## Who we are...

Family  
operated for  
over  
45 years

Corvette Central has been a leading manufacturer and distributor of Corvette parts and accessories since 1975. In 2001, we moved into our current facility which included the implementation of an automated order picking system. This allows us to better control inventory and to pull orders efficiently. In 2004, we added on a new manufacturing facility where we produce 4,000 of the over 60,000 parts we sell.

Corvette Central is proud to offer the most comprehensive and detailed parts catalogs on the market today and produces a different catalog for each Corvette generation. All catalogs are also online with full search and order features. From the first V8 to C8, only Corvette Central has it all.

## Telephone Service Hours

### Order Dept. and Customer Service Hours

**Monday through Friday 8:00 am – 5:00 pm**  
**Saturday 10:00 am – 1:00 pm**

Orders can always be placed on our website at [corvettecentral.com](http://corvettecentral.com).

### Product Assistance Hours

**Monday through Friday 9:00 am – 5:00 pm**

Please Check Our WEBSITE for seasonal or special Holiday hours.  
Corvette Central is closed from December 24 through January 1.

13550 Three Oaks Rd. • Sawyer, MI 49125

## Order Pick-up Hours

**Monday - Friday 9:00 am – 4:00 pm**

Current Michigan sales tax will be added to all orders picked up.

### OUR COUNTER IS OPEN, WITH LIMITED SERVICES AVAILABLE

You can pick up your "preplaced order" at our counter. Please call ahead and advise the representative taking your order that you wish to pick it up. We will process and pull your order, charge your credit card, and call you when your order is ready for pick-up. Please allow 24 hours of processing time.

## WAYS TO ORDER

ORDERING IS EASY

[www.corvettecentral.com](http://www.corvettecentral.com)

Secure ordering  
with current pricing  
and availability.

*By Credit Card  
or PayPal*

800-345-4122

Retail Orders

269-426-3342

Wholesale &  
Product Assistance

269-426-4108

Order seven days  
a week,  
24 hours a day.

We accept all major credit cards and PayPal.

Corvette Central meets the thresholds for many states that have passed sales tax laws/regulations and is now required by state law to collect and remit sales tax on purchases made by individuals in those states.

## Dealer Wholesale Program

Corvette Central offers a wholesale discount program that is based on the amount your company purchases annually.

To Qualify:

- You must be an auto related business
- Your business needs to have a current sales tax license from the state in which you do business. Please go to our website for more information and the application forms.

## Start To Finish or Military Discount Program

Private individuals planning a complete restoration project should go to our website for information on this program designed with them in mind.

We are the  
**Caretakers of the  
Legend, and the  
Legend is Quality.**

We know that your Corvette is important to you and you will only put parts on it that look good and work right. That is why our quality standards are so high. If we wouldn't put it on our Corvette, we won't list it. Some of our vendors are just a guy in his garage that figured out how to make a particular part that you need. Sometimes he might have a problem getting it made quickly. We do our best to keep in contact with our suppliers every day to keep the parts coming and keep good communication with you, our Valued Customer. We've been doing it for over 45 years and we will keep doing it to keep the Legend going strong.

# SHIPPING INFORMATION

Small packages are sent by U.S. Postal Service Priority or First Class Mail. This service is the fastest and most economical for this size of package. The U.S.P.S. delivers to the continental United States, as well as Alaska, Hawaii, Puerto Rico, U.S. Virgin Islands, and military addresses (APO/FPO) Monday through Saturday. Larger packages will be shipped regular ground service by UPS. Ground service delivers to a large section of the U.S. within 3 days from our location.

Corvette Central offers Next Day, 2nd Day, and 3 Day air delivery services. Saturday delivery service is only available with Next Day air charges for an additional fee.

There is an additional delivery fee on shipments to residential areas.

## NOTE ON SHIPPING CHARGES

Changes recently made by UPS have impacted shipping costs. UPS no longer uses ACTUAL WEIGHT of packages to calculate shipping. They now use "DIMENSIONAL WEIGHT" of packages. We measured every product we sell and entered that information into our system. This enables our system to calculate the size box/boxes your order will ship in and calculate the shipping costs when the order is placed. Retail customers pay shipping for entire order on the 1st shipment. Corvette Central audits the calculated shipping charges after each order is complete. If we have overcharged you, we will automatically send you a Merchandise Credit for that amount you overpaid. Currently this is the best way to be fair to our customers.

## BACK ORDERS

Due to the wide variety of speciality products we distribute, back orders are unavoidable in some cases. Normally back orders are shipped in 7 to 10 business days. We automatically ship back orders or, if you wish to cancel your back order, please call or email for a cancellation number.

## RUSH SERVICE

If you need your order processed and shipped the same day, we offer "RUSH" service. For an additional \$5.95, any order received before 1:00 PM ET will be processed and shipped that same day. Orders received after 1:00 will ship the following business day using the "RUSH" service.

**See the back of your invoice for a complete list of Return Policies and Procedures.**

# IMPORTANT

## TRUCK FREIGHT

Parts in this catalog noted with "+" for Truck Ship and any other item exceeding carrier size or weight limits will be shipped by truck. All items being Truck Shipped must be prepaid or charged to a credit card.

Corvette Central ships to Canada via UPS exclusively. UPS and Corvette Central entered into agreements with the Canadian government in order to collect and remit all duties, taxes and brokerage when your order is processed and shipped. This allows you to know the total cost of your order to be delivered to your door, at the time your order is placed. There are no hidden charges! The exception to this program is Prince Edward Island. Orders shipping to this province will be processed through a Canadian brokerage house. We cannot ship truck freight items to Canada.

## INTERNATIONAL ORDERS

We ship Corvette products to every corner of the globe. There are many variables, depending on size of order, location and timing. Please contact us by email for the most efficient and economical means of shipping your order. Due to recent changes in VAT rules, we require a minimum order of \$150.00 for customers shipping to the EU.

## INSPECT ALL PACKAGES IMMEDIATELY!!!

**All damages, shortages, or errors must be reported within 7 days of receipt of package. Please have invoice ready when you call.**

### DAMAGED ITEM — SHIPPING RELATED

- If there appears to be any external damage, i.e. crushed or dented side or corner, any tears or holes in package, immediately inspect contents of package for parts damage. If damage is found, **DO NOT CONTACT THE CARRIER. IMMEDIATELY CALL CORVETTE CENTRAL AT (800) 345-4122** to report any damages.
- Do not destroy the package or box that the item shipped in. Please save it for inspection by the carrier.
- Have the package and invoice with you when you call.
- If a claim is filed, arrangements will be made for pickup of package with entire contents.

### DAMAGED ITEM — NON-SHIPING RELATED

- Call us at **800-345-4122** immediately with description of damage and we will process a replacement and make arrangements for pickup of damaged item.

### SHORTAGES AND MISTAKES

- Call us at **800-345-4122** immediately and we will process an exchange or replacement as required.

### RETURNS

- **There is no need to call for authorization.** Fill out the return slip enclosed with your shipment, and send the package back to us. It is recommended that you insure the package and retain your receipt of shipment. **Items must be returned in the original packaging for credit.**
- All returns must be made within **60 days** of invoice date. After 61 days a restock fee will be charged.
- No returns on electrical products or tools.
- Items that have been installed, altered, damaged or are otherwise not in a condition to be resold will be returned to the customer at their expense.

### REFUSED SHIPMENTS

- Shipping and handling charges on refused shipments are the responsibility of the customer.

### CURRENT PRICES

- See our WEBSITE for Current Prices.

### OVERSIZED SHIPPING CHARGES

- Some products have additional shipping charges due to heavy weight or oversize dimensions.

**See our WEBSITE for a full list of Policies.**

# Shipping & Packaging Charges

Pertaining to orders shipped within the continental USA:  
Ground service freight charges for your entire order will be charged at the time of the first shipment. Any backorders shipped after the initial shipment will not incur any additional shipping charges. The shipping fees are based on the calculated weight of the parts ordered and the destination zip code according to current UPS and USPS shipping rates.

## 1953-2023 Corvette Black Book

The gold standard in Corvette reference! New and greatly expanded with even more facts and figures up to 2022. Includes production figures by color, more option figures, expanded engine data, block and head numbers, and month of production. 175 pages with 71 photos.

4-3/8" x 10". Softbound.

111930 .....20.95

## OBD-I & OBD-II: A Complete Guide To Diagnosis Book

This book is an insider's guide to modern original equipment manufacturer (OEM) diagnostics systems. Former diagnostics and performance calibration engineer Greg Banish guides you through critical electronic control unit (ECU) functions that ultimately lead to why the check engine light comes on. Strategies are provided on how to begin

looking for a solution when problems are detected. Listing every imaginable repair is impossible, but this book provides a solid foundation from which to work by explaining the ECU's logic in plain English.

Practical examples from the author's experience highlight important lessons that will save hours of frustration and confusion. In addition to repair tips, sound advice is given for those looking to modify their vehicles while maintaining the full functionality of the emissions and diagnostics systems.

160 pages, 307 color photos.

