,881.95

326028	06-13	Z06 / ZR1 (ND)	557.95

## Release The Beast In Your C6

- Exclusive RSC Technology For No Drone
- 13 HP & 10 ft-lbs Of Torque On Standard C6 Systems, C6 Z06 Is 10 HP & 14 ft-lbs
- Direct Bolt-On Installation-No Cutting, No Welding
- 304 Stainless Steel-Lifetime Warranty

CORSA's patented "Reflective Sound Cancellation" technology provides more power and powerful acceleration sound, yet quiet cruise. Touring system improves performance, with a mellow sound. Sport system provides maximum flow with a more aggressive exhaust note, yet quiet cruise. Your choice of 4" Dual Tips or 3.5" Quad Tips. Eliminate annoying resonance found on some Corvettes with CORSA's new systems specifically built for your Corvette. To maximize your exhaust performance without resonance, order the new CORSA Crossover Pipe which cuts back pressure and increases exhaust flow.

[CorvetteCentralExhaust.com](http://CorvetteCentralExhaust.com)

## Fusion

**Billy Boat's Fusion Exhaust System** is a direct plug and play replacement for factory NPP systems. The B&B Fusion will give you the sound your C6 is missing. For non-NPP equipped C6's, B&B developed a complete stand alone kit allowing an upgrade to their Fusion Exhaust. The bi-model design has two passages the exhaust can travel through. The "quiet" side has a smaller, muffled and chambered tube, while the "loud" side has 3" tubing straight through. The butterfly valve, when closed, forces all the exhaust through the "quiet" side emitting a nice mild exhaust note and when opened the exhaust flows through the "loud" side producing a deep, robust note. Increases of 16HP and 17 ft-lbs were seen over stock. Systems are compatible with B&B Crossover Pipes.

Control - See  
Page 75**

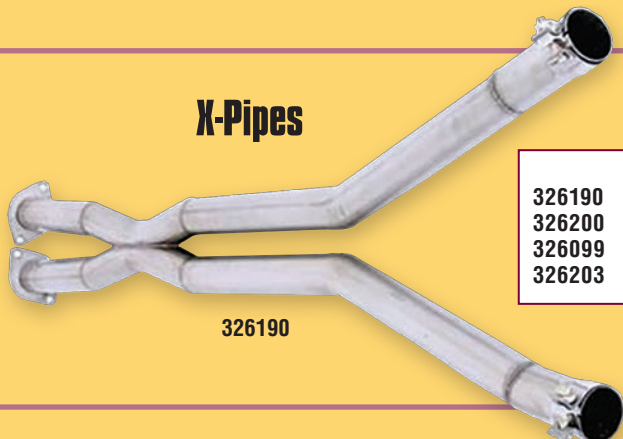

**Billy Boat Performance Exhaust** has created the most aggressive performance exhaust system to be released - the **BULLET!** Not for the meek or mild, the Bullet has quickly become the industry standard for a deep, aggressive muscle car sound on the C6. You can see up to 18 rear wheel horse power and 17 foot pounds of torque from the Bullet. With Billy Boat Performance Exhaust's boldest tip style and configuration insure the C6 will scream "muscle car."

<b>326153</b>	05-08	Bullet Muffler with Quad Oval Tips (ND)	1,279.95

**The New PRT C6 Exhaust from Billy Boat Exhaust System** is the latest in resonance control technology from B&B. Completely redesigned and reengineered for the C6, the system is simple in design, Through more complex in theory. You can now have a mellow sound at cruising speeds and a sport note when you're tearing up the streets. It allows true straight through exhaust passage under aggressive driving conditions, though a mellow sound is emitted at cruising speeds thanks to the unique Purge Chamber. Designed especially for the automatic, paddle shift, and cars with headers, this Billy Boat Performance Exhaust PRT system works purely on physics and adrenaline.

## PRT

## Sweet Thunder Chambered Cat Back Exhaust System

Sweet Thunder Mandrel Bent Cat Back Exhaust System with the great classic muscle car sound. No doubt those not lucky enough to be driving your Corvette will end up seeing this view of the highly polished stainless tips and the second pair of chambers pumping out that Sweet-Thunder V8 tune!

- Includes X-Pipe
- Streamlined mandrel bends with shallow angles reduces back pressure and a larger crossover passage to maximize exhaust system balancing
- The Sweet Thunder Exhaust System uses all the factory hangers
- The integrated chambered cat back system specifically designed for the C6 allows for a cleaner tight fit without sacrificing flow or sound
- Bolt-On exhaust system for enthusiasts looking for performance and sound utilizes 2-1/2" 14 gauge aluminized tubing throughout
- Exhaust tips are made from 300 series polished stainless steel formed to fit the factory opening

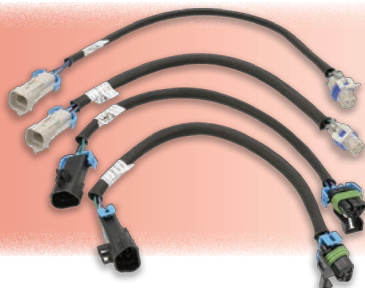

326006 05-13 Set ..... 1,192.50

## 05-13 Hooker Blackheart Shorty Headers

- 1-3/4" x 3"
- Shorty Headers with Merge Collectors
- 304 Stainless Steel Construction
- Natural Finish
- C.A.R.B. EO# D-115-20

326269 Pair ..... 1,010.95

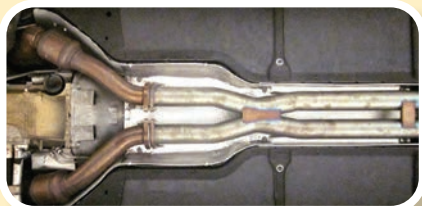

## Long Tube Header O2 Sensor Relocation Harnesses

666014 LS2/LS3 Set of 4 (ND) ..... 104.00

666102 LS7/LS9, Pair (ND) ..... 108.25

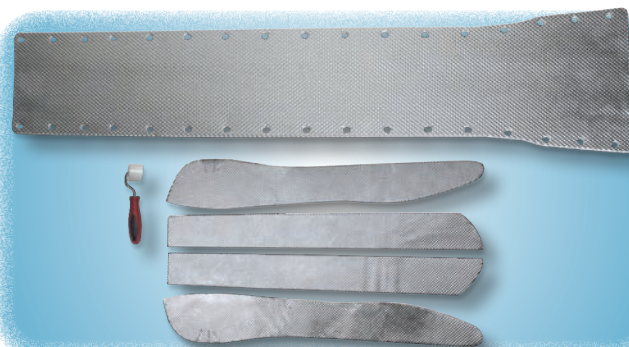

Note: Only 2 required on LS7/LS9. The rear sensors do not require extensions as the stock harness will reach.

## Exhaust Heat & Sound Underbody/Tunnel Shield

- Reduces floor board and console temperatures
- Original Equipment grade engineered materials
- Factory appearance
- Bolt-in with no modifications required
- Easily installed with basic hand tools

325128 ..... 510.00

## Exhaust Heat and Sound Heat Barrier

- Made of 10 mil embossed aluminum material
- Bonded to a high temperature finely woven needle punched glass fiber composite material
- Aggressive self-adhesive backing

326007 ..... 193.95

## Kooks Long Tube Headers & Hi Flow Exhaust Systems

With their first custom bends in 1962, Kooks gained the reputation of building the highest quality and best performing headers and exhaust systems available. Fast-forward 40-plus years and you'll find that same level of excellence in their designs for the C6 Corvette.

Ball & Socket  
Connections

Shown with  
Converters

Torque Monster  
True X-Merge  
System

### LS2 & LS3

304 stainless-steel headers feature 3/8" laser-cut flanges sprouting mandrel-bent primaries to move spent gases out through 3" merged collectors plumbed with emission fittings. We recommend 1-3/4" for stock or engines modified with an air intake system, 1-7/8" if running aftermarket cylinder heads and camshaft. Note: Installing long tube headers requires replacement of factory mid-section exhaust. An ideal upgrade is Kooks' 304 stainless high-flow catalytic converters with X-crossover and mid-section pipes.