115068 .....36.95

## High-Performance Automotive Cooling Systems Book

In High-Performance Automotive Cooling Systems, author Dr. John Kershaw explains the basics of a cooling system's operation, examines coolant and radiator options, explains how to manage coolant speed through your engine and why it is important, examines how to manage airflow through your radiator, takes a thorough look at cooling fans, and finally uses all this information in the testing and installation of all these components. Fast-forward to today, and it's easy to forget that C4-C8 Corvettes even have coolant. The temp needle moves to where it is supposed to be and never moves again until you shut the car off. Whether you are a fan of modern performance cars or a fan of more modern performance in vintage cars, this book will help you build a robust cooling.

- Pages: 128
- Format: Paperback
- Illustrations: 349 color photos & illustrations

11228 .....32.30

## Coupe Sonderwerks Sport Top/ Temporary Soft Top

- Attaches with suction cups onto each door window
- Easy to carry in your car-Fold and place the Sport Top back in the included carrying case.
- Designed specifically for model years 2014-2019 Corvette with a removable targa top/roof panel.

This is a lightweight temporary use top intended to cover the passenger compartment while the car is parked to protect it from the sun, wind, and even a bit of light rain. It's the perfect top to carry when you just don't have the time or inclination to fuss with reinstalling the factory top.

Made in USA from a high quality smooth black vinyl. Sport Top is reinforced with corrugated plastic panels and fiberglass rod inserts that provide a durable finish that will last for years to come.

NOTE: this product is not intended to replace your car's factory top. It is not designed to be used while the vehicle is in motion.

## Cleartastic

## Behind Wheel And Mirror Paint Protector Kit

- Invisible once applied
- Pre-cut and designed to easily apply
- Apply in minutes
- Outstanding protection

Cleartastic is a clear flexible film that creates an invisible barrier between your beautiful delicate paint and rocks and debris. Cleartastic Plus prevents paint chips, stains and withstands harsh weather and extreme high speeds. Cleartastic Plus has a mild adhesive to make it a "set in and forget it" film. One time application provides years and years of protection. Smooth as glass appearance makes it invisible once applied. Wash and wax over the film. Treat it like your paint.

*Special*

GET Both

For Only  
101059..... 43.15

### The Absorber®

The Absorber® will dry your Corvette faster and easier than chamois or towels. Gentle on all automotive finishes, the Absorber absorbs 3 times faster and holds 50% more water by surface area than a hide chamois. Unharmful by grease or oil it can be machine washed and it resists tearing or shredding. Comes in a plastic storage tube for damp storage. Generous 27" x 17" size.

101664..... 19.45

### Genuine Leather Chamois

- Dries streak free and spotless
- Clear coat safe
- 100% cod oil tanned
- 2-1/2 square feet

101074..... 19.95

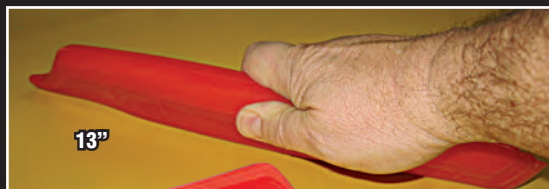

**Cham Easy**

### A Totally Flexible, Bendable Chamois / Squeegee

Cham Easy "The World's Fastest Chamois", is a revolutionary product to dry your car after rain, dew, or washing that leaves NO SPOTS and NO STREAKS. For people who swear by their chamois cloths, terry towels, or water blades, this amazing flexible squeegee could replace every one of these devices and do the job better.

The closed cell foam material is totally flexible allowing the Cham Easy to conform to any contour. Get in the grooves, hug the curves, and bend over rises. Soft all over there are no sharp or hard parts to scratch or dent your vehicle. Wonderful for even the most delicate paint jobs.

102836..... 20.50

### California Jelly Ultra Water Blade

- Patented T-Bar edge whisks water away
- Ultra-Soft Silicone conforms to curved surfaces
- New flexible handle helps mold to shapes
- Virtually eliminate chamois and towels
- Dries cars, trucks, boats, SUVs in 1/3 the time
- Outperforms all other drying devices
- Eliminates water spotting, fast and efficient. Clean before each use.

101924 11"..... 17.35  
102695 13"..... 21.55

### Easy Grip Interior And Top Brush

Gives new life to floor mats and carpets. Spot scrubber on handle targets dirty spots quickly.

Wheel and Tire Cleaners – See Page 24

## Adam's Waterless Car Wash

Adam's Waterless Wash is designed to clean the surface of a car that is slightly dirty or dusty without getting out the hose! Adam's Waterless Wash provides for an effective and efficient way to safely clean dirt, grime, and debris from the surface without causing scratching or marring. This formula is best served to provide a means of washing without access to a water supply or in areas that are under water restrictions.

**102546 16 Oz..... 9.95**

## In & Out Spray

Watch your faded and dull trim go from boring to brilliant with a single treatment of one of our all time best products.

An aerosol spray dry to the touch within moments and still capable of restoring your faded and dull plastic, rubber, and vinyl trim to like new condition with just a single spray. Use this amazing product on all the hardest to reach areas, like air conditioning vents, wiper cowl, grilles, and even under the hood to dress your engine compartment.

In & Out Spray wipes easily and cleanly away from surfaces like glass and paint so there's no need to stress about over-spray getting into areas you don't want. One swipe of a plush microfiber towel and the over-spray residue is gone!! There's never been an easier way to dress your trim than In & Out Spray guaranteed to impress you every time you use it.

**102606 Aerosol..... 14.95**

## Invisible Under Carriage Spray

Adam's developed this special product to make your wheel wells and under carriage completely invisible. Spray after a wash and before detailing for best results. You'll love the low-gloss, dark finish that this Invisible Under Carriage Spray leaves behind. Guaranteed to please.

**104845 16 oz. .... 12.95**

## Brilliant Glaze

Adam's Brilliant Glaze takes personal reflection to a new level. This liquid glaze adds depth and clarity to chrome, glass, and paintwork. Brilliant Glaze is a top seller for its extreme ease of use and for its ultra-high gloss results. Product can be used in direct sun and has no dust. Shake well before and during use. Product separates by design. Not for use on oxidized finishes.

**102768 Bottle..... 24.95**

## Buttery Wax

Leading the charge in technological advances, Adam's Buttery Wax is formulated with a special blend of polymers, resins, and natural Carnauba. Butter Wax contains no cleaners or abrasives, and will not stain plastic or rubber. Always treat an imperfect finish with Clay Bar and Polish before applying Butter Wax.

**104685 16 oz. .... 19.95**

## Detail Spray

This "Best of Show" winner is a favorite at car shows. Use as a waterless wash, a clay bar lubricant, or to enhance the depth and clarity of paint, chrome, plastic, aluminum, and glass. Specially formulated lubricants gently remove dirt, smudges, and grime, leaving surfaces with a smooth, ultra-high gloss finish. Use in the sun or shade, and in hot or cool temperatures.

**102284 16 oz. .... 12.95**  
**106802 Gallon..... 44.95**

## Adam's Strip Wash

Adam's Strip Wash is a concentrated soap blend that removes any wax and sealant protection as you clean your ride, preparing it for paint correction session with a machine polisher or hand polish, or to start clean with a fresh layer of sealant or wax.

**102948 16 oz. .... 14.95**

## V.R.T. (Vinyl, Rubber, Tire)

Enhance and protect the appearance of plastic, rubber, tires, moldings, dashboards, and door panels. Adam's V.R.T. contains no harmful silicone or alcohol. The thick moisturizing cream applies easily with a sponge and will not leave a greasy film, attract dirt, or harm paint and glass. Added U.V. protection keeps vehicle interiors and exteriors looking and feeling like new.

**106824 16 oz..... 19.95**

## Car Wash

- New Concentrated Formula produces more suds
- Gentle on all surfaces and pH neutral
- Slickest formula ever, reduces the changes of swirls

**102571 16 oz. .... 9.95**  
**106755 Gallon..... 39.95**

## Adam's All Purpose Cleaner

- Tough On Dirt But Easy On Your Car
- Cleans Wheels, Tires, Engines and More

## Adam's Leather And Interior Care Kit

- Return your Car's Interior to "Like New"
- Safe for your Seats, Dash, and Door Panels
- Protect your Interior from premature deterioration with SPF65

Today's vehicles feature a variety of surfaces and materials that require proper cleaning and care to preserve their appearance, but no one likes to have a dozen bottles just to clean an area of their car. Adam's Leather & Interior Care Kit has the essentials you need to treat all the hard interior surfaces of your car and keep them protected from harmful UV rays, without a greasy mess or streaking!

Water based and free of the oils and animal by product used in so many other popular brands, Adam's Leather & Interior Care products are the premium way to clean, condition.

## Car Care/ Amenity Bag

This Corvette car care/amenity bag has a zippered main compartment, large zippered front pocket, interior zippered mesh pocket. Embroidered with Corvette flag and script emblem on front.

<b>117017</b> .....	<b>29.35</b>
---------------------	--------------

## Adams Carpet And Upholstery Cleaner

We think Adam's Carpet & Upholstery Cleaner is the best available. It's easy to use, safe, and it knocks out the worst soil and stains you can imagine. Adam's Carpet & Upholstery Cleaner is different. Our non-foaming formula contains no soaps. That means it stops cleaning when it's supposed to.

<b>102845</b> 16 oz.....	<b>10.95</b>
--------------------------	--------------

## Rejex (Anti Stain Protection)

- Super Tough Protection

When applied according to the directions, Rejex covers your vehicle with a tough polymer coating that produces a very slippery surface. So slippery that most water, dirt tar, bird droppings, tree sap, exhaust stains and brake dust simply does not stick to the surface. Eventually, some things will remain on the finish, but you'll wash off easily with a blast of water and a quick wipe with a wet cloth. No more labor-intensive scrubbing to remove brake dust on chrome wheels, or baked-on bug splatters after a long road trip.

<b>101884</b> .....	<b>26.80</b>
---------------------	--------------

## Rust Prevention Magic

*Keeps Metal Parts Looking Brand New!*

- Dry to the touch
- No Oily Residue Left Behind
- Includes Application Brush

All types of metallic surfaces prone to oxidation can benefit from RPM protection. Cast iron, stamped and cast metals, as well as aluminum are some of the common automotive applications. RPM works great to preserve natural metal drivetrain, suspension, and bare

metal components to a like new condition.

## Adam's Tire and Rubber Cleaner

Adam's Tire and Rubber Cleaner deep cleans tires and removes baked on tire dressing, blooming, and discoloration. It effectively removes oxidation, wax, and polish residue from rubber and plastic trim parts as well.

112617 16 oz. .... 12.95

## Adam's Eco Wheel Cleaner

- Direct-Release to the Environment Approved
- Powerful cleaning capability with a pleasant citrus scent
- Thin formula allows for a wider working area
- Breaks down brake dust, road grime, and dirt
- Safe on painted, powder-coated, anodized, clear coated, and chrome wheels

Adam's Eco Wheel Cleaner is an environmental friendly wheel cleaning solution. It is pH neutral formula that is Direct-Release to the Environment Approved and breaks down road grime and wheel contamination.

111598 16 oz. .... 12.95

## Forever Black™ Tire Gel

- Black pigmented color
- Water based
- Silicone & oil free
- Environmentally safe
- Does not attract dust
- Fast drying
- Does not sling off tires
- Protects against UV damage

This environmentally friendly product will restore the faded bronze look of your tires to their original appearance. The hand held applicator eliminates the mess of oversprays. One easy application will protect and restore your tires.

101816 8 oz. .... 17.15

## V.R.T. (Vinyl, Rubber, Tire)

Enhance and protect the appearance of plastic, rubber, tires, moldings, dashboards, and door panels. Adam's V.R.T. contains no harmful silicone or alcohol. The thick moisturizing cream applies easily with a sponge and will not leave a greasy film, attract dirt, or harm paint and glass. Added U.V. protection keeps vehicle interiors and exteriors looking and feeling like new.

106824 16 oz. .... 19.95

## Magic Guard Wheel Protection

Magic Guard is a Patented Multi-Use Car Care Product that Protects Corvette Wheels, Prevents Rust and Repels Rain! Also enhances glass visibility with water beading technology, prevents water spots.

114517 ..... 16.30

## California Micro Fiber Wheel Duster

Micro Fibers effectively trap dust and dirt

- The "fork" easily spreads when pushed on an object for true one-handed convenience
- It "clamps" around the object to clean both sides at the same time
- Can also be used as a conventional duster on any surface
- Easily cleaned to allow repeated use time after time

Use to remove annoying brake dust and much more! Also great for roof racks and automotive grilles and can be washed and re-used hundreds of times.

101948 ..... 16.10

## Tire and Wheel Brush

Get all of the nooks and crannies in your wheels and tires clean with this brush. Soft and natural tampico bristles and angled head design take some of the struggle out of the chore.

101228 ..... 11.05

## Adam's Wheel Cleaner

- Safe on painted, powder coated, clear coated, and chrome wheels
- Thick gel-like viscosity clings to wheels for excellent cleaning power
- Dissolves brake dust, road grime, and dirt
- Color changes to purple as it's working

Adam's Wheel Cleaner is the most high-performance wheel cleaner you've ever tried. It is a pH neutral formula that specifically targets iron and metallic particles left behind by today's modern brakes

111628 16 oz. Bottle ..... 14.95

## Adams 20" Fender Tire and Wheel Well Brush

- Designed to clean your fender linings and tires with ease
- Long handle to reach those hard to reach wheel wells
- Durable premium quality flocked nylon bristles

101875 Ramps

2 pc. Race Ramps

101917 Ramps

101907 Roll Ups

Wheel Cribs

These race ramps are unique in their design. They are made for low ground clearance performance vehicles with a gross weight handling of 1200 pounds per ramp or 2400 pounds per set. They are specially designed for the Corvette enthusiast, allowing you to get under your car quickly, safely and without any frustrating hassles. Constructed in one solid piece, Race Ramps will not slide across your garage floor, dig into your asphalt driveway, or scratch or otherwise damage your cement or painted floors. They can be used to raise your car up eight inches. You get all this in an **Unbelievable light weight of 20 pounds a pair**. Most ramps can only accommodate a tire width of six to eight inches. Race Ramps are not hollow in the center or made with questionable reinforcements. They are 100% solid on all sides and constructed in one solid piece - giving you the non-skid support that you need. The ramps come complete with straps for easy carrying, and you can also use them to hang the ramps on the wall when you're done.

## 8 Stage MSX 5.0 Battery Charger

- Fully automatic charging and maintenance in 8 steps maximizes battery life and performance
- Numerous accessories allow using the same charger for multiple batteries
- One charger for the car, motorcycle, lawn mower, snowmobile, sump pump, and tractor
- Water-resistant
- Patented maintenance charge for maximized life and performance
- Recondition of deep discharged batteries
- Patented desulphation that extends the battery life
- No sparks, short-circuit proof and reverse-polarity protected for untroubled usage
- Automatic detection of end-of-life batteries that eliminates surprises

**ATTACK3BLUE**  
AIR FILTERS

### Attack Blue High Flow Air Filter

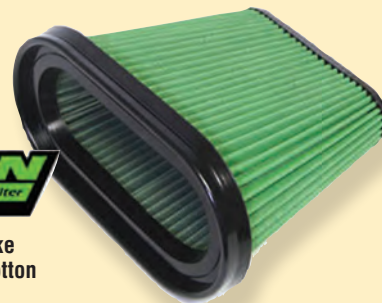

- Nanofiber Technology for the best filtration, least restriction
- Larger surface area for more air and power
- Filtrates down to Sub-micron particles
- Dry media
- No oiling or chemicals
- Washable and reusable
- Fits LT1 and LT4
- Drop it in and go
- Patent Pending design
- Made in the USA

Attack Blue's Dry High Flow OE Replacement Filter is the C7 Corvette filter with Nanofiber technology media! This allows for larger power gains over the stock paper filter while still providing incredible filtration. Nanofiber technology is key to the absolute best filtration with the least restriction to airflow. This media captures dirt down to sub-micron particles while feeding your engine more air for more power! Nanofibers are ultra-fine. Since the fibers are so much thinner than traditional spun fibers, you can pack more fibers in the same amount of space which creates more obstacles to stop particulates from passing through without sacrificing air flow!

\*157002..... 139.25

\*This does not fit GM Performance Air Intake.

### Green Performance Air Filter

- Upgrade Your Air Intake
- 2 Layer Interwoven Cotton
- Lifetime Guarantee
- Reusable

157000	.....	106.95

### LT1, LT4, LT5 GM Performance Air Intake System

- Maintains Full Vehicle Warranty when installed by dealership
- LT1: 30% Restriction Reduction at 350G/S
- LT4: +11HP and 28% Restriction Reduction at 550G/S
- LT5: +17HP and 26% Restriction Reduction at 630G/S

C7 Air Intake Upgrade System (Cold Air Intake). This system opens up additional air box volume and utilizes a high-flow dry media filter that provides long-term efficiency, durability. Chevrolet Performance engineers developed this intake with seamless integration with the production of mass airflow sensor so that no additional calibration is required. The physical dimensions of this air box are bigger, yet it was designed to fit all three Corvette engines - LT1, LT4, and the unique packaging of the LT5. This system is 50 State Legal and comes with an EO label to affix to the engine bay. For visual impact of Corvette, it has a clear window featuring the Corvette Jake Logo.

## Trunk/Hatch Recessed Switch Mount Bezel

Ever open the trunk or hatch with your knee? The placement of the interior trunk release button leaves a lot to be desired. Why did GM put it in a location where (some) folks can accidentally push it with their knee? Well, no more! This is a new design replacement for the bezel that mounts the trunk switch in the dash. This trim bezel recesses the switch enough to prevent accidental contact.

# POWERSTOP EXTREME PERFORMANCE BRAKE SYSTEMS

## Slotted And Cross Drilled Rotor with Brake Pad Set

- Drill holes keep brake rotors up to 180 degrees cooler
- Slots keep a clear contact path between the pads and the rotors
- Increased braking performance
- Look great behind custom or factory wheels

Power Stop brake kits include a complete set of cross-drilled and slotted rotors and high performance Evolution ceramic pads. They make it simple by matching the pads and rotors for a big brake feel without the big price. The Power Stop brake kit offers more pad bite than other leading brands without noise and dust. If you need a fast, easy and affordable solution for better braking, then you need the Power Stop brake kit. Don't just stop...Power Stop!

## Z17 Stock Replacement Brake Rotors with Pads Kit

Z17 Stock Replacement Brake kit has everything you need for an easy, bolt-on solution for your daily-driver. This kit features Z17 Evolution Plus ceramic pads and Autospecialty brake rotors, along with stainless steel hardware to get the job done right.