### Z06/ZR1

Specific fit for the LS7/LS9. Same 1st-quality stainless construction as described above. Headers feature 3/8" D-port flanges, 1-7/8" primary tubes, and 3" Venturi collectors with A.I.R. and O2 fittings. Note installing long tube headers requires replacement of factory mid-section exhaust. For street use, choose Kooks' 304 stainless high-flow converters with X-crossover and mid-pipes. Also available with a 3-piece X-/mid-pipes set-up for off road use only.

326224	Stainless Long Tube Headers, w/Street X-Crossover, Converters & Mid-Pipes System (ND)	3,279.00
326236	Stainless Long Tube Headers, w/Off Road X-Crossover & Mid-Pipes System (ND)	2,553.00

## American Racing Headers

### American Racing Headers Systems Include:

- 100% Made in the USA - Never Outsourced
- Made entirely of 304 stainless steel
- 3/8" thick laser-cut flanges for a wrap-free seal
- Hand-ported TIG welded inlets
- Optimized primary tube routing for superior fit and performance
- Merge collectors complete with welded scavenger spikes
- Catted systems feature 200 cell metallic substrate catalytic conversions for extreme durability
- The system is designed to splice into your factory or aftermarket exhaust
- Will work with straight or angle plug heads
- Expect minimum gains of 25 RWHP

## LS3/Z06/ZR1 "Mild 2 Wild" Exhaust On Demand Remote

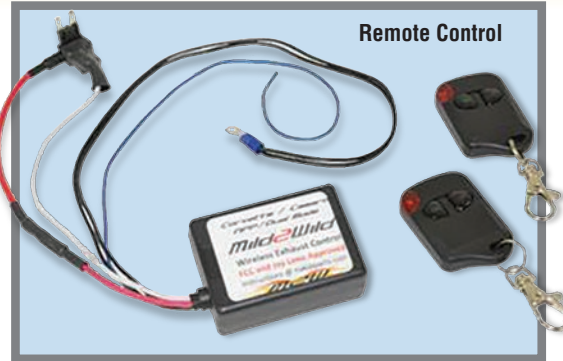

Introducing the first and only wireless remote designed to give you full control over the NPP optional exhaust. Imagine having the ability to turn your exhaust from Mild (exhaust ports closed) to Wild (exhaust ports open) using your OEM Homelink (found on your visor) or via the supplied remote. This revolutionary product lets you control your exhaust system on demand via a tiny wireless remote or the Homelink feature in your car. One of the coolest technologies is the "Bi-Mode" exhaust. Whisper quiet up until 3500 RPM and then a wide-open racecar sound as the flaps located in the tips open. The problem is in the inability to control this feature. Up until now, your only choice was to pull the fuse or to install wiring, drill a hole for a switch to turn the quiet mode off.

- 06-13 Z06
- 08-13 LS3 with Bi Mode NPP Exhaust Option
- 09-13 ZR1
- Also Works with B&B Fusion Exhaust
- ZL1 Camaro

**326147 Remote Control ..... 76.50**

**326086 LS2+LS3 - (Use when adding factory NPP or B+B Fusion Exhaust) Remote Control .....214.25**

Just install the NPP Bi-Mode Mufflers from GM or the B&B Fusion Mufflers and add the Bi-Mode Retrofit Control System and you will have a fully functional Bi-Mode System.

**326037 Mild 2 Wild Foot Pedal Control.....51.00**

## Zycoat Manifold and Exhaust Thermal Coating

Do-It-Yourself patented high temperature coating for headers, manifolds, exhaust and turbos. ZyBar heat dissipation technology increases horsepower & torque by improved scavenging, reduces radiant heat over 90% and reduces under hood temperatures.

**111738 4oz. .... 79.95**

## Exhaust Port Filler Panel- Stainless Steel

AMERICAN CAR CRAFT  
CUSTOM STAINLESS FABRICATION

These exhaust port panels are constructed of polished stainless steel and are designed to cover the entire exhaust area. It wraps over the entire stock exhaust and installs in a few minutes with minimal tools and hardware.

## "Clean Shield" Trash Catcher

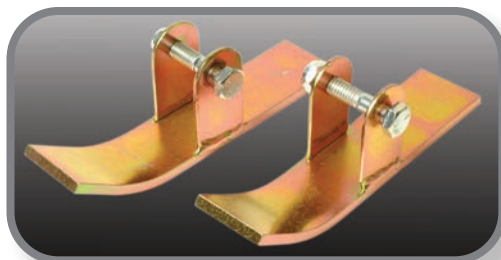

- Except Z06/ZR1/Grand Sport  
Allows Front Spoiler To Work Correctly

The Clean Shield is designed to eliminate 80% of the debris that gets picked up while driving your Corvette on the street or track. The Clean Shield saves possible costly engine repairs by stopping debris before it can block the airflow to the radiator and cause engine failure due to overheating. It is satin finished aluminum.

No modification or drilling is necessary to put this on. It is pre-drilled and the screw holes line up with the screw holes from the lower front fascia of the front bumper.

**336037..... 81.75**

## Skid Plate Stiffeners

Safeguard your front spoiler, bumper brackets and, ultimately, the car's entire front end with the latest in protection. The Skid Plate Stiffeners actually block your front bumper from running onto curbs or other low clearance areas, which may cause bending and deforming. These plates are available for less than half the cost of GM units and offer full protection! Sold in pairs.

**335021 Pair (Except Z06) ..... 23.50**

## Bumper Saver/ Skid Plate Roller Wheels

Protect your Corvette from those steep driveways and keep from scraping with these Skid Plate Wheels specifically designed to fit your Corvette. Easy to install and comes with a template for perfect placement. Just drill a hole in the lower radiator mount and bolt on the wheels. For extra strength, as an option, these can be welded on also. Sold as a set of 2.

**336015 Set-Except Z06/ZR1/Grand Sport .....72.50**

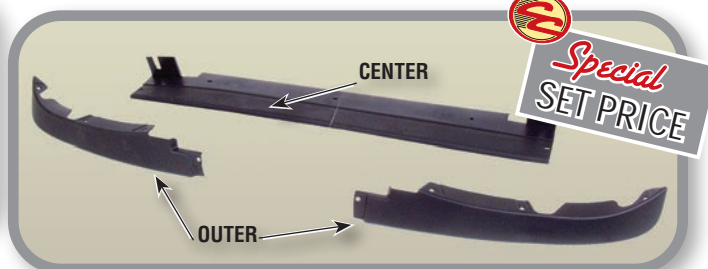

**ZR1 Carbon Fiber or Fiberglass Front Splitter and  
Side Skirts – See Page 85**

## Underguards -Skid Plates/ Rocker Panel and Frame Protector

- Ball Milled Mandrel  
Bent Aluminum
- Watch for Imitations

Save your Corvette's underbody from undue, devaluating damage with a set of underguards! Lightweight aluminum milled units with incorporated jacking pucks so they install with no modification in approximately 30 minutes. Direct bolt-on 1/2" guards attach to the frame rail with provided mounting hardware and detailed instructions. An absolute must-have for lowered Corvettes! Sold in pairs.

**186089 Pair ..... 285.75**

## Stock Front Spoilers

- 100% correct and functional front spoiler for the Base Corvette Coupe, Base Convertible, Grand Sport Coupe, Grand Sport Convertible, Z06 and ZR1.

- Helps Maintain Proper Operating Temperature

C6 cars have lower front air dams that are subject to damage from parking curbs. These can be replaced with factory air deflectors.