197226 Except Z51 .....359.95

## Wilwood Hi-Temp° 570 Racing Brake Fluid

Wilwood's specially formulated High-Temp° 570 Racing Brake Fluid has a minimum 570° F dry boiling point to withstand the severe heat requirements of automotive racing. Hi-Temp° 570's low viscosity allows easy bleeding of your brake system, eliminating aeration of the brake fluid caused by foaming due to excessive pumping of the pedal.

191069 12 oz. ....13.95

## GM/Delco Brake and Clutch Fluid

GM Delco Brake Fluid is recommended for all vehicles that require DOT 3 brake fluid. It contains enhanced corrosion inhibitors to prevent premature wear, and retains its boiling point properties longer than conventional DOT 3 brake fluids. It is also compatible with disc and drum brake systems. Cannot be shipped by air or overseas.

191064 Pint. ....10.80

## Brake And Clutch Fluid-GM Dot 4

• Lubricates Seals • Extends Seal Life

• Resists Air Entrapment • Minimizes Friction

534342 16 oz. ....21.55

Brake Fluids cannot be shipped by air or overseas.

## Superlite Big Brake Kit

For spirited street driving and bonus "see-through" style. Includes: 2-piece 14" or 15" drilled and slotted SRP Rotors with black anodized, GT Series Machined aluminum hats \*Black or Red anodized Billet Superlight 6 piston Front or 4 Piston Rear Calipers \* Wilwood BP-10 Medium friction, low dust/low noise pads \*CNC-Cut alloy caliper mount brackets \*Wilwood Braided Stainless hoses. Bolt-on install fully compatible with stock hubs, master cylinder and ABS. Note: 14.25" Rotor required 18" rim, 15" Rotor requires 19" rim.

Specify Black -01 or Red -02 Caliper When Ordering.

Add \$100.00 When Ordering Red.

## Wilwood Racing Brakes

**SX6R**

These kits are for serious racing as they come with pads that are not streetable and the rear kit cannot be used with the factory parking brake.

Wilwood's radial mount calipers are coupled with high cooling capacity of 14.00" SV-GT staggered directional vane rotors to provide the ultimate brake package for unrestricted road race competition. Thermlock pistons in the calipers resists fade and extend service life by reducing the heat transfer from the pads, caliper body, fluid and seals. Rotors mount to the hubs with forged aluminum hats and radial mount brackets secure the caliper to the spindle in the OE location without modification. Kits also include high temperature, high friction race compound pads and all premium grade fasteners.

197144	Front 14" SX6R with Slotted Rotors .....	3890.95

## Z51 Front and Rear Polished Brake Caliper Cover

- High Polished; Mirror Finish
- Easy "Peel and Stick" Installation
- Made in USA!

Dress up your Corvette with this 18-piece Polished Stainless Steel Brake Caliper Cover. These trim pieces are designed to fit over the stock calipers and add a clean stylish look to your Corvette's exterior.

197000.....90.95

## Brake Pad Bed Instructions

1. After installing new brake pads, make 6 to 10 stops from approximately 30-35 mph applying moderate pressure.
2. Make an additional 2-3 hard stops from approximately 40-45 mph.
3. DO NOT DRAG BRAKES!
4. Allow 15 minutes for brake system to cool down.
5. After step 4 your new pads are ready for use.

## POR-15 Caliper Painting Kit

POR-15's Caliper Painting Kit can help dress up cast iron or aluminum disk brake calipers. The kit comes with everything you need, including a durable paint coating that will stand up to just about anything.

191037 Black.....16.95  
195081 Yellow .....16.95  
192297 Silver .....16.95

## Power Bleeder™

If you do any brake work on your Corvette, power bleeding is faster and more efficient than vacuum bleeding. This Power Brake Bleeder forces clean brake fluid through the system, quickly driving out all the air.

194131 (ND) .....68.20

## Brake Bleeder Bottle

- Drain back fitting
- Magnet on side of bottle for mounting

191106.....26.20

## Drilled or Slotted?

Slotted rotors do not improve any heat transfer. However, the slots can improve brake output by removing gas and dust that is trapped between the pad and rotor. This gas and dust reduces the friction force by preventing the pad from fully contacting the rotor.

Given the choice between drill holes and slots, the drill holes will give you better braking power over slots for normal city/highway driving. This is why factory Corvette rotors are drilled, not slotted. However, for track racing (high speed stops), slotted rotors are the better choice.

## Bumper

Sto N Sho

207010

## License Plate Bracket

The STO N SHO is a custom fit after market two piece detachable front license plate bracket mounting system consisting of a front license plate holder and a base mounting plate that allows for easy removal. For states that require front license plates, the factory #207010 Carbon Flash Front Frame Kit, fastens to the front fascia without drilling any holes in the bodywork.

207426.....	309.55
-------------	--------

## Show N Go Front License Plate Mount

### Holder/Bracket and Remote Control with Electric Motor

• Except Z06 or Grand Sport

The Show n Go eliminates the standard OEM front license plate mount that often looks like a design after thought, and replaces it with a mount that both displays the plate in a more attractive position, and allow the plate to be retracted and stowed out of site with a simple electric motor with remote control - no tools or adjustments are required. NOTE: May not be legal in some states or countries. You will have to check your local laws.

## Aluminum Radiator

Upgrade your cooling system with our new 57mm double row aluminum radiator for all C7 Corvettes. This new "direct fit" radiator features serpentine fins and special dimpled cooling tubes. These dimples create turbulence as coolant passes through the tube. Turbulent flow is a proven method to increase heat transfer over the standard laminar flow method. The thicker core increases tube-to-fin surface area and the all-aluminum construction eliminates plastic end tanks and gasket failures. The larger capacity end tanks hold one additional gallon of coolant to help dissipate heat.

247000 .....1049.95

247025 HP/Race Radiator .....1224.95

**NOTE:** DeWitts now offers our HP Model 70mm double row aluminum radiator for extreme racing conditions. This radiator requires trimming both the hood duct and electric fan shroud for proper clearance.

## 19" Electric Fan Upgrade

This 19" brushless fan is simple to install and features "plug and play" wiring. No re-programming or splicing is required. This fan replaces the stock 14" 600 watt fan with an impressive 835 watt fan motor for more CFM when you need it. The custom aluminum shroud now covers 100% of the core face, utilizing all the radiator area, and it looks incredible when showing off the engine bay! The stock hood duct is eliminated for clearance.

### Dash Storage Compartment Shelf

- A must have item for your Stingray
- Cushioned top using adhesive felt
- Fenced shelf top to help prevent stuff from getting trapped by screen closure
- Made in U.S.A.

The C7 Corvette features a very useful dash storage compartment. Unfortunately, items tend to get piled on top of each other in there. To help solve that problem we offer a patent-pending designed shelf unit.

Professionally made from 5052 aluminum alloy, the shelf is strong yet lightweight and uses minimal space. The top features a 3 deg negative bias from front to rear so items tend to stay back. Textured powder coating produces an attractive and tough finish.

257000.....	32.15
-------------	-------

### Corvette Bin Guard

- Prevents C7 infotainment screen from jamming!
- Use the C7 dash storage bin without worry!
- Compatible with C7 Bin Buddy
- Made from impact-resistant polycarbonate
- Simple installation - no permanent car mods

## Engine Oil Cooler (EOC) Kit

- “Air-to-Oil” type EOC kit for all C7 Corvettes
- Kit includes a custom two pass oil cooler that is designed to mount directly behind the grill opening
- Kit replaces the factory Water-to-Oil cooler with a custom adapter and stainless steel braided oil lines
- Detailed installation instructions are included.

NOTE: Removal of the front bumper and a car lift is required. Corvette Central recommends contacting a professional service technician for installation.

**307018**.....1099.95

## Z06 Oil Cooler Line Heat Shield Shroud

- Reduces oil temperature
- Helps prevent Z06 from going into “limp mode” due to engine oil over heating
- No need to remove or disconnect lines to install

## Stock Spark Plug Wire Set

- For LT1 or LT4 C7 Corvettes
- Manufactured with careful adherence to original equipment design
- Engineered to eliminate radio interference
- Engineered to withstand engine heat, oil, and abrasion

**307016** GM/AC Delco Factory Spark Plug Wires (Set of 8) .....64.30

## Spark Plug Wire Set Hi Temperature/High Performance

- Designed by GM specifically for high performance LS applications.
- Built with Packard high performance cable used by GM race teams.
- Inner jacket designed to dissipate heat to ensure consistent spark.

Real horsepower gains over stock wires when using improved coil packs. Compatible with all OE electronics including radios and computer systems. All wire sets include new heat tubes and improved boots and connectors. All terminals are "dual crimped" maintaining integrity, even with multiple spark plug changes. Outer is heat resistant up to 600 degrees and will not tear. Center core is made with "Kevlar" fibers to eliminate breakage. Outer core is a copper alloy wrap that surrounds the innercore & carries 90% of the voltage.

**305274** Hi-Temp Wire Set with Heat Shield Tubes .....96.35

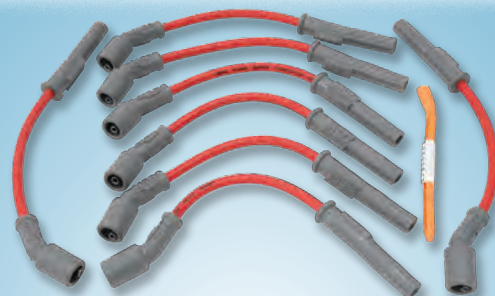

## Spark Plug Wires Set - Delphi/Packard

Corvette OEM wire set features:

- Correct OHMS resistance / foot
- Correct lengths
- Correct premium boots/terminals
- Made in the USA

Kevlar wrapped insulation /superior to fiberglass. Stainless terminals that won't corrode. Superior silicone wrap with high dielectric strength.

**305255** Wire Set with Heat Shield Tubes .....85.85

## MSD LT1 Super Conductor Spark Plug Wire

- Fits Gen 5 GM LT1 based engines

In a single 12" length of Super Conductor Wire there is only 40-50 Ohms of resistance, the lowest resistance of any helically wound wire. To accomplish this, MSD uses a copper alloy conductor. The low resistance results in less loss in spark energy. The conductor is wound so tight that there are over 40 feet of conductor wrapped into a single foot of plug wire. Combined with a ferromagnetic impregnated center core, produces an extremely effective Electro Magnetic Interference (EMI) "choke". This choke, or suppression capability, keeps the EMI inside the wire where it cannot interfere with other electronics on your vehicle. A proprietary blend of silicone and synthetic material produce a sleeve highly resistant to high heat as well as abrasion and tears. The MSD's 8.5mm spark plug terminals feature Dual Crimp terminals.

**307007** Red Wire (ND) ..... 119.95

**307020** Black Wire (ND) ..... 119.95

**305181**

## Spark Plug Wire And Boot Protectors

- Ideal for protecting wires and boots from header heat
- Helps prevent misfiring
- Simply slide over existing wires and boots

**305181** Koolsox Titanium Woven Protectors (Set of 8) .....85.85

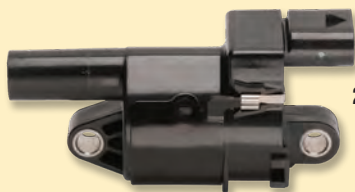

**305425** Black Braided Fiberglass Protectors (Set of 8) .....69.85

### Important

Electrical components such as coils, spark plugs, wires, ECM's, switches and sensors are

### NON-RETURNABLE PARTS

Always refer to a factory service manual when diagnosing engine service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.

277029

277014

## Stock Coils

- For LT1 or LT4 C7 Corvettes (8 required)

Electrical components such as a coil are non-returnable parts. Always refer to a factory service manual when diagnosing engine service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.

## Granatelli 80KV Hi-Performance Coil

- Increased engine efficiency with improved engine combustion.
- Gains of up to 12hp have been seen with these coils over stock. Average gain with no other changes is 6 to 8hp on an otherwise stock vehicle. Gains of up to 18hp have been experienced on heavily modified forced induction applications.
- Rated at 80K Volts, Pro-Series Extreme coil packs offer nearly twice the voltage over the competition.
- Lifetime Warranty.

## Z06 Granatelli Intercooler Expansion Tank

- Adding an extra 1.75 gallons of fluid goes a long way - it helps stop the blower sitting on top of the engine from heating the system.

Granatelli Motor Sports Heat Exchanger Expansion Tank is intended to be an easy direct fit installation for all 2015 and up C7 Z06 model Corvettes. This unique design adds 1.75 gallons to the vehicle's heat exchanger cooling system. A must for anyone increasing boost levels to the engine, or just doing spirited extended driving. Total OEM looking finish and installation appearance. With slight modification to one hose, the installation on a cool engine should take no more the 30 minutes.

LT5	6.2L 376 CID, 755 HP Supercharged, intercooled - ZR1

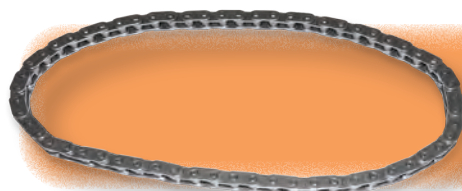

## Granatelli Mass Air Flow/MAF Sensor w/Cold Air Induction

- Fits Corvette LT1 Series Engine with Slot Style Mass Air Meter.
- Direct OEM replacement, won't void your factory warranty.
- Improves mileage and throttle response
- Improves performance from 2,000 RPM to red line
- "Truly Calibrated" on a MAF Dyno and Flow Bench to optimize performance for your specific application
- Compatible with most electronics and aftermarket bolt-on performance equipment
- Installs in 10-15 minutes using basic hand tools

**Edelbrock**

## E-Force Supercharger

*Now you can boost the power in your Corvette to near ZR1 performance!*

The Edelbrock supercharger increases the performance of your LT1 engine horsepower and torque to the flywheel. The core of this system is the Eaton Gen VI 2300 TVS rotating assembly with a four-lobe design with 160 degrees of twist for maximum flow, minimum temperature rise and quiet operation for excellent drivability. Edelbrock also designed the superchargers with an integrated bypass valve to help eliminate parasitic loss under light throttle, improving mileage potential.

The unique and efficient inlet configuration results in a shorter, less restrictive intake path for improved airflow, without the need for a jack-shaft. Keeping the air cool is a high-capacity air-to-water intercooler and low-temp heat exchanger. The Edelbrock system is 50-state emissions legal. The supplied tune is intended for completely stock vehicles with the exception of a cat-back exhaust.

357056	LT1 Stage 1 624 HP/600 Ft/Lbs Torque (ND) .....	9675.87

357032	Z51 Stage 2 537 HP/527 Ft/Lbs Torque (ND) .....	9766.95

## Silver Billet Throttle Body Spacer

- Dyno testing resulted in max gains for 8 HP and 10 lbs x ft of torque
- Billet Aluminum 6061-T6 Construction
- Serrated/Helix Combination TBS Design for optimum airflow into the combustion chamber, precision machined from 6061-T6 Aluminum
- Installation is a snap
- Fits stock intake

The Serrated/Helix design creates turbulence in the intake manifold. This turbulence increased the air pressure in the combustion chamber resulting in increased horsepower, torque, and improved throttle response. The Serrated/Helix combination design also reduces intake whistle that occurs with other Helix only designs.

357070	.....	189.95
--------	-------	--------

## Fuel System Helpers

### MSD Atomic AirForce Intake Manifold

- Dyno-proven bolt-on power - Gains up to 20 horsepower and 20 ft-lb of torque
- Durable polymer construction can handle up to 30psi of boost
- 103mm throttle bore allows the use of large throttle bodies for greater air flow
- The 2-piece manifold design provides convenient access to the runners for porting

When you're serious about power for your Corvette engine, call in the AirForce! The all-new MSD Atomic AirForce Intake Manifold delivers improved air flow and distribution to improve the performance of stock and modified engines.

The unique bell-mouthed runner entrances maximize air flow and minimize shrouding - all while optimizing the available plenum volume for an unobstructed flow path.

### GM Fuel System Treatment Plus

- Cleans - Sulphur corrosion from fuel gauge sending units
- Prevents - Harmful sulphur components from attacking sensitive fuel system electronics
- Protects - By coating metallic surfaces of the fuel system
- Removes - Engine deposits left from use of poor quality fuels

365097 12 oz. .... 23.65

### Mass Air Flow Sensor Cleaner

- Safely cleans and protects MAF sensors
- Plastic safe and leaves no residue
- Decreases hesitation and ping
- Improves fuel economy and MPG
- Increases horsepower
- Reduces rough idle

104648 11 oz. .... 19.45

### Throttle Plate and Intake Cleaner

Effectively cleans power-robbing gums and varnishes from throttle bodies and air intake systems on fuel-injected vehicles. Improves performance, eliminates hesitation and rough idling while lubricating all moving parts. Safe for use on coated throttle bodies. For maximum performance and MPG use CRC Throttle Body Cleaner and CRC MAF Sensor Cleaner (Item # 104648) every time you service your air filter.

354314 11 oz. .... 12.55

### Lucas Octane Booster

A real Octane Booster! Tested and proven to deliver three times more boost than most other brands. Lucas Octane Booster is a genuine performance enhancer! It's safe for turbos, oxygen sensors, and catalytic converters. Stops knocks, and raises MPG in high compression engines. One bottle treats up to 25 gallons of fuel. Not street legal. Safe for any gasoline engine.

351136 15 oz. .... 12.25

### Red Line Fuel System Cleaner

SI-1's injector and valve detergent is a concentrated package of the most powerful high-temperature detergents available to clean gasoline fuel injectors or carburetors, intake valves and combustion chambers and can clean injectors to nearly 100% efficiency in one treatment. The cleansing effect on injector deposits can raise fuel economy approximately 12% or even greater, depending on the condition of the injectors.

354313 15 oz. .... 15.95

### Direct Injection

LT-series engines are direct-injection, meaning the fuel is pressurized between 2,000 and 2,900psi (2,175 for LT1, 2,900 for LT4), and injected directly into the combustion chamber, much like a diesel engine. DI engines have much greater fuel economy because the ECM has far better control of how much fuel is being burned.