**336132 Front Spoiler/Air Deflector-3 pc. set ..... 122.50**

**336089 Outer (L or R) ..... 30.75**

## Coupe Wind Restrictor Glow Plate

- This product provides significant reduction in buffeting noise while at speeds of 60-110.
- Single color illumination available as well as multi-color "Extreme Lighting Kit Option."
- Lifetime manufacturer's warranty - Product is guaranteed to never fade, crack, yellow, or peel.

The Glow Plate for the C6 Corvette Coupe is the perfect accessory to reduce turbulence in your cabin while adding a touch of personalization to your Corvette.

116983 Etched..... 309.95

### Add Some Color!

You can also purchase a Lighting Kit to illuminate the Wind Restrictor.

See Our WEBSITE for Details.

## Convertible Wind Restrictor

- General Motors Licensed Product
- Lifetime Warranty
- Custom options such as logos and lighting available
- Made in the USA

Wind Restrictor is an amazing, unique and durable product that blocks as much, if not more, wind turbulence than the factory OEM mesh net windscreens and helps to maintain the temperature inside of your roadster when the top is down. It can remain in place with the convertible top up and is mounted solid yet inconspicuously without any permanent alterations. Made from double-sided AR Polycarbonate, a very durable acrylic type material is also scratch resistant!

## Fiberglass & Body

ZR1

L88

### Hoods

These C6 Corvette hoods are manufactured in RTM Composite and is an ideal material for hood composition. Hoods are robotically trimmed, prepped and primed. Your body shop will love painting this hood, and you'll love the final quality.

- L88 hood offers greater clearance compared to the stock hood (approximately 1"). Hood will clear most top mount superchargers such as the Magnuson TVS.
- ZR1 hood captures that same very essence while offering extra clearance (approximately 1" over the MAF sensor) on the cowl compared to the stock ZR1.

20.00 packaging charge.

See our WEBSITE for more photos of each hood.

**RKSPORT**

### RK Supercharger Hood

This hood is designed with the Magnuson Supercharger in mind. With the Supercharger you need more clearance in the hood area. Works with Magnuson's TVS2300...Will not work with any Callaway parts, please make sure your system has all Magnuson parts.

This Hood continues a smooth flow of the body lines that accentuates the stock lines of the car with keeping a visual impact to a minimum.

## Carbon Fiber Hoods

Hoods are manufactured with the most attention to detail and only top-grade materials are used for a product you can trust. The precision and attention to detail Anderson composite uses to make its products is a science of its own. Their craftsmanship is simply unmatched.

**146028 Stock Style.....1,539.00**

**146111 Vented TS.....1,869.00**

Manufactured "Wet", using Twill Weave Carbon Fiber and a proprietary vacuum infusion process. Resin is introduced into the mold as a liquid; this process produces a high gloss, wet-look, shiny finish. It is highly recommended to use an automotive clear with UV inhibitors to prolong the life and finish of the product.

## Rear Sport Spoiler

Aerodynamically inspired. ACI's Rear Sport Spoiler will compliment the rear of any C6. Comes with instructions and mounting hardware. No Drilling Required - Uses Existing Holes.

See our **WEBSITE** for more photos.

**146119 Fiberglass** ..... 545.75

## Rear Diffuser

- This is a 100% functional lower rear diffuser. A must for track days or that ultimate racing look.
- Bolts on in about 1 hour.
- Weight is 10.5 with the drop down fences.
- Replaces the factory panel.
- Diffuser comes in a gel coat finish which needs to be prepped and painted.
- Eliminates back-up lamps.

## Redlight Bandit Throttle Booster Performance Module

- Direct increased throttle performance throttle response enhancer designed for the C6 Corvette including GrandSport and Z06
- Wide open throttle faster, push your pedal to the Max
- Compatible with GM diagnostic and electrical systems
- Module has built-in run time diagnostic
- Won't void warranty

### Advantages:

- Fixes throttle response without expensive modifications
- Plug and play for error free installation
- Maintains GM Design for sensor redundancy/has redundant microprocessors

### Benefits:

- Increases driving enjoyment/no more stalling or stumbling
- Fixes tip in hesitation/makes manual transmission easier to drive
- Vehicle reliability and safety is not compromised
- Module does not impair vehicle safety operating modes

## E-Force Supercharger

**Now you can boost the power in your Corvette to near ZR1 performance!**

The new E-Force Supercharger Systems are exclusively tailored to boost your performance while retaining everyday street driveability.

The Edelbrock E-Force Supercharger Systems unique design allows this kit to fit under your stock hood with no modifications and the intake manifold features 12 inch long intake runners that allow for maximum low end torque. E-Force kits include a standard 1 year/12,000 mile warranty or are available with an optional 5 year 100,000 mile supplemental warranty. E-Force kits are designed to work with all OEM emissions equipment and are CARB Legal under E.O. #D-215-73 which makes them 50 state emission legal.

Shipping will be truck freight and can be selected for only \$125.00 flat rate for most parts of the 48 contiguous United States. For areas outside of this zone your freight will be calculated after the sale and you will be emailed the cost.

## MSD Atomic Air Force Intake

- Polymer material resists heat soak and minimizes weight.
- 103mm Throttle bore allows the use of large throttle bodies for greater air flow.
- Direct flow path runner design promotes maximum airflow.
- Allows for the use of stock fuel rails, aftermarket rails including the Atomic LS EFI.
- The two-piece manifold design provide convenient access to the runners for porting.
- Designed using Computational Fluid Dynamic Modeling to create optimal plenum volume and efficient air flow paths.
- Patent Pending CARB Pending.

355067	LS2	1,157.95
356011	LS7	1,217.95

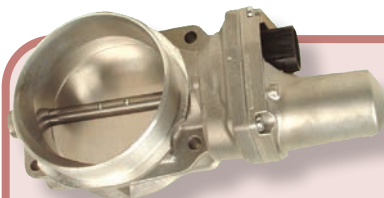

## FAST LSX Intake

- Increases Horsepower over stock manifold with no loss of drivability or low rpm torque
- Incorporates high-quality polymer materials which resist "heat sink"
- Maximizes potential of other popular engine performance upgrades such as cylinder heads
- Significant bolt-on performance gains in stock applications and gains upwards of 25+ horsepower in larger displacement or highly modified combinations
- While it features a 102mm air inlet, it can be used with 90mm or 92mm throttle bodies

The patented Fast LSX Intake Manifold is a three-piece advanced polymer material manifold proven to deliver increased performance without compromising bottom-end drivability or high rpm power. The Fast LSX Intake Manifold maintains the performance gains achieved over stock intake manifolds with no loss in drivability or low rpm torque. While it delivers terrific performance right out of the box, it can be ported for even more flow. The intake features the added benefits of corrosion-free stainless steel assembly bolts, an improved throttle body sealing flange and o-ring gasket and threaded insert throttle body mounts that provide increased durability. The LSX comes with integrated nitrous oxide injector ports. In addition, the LSX manifold has the capability to be ported and is easily accessible as a result of the multi-piece design. Intake gaskets are included with the manifold.

## BBK LS3 Big Body Throttle Body

Looking for a large bore throttle body for your LS3 powered Corvette? Check out BBK's new 95mm and 102mm throttle body which bolts right on to any LS3 in minutes and purportedly adds 15 to 20hp. Accepts the stock electronic throttle motor and sensors for a simple no-code swap.

356008	95mm	397.95
Recommended for slightly modified applications.		
356015	102mm	408.00
Recommended for Super Charged and highly modified engines.		

## Lingenfelter 100mm Mass Air Flow Sensor

The large diameter, low restriction MAF sensor assembly provides accurate airflow measurement while producing very little restriction, even at very high power levels. Precision CNC machined from aluminum and then anodized black for durability and appearance. The MAF sensor is recommended for supercharged, turbocharged and other high output engine applications. This MAF sensor will NOT work with stock engine programming and requires recalibration of the factory PCM or ECM.

See our WEBSITE for more info.