## SCT Power Flash Programmer

- Adds 10 HP and 12 FT-LBS Torque
- Stores 10 Custom Tunes
- Full Color Backlit LCD Display
- High Speed Data Logging/Monitoring
- Reads/Clears DTC Trouble Codes
- Easy Restoration Back to Stock
- Dual Analog Inputs
- Most Popular Vehicles Supported
- Installs Quickly and Easily
- USB Interface Cable Included
- User Adjustable Vehicle Parameters
- Built-In WiFi for Easy Updates

Applications:

2014-2016 LT1; 2015-2017 LT4

The X4 Power Flash arrives pre-loaded with DYNO Proven tune files that increase Horsepower and Torque! Programming your vehicle with one of SCT's pre-loaded tune files is as easy as 1-2-3. Simply plug the OBDII connector into your vehicles OBDII port, select the pre-loaded tune file using the simple to navigate menu and within minutes the X4 programs your vehicle

305406 (ND) ..... 427.50

## Range Technology AFM/DFM Disabler

- Range AFM/DFM Disabler keeps you in full power 100% of the time.
- Simply plug into your onboard OBD-II port and it instantly begins working to eliminate the AFM/DFM system.
- The power and control you need in any situation.
- The Range AFM/DFM Disabler does not reprogram your factory ECU.
- Leaves no trace. Unplug it to return to factory settings
- Fits all V8 General Motors (GM) active or dynamic fuel management vehicle

307219 ..... 230.95

Active Fuel Management (AFM) or Dynamic Fuel Management (DFM) is used on 2014 - 2019 Corvettes to help improve fuel economy.

NEW  
PREORDER

## Redlight Bandit Throttle Booster

- Made in the USA
- Direct increased throttle performance throttle response enhancer designed for the C7 Corvette including Grand Sport and Z06
- Wide open throttle faster, push your pedal to the Max
- Compatible with GM diagnostic and electrical systems
- Module has built-in run time diagnostic
- Won't void warranty

Increases driving enjoyment/no more stalling or stumbling. Fixes tip in hesitation/makes manual transmission easier to drive. Vehicle reliability and safety is not compromised. Module does not impair vehicle safety operating mode.

307190 ..... 104.95

## Diablo Trinity Performance Programmer

### Features:

- Built in Diagnostic Tool-save hundreds in dealership charges reading and clearing your own trouble codes (check engine lights)
- With over 100MB of onboard memory log/record hours of data
- Virtual Gauges-customize your own gauge layout
- View and record dozens of gauges at once
- Tune multiple supported vehicles (only 1 at a time).
- Supports custom tuning-accepts up to 5 additional custom tunes
- The most adjustable parameters on the market including speed limiter, tire sizes and many more!
- Virtual Dragstrip-computes 1/4 mile, 1/8 mile, 0-60, and 0-100 track times. Option to start from a reaction tree or once accelerator is engaged
- Analog input/output to control external devices such as the DiabloSport Extreme PowerPuck and DiabloSport EGT Module
- Set up your own gauge alarms/shift lights using the Trinity's LED lights
- High Resolution 320x240 Full Color Touch Screen

The Diablo Sport Trinity is simply put, one of the most advanced tuning devices on the market. With the capability to tune, log and record data, display and customize virtual gauges, read and clear trouble codes, and even compute multiple track times the Diablo Sport Trinity is the answer to all of your EFI tuning needs. With a high resolution color touch screen, state of the art graphics/GUI, and the ability to customize gauge layouts, the Trinity enhances the interior of any vehicle.

306153 (ND) ..... 696.95

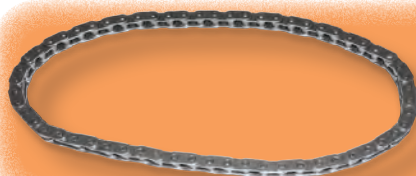

## Diablo Sport In-Tune I3 Programmer

- Free Automatic Online Updates for Life
- Drag and Drop File Transfers (tunes, updates, etc...)
- Fastest Programming Available
- Easy to Use
- Removable Cables for Simple Storage
- External Sensor Inputs (0-5v analog devices)
- Virtually Unlimited Custom Tunes (based on memory)
- Fits in Your Pocket-Smaller Than Your Average Cell Phone
- Preloaded with Multiple Tunes for Each Application
- Features Diablo Sport's "Vehicle Protocol Engine"
- Includes Mileage Booster and Throttle Booster
- Warranty Safe-No Watermarks, Fingerprints, or Counters
- Virtually Unlimited Data-logging (Based on Memory)
- 1 Year Warranty
- USB Connectivity

Diablo Sport in-Tune advanced hand held programmer features dual processors and more than 1GB of memory. Powerful and reliable. Designed to improve power and fuel economy. It also offers data logging, compatibility with custom tuning, a wide range of adjustable parameters and extensive diagnostics. Designed, engineered, and manufactured in the United States, it is wrapped in a stainless steel case.

306170..... 419.95

## C5R Heavy-Duty Timing Chain

The C5R IWIS heavy-duty timing chain for LS GM engines. This chain is more durable than the factory and most after market chains.

305412 LT1, LT4 (ND) .....191.05

## ATI Super Dampers

- Made with elastomer O-rings for superior performance
- Eliminates harmful crankshaft harmonic vibrations
- Improves horsepower & torque
- Reduces oil pump, timing chain and distributor failure

307348 LT1, LT4 with Dry Sump (ND) ..... 529.95

**LINGENFELTER**  
PERFORMANCE ENGINEERING

## Lingenfelter Stage 1 Z06 LT4 720 HP Upgrade Kit

*The Lingenfelter Stage 1 Kit produces 720 HP and 730 LB-FT of torque at the flywheel.*

The LPE Stage 1 Z06 kit includes virtually all of the required parts other than the engine calibration.

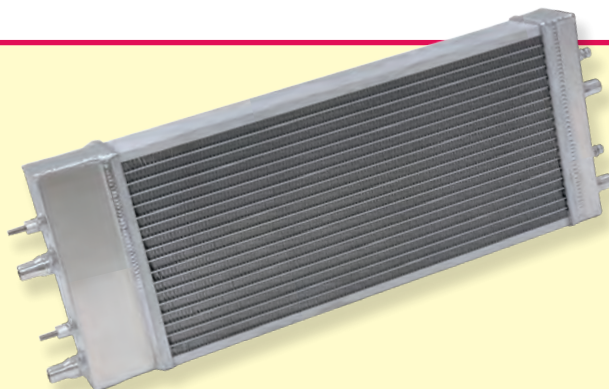

Including:

- Lingenfelter/ATI LT1/LT4 Dry Sump Torsional Vibration Damper
- Lingenfelter 9.2" 15% Overdrive Supercharger Drive Damper Pulley
- Pulley Fasteners
- Supercharger Belt
- 100mm Idler Kit
- Low Restriction Air Filter
- Crankshaft Bolt
- Diagnostic Port (DLC) Cover Kit
- Installation Instructions

*Engine Dyno Testing Results:*

- 720 HP at 6100 RPM
- 730 LBS-FT at 750 RPM
- 13 psi Boost Increase of Roughly 2.5 psi

307001 (ND) ..... 1265.90

## Z06 Air Intake Heat Exchanger

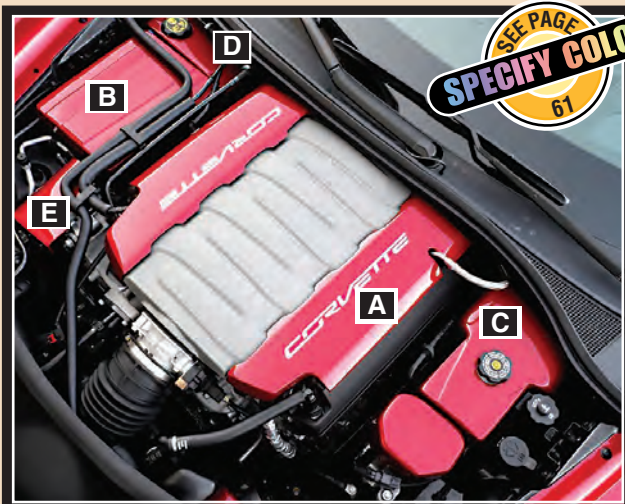

Designed to hold more fluid, allows Supercharger to cool down faster.

307026..... 869.95

## Engine Cover Kit

\* Specify paint color and trim letters color for fuel rail covers. Also Available in Carbon Fiber Look.

Painted engine kit includes the following pieces:

- Fuel Rail Covers
- Alternator Cover
- One Piece Brake Reservoir/Brake Booster Cover
- Brake Control Cover
- Fuse Box Cover
- Surge Tank Cover
- ECM Control Cover

Fiberglass covers attach with supplied Velcro for easy access during cleaning. Installation takes less than two minutes per piece.

Premium covers are made from hand laid fiberglass and fit perfectly around your stock reservoir tank and booster.

## Painted Inner Fender Covers

If you pop open your hood and notice that your C7 just looks a little "off", it's most likely the inner fender covers that are black...not painted to match the rest of your fenders. We've come up with a solution. These inner fender covers are a direct replacement of your factory covers. Simply pull them off and install these in their place. Installation takes 2 minutes.

## Exhaust

**BORLA**  
EXHAUST

**Borla Exhaust  
X-pipe 2.75"**

327029 (ND) ..... 399.99

BORLA has developed a revolutionary new exhaust design that enables them to deliver unprecedented control over the acoustical note of an exhaust system throughout the entire RPM range, while retaining 100% of the power-adding capabilities of BORLA's patented muffler design.