## Granatelli Stock Replacement Mass Air Flow Sensor

- Add 10-15 Horsepower in 10-15 Minutes

From Granatelli Motorsports is this innovative Mass Airflow Sensor for LS2. This 50 state legal replacement unit features 47% more airflow capacity than the stock sensor, and state of the art hybrid electronics. The advanced, active electronics module packaged within the sensor provides improved control of both ignition and injector timing, contributing to a performance gain of 10-15 horsepower at the rear wheels. 3 Year Warranty.

366078	462.25
--------	--------

## With Cold Air Induction

Granatelli Mass Airflow Sensors are fully calibrated at the factory resulting in significant improvements to stock air intake systems. Most modified air intake systems, also known as Cold Air Intakes (i.e.: K&N FIPK, Aircharger®, Volant®, Airaid, etc.), cause an increase in air turbulence. This effect requires a special calibration. Please be aware that Granatelli Motor Sports offers a special calibration design for cold air kits. It is **critical** that the MAF Sensor is properly calibrated for cold air tuning or a "check engine" light may occur.

366116	473.50

## Stock Mass Air Flow Sensor

LS3/LS7/LS9

305074	LS2	91.95
306134	LS3/LS7/LS9	71.50
Failure Symptoms: Hard start, hesitation, stalling, surging, black smoke, catalytic converter overheating, poor performance and economy.		

## LS2 Mass Air Flow Sensor Upgrade

Factory sensor for LS3 and LS7 Corvettes can be used to upgrade 05-07 LS2 to use LS3/LS7-design air induction system. Conversion requires adapter harness and custom PCM programming. Harness mates LS2 plug to LS3/LS7 sensor.

306074 Harness ..... 30.75

## LS3/LS7 Power-Flo Mass Air Flow Sensor

The JET Power-Flo Mass Air Sensor delivers improved horsepower, torque and mileage by simply replacing the restrictive stock mass air sensor. The factory sensor not only is a major restrictive point in stock intake systems, but it also limits the full potential of aftermarket cold air intake systems. The flow bench tested design of the JET Mass Air Sensor provides airflow increases of up to 45% and installs in 10 minutes or less. Compatible with other aftermarket upgrades such as computer upgrades, cold air intakes, TBI spacers, free flow exhaust systems, etc.

## Fuel System Helpers

- Cannot be shipped by air or overseas

## GM Fuel System Treatment Plus

- Cleans - Sulphur corrosion from fuel gauge sending units
- Prevents - Harmful sulphur components from attacking sensitive fuel system electronics
- Protects - By coating metallic surfaces of the fuel system
- Removes - Engine deposits left from use of poor quality fuels

365097 12 oz. .... 22.50

## Mass Air Flow Sensor Cleaner

- Safely cleans and protects MAF sensors
- Plastic safe and leaves no residue
- Increases horsepower
- Decreases hesitation and pinging
- Improves fuel economy and MPG
- Reduces rough idle

104648 11 oz. .... 18.50

## Throttle Plate and Intake Cleaner

Effectively cleans power-robbing gums and varnishes from throttle bodies and air intake systems on fuel-injected vehicles. Improves performance, eliminates hesitation and rough idling while lubricating all moving parts. Safe for use on coated throttle bodies. For maximum performance and MPG use CRC Throttle Body Cleaner and CRC MAF Sensor Cleaner (Item # 104648) every time you service your air filter.

354314 11 oz. .... 11.95

## Lucas Octane Booster

A real Octane Booster! Tested and proven to deliver three times more boost than most other brands. Lucas Octane Booster is a genuine performance enhancer! It's safe for turbos, oxygen sensors, and catalytic converters. Stops knocks, and raises MPG in high compression engines. One bottle treats up to 25 gallons of fuel. Not street legal. Safe for any gasoline engine.

351136 15 oz. .... 12.25

## Red Line Fuel System Cleaner

SI-1's injector and valve detergent is a concentrated package of the most powerful high-temperature detergents available to clean gasoline fuel injectors or carburetors, intake valves and combustion chambers and can clean injectors to nearly 100% efficiency in one treatment. The cleansing effect on injector deposits can raise fuel economy approximately 12% or even greater, depending on the condition of the injectors.

354313 15 oz. .... 15.50

# Gas Door & Gas Tank

**Fuel Door Bib**

Made of textured and supported black vinyl. The gas guard protects from scratches and drips. It folds over the gas cap for storage and unfolds over fender area when fueling.

### REMINDER

LEFT OR RIGHT

Always specify left or right when ordering (L or R) parts (Left = driver's side, Right = passenger's side).

GM approved high quality carpet mats. Made of 32 oz. densely packed filament nylon yarn, these are the longest wearing Corvette mats available and carry a full two-year warranty. Available in OEM carpet colors and feature a multi-layer mat backing with a natural rubber slip resistant finish. Features include fasteners comparable to factory mat fasteners and matching nylon velour edging. Note: Dye lot differences may not always produce an exact match to original carpet. General Motors Trademarks licensed to Lloyd Design Corp. ★Specify Color★

### "Wet Suit" Slip Covers

- Fits Cars with Power Driver and Passenger Seats with Side Air Bags
- Made of Neoprene "Wet Suit" Material
- Cool in the Summer/Warmer in the Winter
- Simply Slips Over Existing Seat

In addition to protecting your original leather seats against premature wear, the "Wet Suit" material provides soft, yet firm padding for extra support and comfort over the stock seat. The "Wet Suit" is easy to install and because of the diver suit type material fits like a second skin.

## Coupe Waterfall Extension

Quality fiberglass gives your coupe or hard top that same "waterfall" look that comes in the convertible. Fits all C6/Z06/Grand Sport/ZR1 Corvettes (except convertible). Simply press into place. No drilling or bolting required. Comes in all C6 body colors. Please allow 2-3 weeks as these are custom painted to order. Emblem not included; use 296017.

**486008 ★Specify Color★ (ND).....\$49.95**  
\$25.00 shipping charge

## Convertible Dress Up Hoops

### • Polished Stainless Steel

These new hoops are made of high quality 304 stainless steel and have been hand polished and crafted to fit the factory convertible deck lid just behind the seats. They are a purely decorative part ONLY. The hoops have been time tested for strength of adhesion and reliability. They are simple to install in just a few steps.

**486014 Pair.....387.75**

## Window Valet™

Remote Control Power Windows for your C6!

*The Window Valet™ provides numerous convenience features:*

- Remote Control Power Windows
- Let the heat out before you get to the car
- Raise the windows after closing the convertible top
- Ease entry and exit from tight garages and racing trailers
- Accessory Power with no ignition key
- Press the remote unlock three times to power the stock radio
- Passenger can activate accessory power from the DIC
- Pull the key, open the door, and power is restored
- Passenger door lock assist; great when dropping off a passenger
- Pull the hand brake to unlock the doors
- Place the automatic in park to unlock the doors
- Records vehicle high speed; find out how fast the valet drove

**596010 (ND).....153.00**

## Brey-Krause Harness Mount Bar

- Type 304 Stainless Steel
- Powder-coated in durable black wrinkle-finish
- 17.3 lbs.

This harness mount bar properly locates and supports racing shoulder harnesses relative to the driver. In the case of an accident, it helps protect the driver's shoulders and spine. The harness guides also prevent excessive shifting and fatigue of the driver during the high G loads of cornering and braking. This bar is easy to install and remove, use only existing holes and mounting points.

**486028 (ND).....906.95**

## Sport Latch & Link System Racing Seat Belt Harness

- 5 Point Race Belts, SFI Tagged and Certified

Sport Latch & Link belt system uses drop-forged alloy steel latch and link mechanism Latch and Link and includes high-quality adjusters and pulls. The Sport harnesses have polyester webbing, which still offers maximum protection with minimum elongation and passes SFI 16.1 certification. Polyester straps allow for a lower cost for the budget-minded racer while maintaining the quality. This Sport racing harness belt system is affordable and adaptable to many race cars. Belts are pull-down with wraparound belt mounts but interchangeable bolt-in brackets are included.