ATAK (Acoustically-Tuned Applied Kinetics) is a new technology that produces the highest available dB (decibel) levels in the BORLA street-legal lineup, and is designed for high-performance purists who prefer exhaust notes over their stereos. With ATAK you get the best of both worlds - race proven technology from Borla's line of XR-1 mufflers PLUS a distinct muscle-car roar that was built specifically for the C7 Corvette. At cruise the interior sound is not overpowering - yet when driving the sound connects you to your Corvette helping you know exactly where you are in the RPM range - talk about Corvette performance at a very high level! In addition - Borla's new exhaust design eliminates the unwanted drone associated with performance systems providing a very comfortable sound when cruising.

Like all BORLA exhaust products, each system is handmade in the USA by master craftspeople and features premium 300-Series high-quality authentic stainless steel construction, ultra-smooth mandrel bent piping, mirror-polished tips, and a Million-Mile Warranty.

Features quad 4-1/4" round mirror polished angle cut inner cooled exhaust tips.

Hear the difference between Borla's Touring, S-Type, and ATAK Corvette exhaust systems on our WEBSITE, and find out why this may be the best designed exhaust system for your Corvette.

Borla's C7 Corvette rear section exhaust systems are covered under our Million-Mile Warranty for non-moving parts. The exhaust valves are warranted for 3-years.

- 3" 18-gauge 304 stainless steel material maximizing strength and durability
- All hardware included for a quick and easy installation

327233 Z06 ..... 1383.95

## Go Xtreme With Your C7 Exhaust

- Patented RSC Technology For No Interior Drone
- 100% Stainless Steel Construction-Lifetime Warranty

CORSA Performance has done it again. They've taken their popular C7 Sport Exhaust and kicked it up a notch with the all new CORSA Xtreme. Always loved CORSA quality and craftsmanship, but wanted even more attitude and sound? Then this is your exhaust. Deeper tone at idle, yet louder outside under throttle, this system delivers their most aggressive sound yet, while still controlling the interior sound level. Unlike the competition, there is no cheap packing material to wear down and cause the system to get louder with age.

- Exclusive RSC Technology For No Drone
- Valve Open vs. Closed; provides over 17 db (decibel) difference
- SPORT SOUND LEVEL**
  - + 3 Horsepower +16.9% Flow increase over stock - 2 lbs.
  - Weight savings compared to stock
- XTREME SOUND LEVEL**
  - + 4 Horsepower + 23.08% Flow increase over stock - 4 lbs.
  - Weight savings compared to stock
- Direct Bolt-On Installation-No Cutting, No Welding
- 304 Stainless Steel-Lifetime Warranty

CORSA's patented "Reflective Sound Cancellation" technology provides more power and powerful acceleration sound, yet quiet cruise. Sport system provides maximum flow with a more aggressive exhaust note, yet quiet cruise. Eliminate annoying resonance found on some Corvettes with CORSA's new systems specifically built for your Corvette. To maximize your exhaust performance without resonance, order the CORSA Crossover Pipe which cuts back pressure and increases exhaust flow.

## Flowmaster Outlaw Axle-Back Exhaust System

The Flowmaster® Outlaw® Axle-back exhaust system features all stainless steel construction with 3.00-inch mandrel-bent tubing. Specially designed high performance mufflers maintain a pleasant tone inside the car while providing a deep moderate/aggressive performance tone outside the car letting others know you mean business. This system has provisions to retain the factory AFM valves for low throttle cruising. The system is finished off Quad 4.00-inch 304 stainless steel tips giving your C7 the performance look your car deserves and the sound everyone loves to hear.

## American Racing Header Exhaust System

### • C7 and C7 Z06 System

The Mid Length kit allows you to reuse the secondary set of factory cats combined with the Severe Duty 49 State Legal Cats. The objective with this system is to improve performance yet dramatically lower the possibility of an engine light (without a tune).

The kit is a direct bolt-in made entirely in the USA using 304 Stainless Steel throughout. Other features include 3/8" thick laser cut flanges with tig welded and hand ported inlets, merge collectors with scavenger spikes and ball/socket connections for a leak free seal. Expect a quick and easy install with Grade 8 hardware and Flat Out Racing Gaskets.

### Add Some Color!

You can also purchase a Lighting Kit to illuminate the Wind Restrictor. See Our WEBSITE for Details.

## Dirt Away Coupe Hatch Weatherstrip Seal Kit

If you are like most people you get sick and tired of seeing dirt in the trunk area of your brand new C7 Stingray! Now there is a great solution. The Dirt Away Stingray Hatch Protection System. These quality EPDM seals match and feel exactly like the rubber seals that GM included from the factory. These seals are made to go on each side of the hatch area to seal out that mud and dirt! Installation takes only moments with these self sticking weatherstrip seals. Sold as a two-piece package.

NOTE: Fits Coupe Only.

## C7 Carpet Mats

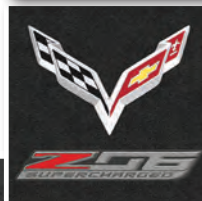

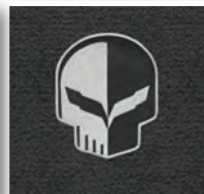

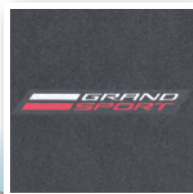

**Lloyd's Ultimat offers a superb combination of luxury and performance...**

- Premium continuous filament yarn
- Face weight of 32-ounce per yard (5/16" pile height) - thicker than OEM
- Two-ply yarn construction creates durability and density by weaving two yarn strands into one tuft
- Computer driven cutting process insures precise fit
- Carpet colors match or compliment OEM interior
- Matching continuous cloth edge binding can't unravel
- Multi-layer backing maintains mat shape and protects OEM carpet
- Water-resistant latex layer protects factory carpeting
- Non-skid rubber TractionBac also provides moisture protection
- Factory-compatible mat fastening (post, hook, snap) where applicable
- Absolutely stays put for optimum safety and durability
- 5-year warranty against defects in design, workmanship and materials

### Seat Belt Stay Retainer

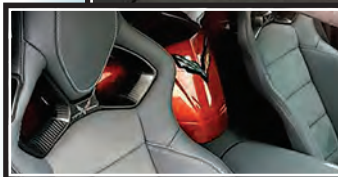

#### • Sold in Pairs; Does Both Seats

As many C7 owners are aware, there is an issue with seatbelts not staying in the seatbelt guide due to a gap in the guide design. Some have taken it upon themselves to use heat shrink tubing to bridge the gap.

The C7 Corvette Seatbelt Stay solves this problem and it does so without looking tacky or cheap. It is easy to install and remove. It will not mar or damage the guide.

487014 Set of 2 ..... 19.95

### Waterfall Extension-Coupe

Are you looking for a way to make your C7 Corvette Stingray really stand apart from the rest? Or maybe you take your C7 Corvette to car shows and need "that little thing that puts your Stingray over the top," then this C7 Corvette Waterfall Extension is the perfect product for you. This fiberglass waterfall extension is made with a functioning door that will open and close with ease and allow you to store your iPhone, wallet, or pens.

NOTE: Because this product is custom made, please allow 3-4 weeks from order date to ship date.

487026 ★Specify Color★ ..... 597.35

### Cargo Organizer/Rear Compartment Tray

- Keep Cargo Organized and Secure
- Friction Fit - In or Out in Seconds
- Sturdy Vac-Formed ABS Construction

If you are tired of items sliding around in your Corvette's rear storage area, our Rear Cargo Area Organizer Tray will keep your cargo secure, yet close at hand. Install in seconds without tools or modifications. This C7 cargo tray measures 48-1/2 inch wide by 12-3/4 inch deep by 2-1/4 inch tall.

- Models: C7 Coupe and Z06 Coupe
- Installation: Bar Attaches to Factory Mounting Points in "B" Pillars

The harness mount bar properly located and supports racing shoulder harnesses relative to the driver. In the case of an accident, it helps protect the driver's shoulders and spine. The harness guides also prevent excessive shifting and fatigue of the driver during the high G loads of cornering and braking. These bars are easy to install and remove, use only existing holes and mounting points.

NOTE: Because of mounting location, the b-pillar plastic sail panel covers will require slots on either side to be cut. Sail panel replacements can be ordered from your GM Dealer, GM#23176135, for passenger side if you do not want to cut the original panels. Strength requirements for harness mounts are considerably greater than those for harness guide bars since they must support the entire load applied to the belts.

## Shifter & Transmission

### B&M Ripper Shifter

- Smoother, more precise shifts
- 33% shift throw reduction
- Spherical pivot bearing
- 6061-T6 Aluminum
- Billet 303 Stainless Steel Sticks
- Easy installation
- No modifications to factory trim needed

536003 (ND)..... 394.95

### Hurst Shifter

- Adjustable, positive gear stops to help prevent internal transmission damage
- Patented (US Patent no. 4,581,951) adjustable-bias spring-load for ease of operation
- Self-centering alignment for improved 2nd and 3rd upshift gear changes
- Threaded handle designed to fit original knob for a stock factory look
- CNC-Machined, 6061-T6 billet aluminum base and top plate
- Reduced shift throw by over 25% (depending on configuration)

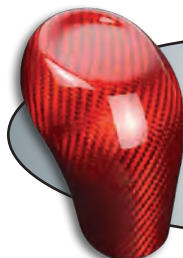

Fits C7 Chevrolet Corvette using a Borg Warner T-56 manual transmission.