**481033 Black.....102.00**  
**482102 Red.....102.00**

## Quick Release Fire Extinguisher Mount

- T6 6061 Aluminum
- Mount with 4 bolts to existing brackets or any surface
- Holds a 2.5 pound AMEREX model 417 extinguisher or any 3" diameter bottle

**481032 (ND).....264.25**

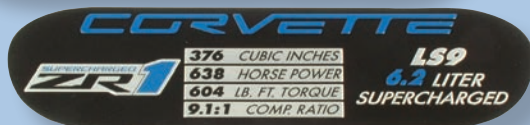

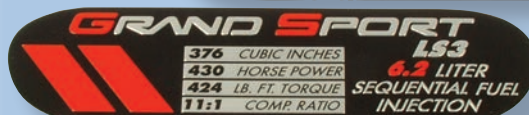

## Seat Belt Pads

- Embroidered Logo

Custom designed seat belt shoulder pads wrap around your shoulder strap with an easy to install velcro style closure. The seat belt pads are comfortably padded and are embroidered with the emblem. Pad is not intended to affect safety or operation of your factory seat belts. Made of high grade vinyl with foam padding.

**106826 C6**  
**106576 Z06**

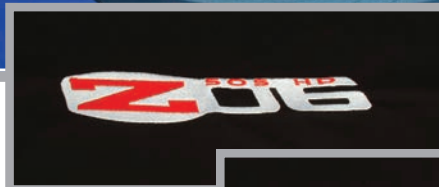

## Engine Performance ID Spec Plate

Dress up your C6 with these Engine ID Spec Plate. Embossed in scratch-resistant aluminum, these adhesive backed plates affix nicely to the utility compartment lid below the climate control, complementing its black matte finish without permanent modification. Also fits nicely in the area between sunvisors on a Coupe. Officially Licensed by GM. Spec plate measures 7" wide x 1 3/4" high.

## Add Elegance To Your Cargo Area

• Fits all C6 Coupes including Z06, ZR1 and Grand Sport Models

This Cargo Shade offers you the factory design, yet adds style to your coupe's cargo area. Black shade with embroidered emblem not only finishes out the rear cargo area, but also protects carpet from the sun's harmful UV rays. Fastens easily with attached elastic loops, which hook onto the rear window.

- Simple, no modification installation

496012 4 pc. set ..... 24.50

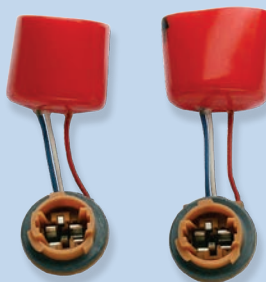

## 3rd Brake Light Pulser

- "Plug-N-Play" Installation • No Adjustments Required
- "Delay-Repeat" Circuitry

Your Corvette is low and not always seen by the driver behind you. These 3rd Brake Light Pulser modules can give you an extra measure of safety! These devices are full "Plug-N-Play" harnesses that simply plug into your existing Center High Mount Brake Light. There are no wires to cut, and no adjustments to make. The module automatically pulses your third brake light when you apply your brakes.

496022..... 61.25

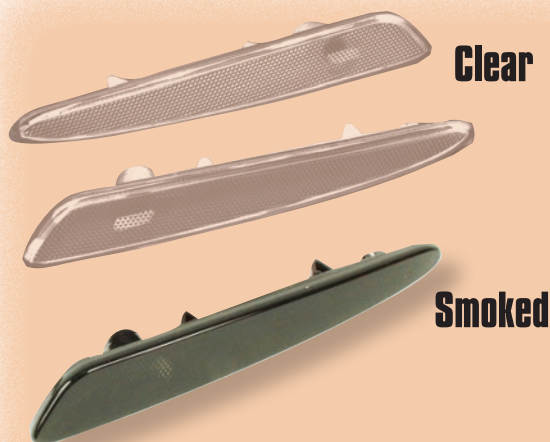

## Sequential Tail Light Harness Kit

- Specifically Designed for the C6 Corvette
- Pre-wired Harnesses for Easy Installation
- No Wire Cutting Required!

Harnesses will convert the tail lights on your C6 Corvette into Sequential Turn Signals. The kit contains two pre-wired harnesses that simply plug into your existing sockets. Return to stock operation at any time by unplugging the harnesses. It doesn't get any easier than this! Will not "plug-n-play" with LED lights.

Give your standard C6 an aggressive look by swapping the "short" OE spoiler for the taller Z06/GS version.

**ZR1/427 Convertible 3rd Brake Light is located in the Rear Spoiler — See Page 87**

## HELPER

### 3rd Brake Light Removal

Remove the two inner tail lights (one screw). Use a 10 MM socket to remove the four nuts. It's easy to reach in there. The old unit will then come out. Push out from underneath, the light bulb holder may hang up. You may have to tweak the bulb holder to remove it. Use a 4 MM socket to remove the studs to install in the new one. Reverse your procedure. Install the bulb last, its easier. Really a piece of cake.

## Molded Blackout Cover

Molded Blackouts made from high quality 1/8" thick smoked acrylic, molded to fit the curves of the C6 tail lights. Each kit includes four large blackouts and one small 5th brake light blackout. They attach with provided Clear 3M VHB tape. The tape cannot be seen when installed.

536058	06-13	Automatic Shifter Cable (Shifter to Transmission) .....	68.50

## 97-04 Automatic Shifter Cable Repair Bushing Kit

- Repair shifter cable without replacing it
- Replaces worn or disintegrated factory inserts
- Snaps in place in seconds
- No tools required

535100	Set of 2 .....	24.50
--------	----------------	-------

## Kirban Kwik 6-Speed Shifter

- 100% Billet Construction
- Black Anodized Finish
- 20% Shorter Throw for Quicker Shifts
- Integrated Stop Plate w/Adjustable Stops
- Utilizes Both Factory or Custom Shift Knobs
- Isolation Ring to Eliminate Vibrations
- Includes Mounting Bolts

This quality shifter is designed to give you a 20% shorter throw and smooth positive shifts. An integrated stop plate with adjustable stops provides finely tuned shift handle action. 100% billet construction assures long lasting strength and durability, the one-piece handle is 1/2" shorter than stock and accepts the factory shift knob and shift boot. Shifter is made in the USA and carries a lifetime warranty.

536018	05-07 (ND) .....	275.50
536022	08-13 (ND) .....	275.50

## B&M Ripper™ Shifter

- Smoother, More Precise Shifts Guaranteed
- 33% Shift Throw Reduction
- Spherical Pivot Bearing
- Fully Isolated Upper-Stainless Steel Stick
- Accepts Factory Knob (Knob Not Included)
- 6061-T6-billet aluminum base, CNC machined
- Adjustable throw stops to eliminate over travel

535024	05-07 (ND) .....	383.95
536003	08-12 (ND) .....	383.95

## 6 Speed Shifter Box Bushings

- High quality replacement rubber bushings.
- Detailed, colored instructions.

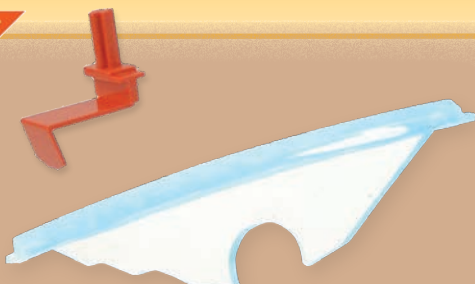

Finished replacement bushing installed.

The OEM rubber bushings on the C6 Corvette manual shifter boxes often need replacement after only a few years. The symptom is excessive or sloppy shift lever movement and difficulty in up shift/down shift, excessive vibration or "rattling" of the shift knob.

## F1 Paddle Shift Module

Convert your A6 equipped automatic Corvette to a true "F1" style shifter. New GM shifter handles are coupled with an exclusive F1 module. Simply replace your Corvette's factory shift handle (15 minute installation), and you have converted your Corvette shifter into an F1 style with the RH shifter providing the up shift and the LH shifter providing the down shift. Includes instructions. **Note: This is an upgrade shift module for cars with the MXO option.**

**LINGENFELTER**  
PERFORMANCE ENGINEERING

## Lingenfelter Adjustable Launch Controller

This Dual RPM Launch Controller is a true 2-Step spark based RPM limiter for use with LS based engines and ignition systems. It provides the ability to control a primary and secondary RPM limit setting. This will help provide consistent launch RPM off the line in drag racing and other standing start racing applications. In turbocharged applications it can also be used to load the engine and help build additional boost off the line. The Launch Controller can also be used as an adjustable individual cylinder RPM limiter, providing reliable and fast acting spark based engine RPM limit control. **See our WEBSITE for more info**

536300 06-13 .....54.95

## Low Profile Automatic Transmission Pan

Fits 6L80/6L80E

- Fins and aluminum construction to dissipate heat from transmission fluid
- Drain plug for easier maintenance
- 1/2 NPT hole and plug for case-fill
- Thick walls to add strength to the transmission housing
- Thick gasket flange, machined flat, for a leak-free seal
- Low profile for clearance

536028 Cast Finish .....335.75

536033 Black Powder Coated (ND) .....407.00

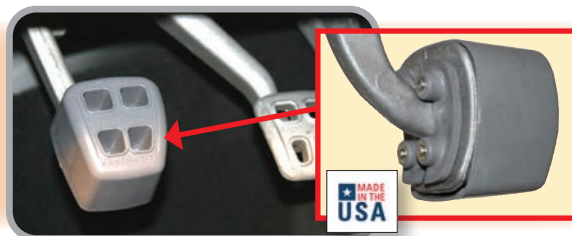

## CAGS 6-Speed Skip Shift Bypass

The CAGS (Computer Aided Gear Selection) is a built-in system that automatically upshifts from first to fourth gears between 15 and 20 MPH. The CAGS plug kit will disengage the CAGS feature as well as seal the skip shift solenoid and factory connector. The plug prevents contaminants from entering the solenoid and causing a malfunction. No permanent modifications are required to install this product, and you will be able to reconnect the system if so desired. Installation instructions are included. Installation time is less than an hour. Emissions legal in all 50 states.

**Note:** This kit will prevent the CAGS solenoid from engaging but the 1 to 4 light on the dash will still illuminate when skip shift conditions are met.

**Note:** The 1-4 shift light will still come on; this is just fooling the computer to not let the car shift from 1-4.

535057.....20.50

## EZ-Clutch Pedal Extension

- Fits all 1997-2013 with manual transmission
- Installs in minutes
- Made of high impact ABS
- Extends pedal 40mm
- 100% designed and manufactured in the U.S.A

385010..... 51.00

# Clutch

## Clutch Kit • C6 Z06 - Fits LS2, LS3, LS7

The LS7 Clutch will have a stock pedal pressure along with holding around 500 HP.

<b>536095</b>	Clutch and Flywheel .....	<b>769.00</b>
<b>536051</b>	Clutch Kit-All .....	<b>399.95</b>
<b>536068</b>	Flywheel-All .....	<b>408.00</b>

When replacing a clutch, it is also a good time to replace the 536100 Master Cylinder, 536096 Slave Cylinder/Bearing, and 565040 Flywheel Bolts.

## RAM Street Dual Clutch System

RAM Clutches builds dual disc clutches for the fastest Pro Stock and Pro Mod race cars in the country! Now you can have this technology for your streetcar with the RAM Street Dual. The RAM Street Dual is a must for applications using big power adders or superchargers, or just a moderate powered street car that needs a smooth engagement. System includes pressure plate, discs, floater plate, and aluminum flywheel. Units are balanced to factory specifications and ready to install. Exclusively from RAM. Made in the USA.

<b>535136</b>	Force 9.5 (ND) .....	<b>999.00</b>
<b>535119</b>	Force 10 (ND) .....	<b>1,599.00</b>

Force 9.5 are suited for applications with up to 800 horsepower, while the 10.5 is for use in vehicles with up to 1050 horsepower.

## Performance Clutch Kit

Powergrip clutch sets provide big increases in holding power without excessive chatter. Sets include pressure plate, disc and alignment tool.

Recommended use with flywheel #535098 or #535159.

<b>535122</b>	450 HP Clutch Kit .....	<b>329.00</b>
<b>535118</b>	450 HP Clutch Kit with Steel Flywheel .....	<b>589.00</b>

<b>535142</b>	650 HP Clutch Kit with Aluminum Flywheel .....	<b>879.00</b>

## Twin Disc Clutch Conversion Kit

- For LS2, LS3, LS7
  - Good idea to have a shop change this.
  - Enhanced ZR1 pressure plate (LS9R 20% more capacity)
  - Same clutch disks as the LS9X (for equal drivability)
  - Aluminum flywheel with 6 bolt pattern for standard LS engines
  - Includes slave cylinder
  - Includes pressure plate bolts
  - 8 lbs lighter than the stock Z06 clutch/flywheel assembly
  - Flywheel weighs 12.0 lbs.
  - Drives like a stock ZR1 - stock pedal feel
  - 960+ ft-lbs torque capacity (20% over LS9X clutch)
  - No neutral noise or chattering
  - All of the benefits of a twin disk clutch and none of the trade-offs
- 536009 LS9X Clutch Upgrade Kit (800 ft. lb. Torque) (ND) ... 1,708.50**

## Flywheels

<b>536015</b>	Fidanza Aluminum Flywheel (ND) .....	<b>585.95</b>
<b>535098</b>	RAM Billet Steel (ND) .....	<b>285.00</b>
<b>535159</b>	RAM Billet Aluminum .....	<b>399.00</b>
<b>536155</b>	ZR1 Clutch Conversion Steel Flywheel Only .....	<b>713.00</b>
<b>565066</b>	Flywheel Bolt-Stock, ea. ....	<b>5.75</b>
<b>565040</b>	ARP Pro Series Flywheel Bolt Kit (ND), 6 pc Set .....	<b>40.95</b>
<b>565104</b>	Clutch Pressure Plate Bolt-Stock, ea. ....	<b>2.25</b>
<b>535102</b>	ARP Plate Bolt Kit (6 pc.) .....	<b>30.75</b>
<b>535094</b>	ARP Clutch Pressure Plate Bolt Kit (Set of 6) .....	<b>25.50</b>
<b>536105</b>	Pilot Bearing .....	<b>15.50</b>

**Which Flywheel To Choose?** Aluminum is best for general use or road racing. Steel is best for drag racing.

<b>531046</b>	10 Spline Clutch Alignment Tool .....	<b>6.25</b>
<b>532105</b>	26 Spline Clutch Alignment Tool .....	<b>6.25</b>
<b>536021</b>	Clutch Pedal Return Spring .....	<b>15.50</b>

### Lingenfelter Clutch Pedal Return Kit

The C5 & C6 factory clutch systems have had issues with the clutch pedal going to the floor under high RPM use and not returning to the correct position. The Lingenfelter Clutch Pedal Return Kit will solve this problem and is fairly easy to install. The Clutch Pedal Return Kit includes a stainless steel spring with a dampening sleeve to prevent noise.

## Suspension Lowering Cushion Bolt

Drop your C6's ride height by up to 2 1/2 inches with this easy to install Lowering Kit. This kit includes 4 bolts that replace the stock spring mounting bolts to give you more ride height adjustment. Comes with complete instructions.