536032 (ND)..... 399.95

537063 7 Speed Stock Shifter Knob ..... 109.95 to 179.95

(ND)..... 59.95

## UPGRADE

### CAGS 6-Speed Skip Shift Bypass

The CAGS (Computer Aided Gear Selection) is a built-in system that automatically upshifts from first to fourth gears between 15 and 20 MPH. The CAGS plug kit will disengage the CAGS feature as well as seal the skip shift solenoid and factory connector. The plug prevents contaminants from entering the solenoid and causing a malfunction. No permanent modifications are required to install this product, and you will be able to reconnect the system if so desired. Installation instructions are included. Installation time is less than an hour. Emissions legal in all 50 states.

535057..... 26.25

### Shifter Box Bushings- Manual Transmission

The OEM rubber bushings on the Corvette manual shifter boxes often need replacement after only a few years. The symptom is excessive or sloppy shift lever movement and difficulty in up shift/down shift, excessive vibration or "rattling" of the shift knob.

535109 Set ..... 18.85

537150 14 Automatic Transmission Shifter Cable ..... 89.95

**CC TECH**  
CORVETTE PERFORMANCE, RESTORATION AND REPAIR

tech.corvettecentral.com

### Corvette Heavy Duty Stabilizer/Sway Bar Link Kit

Replace the original weak plastic links on your Corvettes front & rear anti-sway bars with these heavy-duty links. Includes links, bushings and spacers for front and rear anti-sway bars. Use with factory or performance sway bars. For more information, please check out our Tech Blog.

575120 ..... 199.50

### Adjustable Rear Toe Link

- Turnbuckle style link allows for precise, fine-tuning
- Allow for installation with factory toe plates, if preferred
- .875 diameter 6061-T6 billet rods
- Heavy duty 5/8"-18 Teflon lined chrome-moly heim style rod ends
- CNC machined 4130 Carbon Steel tapered pins are black zinc plated
- Dramatically increases vehicle stability at speeds
- Improves handling
- Designed to be a direct bolt in and fit
- Double adjustability means never having to remove the factory shaft eccentrics again
- All necessary hardware is included

These Rear Double Adjustable Toe Links are for all C7 Corvettes, including Grand Sport and Z06's.

If you lower your Corvette, a four wheel alignment is a must. Granatelli Motor Sports has designed these unique double adjustable rear toe links to ensure your rear tires are firmly planted to the pavement and don't wear your thread surfaces unevenly. The factory rear lower toe rods are not adjustable and this is a critical part of improving handling on lowered Corvettes. Adjustable Toe Links also increase the overall vehicle stability under hard acceleration and cornering. These are a must when adding horsepower to any C7 and even on stock vehicles.

## GM LS Rear End Gear Oil

You may hear a clunk and/or clatter type noise from the rear of the vehicle while making turns.

This condition may be caused by slip/stick of the posi-traction clutch plates due to insufficient limited-slip axle additive. As plates slip and stick, a jumping or jerking feel occurs accompanied by a clunk noise. To correct this, drain out old oil, and replace with this GM recommended fluid. 3 quarts required.

## Featherlight Single Adjustable Street/Track Coilover System

- Featherlight coilovers are ride height adjustable, as well as damping adjustable for rebound and compression
- Lightweight, hard anodized 6061-T6 aluminum bodies yield high strength while still maintaining a lightweight design
- Mono-Tube construction utilizes an internal floating piston to separate oil and gas allowing for more predictable handling, and a consistent feel
- BOA (Ball on Axis) front upper mount system is a completely sealed mono-ball design that allows full articulation resulting in a better ride and quiet operation
- CNC machined, hardened, 17-4 PH stainless cross shafts utilize mounts and are retained by a 3/4 inch mono ball and snap rings

PFADT Series, Featherlight Adjustable Coilover System for the C7 Corvette. Designed as a complete solution the Featherlight Coilovers will allow you to remove the transverse leaf springs and OE shocks on your Corvette yielding a true independent suspension which eliminates the "crosstalk" and harsh ride that the OEM suspension is known for.

## Roof Panel Side Rail Weatherstrips

Replace your worn, missing, or damaged weatherstrips. These are an exact reproduction of the C7 removable roof weatherstrip. Seals the front side window to the top. Easy installation.

**637000 Pair .....160.65**

*Corvette Central is a Member of SEMA and ARMO*

## Roof Top Panel Solar Sun Shade

- Static cling
- Cuts sunlight glare
- Attaches in minutes

Take the heat off on bright sunny days with a new C7 Corvette Coupe

**607001** Black, ea ..... 48.20

## Roof Panel Storage Stands

Made from Heavy Duty Polyurethane

**605150** Set of 2 ..... 27.25

## Transparent Acrylic Roof Panel Blackout Headliner

- Designed to block the sun on transparent, tinted roof panels
- Lightweight headliner material to help prevent interior over heating in the summer time
- Headliner adheres with suction cups, for easy installation and removal

Constructed of sturdy panels; covered in headliner style material to maintain a factory appearance.

**NOTE:** This Corvette Headliner Blackout is for acrylic targa tops only. Will not fit fiberglass targa tops.

**607032** ..... 107.10

**606111**

**606106**

## Roof Panel Wall Hanger

**606117**

These racks allow the roof to hang from it's latches eliminating the possibilities of paint and weatherstrip damage caused by lying on the floor or leaning against a wall in your garage. A necessity for every C7 owner.

**606106** ★Specify Color★ ..... 157.45

**606111** ★Specify Color★ ..... 262.45

-01 Black, -02 blue, -03 Red

**606117**

**607031**

## Black Roof Panel Storage Bag/Cover

Handy storage bag for your Corvette. The removable Roof Panel Storage Bag stows your roof panel and helps prevent scratches when it's not in use.

**607031** With C7 Logo (ND) ..... 144.60

**607000** ..... 57.75

## Corvette Lug Nuts with Locking Lug Nut Set

This is a replacement set.

- 645286** Chrome Wheel Lug Nut Set with Locks (20 pcs.)...36.70  
**645257** Black Wheel Lug Nut Set with Locks (20 pcs.).....32.30

## Wheel Aligning Tool

- M12 x 1.5 thread size, 200mm (7.87") long Lug Guide Tool
- Stainless steel
- Easily guide your wheels on and off your C4, C5, C6, or C7 Corvette without damage
- Protects your brake calipers, stud threads, and rotors
- A minimum of two (2) tools are essential, but we recommend three (3)
- Made in the USA

Aligning the holes in the wheel with the threaded holes in the wheel hub while inserting the first lug nut is particularly difficult. Lug Guide Tools are also useful for aligning wheel spacers or routine brake maintenance. Anyone who has ever struggled to mount a spare tire on the side of the road will appreciate this tool. Keep a Lug Guide Tool in your glove compartment or tool box.

**645275** Each ..... 25.75

## Magic Guard Wheel Protection

Magic Guard is a Patented Multi-Use Car Care Product that Protects Corvette Wheels, Prevents Rust and Repels Rain!

- **Wheels:** Protects Chrome, Aluminium, Magnesium and all other wheels from brake dust & road grime.
- **Rust Prevention:** Protects bare, coated and plated metals by creating durable, impenetrable barrier.
- **Glass:** Enhances visibility with water beading technology, prevents water spots

**114517** 4 oz ..... 16.30

**Wheel  
and Tire  
Cleaners -  
See Page

## REBUILD ORDER FORM

It is common for extra parts to be required to complete a rebuild that are not included in the listed rebuild charges. The prices on these extra parts vary. If it is less than \$35.00, you will be billed for the extra parts and the rebuild service will be completed. Please include a current email address and phone number in the event we need to reach you for charges exceeding \$35.00. If you refuse the extra costs, you will be charged \$25.00 for the time the rebuilder spent to disassemble the part and diagnose the problem.

Ship the part via UPS if possible and insure the package in case of damage enroute. Put at least 3" of packing material surrounding the complete part. Write rebuild on the outside of the box. Please include this form filled out with your information. We will contact you for billing info upon receipt.

- FE7** – Z06 Suspension Z07

## Exhaust

- Base** – Aluminized stainless steel with 3" polished tips.
- NPP** – Dual Mode performance, Increases HP by 5, Aggressive exhaust sound with 4" polished stainless tips. "Its got the vacuum flapper on one muffler outlet".

## Our primary product is your satisfaction

Customer satisfaction has always been one of our main objectives.

We aren't talking about a no hassle return policy here – everyone offers that. We are talking about remedies for products that don't seem to fit or work right.

At our end, we have over 45 years experience in the manufacturing and sales of Corvette parts.

This unparalleled background assures Corvette Central customers that the products they purchase are the best available, and if a problem should arise, we know how to help.

Product assistance hours: Monday thru Friday, 9:00 to 5:00.

When looking for product assistance, there are a couple of things to keep in mind.

First of all, it is very difficult to help customers with indepth technical problems if they aren't well informed. Please review your service and assembly manuals before you call --- this will make solving the problem much easier.

Last but not least, whether you are doing the work or having it done . . . be sure to call us at the first sign of trouble. It's very hard to resolve a problem after the part in question has been damaged, no matter who's at fault. Let's be fair, everyone makes mistakes. The important thing is working together to resolve them.

Owning your Corvette can be a very rewarding experience. We also understand how frustrating it can be when things aren't going smoothly and there's no one to assist you. We are here to help.