586029 Set..... 56.50

## Why Choose Polyurethane?

Polyurethane, unlike rubber, is not molded to the steel outer shells. Instead of twisting like rubber, the bushings are free to rotate on sleeves like a bearing. This means the suspension cannot bind and become full floating, resulting in longer life and improved handling. Polyurethane construction withstands oils, ozone, salt, and other corrosive chemicals. All bushings are pre-lubed with graphite to inhibit wear and squeaks.

## Camber Alignment System

- CNC Machined Aerospace Aluminum Material
- Non-Corrosive Stainless Steel Studs
- Yellow Zinc Class 10 Bolts and Nuts
- Eliminates Alignment Movement

This kit allows you to align the car from the top vs. the eccentric cams on the lower a-arms. This is ideal for auto cross and long track drivers as this is a quick change alignment kit. The aluminum blocks replaces the eccentric cams which can move with high side loading. The block will prevent any lower a-arm camber/caster change. Studs are used on the front upper a-arms in lieu of the OE bolts. By sliding the a-arm off of the stud, you can add or subtract shims to obtain your alignment specs. It will be ideal to have the car aligned with street specs and race specs and note the difference in shims for a quick change out.

## PFADT Series Featherlight Single Adjustable Street/Track Coilover System

Featherlight Coil Overs are ride height adjustable, as well as damping adjustable for rebound and compression.

- Lightweight, Hard Anodized 6061-T6 Aluminum bodies, yield high strength, while still maintaining a lightweight design
- Mono-Tube construction utilizes an internal floating piston to separate oil and gas allowing for more predictable handling and a consistent feel
- BOA (Ball on Axis) upper mount system is a completely sealed mono-ball design that allows articulation required for the Corvette suspension resulting in a better ride and quiet operation

## Johnny O'Connell Signature Suspension

**The Stage 1 Package includes tuned shocks, balanced sway bars and upgraded sway bar end links.**

- 35mm Front Bar
- 29mm 3 Way Adjustable Rear Bar

The Johnny O'Connell Signature Suspension line is the result of combining the professional driving skill from four time Le Mans winning Corvette Racing driver, Johnny O'Connell and the engineering expertise of Pfadt Race Engineering to give you a suspension package tuned to perfection. This suspension system has gone through countless engineering revisions and A/B testing on the race track, mountain passes and stretches of pot hole riddled road to provide you with a suspension that provides race car level road holding ability and the drivability you would expect from your daily driver.

## High Performance Tie Rod Ends

- A Must for Performance Handling
- Reduces Torque Steering
- Reduces Hub Bearing Wear

These heavy duty rod ends are head and shoulders above the stock rod ends for several reasons: a) they withstand heat better, b) they have a much better side load capacity, and c) they give longer threaded shafts to accommodate cars that are lowered. For best performance replace both the front and rears. If you're on a budget, replace the rear ones. They wear faster than the fronts.

## Shock Kit- HQ Monotube Adjustable

- Smooth body shock kit
- Comfortable
- Road gripping performance
- Adjustability
- Race winning tunability
- Includes application specific mounting hardware, where needed, for simple no modification installation
- Built by Fox Racing
- Easy-access adjuster knob
- Single adjustable. This shock has a wide range of 26 click adjustment to change the rebound (extension) properties. By adjusting the rebound setting, you can optimize the ride quality even more as well as dial in more performance oriented handling characteristics.
- 1,000,001 Mile warranty

Bolt-on in minutes and feel the difference. Shocks are the brains of your suspension. Nothing influences how your car rides and handles more than shock absorbers. If you could pick only one thing to change on your car to get the most overall improvement...upgrade the brains of your suspension...the shocks!

575016 97-13 Stock Set (ND) ..... 1,100.00

## Splined Upgrade Swaybar- Front and Rear

**Front**

**Rear**

- Anodized 6061-T6 aluminum frame mounts and swaybar arms
- Race inspired splined sway bar design
- Direct fit bolt on bracketry bolts into existing holes
- 1.25" OD splined sway bar
- Includes Posi-Link endlinks to eliminate binding
- Multiple end link adjustments for easy rate changes

576045 05-13 Front (ND) ..... 650.00

586066 05-13 Rear (ND) ..... 650.00

## Level 2 Coil Over HQ Series System

## Level 3 Coil Over TQ Series System

- Comfortable
- Road gripping performance
- Adjustability
- Race winning tenability
- Includes application specific mounting hardware, where needed, for simple no modification installation
- Easy-access adjuster knob
- This shock has a wide range of 24 click adjustment to change the rebound (extension) properties. By adjusting the rebound setting, you can optimize the ride quality even more as well as dial in more performance oriented handling characteristics
- 1,000,001 Mile Warranty

**Level 2** Rebound adjustment provides the driver the ability to tune ride quality and handling quality to their specific taste. A wide rebound adjustment range allows you to cruise down the road in plush comfort or firm up your suspension for those Saturday morning canyon roads.

**Level 3** Remote reservoir Triple Adjustable shock features a single rebound adjustment and a DUAL stage (high speed and low speed) compression adjustment. High speed adjustment allow tuning for impact harshness and low speed adjustment allows tuning of ride quality and general cornering characteristics.

**Both Level 2 and 3 Series Include:** Front and Rear Coil Over with Adjustable Shocks, Coil Over Spring, and all Hardware.

**NOTE: Please Specify Year of Car When Ordering.**

576100 (Set of 8) (ND) ..... 216.25

## SHOCKS

### Bilstein Gas Shocks

• The Ultimate Ride & Handling!

Specifically calibrated for high performance Corvette applications. Bilstein high-pressure gas shock absorbers offer all the advantages of a gas shock, plus construction and performance features that are incomparable. Guaranteed not to fade, the Bilstein shocks are 20% stiffer than original equipment shocks for true high performance and racing applications.

**Note:** If your Corvette is equipped with the electronic suspension option, installation of this shock will eliminate the option. This shock is permanently set in the sport mode and will trigger a warning light on your car's dash display. This warning code can be simply removed by your local dealer or service technician.

585074 05-13 (Set of 3).....81.75

## GM Synthetic Rear End Lube

GM Vehicle Care Synthetic Axle Lubricant SAE 75W-90 is a heavy-duty extreme pressure GL-5 Axle Lubricant. Withstands high temperatures encountered during extended high-speed operation and heavy towing. Retains excellent fluidity at cold temperatures.

\*581123 32 oz. ....30.75

## GM Posi Rear End Lube Additive

• 4 oz. (1 Req.)

\*582425 ea.....14.50

## GM LS Rear End Gear Oil

You may hear a clunk and/or clatter type noise from the rear of the vehicle while making turns.

This condition may be caused by slip/stick of the posi-traction clutch plates due to insufficient limited-slip axle additive. As plates slip and stick, a jumping or jerking feel occurs accompanied by a clunk noise. To correct this, drain out old oil, and replace with this GM recommended fluid. 3 quarts required.

585057 75W-90 .....29.75

101649 Suction Gun Tool, ea. ....17.50  
Use for Transmission or Rear End Lubricants

\* = GM Recommends

## Redline Synthetic Differential Oil

- Greatest extreme-pressure protection
- Lowest coefficient of friction available
- Reduces temperatures dramatically
- Provides thicker oil films between gear teeth
- Film thickness greater than SAE 75W140, yet low fluid friction like 80W gear oil or 30W motor oil
- Completely resists throw-off

## HELPER WHEELS

The tire pressure sensors are not location specific, but like C5 sensors, if they are moved to a different location on the car, their location will need to be relearned/reset. The C6 sensors require a special tool to relearn/reset them if they are moved. Any Corvette dealer will have the necessary tool.

645257 Black Wheel Lug Nut Set with Locks (20 pcs.)..... 30.75

**NEW  
PRODUCT**

## Wheel Aligning Tool

- M12 x 1.5 thread size, 200mm (7.75") long Lug Guide Tool
- Stainless steel
- Easily guide your wheels on and off your C4, C5, C6, or C7 Corvette without damage
- Protects your brake calipers, stud threads, and rotors
- A minimum of two (2) tools are essential, but we recommend three (3)
- Made in the USA

Aligning the holes in the wheel with the threaded holes in the wheel hub while inserting the first lug nut is particularly difficult. Lug Guide Tools are also useful for aligning wheel spacers or routine brake maintenance. Anyone who has ever struggled to mount a spare tire on the side of the road will appreciate this tool. Keep a Lug Guide Tool in your glove compartment or tool box.

## REBUILD ORDER FORM

It is common for extra parts to be required to complete a rebuild that are not included in the listed rebuild charges. The prices on these extra parts vary. If it is less than \$35.00, you will be billed for the extra parts and the rebuild service will be completed. Please include a current email address and phone number in the event we need to reach you for charges exceeding \$35.00. If you refuse the extra costs, you will be charged \$25.00 for the time the rebuilder spent to disassemble the part and diagnose the problem.

Ship the part via UPS if possible and insure the package in case of damage enroute. Put at least 3" of packing material surrounding the complete part. Write rebuild on the outside of the box. Please include this form filled out with your information. We will contact you for billing info upon receipt.

# C6 Corvette

## C6 – 2005-2013 Corvette

The sixth-generation Corvette was released as an evolution of its predecessor, but with notable updated improvements. Styling, new tech, a larger engine, upgraded suspension, and much more made the C6 a favorite, with exceptional power and style at a price that was very affordable for the market.

**2005:** Filing the C5 down to a tidier, lighter, 5.1-inch-shorter package on a longer wheelbase, the C6 is the first Corvette with headlights since 1962. It also gets a nicer interior and seats, and finally powers up the convertible top. Plus the base price is \$290 lower. Hill says it is more about perfecting rather than inventing. We think they succeeded: Larry Webster wrote in *Car and Driver's* first test: "It's the perfect everything sports car: fast enough to keep you interested during a day of lapping and refined and comfortable enough to make the slog home, or the daily commute, a relaxing experience."

**Coupe:** Base Price \$44,245; Total Production - 26,728

**Convertible:** Base Price \$52,245; Total Production - 10,664

**2006:** A redesigned Z06 returns after a one-year absence. An aluminum frame, fixed magnesium engine cradle, and carbon-fiber appointments all contribute to weight savings. A new 7.0-liter small-block makes 505 hp and 470 lb-ft of torque in the Z06, and a six-speed paddle-shift automatic transmission is introduced.

**Coupe:** Base Price \$44,600; Total Production - 16,598

**Convertible:** Base Price \$52,335; Total Production - 11,151

**Z06 Coupe:** Base Price \$65,800; Total Production - 6,272

**2007:** The Ron Fellows Championship Edition (399 produced) is the first signed limited edition in Corvette history. 500 Atomic Orange Indy 500 convertible pace car replicas are produced for the May 27th, 2007 race, driven by actor Patrick Dempsey.

**Coupe:** Base Price \$44,995; Total Production - 21,484

**Convertible:** Base Price \$52,910; Total Production - 10,418

**Z06 Coupe:** Base Price \$66,465; Total Production - 7,760

**2008:** A new LS3 6.2-liter V-8 appears as the base engine, increasing output from 400 hp to 430 hp. 505 427 Wil Cooksey Limited Edition Crystal Red Z06's are built. And lest anyone in Speedway, Indiana, forget what the Corvette looks like, an E85-fueled silver and black Z06 paces the 500.

**Coupe:** Base Price \$45,995; Total Production - 19,796

**Convertible:** Base Price \$54,335; Total Production - 7,283

**Z06 Coupe:** Base Price \$71,000; Total Production - 7,226

**2009:** The new Corvette ZR1 debuts, roaring to a top speed of more than 200 mph thanks to the muscle of its supercharged 6.2-liter LS9 V-8. To honor the C6R factory race car, GM built 53 Coupe, 17 Convertible and 55 Z06 GT1 Championship Edition Black and Yellow Corvettes. Corvette production number 1.5 million, a white convertible with a red interior, rolled off the Bowling Green assembly line May 28th, 2009.

**Coupe:** Base Price \$47,895; Total Production - 8,632

**Convertible:** Base Price \$52,550; Total Production - 3,326

**Z06 Coupe:** Base Price \$73,255; Total Production - 3,386

**ZR1 Coupe:** Base Price \$103,300; Total Production - 1,415

**2010:** The Grand Sport model returns (3707 Coupes and 2335 Convertibles are produced) powered by the base LS3 V-8 and packing the elements of the discontinued Z51 performance option. Side airbags are now standard on all models.

**Coupe:** Base Price \$49,880; Total Production - 3,054

**Convertible:** Base Price \$54,530; Total Production - 1,003

**Z06 Coupe:** Base Price \$75,235; Total Production - 518

**ZR1 Coupe:** Base Price \$107,830; Total Production - 1,577

**2011:** With seven available models, including the Z06 Carbon Limited Edition, the lineup and option availability is the greatest in Corvette history. Curiously, a Corvette doesn't pace the Indy 500

**Coupe:** Base Price \$49,900; Total Production - 3,112

**Convertible:** Base Price \$54,550; Total Production - 780

**Grand Sport Coupe:** Base Price \$59,950; Total Production - 2,782

**Grand Sport Convertible:** Base Price \$54,550; Total Production - 780

**Z06 Coupe:** Base Price \$72,225; Total Production - 904

**ZR1 Coupe:** Base Price \$110,750; Total Production - 806

**2012:** To celebrate the division's 100th birthday, Chevrolet busts out a Centennial Edition package (available on all Corvettes), featuring Carbon Flash Metallic paint, satin-black graphics, satin-black wheels with red stripe, unique badges, a specially trimmed interior, and Magnetic Selective Ride Control. More important, the Corvette returns to pace Indy with celebrity chef Guy Fieri at the wheel.

**Coupe:** Base Price \$50,500; Total Production - 2,820

**Convertible:** Base Price \$55,550; Total Production 621

**Grand Sport Coupe:** Base Price \$56,900; Total Production - 5,056

**Grand Sport Convertible:** Base Price \$60,500; Total Production - 2,268

**Z06 Coupe:** Base Price \$76,500; Total Production - 478

**ZR1 Coupe:** Base Price \$112,500; Total Production - 404

**2013:** With the C7 around the corner, Corvette news is limited to the 60th Anniversary package and the introduction of the one-year-only 427 convertible Collector Edition (2552 produced) which is as close as Chevrolet got to producing a droptop Z06. It sprints to 60 mph in 3.9 seconds.

**Coupe:** Base Price \$50,575; Total Production - 2,597

**Convertible:** Base Price \$55,575; Total Production - 720

**ZR1 Coupe:** Base Price \$112,575; Total Production - 482

## Our primary product is your satisfaction

Customer satisfaction has always been one of our main objectives. We aren't talking about a no hassle return policy here – everyone offers that. We are talking about remedies for products that don't seem to fit or work right.

At our end, we have over 45 years experience in the manufacturing and sales of Corvette parts. This unparalleled background assures Corvette Central customers that the products they purchase are the best available, and if a problem should arise, we know how to help.

Product assistance hours: Monday thru Friday, 9:00 to 5:00.

When looking for product assistance, there are a couple of things to keep in mind. First of all, it is very difficult to help customers with indepth technical problems if they aren't well informed. Please review your service and assembly manuals before you call --- this will make solving the problem much easier.

Last but not least, whether you are doing the work or having it done . . . be sure to call us at the first sign of trouble. It's very hard to resolve a problem after the part in question has been damaged, no matter who's at fault. Let's be fair, everyone makes mistakes. The important thing is working together to resolve them.

Owning your Corvette can be a very rewarding experience. We also understand how frustrating it can be when things aren't going smoothly and there's no one to assist you. We are here to help.
